Manifesta 10 Kasper König. 2014 Published on the occasion of Manifesta 10, the European Biennial of Contemporary Art in St. Petersburg, Russia, this illustrated volume collects artworks, concepts, and essays that invite the reader to explore the possibilities of contemporary art in deeply historical settings. For the first time, Manifesta is hosted by a museum, uniting the State Heritage Museum's 250th anniversary and Manifesta's twentieth anniversary as a nomadic biennial. This book, which is structured like a classic catalogue, reflects the intuitive and playful nature of Kasper König's exhibition. Contemporary art stands alongside the historical and cultural heritage of the Hermitage, and many projects create a unique homage to it and to the city of St. Petersburg. New works claim their place in ways that are often subtle and surprising, inviting viewers and readers to grapple with the endless ways in which contemporary art questions, complements, or even dovetails with tradition.

A Christmas Carol Charles Dickens. 2015-09-15 From the bustling, snowy streets of 19th-century London to the ghostly apparitions of Christmases past and future, award-winning artist Roberto Innocenti vividly renders not only the authentic detail but also the emotional impact of Charles Dickens's beloved Christmas tale. In both crowded urban scenes and intimate portraits of familiar characters, we gain a sense of the timeless humanity of the tale and perhaps catch a glimpse of ourselves.

New Horizons in Spanish Colonial Law Thomas Duve, Heikki Pihlajamäki. 2015-12-01 <http://dx.doi.org/10.12946/gplh3> <http://www.epubli.de/shop/buch/48746> Spanish colonial law, *derecho indiano*, has since the early 20th century been a vigorous subdiscipline of legal history. One of great figures in the field, the Argentinian legal historian Víctor Tau Anzoátegui, published in 1997 his *Nuevos horizontes en el estudio histórico del derecho indiano*. The book, in which Tau addressed seminal methodological questions setting tone for the discipline's future orientation, proved to be the starting point for an important renewal of the discipline. Tau drew on the writings of legal historians, such as Paolo Grossi, Antonio Manuel Hespanha, and Bartolomé Clavero. Tau emphasized the development of legal history in connection to what he called "the posture superseding rational and statutory state law." The following features of normativity were now in need of increasing scholarly attention: the autonomy of different levels of social organization, the different modes of normative creativity, the many different notions of law and justice, the position of the jurist as an artifact of law, and the casuistic character of the legal decisions. Moreover, Tau highlighted certain areas of Spanish colonial law that he thought deserved more attention than they had hitherto received. One of these was the history of the learned jurist: the *letrado* was to be seen in his social, political, economic, and bureaucratic context. The Argentinian legal historian called for more scholarly works on book history, and he thought that provincial and local histories of Spanish colonial law had been studied too little. Within the field of historical science as a whole, these ideas may not have been revolutionary, but they contributed in an important way to bringing the study of Spanish colonial law up-to-date. It is beyond doubt that Tau's programmatic visions have been largely fulfilled in the past two decades. Equally manifest is, however, that new challenges to legal history and Spanish colonial law have emerged. The challenges of globalization are felt both in the historical and legal sciences, and not the least in the field of legal history. They have also brought major topics (back) on to the scene, such as the importance of religious normativity within the normative setting of societies. These challenges have made scholars aware of the necessity to reconstruct the circulation of ideas, juridical practices, and researchers are becoming more attentive to the intense cultural translation involved in the movement of legal ideas and institutions from one context to another. Not least, the growing consciousness and strong claims to reconsider colonial history from the premises of postcolonial scholarship expose the discipline to an unseen necessity of reconsidering its very foundational concepts. What concept of law do we need for our historical studies when considering multi-normative settings? How do we define the spatial dimension of our work? How do we analyze the entanglements in legal history? Until recently, Spanish colonial law attracted little interest from non-Hispanic scholars, and its results were not seen within a larger global context. In this respect, Spanish colonial law was hardly different from research done on legal history of the European continent or common law. Spanish colonial law has, however, recently become a topic of interest beyond the Hispanic world. The field is now increasingly seen in the context of "global legal history," while the old and the new research results are often put into a comparative context of both European law of the early Modern Period and other colonial legal orders. In this volume, scholars from different parts of the Western world approach Spanish colonial law from the new perspectives of contemporary legal historical research.

Saving The Daylight David S. Prerau. 2014-03-06 Benjamin Franklin conceived it. Sir Arthur Conan Doyle endorsed it. Winston Churchill campaigned for it. Kaiser Wilhelm first employed it. Woodrow Wilson and Franklin Roosevelt went to war with it. Every spring the clocks go forward, and every autumn they go back. *Saving the Daylight* explores for the first time the contentious, and often entertaining, story of this deceptively simple attempt to regulate the sunlight hours. Throughout its surprisingly controversial history, *Daylight Saving Time* has been claimed to have influenced a wide variety of areas, including agricultural practices, the reporting of sports scores, street crime, voter turnout and many other, sometimes unexpected aspects of daily life. The book brings together the historical, political and technical aspects of the fascinating story behind the movement for DST, with many light and offbeat anecdotes.

Red Love Maxim Leo. 2013-09-12 Winner of the European Book Prize *The East isn't far away at all. It clings to me, it goes with me everywhere. It's like a big family that you can't shake off ... Tender, acute and utterly absorbing* Anna Funder, author of *Stasiland* A wry and unheroic witness... an unofficial history of a country that no longer exists Julian Barnes *Growing up in East Berlin*, Maxim Leo knew not to ask questions. All he knew was that his rebellious parents, Wolf and Anne, with their dyed hair, leather jackets and insistence he call them by their first names, were a bit embarrassing. That there were some places you couldn't play; certain things you didn't say. Now, married with two children and the Wall a distant memory, Maxim decides to find the answers to the questions he couldn't ask. Why did his parents, once passionately in love, grow apart? Why did his father become so angry, and his mother quit her career in journalism? And why did his grandfather Gerhard, the Socialist war hero, turn into a stranger? The story he unearths is, like his country's past, one of hopes, lies, cruelties, betrayals but also love. In *Red Love* he captures, with warmth and unflinching honesty, why so many dreamed the GDR would be a new world and why, in the end, it fell apart. Tender, acute and

utterly absorbing. In fine portraits of his family members Leo takes us through three generations of his family, showing how they adopt, reject and survive the fierce, uplifting and ultimately catastrophic ideologies of 20th-century Europe. We are taken on an intimate journey from the exhilaration and extreme courage of the French Resistance to the uncomfortable moral accommodations of passive resistance in the GDR. He describes these 'ordinary lies' and contradictions, and the way human beings have to negotiate their way through them, with great clarity, humour and truthfulness, for which the jury of the European Book Prize is delighted to honour Red Love . His personal memoir serves as an unofficial history of a country that no longer exists... He is a wry and unheroic witness to the distorting impact - sometimes frightening, sometimes merely absurd - that ideology has upon the daily life of the individual: citizens only allowed to dance in couples, journalists unable to mention car tyres or washing machines for reasons of state. Julian Barnes, European Book Prize With wonderful insight Leo shows how the human need to believe and to belong to a cause greater than ourselves can inspire a person to acts of heroism, but can then ossify into loyalty to a cause that long ago betrayed its people. Anna Funder, author of Stasiland Heartbreaking... This very personal account allows us to better understand the reality of a kafkaesque regime, and the blindness of its elite that allowed it to survive for so long. La Tribune The great charm of this book, about the gradual disintegration of the GDR, lies in the level-headed but loving attitude with which it investigates the interweaving of the private and political [in Communist East Germany], revisiting a child's-eye view of the era. Frankfurter Allgemeine Zeitung A crucial book ... poignant ... a tragedy reminiscent of the great narrative poets, Dostoevsky or Koestler. Maxim Leo has earned his place alongside them. Sud Ouest A lyrical story about a family in a divided city Hamburger Abendblatt Maxim Leo was born in 1970 in East Berlin. He studied Political Science at the Free University in Berlin and at the Institut d'Etudes Politiques de Paris. Since 1997 he is Editor of the Berliner Zeitung . In 2002 he was nominated for the Egon-Erwin-Kisch Prize, and in the same year won the German-French Journalism Prize. He won the Theodor Wolff Prize in 2006. He lives in Berlin.

Crossing Map Liliane Lijn.1983 Overcoming gravity by sheer power of imagination, a woman artist takes off on a voyage of exploration. She questions the meaning of time, enters the web of her memory, and passing beyond the now, lands in a world bearing no trace of man's presence. There she meets the Last Man and through telepathic communion, she is witness to the death of her society and the dematerialization of man.

World Light Halldor Laxness.2007-12-18 A magnificently humane novel from the acclaimed Icelandic Nobel Prize winner: as an unloved foster child on a farm in rural Iceland, Olaf Karason has only one consolation, the belief that one day he will be a great poet. The indifference and contempt of most of the people around him only reinforces his sense of destiny, for in Iceland poets are as likely to be scorned as they are to be revered. Over the ensuing years, Olaf comes to lead the paradigmatic poet's life of poverty, loneliness, ruinous love affairs and sexual scandal. But he will never attain anything like greatness. As imagined by Nobel Prize winner Halldor Laxness in this extraordinary novel, what might be cruel farce achieves pathos and genuine exaltation. For as Olaf's ambition drives him onward—and into the orbits of an unstable spiritualist, a shady entrepreneur, and several susceptible women—World Light demonstrates how the creative spirit can survive in even the most crushing environment and even the most unpromising human vessel.

Beutel, Richard Leschen.2011-12-22 This book is the first of four volumes in the Handbook of Zoology series which treat the systematics and biology of Coleoptera. With approximately 350,000 described species, Coleoptera are by far the most species-rich order of insects and the largest group of animals of comparable geological age. The beetle volumes will meet the demand of modern biologists seeking to answer questions about Coleoptera phylogeny, evolution, and ecology. This first Coleoptera volume covers the suborders Archostemata, Myxophaga and Adephaga, and the basal series of Polyphaga, with information on world distribution, biology, morphology of all life stages (including anatomy), phylogeny and comments on taxonomy.

Cicero: Catilinarians Marcus Tullius Cicero.2008-04-10 As consul in 63 BC Cicero faced a conspiracy to overthrow the Roman state launched by the frustrated consular candidate Lucius Sergius Catilina. Cicero's handling of this crisis would shape foreverafter the way he defined himself and his statesmanship. The four speeches he delivered during the crisis show him at the height of his oratorical powers and political influence. Divided between deliberative speeches given in the senate (1 and 4) and informational speeches delivered before the general public (2 and 3), the Catilinarians illustrate Cicero's adroit handling of several distinct types of rhetoric. Beginning in antiquity, this corpus served as a basic text for generations of students but fell into neglect during the past half-century. This edition, which is aimed primarily at advanced undergraduates and graduate students, takes account of recently discovered papyrus evidence, recent studies of Cicero's language, style and rhetorical techniques, and the relevant historical background.

The End of Eddy Édouard Louis.2017-05-02 An autobiographical novel about growing up gay in a working-class town in Picardy. "Every morning in the bathroom I would repeat the same phrase to myself over and over again . . . Today I'm really gonna be a tough guy." Growing up in a poor village in northern France, all Eddy Bellegueule wanted was to be a man in the eyes of his family and neighbors. But from childhood, he was different—"girlish," intellectually precocious, and attracted to other men. Already translated into twenty languages, The End of Eddy captures the violence and desperation of life in a French factory town. It is also a sensitive, universal portrait of boyhood and sexual awakening. Like Karl Ove Knausgaard or Edmund White, Édouard Louis writes from his own undisguised experience, but he writes with an openness and a compassionate intelligence that are all his own. The result—a critical and popular triumph—has made him the most celebrated French writer of his generation.

The Three Dimensions of Freedom Billy Bragg.2019-04-30 At a time when opinion trumps facts and truth is treated as nothing more than another perspective, free speech has become a battleground. While authoritarians and algorithms threaten democracy, we argue over who has the right to speak. To protect ourselves from encroaching tyranny, we must look beyond this one-dimensional notion of what it means to be free and, by reconnecting liberty to equality and accountability, restore the individual agency engendered by the three dimensions of freedom.

Spring Forward Michael Downing.2009-02-17 Michael Downing is obsessed with Daylight Saving, the loopy idea that became the most persistent political controversy in American history. Almost one hundred years after Congressmen and lawmakers in every state first debated, ridiculed, and then passionately embraced the possibility of saving an hour of daylight, no one can say for sure why we are required by law to change our clocks twice a year. Who first proposed the scheme? The most authoritative sources agree it was a Pittsburgh industrialist, Woodrow Wilson, a man on a horse in London, a Manhattan socialite, Benjamin Franklin, one of the Caesars, or the anonymous makers of ancient Chinese and Japanese water clocks. Spring Forward is a portrait of public policy in the 20th century, a perennially boiling cauldron of unsubstantiated science, profiteering masked as piety, and mysteriously shifting time-zone boundaries. It is a true-to-life social comedy with Congress in the leading role, surrounded by a supporting cast of opportunistic ministers, movie moguls, stockbrokers, labor leaders, sports fanatics, and railroad execs.

Achtung-Panzer! Heinz Guderian.1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
