Among them are Ghulam Rasool Joo, Haleema's father, and her teenage son Imran, who is picked up by the authorities only to disappear into the void of Kashmir's missing people. The Half Mother is the story of Haleema ? a mother and a daughter yesterday, a `half mother? and an orphan today; tormented by not knowing whether Imran is dead or alive, torn apart by her own lonely existence. While she battles for answers and seeks out torture camps, jails and morgues for any signs of Imran, Kashmir burns in a war that will haunt it for years to come. The Baba Ramdev Phenomenon Kaushik Deka. 2017 Patanjali Ayurved has turned out to be the most disruptive force in the Indian FMCG market...it witnessed a whopping annual growth of 146% in fiscal year 2016, grossing a turnover of \$769 million. -Assocham-TechSci research report When in 1965, at Saidalipur, a nondescript village in Haryana, a baby boy was born to a marginal farmer, there was hardly any celebration. They were happy to receive what they believed was 'the most precious gift from God' but there was no time to pause, reflect or celebrate. People needed to get on with their lives. Little did they realize that the newborn would take this philosophy of detachment to a different level altogether. And if this detachment was induced in their life by poverty and hardship, three decades later their child was to show the world how to practise the same philosophy and even, while doing so, gather unimaginable wealth-an approximate net sum of `10,000 crore. He was to become Baba Ramdev, the celebrated yoga guru, and one of the founders of Patanjali Ayurved Limited and Patanjali Yogpeeth. The Baba Ramdev Phenomenon offers a detailed account of Ramdev's journey from attaining moksha in the Himalayas to ruling the market, especially the FMCG sector, with his Patanjali products. It captures the rise and rise of Patanjali and the various factors that worked for it, most importantly, the vision of Ramdev and the able assistance of his associate Acharya Balkrishna.

Regulating Private Tutoring for Public Good Mark Bray, Ora Kwo. 2014 Recent years have brought global expansion of private supplementary tutoring alongside regular school systems. This expansion has far-reaching implications for the nurturing of new generations, for social and economic development, and for the operation of school systems. Some dimensions are positive while other dimensions are problematic. Supplementary tutoring is especially visible in Asia. The formats of tutoring range from one-to-one provision to large classes. Some tutoring is provided by teachers and by specialist companies, while other tutoring is provided informally by university students and others. Using a comparative lens, this book examines possible government responses to the expansion of private supplementary tutoring. In general, the book suggests, the sector should be given more attention. The work shows wide diversity in the regulations introduced by governments in the Asian region. It notes not only that these governments can learn much from each other, but also that policy makers in other parts of the world can usefully look at patterns in Asia. The book also stresses the value of partnerships between governments, tutoring providers, schools, teachers' unions, and other bodies.

*Small-scale Aquaponic Food Production* Christopher Somerville, Food and Agriculture Organization of the United Nations. 2015 This technical paper begins by introducing the concept of aquaponics, including a brief history of its development and its place within the larger category of soil-less culture and modern agriculture. It discusses the main theoretical concepts of aquaponics, including the nitrogen cycle and the nitrification process, the role of bacteria, and the concept of balancing an aquaponic unit. It then moves on to cover important considerations of water quality parameters, water testing, and water sourcing for aquaponics, as well as methods and theories of unit design, including the three main methods of aquaponic systems: media beds, nutrient film technique, and deep water culture. The publication discusses in detail the three groups of living organisms (bacteria, plants and fish) that make up the aquaponic ecosystem. It also presents management strategies and troubleshooting practices, as well as related topics, specifically highlighting local and sustainable sources of aquaponic inputs. The publication also includes nine appendixes that present other key topics: ideal conditions for common plants grown in aquaponics; chemical and biological controls of common pests and diseases including a compatible planting guide; common fish diseases and related symptoms, causes and remedies; tools to calculate the ammonia produced and biofiltration media required for a certain fish stocking density and amount of fish feed added;

production of homemade fish feed; guidelines and considerations for establishing aquaponic units; a cost-benefit analysis of a small-scale, media bed aquaponic unit; a comprehensive guide to building small-scale versions of each of the three aquaponic methods; and a brief summary of this publication designed as a supplemental handout for outreach, extension and education.

**Battles of the New Republic** Prashant Jha.2014-01-12 **Battles of the New Republic: A Contemporary History of Nepal** is a story of Nepal's transformation from war to peace, monarchy to republic, a Hindu kingdom to a secular state, and a unitary to a potentially federal state. Part-reportage, part-history, part-analysis, part-memoir, and part-biography of the key characters, the book breaks new ground in political writing from the region. With access to the most powerful leaders in the country as well as diplomats, it gives an unprecedented glimpse into Kathmandu's high politics. But this is coupled with ground-level reportage on the lives of ordinary citizens of the hills and the plains, striving for a democratic, just and equitable society. It tracks the hard grind of political negotiations at the heart of the instability in Nepal. It traces the rise of a popular rebellion, its integration into the mainstream, and its steady decline. It investigates Nepal's status as a partly-sovereign country, and reveals India's overwhelming role. It examines the angst of having to prove one's loyalties to one's own country, and exposes the Hindu hill upper-caste dominated power structures. **Battles of the New Republic** is a story of the deepening of democracy, of the death of a dream, and of that fundamental political dilemma - who exercises power, to what end, and for whose benefit.
