Buy today and improve your child's communication skills with this wonderful 200 Fundamental Sight Words Workbook! Certainly, learning to write and read is one of the most important steps when it comes to developing the ability to communicate properly. Writing isn't only about expressing ideas in the text but also about thinking skills. It develops a strong bond between brain and hand and helps with memorizing more words. On the other hand, reading means knowledge and vocabulary expansion, improving focus and concentration. I can't stress enough how important these two abilities are for your kids! This is why you need to know about our book: It includes 200 Sight Words from the well-known Dolch and Fry high-frequency word lists. This workbook comes with visual instructions, sight words, and then sentences so that kids can understand the words contextually and an image to emphasize them. Because we want the children to have a sense of accomplishment as they go through the book we have decided to build it gradually

with instructions at every step. The book begins with a short recapitulation of the alphabet. The kids can trace and practice uppercase and lowercase letters. Then, we move to sight words. Children are asked to recognize the word, read and then trace the sentence, and of course, practice on their own. To help them enjoy the process of learning, we have added images also that can be colored. The goal is for these words to be recognized immediately! Only after this kids can read more fluently and speed up the process of learning a language and that is because they can focus their attention on other words that are more difficult and challenging. It will be much easier to learn more complex words once these essential sight words are mastered. We have divided the book into four sections as follows: PART 1: Writing Uppercase and Lowercase letters PART 2: Writing 1-2 letter words PART 3: Writing 3 letter words PART 4: Writing 4 letter words PART 5: Writing 5-6 letter words This activity book features: - High-quality glossy cover with gorgeous design - Improves your child's motor control - It helps them to focus on details - Teaches the child to read, write and comprehend each sight word - Includes visual instructions - The increasing difficulty, fun, and interesting - 8,5 x 11 book suitable for kids This workbook is part of the Isabela & Buzzy series which is ideal for kids of preschool, kindergarten, and primary school who want to perfect their writing skills. 200 Write-And-Learn Sight Word Practice Pages Scholdeners.2019-09-27 The Most Effective Way to Master the 200 Sight Words Essential to your Child's Reading & Writing Success From the trusted name in children's education worldwide comes the biggest and most comprehensive sight word learning and practice workbook. Once your child has mastered these key words they will: □ Read far more fluently □ Write with greater ease □ Spell with increased accuracy □ Boost reading comprehension □ Accelerate language learning Why Your Child MUST Master Sight Words Sight words are a set of words that constantly appear on almost any page of writing, such as 'who, does, come, we'. They are the building blocks of written language. However, many sight words cannot be 'sounded out' because they do not follow the standard rules of spelling. The child has to memorize sight words as a whole, by sight, so that they recognize them immediately without having to decode the spelling. The problem is that minimal instruction is given by teachers and parents. Often, little more is done than showing the word to the child and telling them what it is. However, for many children, this is not nearly enough. As a result, their reading and comprehension of these crucial words is lacking, which significantly brings down their overall reading ability. Scholdener's Sight Word Workbook is the solution. A Multi-Dimensional Approach Educational research has shown that the best technique for learning sight words is accurate writing and spelling of the word, comprehension of its use in a simple sentence, and a visual representation of the phrase to reinforce how the word is used in context. Scholdener's Sight Word Workbook is the only workbook that uses

this multi-dimensional model for each and every one of its 200 words. This ensures that the child really grasps the sight word, along with its spelling, meaning and usage. In teaching terms, giving your child the opportunity to learn words in proper context is known as 'meaningful reading'. This is an extremely effective tool that has been shown to be far superior for retention than plain memorization or rote learning. Includes Dolche Word List Educator Dr Edward William Dolch developed the 'Dolch Sight Words List' by studying the most frequently occurring words in children's books. These words comprise a staggering 80% of the words you would find in a standard children's book. Once a child knows this list of words, it makes reading much easier. You'll be pleased to know that this workbook incorporates the key Dolch words. Book Details 8.5 x 11 - Large size provides plenty of room for writing inside. 200 sight words - TWICE as many as other workbooks. More than 100 pages of writing exercises.
