Cognitive Aging Denise Park, Nobert Schwarz. 2012-12-06 As our society ages, the topic of cognitive aging is becoming increasingly important. This volume provides an accessible overview of how the cognitive system changes as a function of normal aging. Building on the successful first edition, this volume provide an even more comprehensive coverage of the major issues affecting memory, attention, language, speech and other aspects of cognitive functioning. The essential chapters from the first edition have been thoroughly revised and updated and new chapters have been introduced which draw in neuroscience studies and more applied topics. In addition, contributors were encouraged to ensure their chapters are accessible to students studying the topic for the first time. This therefore makes the volume appealing as a textbook on senior undergraduate and graduate courses.

Part-time smugglers, world travelers, and expats who have fought causes both valiant and doomed, Riley and his crew soon find themselves in the crosshairs of a deal much more dangerous than the one they bargained for. Education for Rural Development Food and Agriculture Organization of the United Nations, Unesco.2003 An international joint study by the Food and Agriculture Organization of the United Nations (FAO) and UNESCO's International Institute for Educational Planning (IIEP) was conducted on education and rural development to review the status of the topic from the

standpoint of public policies and the conceptual frameworks on which they are based and also to shed light on what may be called good practice. The findings of the study are meant to serve not as models, but rather as points of reference for all those who are seeking ways of developing education in rural areas and contributing more effectively to rural development. Chapter I, Education and Rural Development: Setting the Framework (David Atchoarena and Charlotte Sedel), provides a contextual and theoretical introduction to the new rural development and poverty reduction thinking, as well as a discussion on the contribution of education to rural development. In Chapter II, Basic Education in Rural Areas: Status, Issues and Prospects (Michael Lakin with Lavinia Gasperini), the book reviews in depth the provision of basic education in rural areas and offers some policy directions for improvement. Further exploring a particular dimension of basic education, Chapter III, Making Learning Relevant: Principles and Evidence from Recent Experiences (Peter Taylor, Daniel Desmond, James Grieshop and Aarti Subramaniam), devotes specific attention to strategies linking the formal school teaching with students' life environment, including agriculture, and to garden-based learning. The intention is to provide updated information and new insights on much-debated aspects which are often associated with rural areas although their application is much broader. Chapter IV, Strategies and Institutions for Promoting Skills for Rural Development (David Atchoarena, Ian Wallace, Kate Green, and Candido Alberto Gomes), shifts the analysis from education to work and discusses the implications of the transformation of rural labor markets for skill development. A particular concern is the rise in rural non-farm employment and the need to enlarge the policy focus from agricultural education and training to technical and vocational education for rural development. This debate is taken further in Chapter V, Higher Education and Rural Development: A New Perspective (Charles Maguire and David Atchoarena), which

considers higher level skills and the contribution of the tertiary education sector to rural development. Special attention is given to the reform of higher agricultural institutions and lessons based on case studies are provided to document good practice in institutional reform. Finally, Chapter VI, Main Findings and Implications for Policy and Donor Support (David Atchoarena with Lavinia Gasperini, Michael Lakin and Charles Maguire), concentrates on the main findings of the study and discusses policy implications and possible responses for donors and countries. (Contains 28 tables, 14 figures, and 64 boxes.).

Enciclopedia de la política Rodrigo Borja.1997 El ejercicio de la presidencia de la República es una suerte de posgrado en ciencias políticas y humanas en el que se aprenden muchas cosas que no están en los libros, dice Rodrigo Borja, autor de esta Enciclopedia de la política, fruto de sus investigaciones y de su experiencia en el poder. La obra fue escrita en una etapa intensísima de la vida internacional: el Muro de Berlín había sido derrumbado, la Guerra Fría había terminado y muchos conceptos entraron en un proceso de revisión. El mundo ingresó en una nueva era histórica: la revolución digital forjó un nuevo tipo de sociedad, para que la información es la materia prima de los renovados instrumentos de producción. Borja recoge todos estos hechos en su obra y los enriquece con sus experiencias personales.

Este libro surge de los encuentros alrededor de la Red en eventos internacionales, con un interés académico y como una forma de materializar la experiencia profesional de sus miembros para las nuevas generaciones en el cuidado del adulto con enfermedad crónica y sus cuidadores. Overview: MELQO UNESCO, UNICEF, World Bank, Brookings Institution (USA). Center for Universal Education. 2017-08-14 The Measuring Early Learning Quality and Outcomes (MELQO) initiative began in 2014 as part of the global emphasis on early childhood development (ECD). Led by UNESCO, the World Bank, the Center for Universal Education at the Brookings Institution and UNICEF, the initiative aims to promote feasible, accurate and useful measurement of children's development and learning at the start of primary school, and of the quality of their pre-primary learning environments. Items are designed for children between the ages of 4 and 6 years. Following the premise that many existing tools include similar items, the leading organizations' core team worked with a consortium of experts, non-governmental organizations (NGOs) and multilaterals to build upon current measurement tools to create a common set of items organized into modules for measuring: 1) early childhood development and learning, and 2) the quality of pre-primary learning environments. The MELQO core team and experts also collaborated to outline a process for context-specific adaptation of the measurement modules resulting from lessons learned from

field-testing in several countries in 2015 and 2016. The modules are designed to be implemented at scale, with an emphasis on feasibility for low- and middle-income countries (LMICs). A key question addressed by MELQO was the balance between a global tool suitable for use everywhere, and local priorities and goals for children's development. [Introduction, ed]

Rumores, residuos y Estado en "la mejor esquina de Sudamérica" Juan Ricardo Aparicio.2012-10-01 Por fin llegamos. En febrero de 2008, después de casi dos días de largas caminatas

de doce horas junto con casi cien personas de organizaciones nacionales e internacionales por los empinados y embarrados senderos de la cadena montañosa de la Serranía de Abibe, en la esquina noroccidental de Colombia, por fin lo conseguimos. Desempacamos y montamos nuestras tiendas en una zona despejada próxima a la pequeña e improvisada capilla levantada en el lugar donde el 21 de febrero de 2005 se encontró el cadáver de uno de los líderes de la Comunidad de Paz de San José de Apartadó (en adelante CPSJA), que había sido brutalmente asesinado junto con sus dos hijos. Los cadáveres fueron encontrados por una comisión de esta organización creada para su búsqueda en aquellos difíciles días. Cuando la comisión llegó a recuperar los cuerpos se encontró en el lugar con soldados de la 17.a Brigada militar. Encontraron también machetes manchados de sangre que podrían haber sido utilizados para perpetrar tan aborrecible masacre que ha viajado por todo el mundo a través de las redes de solidaridad y activismo de los derechos humanos Globalization for Development Ian Goldin, Kenneth Reinert.2007-05-16 Globalization and its relation to poverty reduction and development is not well understood. The book identifies the ways in which globalization can overcome poverty or make it worse. The book defines the big historical trends, identifies main global flows - trade, finance, aid, migration, and ideas - and examines how each can contribute to undermine economic development. By considering what helps and what does not, the book presents policy recommendations to make globalization more effective as a vehicle for shared growth and prosperity. It will be of interest to students, researchers and anyone interested in the effects of globalization in today's economy and in international development issues.

Recursos naturales, medio ambiente y sostenibilidad United Nations.2019-10-14 La producción intelectual de la CEPAL en sus 70 años de existencia ha sido vasta en distintos ámbitos del desarrollo. En este libro se analizan y contextualizan los principales hitos e ideas del pensamiento económico de la CEPAL sobre recursos naturales, medio ambiente y sostenibilidad, organizados en las dos grandes etapas que han caracterizado la vida institucional: la estructuralista (1948-1990) y la neoestructuralista (de 1990 en adelante). A partir de una revisión sistemática de la literatura, se destacan ideas como el vínculo entre la especialización productiva en recursos naturales y los términos de intercambio desfavorables, formulada en los años cincuenta; la soberanía sobre los recursos naturales, en los sesenta; la enunciación temprana del principio de responsabilidades comunes pero diferenciadas, en los setenta; los estilos de desarrollo y medio ambiente, en los ochenta; la competitividad espuria, en los noventa, y la gobernanza de los recursos naturales, el estilo de desarrollo sostenible con igualdad y el gran impulso ambiental, en las dos primeras décadas del siglo XXI. El pensamiento neoestructuralista de la CEPAL es dinámico, abierto y se renueva permanentemente sin perder su tradición estructuralista. El libro aporta también elementos conceptuales para formular un neoestructuralismo ecológico.
