**Jardins thérapeutiques et hortithérapie - 2e éd.** Juliette Pellissier.2022-06-15 Les mille et une activités que nous pratiquons en extérieur témoignent de ce que la nature ne cesse de prendre soin de nous. Mais il arrive que cette nature soit parfois inaccessible, précisément quand nous en aurions le plus besoin, parce qu'une maladie, un handicap, ou même le grand âge, nous affaiblit. De plus, il ne suffit pas de disposer d'un jardin ou d'outils : la nature ne prend vraiment bien soin de nous qu'à la condition que nous prenions soin de son potentiel thérapeutique. Ce livre dessine ce double

prendre-soin, à travers les jardins thérapeutiques et les différentes formes d'activités et d'hortithérapies qu'il décrit et aide à construire : il expose les apports de l'écopsychologie et les principes fondamentaux de ces jardins ; il conseille sur les étapes de création, les pratiques d'entretien, les questions d'accessibilité, etc. ; il présente les différentes formes de thérapies avec le jardinage. Un ouvrage indispensable pour que jardins et humains prennent soin les uns des autres.

**Through Vegetal Being** Luce Irigaray,Michael Marder.2016-07-05 Blossoming from a correspondence between Luce Irigaray and Michael Marder, *Through Vegetal Being* is an intense personal, philosophical, and political meditation on the significance of the vegetal for our lives, our ways of thinking, and our relations with human and nonhuman beings. The vegetal world has the potential to rescue our planet and our species and offers us a way to abandon past metaphysics without falling into nihilism. Luce Irigaray has argued in her philosophical work that living and coexisting are deficient unless we recognize sexuate difference as a crucial dimension of our existence. Michael Marder believes the same is true for vegetal difference. Irigaray and Marder consider how plants contribute to human development by sustaining our breathing, nourishing our senses, and keeping our bodies and minds alive. They note the importance of returning to ancient Greek tradition and engaging with Eastern teachings to revive a culture closer to nature. As a result, we can reestablish roots when we are displaced and recover the vital energy we need to improve our sensibility and relation to others. This generative discussion points toward a more universal way of becoming human that is embedded in the vegetal world.

*Girl on a Motorcycle* Amy Novesky.2020-09-08 A picture book biography by an award-winning team

about the first woman to ride a motorcycle around the world One day, a girl gets on her motorcycle and rides away. She wants to wander the world. To go . . . Elsewhere. This is the true story of the first woman to ride a motorcycle around the world alone. Each place has something to teach her. Each place is beautiful. And despite many flat tires and falls, she learns to always get back up and keep riding. Award-winning author Amy Novesky and Governor General's Award-winning illustrator Julie Morstad have teamed up for a spectacular celebration of girl power and resilience.

**Sakuteiki** Jiro Takei, Marc P. Keane.2011-04-11 Learn the art of Japanese gardening with this classic, fascinating text. The Sakuteiki, or Records of Garden Making, was written nearly one thousand years ago. It is the oldest existing text on Japanese gardening—or any kind of gardening—in the world. In this edition of the Sakuteiki the authors provide an English-language translation of this classic work and an introduction to the cultural and historical context that led to the development of Japanese gardening. Central to this explanation is an understanding of the sacred importance of stones in Japanese culture and Japanese garden design. Written by a Japanese court noble during the Heian period (794-1184), the Sakuteiki includes both technical advice on gardening—much of which is still followed in today's Japanese gardens—and an examination of the

four central threads of allegorical meaning, which were integral features of Heian-era garden design. For those seeking inspiration to build a rock garden or just better understand the Japanese stone garden, the Sakuteiki is an enduring classic.

[Moss Ball Bonsai](#) Satoshi Sunamori.2020-03-31 Plant, soil, moss, twine--that's all you need to create the exciting form of bonsai known as koke (moss) dama (ball). Moss Ball Bonsai provides all the information you need to make these self-contained gardens, using different types of plants--from flowering trees and ferns to grasses and cacti. A sampling of 100 different kokedama shows how even the most common of house plants can shine in this appealing no-pot environment, while a section on mosses acquaints you with the many tones and textures of this versatile plant family. With this bonsai guide, you will learn how to: Create and maintain a healthy home for your miniature garden's root system Use inexpensive house plants and cuttings as the basis of your kokedama Make beautiful (and quirky) group plantings within a single project Find, collect and propagate moss And more! Whether resting on a pottery dish or suspended in the air, these little indoor gardens are a wonderful way to add a touch of artistry and greenery to your home or work space.

**Ancient Perspectives on Aristotle's De Anima** Gerd van Riel,Pierre Destrée.2009 Aristotle's

treatise *On the Soul* figures among the most influential texts in the intellectual history of the West. It is the first systematic treatise on the nature and functioning of the human soul, presenting Aristotle's authoritative analyses of, among others, sense perception, imagination, memory, and intellect. The ongoing debates on this difficult work continue the commentary tradition that dates back to antiquity. This volume offers a selection of essays by distinguished scholars, exploring the ancient perspectives on Aristotle's *De anima*, from Aristotle's earliest successors through the Aristotelian Commentators at the end of Antiquity.

**Cloth Lullaby** Amy Novesky.2016-03-01 Award-winning creators, Amy Novesky and Isabelle Arsenault, present a picture book biography of a beloved artist in *Cloth Lullaby: The Woven Life of Louise Bourgeois*. Louise Bourgeois (1911–2010) was a world-renowned modern artist noted for her sculptures made of wood, steel, stone, and cast rubber. Her most famous spider sculpture, *Maman*, stands more than 30 feet high. Just as spiders spin and repair their webs, Louise’s own mother was a weaver of tapestries. Louise spent her childhood in France as an apprentice to her mother before she became a tapestry artist herself. She worked with fabric throughout her career, and this biographical picture book shows how Bourgeois’s childhood experiences weaving with her loving, nurturing mother provided the inspiration for her most famous works. With a beautifully nuanced and poetic story, this book stunningly captures the relationship between mother and daughter and illuminates how memories are woven into us all. “With evocative, gorgeous illustrations and an inspirational story of an artist not often covered in children’s literature, this arresting volume is an excellent addition to nonfiction picture book collections, particularly those lacking titles about women artists.” —Booklist, starred review

**Fine Bonsai** .2012-08-28 In this luxurious cloth bound hardcover with glossy slipcase, renowned botanical photographer Jonathan Singer presents his breathtaking images of the world's most notable bonsai. In *Fine Bonsai: Art & Nature*, the finest extant achievements in the art of bonsai are seen together for the first time, through the lens of renowned botanical photographer Jonathan Singer. This magnificent volume is the result of an extensive photographic campaign, in the course of which Singer was granted unprecedented access to the most respected public and private collections in Japan and the United States, including the mecca of bonsai, the Omiya Bonsai Village of Saitama, Japan, where photography is normally prohibited. Three hundred stunning full-page images and four lavish gatefolds present bonsai of all types, from quiet representations of nature to bold sculptural forms. The horticultural and aesthetic characteristics of each bonsai are concisely and authoritatively described in the narrative captions by William Valavanis, head of the International Bonsai Arboretum in Rochester, New York. And because the container is considered an integral part of any bonsai—indeed, the literal meaning of “bonsai” is “tray plant”—the book also includes some twenty-five photographs of traditional bonsai containers, with descriptions. A further sequence of twenty-five photographs is devoted to the related art of suiseki, or miniature stone landscapes displayed in the same manner, and often alongside, bonsai. With his groundbreaking first book, *Botanica Magnifica*, Jonathan Singer established a new style of botanical photography, characterized by an exceptional clarity of detail and richness of color, as well as a painterly chiaroscuro. These qualities are just as evident in the present volume; Singer photographs each bonsai with an artist’s—one might even say a portraitist’s—eye. Whereas most books on bonsai aim to instruct readers on techniques of care and cultivation, Singer’s book takes the reader on a visual

journey. His images encompass many different species, from azalea to red maple, as well as a variety of blossoms and fruits. Alluring and serene, Singer's photographs make the experience of leafing through Bonsai not unlike entering a real Japanese garden. *Fine Bonsai: Art & Nature* not only documents the masterpieces of an ancient horticultural art, but is a masterpiece in itself. A portion of the proceeds of this book will benefit the Japanese Red Cross.

**Japanese Ikebana for Every Season** Yuji Ueno, Rie Imai. 2014-02-04 The true meaning of Ikebana—the traditional Japanese art of flower arrangement—is to take a few beautiful flowers and plants and tastefully present them in very simple containers to enhance home decor. The 53 elegant arrangements featured in Japanese Ikebana for Every Season are perfect for special occasions—Mother's Day, Valentine's Day, birthday, anniversary—or any event that calls for a flower bouquet. The key to good Ikebana arrangements is to understand a few very simple principles—like the idea of *mitate*, seeing old things with new eyes—and to learn a few easy techniques to stabilize and support plants inside a vase or container. Using common flowers and plants from the garden, a nearby field or forest, or the local florist, anyone can easily create these lovely Ikebana in just a few minutes. Authors Rie Imai and Yuji Ueno explain how to select flowers and containers from things that are already around—and then turn them into something special. The basic instructions in the book cover a wide range of styles that encourage readers to use their own creativity rather than copying traditional and highly technical Ikebana design concepts. No matter what time of year it is and regardless of your taste or budget—the arrangements in this book will lend a touch of Japanese elegance to your home.

*Not in Fashion* Mark Borthwick. 2009 Mark Borthwick is among the generation of photographers who in the '90s broke through the conventions of fashion photography. Integrating elements of architecture and design, he has developed a very personal and intuitive style, and knows how to turn a static photo into a performance. His work is about the movement of the model, and the serendipity of accidental clutter is as important to his images as the garments. This book showcases over 200 images from Borthwick's best fashion editorials, celebrity portraits, and advertising work, as well as excerpts from his personal journals. The journal pages, consisting of Polaroids, sketches, and notes on shoots, reveal the workings of a photographer's mind—the behind the scenes of the makings of a fashion image.
