Constructing a Personal Orientation to Music Teaching Mark Robin Campbell, Linda K. Thompson, Janet Revell Barrett. 2021-03-21 Constructing a Personal Orientation to Music Teaching: Growth, Inquiry, and Agency, (Second Edition), is a textbook for studies in music education. Expanding upon the first edition, the authors promote inquiry and reflection to facilitate teacher growth, lifelong learning, and a disposition toward educational change. The revised text responds to current calls for social change and teacher education reform by reaffirming and intensifying the need for music teachers to adopt a personal orientation toward their work. A personal orientation encourages teachers to initiate their own growth, engage in inquiry, and exercise agency in school contexts. Strongly grounded in current theories and research in teacher education, Constructing a Personal Orientation to Music Teaching: Growth, Inquiry, and Agency strives to do the following: Engage readers in analyzing their own experiences in order to conceptualize the complexity of teaching Involve them in clarifying their reasons for seeking a career in teaching Support their insights, questions, and reflections about their work Promote a reflective, critical attitude about schools in general as music teachers are urged to think of themselves as change agents in school settings Construct a moral purpose as a compass to guide their current and future endeavors in the profession. Every chapter includes a wealth of pedagogical features, including new methodologies and examples of practice to engage the readers in processes of inquiry and reflection. The second edition is organized in two parts. Part I focuses on positioning music teachers as learners in the profession, significantly expanding concepts explored in the first edition that are central to a personal orientation to professional growth. In the new edition, a reconceptualized Chapter 5 challenges teachers to cultivate their identities as change agents. The second half of the book—focusing on becoming a student of music teaching— features five new chapters. A provocative chapter on curriculum sets the stage for a set of additional chapters that invite deeper considerations of the commonplaces of teacher, learners, subject matter, and context. An epilogue speaks directly to the power of agency, imagination, and hope in teachers' lives.

The Oxford Handbook of Preservice Music Teacher Education in the United States Colleen Conway, Kristen Pellegrino, Ann Marie Stanley, Chad West. 2019-10-15 The Oxford Handbook of Preservice Music Teacher Education in the United States identifies the critical need for change in Pre-K-12 music education. Collectively, the handbook's 56 contributors argue that music education benefits all students only if educators actively work to broaden diversity in the profession and consistently include diverse learning strategies, experiences, and perspectives in the classroom. In this handbook, contributors encourage music teachers, researchers, policy makers, and music teacher educators to take up that challenge. Throughout the handbook, contributors provide a look at ways music teacher educators prepare teachers to enter the music education profession and offer suggestions for ways in which new teachers can advocate for and adapt to changes in contemporary school settings. Building upon students' available resources, contributors use research-based approaches to identify the ways in which educational methods and practices must transform in

order to successfully challenge existing music education boundaries.

The Reimagined PhD Leanne M Horinko, Jordan M Reed, James M Van Wyck. 2021-08-13 Long seen as proving grounds for professors, PhD programs have begun to shed this singular sense of mission. Prompted by poor placement numbers and guided by the efforts of academic organizations, administrators and faculty are beginning to feel called to equip students for a range of careers. Yet, graduate students, faculty, and administrators often feel ill-prepared for this pivot. The Reimagined PhD assembles an array of professionals to address this difficult issue. The contributors show that students, faculty, and administrators must collaborate in order to prepare the 21st century PhD for a wide range of careers. The volume also undercuts the insidious notion that career preparation is a zero sum game in which time spent preparing for alternate careers detracts from professorial training. In doing so, The Reimagined PhD normalizes the multiple career paths open to PhD students, while providing practical advice geared to help students, faculty, and administrators incorporate professional skills into graduate training, build career networks, and prepare PhDs for a variety of careers.
