(Re)Creating Language Identities in Animated Films Vincenza Minutella.2020-11-02 This book describes the dubbing process of English-language animated films produced by US companies in the 21st century, exploring how linguistic variation and multilingualism are used to create characters and identities and examining how Italian dubbing professionals deal with this linguistic characterisation. The analysis carried out relies on a diverse range of research tools: text analysis, corpus study and personal communications with dubbing practitioners. The book describes the dubbing workflow and dubbing strategies in Italy and seeks to identify recurrent patterns and therefore norms, as well as stereotypes or creativity in the way multilingualism and linguistic variation are tackled. It will be of interest to students and scholars of translation, linguistic variation, film and media.

Chains Laurie Halse Anderson.2010-01-05 If an entire nation could seek its freedom, why not a girl? As the Revolutionary War begins, thirteen-year-old Isabel wages her own fight...for freedom. Promised freedom upon the death of their owner, she and her sister, Ruth, in a cruel twist of fate become the property of a malicious New York City couple, the Locktons, who have no sympathy for the American Revolution and even less for Ruth and Isabel. When Isabel meets Curzon, a slave with ties to the Patriots, he encourages her to spy on her owners, who know details of British plans for invasion. She is reluctant at first, but when the unthinkable happens to Ruth, Isabel realizes her loyalty is available to the bidder who can provide her with freedom. From acclaimed author Laurie Halse Anderson comes this compelling, impeccably researched novel that shows the lengths we can go to cast off our chains, both physical and spiritual.

Translating Style Tim Parks.2014-06-03 Arising from a dissatisfaction with blandly general or abstrusely theoretical approaches to translation, this book sets out to show, through detailed and lively analysis, what it really means to translate literary style. Combining linguistic and lit crit approaches, it proceeds through a series of interconnected chapters to analyse translations of the works of D.H. Lawrence, Virginia Woolf, James Joyce, Samuel Beckett, Henry Green and Barbara Pym. Each chapter thus becomes an illuminating critical essay on the author concerned, showing how divergences between original and translation tend to be of a different kind for each author depending on the nature of his or her inspiration. This new and thoroughly revised edition introduces a system of 'back translation' that now makes Tim Parks' highly-praised book reader friendly even for those with little or no Italian. An entirely new final chapter considers the profound effects that globalization and the search for an immediate international readership is having on both literary translation and literature itself.

The Bedroom Attilio Bertolucci.2012 Poetry. Bilingual Editon. Translated from the Italian by Luigi Bonaffini. THE BEDROOM [La camera da letto] is Bertolucci's best-known work, so popular that the poet once read it to television viewers on a seven-hour program. It is a narrative poem that traces the history of the poet's family across seven generations with directness, precision and attention to everyday details, major events and fantastic surprises. Paolo Lagazzi writes in his introduction: THE BEDROOM is a sort of a multi-novel, or a distillation of very diverse narrative forms and intuitions: a Bildungsroman and fairytale, an epoch novel, a novel-chronicle, a dramatic novel and a picaresque novel. An experimental work in the most authentic sense of the word... Nothing of time's essence escapes or is neglected by the author's ravenous sensibility, no less active in recording the multiple places in which existence rests (the city and the countryside, the sea and the plane, the Po river and the Maremma) in an exuberant display of forms, lights, perspectives, tonalities.—Luigi Ferrara

Achtung-Panzer! Heinz Guderian.1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Using Italian J. J. Kinder,V. M. Savini.2004-07 This 2002 book is a guide to Italian usage for students who have already acquired the basics of the language and wish to extend their knowledge. Unlike conventional grammars, it gives special attention to those areas of vocabulary and grammar which cause most difficulty to English-speakers. Careful consideration is given throughout to questions of style, register, and politeness which are essential to achieving an appropriate level of formality or informality in writing and speech. It surveys the contemporary linguistic scene in Italy and gives ample space to the new varieties of Italian that are emerging in modern Italy. The influence of the dialects in shaping the development of Italian is also acknowledged. Clear, readable and easy to consult via its two indexes, this is an essential reference for learners seeking access to the finer nuances of the Italian language.

Cultures of Taste/Theories of Appetite: Eating Romanticism T. Morton.2004-01-16 Cultures of Taste/Theories of Appetite brings two major critical impulses within the field of Romanticism to bear upon an important and growing field of research: appetite and its related discourses of taste and consumption. As consumption, in all its metaphorical variety, comes to displace the body as a theoretical site for challenging the distinction between inside and outside, food itself has attracted attention as a device to interrogate the rhetoric and politics of Romanticism. In brief, the volume initiates a dialogue between the cultural politics of food and eating, and the philosophical implications of ingestion, digestion and excretion.

Cooking Hervé This,Pierre Gagnaire.2008-10-01 From its intriguing opening question—How can we reasonably judge a meal?—to its rewarding conclusion, this beautiful book picks up where Brillat-Savarin left off almost two centuries ago. Hervé This, a cofounder (with the late physicist Nicholas Kurti) of the new approach to studying the scientific basis of cooking known as molecular gastronomy, investigates the question of culinary beauty in a series of playful, lively, and erudite dialogues. Considering the place of cuisine in Western culture, This explores an astonishing variety of topics and elaborates a revolutionary method for judging the art of cooking. Many of the ideas he introduces in this culinary romance are illustrated by dishes created by Pierre Gagnaire, whose engaging commentaries provide rare insights into the creative inspiration of one of the world's foremost chefs. The result is an enthralling, sophisticated, freewheeling dinner party of a book that also makes a powerful case for openness and change in the way we think about food.
