Ruhlman's How to Roast Michael Ruhlman. 2014-10-21 As an award-winning cookbook author, food writer, and online culinary expert, Michael Ruhlman has developed a reputation for providing lucid, no-nonsense cooking advice as sharp as a good chef's knife. In this first in a new series of books focusing on cooking methods, Ruhlman explores one of the most fundamental cooking techniques- roasting. Humankind has been roasting for millennia. The term originally referred to cooking over an open fire, usually on some kind of spit, and has evolved to describe cooking of meat or vegetables or even fruit in an oven, a dry heat (and usually high-heat) method of making things irresistibly appetizing. Of all our cooking terms, Ruhlman writes, sautéed, grilled, poached, broiled-I believe roasted is the most evocative adjective we can attach to our food, conjuring as it does ideas of deep rich flavors and delicious browning. RUHLMAN'S HOW TO ROAST combines practical advice - what tools you need, staple ingredients to have on hand, how to get the most out of your oven - with 20 original and mouthwatering recipes, chosen to showcase a wide range of roasting methods and results, from The Icon (roast chicken), to Monkfish Roasted with Tomatoes and Basil, to Roasted Peaches with Mint Crème Fraiche. Dozens of color photographs offer step-by-step illustration as well as finished-dish showpieces.

The Forgotten Rohingya: Their Struggle for Human Rights in Burma Habib Habib Siddiqui.2019 Imagine that you are living in a country that does not recognize you as a citizen in spite of the fact that your people have maintained a continuous existence there for several centuries. If that was not enough of a traumatic experience, consider that because of your racial, ethnic and religious identity other ethnic groups that are fighting the brutal military regime in your country for their self-determination and human rights consider you as settlers from a neighboring country. It must be your worst nightmare when you realize that half of your people (almost 2 million) have been forced to take asylum or refuge outside, and you may be the next in line to seek a way out of this living hell of xenophobia, discrimination, intolerance, racism and bigotry.The victims are the Rohingya people of Burma (Myanmar). Because of their religion, race, ethnicity, color and language they are the most discriminated and persecuted people in our planet. Some argue that they are also one of the most forgotten. The Myanmar military regime has denied their citizenship rights, claiming that they are illegal settlers from nearby Bangladesh who have moved into Arakan during the British occupation of Burma in the 19th century. Is there any truth to such allegations? Does the military junta apply the same litmus test against all ethnic and religious groups in matters of citizenship? What is the basis for a nation's claim to self-determination? Must a people wander in the wilderness for two millennia and suffer repeated persecution, humiliation and genocide to qualify? How about the rights of a minority community to survive with their culture and traditions intact? Do they need to be 'children' of a 'higher' God to qualify? What makes the children of a 'lesser' God to be forgotten and denied the same treatment and privilege that was granted hitherto to other nations?For much of its history, Burma has been ruled by military. As has once again been demonstrated recently they are brutal, savage and tyrannical. They have ignored people's verdict in the election and imprisoned leaders and workers of the democracy movement. They cannot be guarantors or protectors of human rights of anyone, let alone religious and ethnic minorities. Do you

know that the Rohingyas - face cruel restriction on marriage and those married without government authorization are paraded naked on the streets?- Are restricted from traveling outside their villages?- Have no legal right to own land or property?- Are restricted from getting education, finding work, getting medical and health care? - Are subjected to land confiscation, forced eviction and destruction of homes, offices, schools, mosques, shops, etc., and face religious persecution on a daily basis? - Are victims of staged riots, forced starvation, arbitrary taxation, extortion, arrest, torture and extra-judicial killings?- Are forced to do slave labor for establishment of government infrastructure, new Buddhist settlements, pagodas and monasteries on evicted lands with the government intent of changing the landscape and demography of Arakan?- Are forced to convert to Buddhism &/or worship Buddha? Do you know that when it comes to the Rohingya people, the Burmese government doesn't uphold any of the Articles of the Universal Declaration of Human Rights? Nothing can excuse us from the criminal silence that we practice in not voicing our concern about the plight of the Rohingya people. The Forgotten Rohingya makes a strong case for mobilizing concerned citizens of our globe to ease their sufferings. The author analyzes origin of the Rohingya people and offers ideas to solve their problem. The author also discusses problems of xenophobia and racism, which are so rampant in this country of many races, ethnicities and religions. He also analyzes the role of Daw Suu Kyi and failure of Burma's orange revolution.

Great Maritime Inventions, 1833-1950 Mario Theriault. 2001 Great Maritime Inventions 1833-1950 is a delightful look at how innovative Maritime ideas changed the world. Between 1833 and 1950, over 3,300 patents were granted to residents of New Brunswick, Nova Scotia and PEI. From the scuba tank to the variable pitch propeller to two-piece long underwear, Great Maritime Inventions profiles the best of the best. Included are inventions that are considered to be great advances in science, those that have substantially changed the course of development of technology, or those that have enjoyed a lasting success that can still be remembered or observed to this day. All of the inventions described in the book were completely novel in their day. Each patent is first in its classification, or else its claims are so broad that the intellectual property protection it gave covered every possible precursor. Before a patent was granted, an applicant had to declare that their invention was entirely new. Each application then underwent a thorough examination by expert examiners at the patent office. Each of the patents in Great Maritime Inventions were found to

represent knowledge newly available to the public, and to be an important step forward in engineering or in developing consumer products that enhance our lives. Not all inventions were spectacular. In fact, many of these inventions never made it into the history books. It is only after fifty years or more that we realize the influence that every one of these inventions has had on our society. Each invention, large or small, was an important link in the chain of evolution of science and useful arts and has improved the way we live today.

Women, Aging, and Ageism Evelyn R Rosenthal.2014-04-23 Here is a unique text that examines the lives of middle-aged and old women. Women, Aging and Ageism, in response to the lack of literature that focuses on aging women, presents timely and definitive research that illustrates the implications of ageism and sexism. This landmark volume challenges powerful myths and dangerous stereotypes and identifies the damaging restrictions that society forces upon aging women. In extending feminist research to middle and old age, the chapters taken together comprise a critique of the conditions of the last third of women's lives. The authors use analytical tools and methodologies developed and modified by feminists to explore questions previously unasked. They focus on issues of deep concern to women at midlife and beyond, including the politics of reproduction, sexuality, social isolation, violence against women, equal opportunity, and the feminization of poverty. Women, Aging and Ageism is available for classroom adoption. Ideal for students and helping professionals working with middle-aged and old women and their families, this book provides models of effective interventions grounded in field research and clinical practice. For all readers concerned about middle-aged and old women and the quality of their lives, Women, Aging and Ageism is a rich resource filled with ideas and information and an affirmative new volume about the limitless possibilities of women's achievement in midlife and old age.
