From Migrant to Acadian N.E.S. Griffiths.2005 Despite their position between warring French and British empires, European settlers in the Maritimes eventually developed from a migrant community into a distinctive Acadian society. *From Migrant to Acadian* is a comprehensive narrative history of how the Acadian community came into being. Acadian culture not only survived, despite attempts to extinguish it, but developed into a complex society with a unique identity and traditions that still exist in present day Nova Scotia and New Brunswick.

Encyclopedia of French Film Directors Philippe Rège.2009-12-11 Cinema has been long associated with France, dating back to 1895, when Louis and Auguste Lumi_re screened their works, the first public viewing of films anywhere. Early silent pioneers Georges Méliès, Alice Guy Blaché and others followed in the footsteps of the Lumi_re brothers and the tradition of important filmmaking continued throughout the 20th century and beyond. In *Encyclopedia of French Film Directors*, Philippe Rège identifies every French director who has made at least one feature film since 1895. From undisputed masters to obscure one-timers, nearly 3,000 directors are cited here, including at least 200 filmmakers not mentioned in similar books published in France. Each director's entry contains a brief biographical summary, including dates and places of birth and death; information on the individual's education and professional training; and other pertinent details, such as real names (when the filmmaker uses a pseudonym). The entries also provide complete filmographies, including credits for feature films, shorts, documentaries, and television work. Some of the most important names in the history of film can be found in this encyclopedia, from masters of the Golden Age_Jean Renoir and René Clair_to French New Wave artists such as François Truffaut and Jean-Luc Godard.

Murder in Parisian Streets Thomas Cragin.2006 In *Murder in Parisian Streets* Thomas Cragin provides an in-depth study of the production, sale, and content of the canards. He demonstrates their significance to nineteenth-century culture, even their role in determining the emerging tabloid's success. Cragin explores the incremental creation of textual meaning in the canards' authorship, production, distribution, and consumption. He exposes the power of oral traditions as well as modern marketing at work upon this popular news literature. The canards challenge our assumptions about the nineteenth century's revolution in print and reorient our understanding of cultural creation through textual construction.--Jacket.

From Music to Sound Makis Solomos.2019-10-28 From Music to Sound is an examination of the six musical histories whose convergence produces the emergence of sound, offering a plural, original history of new music and showing how music had begun a change of paradigm, moving from a culture centred on the note to a culture of sound. Each chapter follows a chronological progression and is illustrated with numerous musical examples. The chapters are composed of six parallel histories: timbre, which became a central category for musical composition; noise and the exploration of its musical potential; listening, the awareness of which opens to the generality of sound; deeper and deeper immersion in sound; the substitution of composing the sound for composing with sounds; and space, which is progressively viewed as composable. The book proposes a global overview, one of the first of its kind, since its ambition is to systematically delimit the emergence of sound. Both well-known and lesser-known works and composers are analysed in detail; from Debussy to contemporary music in the early twenty-first century; from rock to electronica; from the sound objects of the earliest musique concrète to current electroacoustic music; from the Poème électronique of Le Corbusier-Varèse-Xenakis to the most recent inter-arts attempts. Covering theory, analysis and aesthetics, From Music to Sound will be of great interest to scholars, professionals and students of Music, Musicology, Sound Studies and Sonic Arts. Supporting musical examples can be accessed via the online Routledge Music Research Portal.

The Society of Princes Jonathan Spangler.2009 The princes étrangers were an influential group of courtiers in early modern France, none more so than the princes from the Lorraine-Guise family. This book examines the Lorraine-Guise at the court of Louis XIV and their renewed power, wealth and influence after the turbulent Wars of Religion. It is a substantial contribution to scholarship in court studies and will add greatly to debates on the nature of crown-noble relations in the era of absolutism.

Olivier Messiaen: Journalism 1935–1939 Stephen Broad.2016-05-06 One of the foremost composers of the twentieth century, Olivier Messiaen wrote widely on his music and on his beliefs. This is the first edition of his early journalism and provides both the original French text and an English translation. The writing in this volume dates from the 1930s, before the composer gained the international reputation that he and his music now enjoy. The pieces he wrote range from reviews of individual performances to essays on particular works or composers and articles that discuss more general themes such as sincerity of expression in music. Many of the articles included in this collection are new to the Messiaen bibliography, and others are available here for the first time in English. A number are, as Broad describes them, 'quietly shocking' in that they force us to reappraise certain aspects of the composer such as his role in La Jeune France, and his wider participation in the debates of his time. This edition, therefore, represents a new source for understanding Messiaen and provides a fascinating glimpse of the composer in the early part of his career.
