Ask a Manager Alison Green.2018-05-01 From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of Broke Millennial: Stop Scraping By and Get Your Financial Life Together

This latest edition has been thoroughly revised and updated and includes both the eighty-four forms in the previous edition plus TWO new ones. One of the new forms, the Household Pest Control Agreement, puts into words what both

landlord and tenant need to understand about their cooperating to deal with household pests, especially bed bugs. The other new form, Automatic Clearing House (ACH) Recurring Payment Authorization, enables tenants to pay their rent through an automated clearing house (ACH), so they needn't bother writing a paper check every time their rent is due. ALSO, new in this 12th edition is a coupon which the first purchaser of the book may use to receive free of charge all of the forms in the back of the book in common computer formats, PLUS a trial version of Pushbutton Landlording(R), the author's stand-alone program for handling the tenant and income sides of rental property management.

Moving towards a new paradigm of collaboration. The influence of current automotive trends on mobility business models and competitive advantage of traditional German OEMs

Lisa Sobotta,Markus Peetz.2015-07-14 Master's Thesis from the year 2015 in the subject Business economics - Miscellaneous, grade: 1,3, University of Southern Denmark (University of Southern Denmark), language: English, abstract: This thesis analyzes and evaluates current macro-environmental trends in the German automotive industry and their evolutionary impact on automotive business models and competitiveness of traditional German car manufacturers. To enhance the understanding of industry evolution and strategic change, the German automotive business is explored through the lens of market innovations. Drawing upon the industry evolution model of Henderson and Clark (1990), the impact of automotive market innovations on strategies of German OEMs with regard to inter-firm collaborations are classified and analyzed. For evaluation of motives and strategic fit in cross-industry collaborations, sources and key success factors of inter-firm competitive advantages are elaborated. Synthesizing and refining among others the theories of

Barney (2007), Dyer & Singh (1999), and Williamson (1993), new resources as derived from inter-organizational relationships are depicted in terms of competitiveness and their relations to German car manufacturers are discussed. Identifying the red oceans and the blue oceans in the German automotive industry according to the business model theory of Kim and Mauborgne (2005), four scenarios for the strategic realignment of German OEMs in response to industry dynamics are formulated. Within this scope, modifications of business model elements are elaborated according to the strategy canvas of Osterwalder et al. (2005) and revisions of existing automotive business models are proposed. Having studied the business model concept as a possible integrator of traditional strategic perspectives on industry evolution and firm performance, the thesis concludes with the insight that in order to capitalize on the emerging automotive trends, German OEMs need to intensify qualitative partnerships as a new source of sustained competitive advantage. Advanced cross-industry collaborations opening up new business opportunities must be addressed by shift of corporate strategy and redefinition of business models for better realignment of firm resources to current industry-transforming parameters thus ensuring long-term profitable growth in an increasingly connected environment.
