*The One Minute Manager Builds High Performing Teams* Ken Blanchard,Eunice Parisi-Carew,Donald Carew.2009-03-24 Newly updated and backed by decades of research, this classic guide will equip leaders and team members alike to unleash the power of teamwork. Never before in the history of the workplace has the concept of teamwork been more important to the functioning of successful organizations. Ken Blanchard, bestselling coauthor of *Raving Fans*, *The One Minute Manager*® and *Gung Ho!*, teams up with Donald Carew and Eunice Parisi-Carew to explain how all groups move through four stages of development on their way to becoming high performing teams—orientation, dissatisfaction, integration and production. The authors then show how a manager can help any group become effective quickly and with a minimum of stress.

Accountability in Extraterritoriality Danielle Ireland-Piper.2017-02-24 Nation states are increasingly asserting jurisdiction over criminal offenses that occur extraterritorially. In some instances, this can cause political tension and legal uncertainty, as the principles of jurisdiction under international law do not adequately resolve competing claims. In that context, this book considers principles of jurisdiction and mechanisms by which to achieve jurisdictional restraint under international law, including the possibilities presented by the abuse of rights doctrine.

*Risk and EU Law* Hans-W. Micklitz,Takis Tridimas.2015 Risk and EU Law considers the multiple reasons for the increase in the types and diversity of risks, as well as the potential magnitude of their undesirable effects. The book identifies such reasons as; the openness of liberal societies; market competition; the constant endeavour to innovate; as well as globalization and the impact of new technologies. It also explores topics surrounding the social epistemology of risk observation and management, the role of science in political and judicial decision-making and transnational risk regulation and contractual governance.

**Prosecuting International Crimes** Robert Cryer.2005-06-30 This 2005 book discusses the legitimacy of the international criminal law regime. It explains the development of the system of international criminal law enforcement in historical context, from antiquity through the Nuremberg and Tokyo Trials, to modern-day prosecutions of atrocities in the former Yugoslavia, Rwanda and Sierra Leone. The modern regime of prosecution of international crimes is evaluated with regard to international relations theory. The book then subjects that regime to critique on the basis of legitimacy and the rule of law, in particular selective enforcement, not only in relation to who is prosecuted, but also the definitions of crimes and principles of liability used when people are prosecuted. It concludes that although selective enforcement is not as powerful as a critique of international criminal law as it was previously, the creation of the International Criminal Court may also have narrowed the substantive rules of international criminal law.

**Preventing Corporate Corruption** Stefano Manacorda,Francesco Centonze,Gabrio Forti.2014-04-28 This book presents the results of a two-year international research project conducted for the United Nations Office on Drugs and Crime (UNDOC) to investigate and provide solutions for reducing bribery and corruption in corporations and institutions. It starts with an empirical case study on the effectiveness of a set of self-regulation rules adopted by multinational companies in the energy sector. Second, it explores the context and factors leading to corruption internationally (and the relationships between domestic criminal law and self-regulation). Third, it examines guidelines for the adoption of compliance programs developed by international institutions, to serve as models for the future. The principle result of the book is a three-pronged Anti-Bribery Corruption Model (so called ABC Model), endorsed by the United Nations, intended as a corruption prevention tool intended to be adopted by private corporations. This work provides a common, research-based standard for anti-bribery compliance programs, with international applications. This work will be of interest to researchers studying Criminology and Criminal Justice, particularly in the areas of organized crime and corruption, as well as related areas like Business Ethics and Comparative International Law.

**Judicial Activism at the European Court of Justice** Bruno de Witte,Elise Muir,Mark Dawson.2013-01-01 ÔThis well-constructed, and well-written, collection fills a gap in the scholarship. It offers a rounded and plausible picture of the CourtÕs role in Europe, engaging with the complexity of the law without losing sight of the bigger political picture. Well-contextualised, critical, but nuanced, discussions of the role of rights, economics, science, and institutions, and of the important particularities of EU adjudication, will make this volume unmissable for those interested in the political role of the Court of Justice of the EU. ð Gareth Davies, VU University of Amsterdam, The Netherlands This book delves into the rationale, components of, and responses to accusations of judicial activism at the European Court of Justice. Detailed chapters from academics, practitioners and stakeholders bring diverse perspectives on a range of factors ð from access rules to institutional design and to substantive functions ð influencing the European CourtÕs political role. Each of the contributing authors invites the reader to approach the debate on the role of the Court in terms of a constantly evolving set of interactions between the EU judiciary, the European and national political spheres, as well as a multitude of other actors vested in competing legitimacy claims. The book questions the political role of the Court as much as it stresses the opportunities ð and corresponding responsibilities ð that the CourtÕs case law offers to independent observers, political institutions and civil society organisations. Judicial Activism at the European Court of Justice will appeal to researchers and graduate students as well as to EU and national officials.

**Regulatory Competition in Company Law in the European Community** Stefano Lombardo.2002 The work challenges the commonly accepted idea that the European single market needs a harmonized company law as a precondition for its correct functioning, on the basis of a law and economics comparison with the American situation. The study critically analyzes the two major reasons advanced to justify harmonization - the race to the bottom argument and the standardization argument - on the basis of the regulatory competition paradigm and concludes that they are basically wrong. Instead of pursuing harmonization of substantive company law, the proposal is to adjust conflict of law rules in favor of the incorporation theory as ruled by the European Court of Justice in its important Centros-decision of March 1999. Companies should be granted freedom of establishment and free movement among jurisdictions in the European Union.

Introduction to Company Law Paul Davies.2010-09-23 Written by one of the foremost experts in the area, Paul Davies' Introduction to Company Law

provides a comprehensive conceptual introduction, giving readers a clear framework with which to navigate the intricacies of company law. The five core features of company law - separate legal personality, limited liability, centralized management, shareholder control, and transferability of shares - are clearly laid out and examined, then these features are used to provide an organisation structure for the conduct of business. It also discusses legal strategies that can be used to deal with arising problems, the regulation of relationships between the parties, and the trade-offs that have been made in British company law to address some of the conflicting issues that have arisen. Fully revised to take into account the Companies Act 2006, and including a new chapter on international law which considers the role of European Community Law, this new edition in the renowned Clarendon Law Series offers a concise and stimulating introduction to company law.

**Murder on the Iditarod Trail** Sue Henry.2015-06-09 “Adrenaline-pumping . . . [A] polished action mystery . . . [with] dazzling Arctic sights.” —Marilyn Stasio, The New York Times Book Review Winner of the Macavity Award and the Anthony Award Murder on the Iditarod Trail is a gripping mystery set during Alaska’s world-famous Iditarod: a grueling eleven-hundred-mile dogsled race across hazardous Arctic terrain. It is an arduous sport, but not a deadly one. But suddenly the top Iditarod contestants are dying in bizarre ways: first a veteran musher smashes into a tree, then competitors begin turning up dead, with each murder more brutal than the last. State trooper Alex Jensen begins a homicide investigation, determined to track down the killer before more blood stains the pristine Alaskan snow. Meanwhile, Jessie Arnold, Alaska’s premier female musher, has a shot at winning for the first time. But as her position in the race improves, so do her chances of being the killer’s next target. As the mushers thread their way through the treacherous trails, Jessie and Jensen are drawn deep into the frozen heart of the perilous wild: where nature can kill as easily as a bullet and only the Arctic night can hear your final screams. “Engrossing . . . The howling winds, the snow, the ice, the dancing away from wolves, the crazing fatigue, the welcome heat and food, are almost palpable.” —Los Angeles Times Book Review “Excellent . . . well-paced, well-conceived, engrossing . . . moves along like a healthy, well-trained dog team.” —The Anchorage Times “A book that will give you a feel for how the Iditarod is . . . **EU Language Law** Stefaan Van der Jeught.2015 EU Language Law gives a comprehensive account of all language regulations and arrangements which currently exist in EU law. First and foremost, the book covers the various explicit and implicit language regimes of EU institutions, bodies, and agencies, explaining how and why they came about. It explores numerous other EU language provisions in the area of freedom, security, and justice, relating to quite diverse topics, such as road traffic offenses, recognition of national court decisions, the European Arrest Warrant, and crime victims. It also discusses EU linguistic provisions in the internal market regarding product labeling or the language proficiency assessment of professionals, such as medical doctors or lawyers seeking to provide services in other EU Member States. Many other issues, such as language testing for newcomers in society and language proficiency requirements for employment, are investigated. The book highlights an often neglected yet tremendously important aspect of EU integration: the language issue. \*\*\* Librarians: ebook available on ProQuest and EBSCO [Subject: European Law]

**Comparative Legal Studies: Traditions and Transitions** Pierre Legrand, Roderick Munday. 2003-08-14 The 14 essays that make up this 2003 volume are written by leading international scholars to provide an authoritative survey of the state of comparative legal studies. Representing such varied disciplines as the law, political science, sociology, history and anthropology, the contributors review the intellectual traditions that have evolved within the discipline of comparative legal studies, explore the strengths and failings of the various methodologies that comparatists adopt and, significantly, explore the directions that the subject is likely to take in the future. No previous work had examined so comprehensively the philosophical and methodological foundations of comparative law. This is quite simply a book with which anyone embarking on comparative legal studies will have to engage.

**Corporate Criminal Liability** Mark Pieth, Radha Ivory. 2011-04-20 With industrialization and globalization, corporations acquired the capacity to influence social life for good or for ill. Yet, corporations are not traditional objects of criminal law. Justified by notions of personal moral guilt, criminal norms have been judged inapplicable to fictional persons, who 'think' and 'act' through human beings. The expansion of new corporate criminal liability (CCL) laws since the mid-1990s challenges this assumption. Our volume surveys current practice on CCL in 15 civil and common law jurisdictions, exploring the legal conditions for liability, the principles and options for sanctioning, and the procedures for investigating, charging and trying corporate offenders. It considers whether municipal CCL laws are converging around the notion of 'corporate culture', and, in any case, the implications of CCL for those charged with keeping corporations, and other legal entities, out of trouble.

**Private Company Law Reform** Joseph A. McCahery, Erik P. M. Vermeulen, Levinus Timmerman. 2011-07-13 Private company law reform is among the most important topics for lawmakers and companies. This volume explains in detail the legal reforms taking place in the principal European jurisdictions, the United States and Asia. Bringing together a leading group of company law scholars, the essays examine the factors leading to the rise of the new unincorporated entities in the US and Asia and explains how private company law forms can be suitably adapted to meet a wide range of firms' needs. The contributions also examine the important reforms taking place in private company law across the EU, address how these reforms may lead to a more optimal environment for businesses to operate and analyse the introduction of the European Private Company.

**Toward a New Legal Common Sense** Boaventura de Sousa Santos. 2020-10-01 Paradigmatic transition is the idea that ours is a time of transition between the paradigm of modernity, which seems to have exhausted its regenerating capacities, and another, emergent time, of which so far we have seen only signs. Modernity as an ambitious and revolutionary sociocultural paradigm based on a dynamic tension between social regulation and social emancipation, the prevalent dynamic in the sixteenth century, has by the twenty-first century tilted in favour of regulation, to the detriment of emancipation. The collapse of emancipation into regulation, and hence the impossibility of thinking about social emancipation consistently, symbolizes the exhaustion of the paradigm of modernity. At the same time, it signals the emergence of a new paradigm or new paradigms. This updated 2020 edition is written for students taking law and globalization courses, and political science, philosophy and sociology students doing optional subjects.

**European Comparative Company Law** Mads Andenas, Frank Wooldridge. 2009-07-30 Company law is undergoing fundamental change in Europe. All European countries have undertaken extensive reform of their company legislation. Domestic reform has traditionally been driven by corporate failures or scandals. Initiatives to make corporate governance more effective are a feature of recent European law reform, as are measures to simplify and ease burdens on smaller and medium-sized businesses (SMEs). An increasing EU harmonisation is taking place through the Company

Law Directives, and the free movement of companies is also facilitated by the case law of the European Court of Justice on the directives and the right to free movement and establishment in the EC Treaty. New European corporate forms such as the European Economic Interest Grouping (EEIG) and the European Company (SE) have added new dimensions. At a time of rapid development of EU and national company laws, this book will aid the understanding of an emerging discipline.

**The Challenge of Social Innovation in Urban Revitalization** Paul Drewe, Juan-Luis Klein. 2008 Looks at bottom up initiatives, where residents and local organizations took charge and took risks to improve their living conditions and to build a new future. This book presents case studies of a series of initiatives which have borne fruit over a long period of time.

**L'influence du droit communautaire sur la constitution de groupements** Benoît Lecourt. 2000 Le droit communautaire de la constitution des groupements a profondément bouleversé les législations nationales. La dilution du droit communautaire dans le droit de la constitution des groupements a d'ailleurs été si sensible que la norme européenne, victime de son succès, s'est fait oublier. Le droit communautaire a pourtant exercé une emprise sur des notions fondamentales tels le contrat de société, le contrôle de la régularité de la constitution ou encore le concept de personnalité morale. Des trente années d'influence communautaire sur le droit des sociétés, l'Europe a ainsi donné naissance - que ce soit par la voie de directives ou de règlements - à un corpus de règles constitutives applicable à l'ensemble des groupements. La réglementation communautaire a vocation, en effet, à s'appliquer, non seulement aux sociétés ayant pour objet la recherche et le partage de bénéfices, mais aussi à tout groupement exerçant une activité économique de manière intéressée, comme les associations lucratives ou les groupements de moyens. Par là même, le droit communautaire, en proposant une nouvelle définition de la société, pourrait inspirer les législations nationales dans la recherche d'une classification rationnelle des groupements. En redessinant les contours de la société, le législateur européen l'a toutefois orientée vers une conception institutionnelle qui pourrait restreindre ses possibilités. Il reste, dans ces conditions, à espérer que les auteurs des textes européens prennent, à l'avenir, davantage en considération la renaissance, quasi générale au sein de la Communauté, de la liberté contractuelle et de l'autonomie de la volonté en droit des sociétés.

**The Rise of the Uncorporation** Larry E. Ribstein. 2010 So far the analysis of business associations largely has been limited to corporations. Yet unincorporated firms, including general and limited partnerships and limited liability companies, comprise about a third of the firms in the United States, and even larger percentages elsewhere in the world. The Rise of the Uncorporation covers the history, law, and finance of unincorporated firms. --Book Jacket.

Madrid Agreement Concerning the International Registration of Marks; Protocol Relating to the Madrid Agreement; Regulations; Administrative Instructions. World Intellectual Property Organization. 2019-05-01 The system of international registration of marks is governed by the Madrid Agreement. The Protocol relating to that Agreement aims at rendering the Madrid system more flexible and more compatible with the domestic legislation of certain countries which had not been able to accede to the Agreement.

The European Court of Justice and International Courts Tobias Lock. 2015-10-08 The Court of Justice of the European Union has exclusive jurisdiction over European Union law and holds a broad interpretation of these powers. This, however, may come into conflict with the jurisdiction of other international courts and tribunals, especially in the context of so-called mixed agreements. While the CJEU considers these 'integral parts' of EU law, other international courts will also have jurisdiction in such cases. This book explores the conundrum of shared jurisdiction, analysing the international legal framework for the resolution of such conflicts, and provides a critical and comprehensive analysis of the CJEU's far-reaching

jurisdiction, suggesting solutions to this dilemma. The book also addresses the special relationship between the CJEU and the European Court of Human Rights. The unique interaction between these two bodies raises fundamental substantive concerns about overlaps of jurisdiction and interpretation in the courts. Conflicts of interpretation manage largely to be avoided by frequent cross-referencing, which also allows for much cross-fertilization in the development of European human rights law. The link between these two courts is the subject of the final section of the book.

**Human Rights Law in Europe** Kanstantsin Dzehtsiarou, Theodore Konstadinides, Tobias Lock, Noreen O'Meara.2014-03-21 This book provides analysis and critique of the dual protection of human rights in Europe by assessing the developing legal relationship between the Court of Justice of the European Union (CJEU) and the European Court of Human Rights (ECtHR). The book offers a comprehensive consideration of the institutional framework, adjudicatory approaches, and the protection of material rights within the law of the European Union and the European Convention on Human Rights (ECHR). It particularly explores the involvement and participation of stakeholders in the functioning of the EU and the ECtHR, and asks how well the new legal model of 'the EU under the ECtHR' compares to current EU law, the ECHR and general international law. Including contributions from leading scholars in the field, each chapter sets out specific case-studies that illustrate the tensions and synergies emergent from the EU-ECHR relationship. In so doing, the book highlights the overlap and dialectic between Europe's two primary international courts. The book will be of great interest to students and researchers of European Law and Human Rights.
