Kobo Reading App: This is another nice e-reader app that's available for Windows Phone, BlackBerry, Android, iPhone, iPad, and Windows and Mac computers. Apple iBooks: This is a really cool e-reader app that's only available for Apple Because this site is dedicated to free books, there's none of the

hassle you get with filtering out paid-for content on Amazon or Google Play Books. We also love the fact that all the site's genres are presented on the homepage, so you don't have to waste time trawling through menus. Unlike the bigger stores, Free-Ebooks.net also lets you sort results by publication date, popularity, or rating, helping you avoid the weaker titles that will inevitably find their way onto open publishing platforms (though a book has to be really quite poor to receive less than four stars). If you are looking for Indie books, Bibliotastic provides you just that for free. This platform is for Indie authors and they publish modern books. Though they are not so known publicly, the books range from romance, historical or mystery to science fiction that can be of your interest. The books are available to read online for free, however, you need to create an account with Bibliotastic in order to download a book. The site they say will be closed by the end of

The website gives you access to over 1 million free e-Books and the ability to search using subject, title and author. Better to search instead for a particular book title, author, or synopsis. The Advanced Search lets you narrow the results by language and file extension (e.g. PDF, EPUB, MOBI, DOC, etc).
