The Night Before Middle School! Sean Kolczynski.2012-09-01 The Night Before Middle School Written and Illustrated by Sean Kolczynski This is a fun and light-hearted story about a child's anticipation and completion of the first day of middle school. Written by a fifth grader as an amusing takeoff on the classic Clement C. Moore Christmas poem, the book tells how he envisions his first day of middle school. Filled with the fear of unclean bathroom stalls, getting lost in the halls between classes, and mean teachers that pile on the homework, he takes the reader through his highly anticipated first day. While he does run into a few challenges during the day, like a locker that gets stuck, before the end of the day he comes to the realization that many of his fears were unfounded and that middle school can be a fun place where you might even make a few new friends. This amusing and uplifting story provides a humorous way to calm the first day jitters of even the most nervous of students, and makes a great gift for children making the transition from elementary school to middle school. Since it was written and illustrated by a fifth grader, it provides a child's perspective on one of the most significant transitions a child will make as he/she progresses through grade school.

**Researching and Teaching Social Issues** Samuel Totten,Jon Pedersen.2012-05-01 (originally published by Lexington Books, A division of Rowman & Littlefield) Researching and Teaching Social Issues: The Personal Stories and Pedagogical Efforts of Professors of Education is comprised of original personal essays in which notable teacher educators delineate the genesis and evolution of their thought and work vis-a-vis the teaching of social issues. In relating their personal stories, the authors were asked to discuss among other issues those individuals and/or scholarly works that have most influenced them and how, their own aspirations in the field, the frustrations they have faced, their perceptions of the field, their major contributions, and their current endeavors. Our goal was that each and every story be as informative, instructive, and engaging as possible. We believe that readers will be thoroughly engaged as they read the stories of these individuals—stories that are inspiring, filled with passion, and reflective in nature. We also believe that readers will gain unique pedagogical insights into the field and ample food for thought. The individuals selected for inclusion in the book dedicated a great amount of time, thought, energy, and commitment to creating powerful and pedagogically sound ways to teach about social and/or controversial issues. Many have done so for well over forty years, and have been among the strongest advocates vis-à-vis the place social issues have in the extant curriculum and beyond.
