**The Legendary Biographies of Tamerlane** Ron Sela.2011-04-29 Timur (or Tamerlane) is famous as the fourteenth-century conqueror of much of Central Eurasia and the founder of the Timurid dynasty. His reputation lived on in his native lands and reappeared some three centuries after his death in the form of fictional biographies, authored anonymously in Persian and Turkic. These biographies have become part of popular culture. Despite a direct continuity in their production from the eighteenth century to the present, they remain virtually unknown to people outside the region. This remarkable and rigorous scholarly appraisal of the legendary biographies of Tamerlane is the first of its kind in any language. The book sheds light not only on the character of Tamerlane and how he was remembered and championed by many generations after his demise, but also on the era in which the biographies were written and how they were conceived and received by the local populace during an age of crisis in their own history.

**Polymaths of Islam** James Pickett.2020-09-15 Polymaths of Islam analyzes the social and intellectual power of religious leaders who created a shared culture that integrated Central Asia, Iran, and India from the mid-eighteenth century through the early twentieth. James Pickett demonstrates that Islamic scholars were simultaneously mystics and administrators, judges and occultists, physicians and poets. This integrated understanding of the world of Islamic scholarship unlocks a different way of thinking about transregional exchange networks. Pickett reveals a Persian-language cultural sphere that transcended state boundaries and integrated a spectacularly vibrant Eurasia that is invisible from published sources alone. Through a high cultural complex that he terms the Persian cosmopolis or Persianate sphere, Pickett argues that an intersection of diverse disciplines shaped geographical trajectories across and between political states. In Polymaths of Islam he paints a comprehensive, colorful, and often contradictory portrait of mosque and state in the age of empire.

**A History of Central Asia** Anne Davison.2020-07-20 For most of its history, Central Asia has been ruled by powerful dynasties, fallen under the vassalage of neighbouring empires or been invaded by foreign powers. Only the more remote, inaccessible tribal areas have maintained a degree of independence. However, since the fall of the Soviet Union in 1991, five distinct independent nation states have emerged that are now generally referred to as 'Central Asia', namely Uzbekistan, Tajikistan, Turkmenistan, Kazakhstan and Kyrgyzstan.Regardless of who has been in power over the centuries, the one constant has been the significance of the land bridge that straddles the region connecting Europe and Asia, otherwise known as the Silk Road, or Roads. In ancient times, silks and spices travelled westwards, while furs, wools and precious metals took an eastward route. Consequently, those who controlled the trade-route accrued immense wealth and built great cities such as ancient Samarkand, Bukhara and Khiva.The ancient Silk Road is now being revitalised. But rather than silks and spices, today the commodities being transported include natural gas, oil, minerals and communication systems.This book tells the story of conquest and invasion, of empire building and colonialism. The earlier chapters include the great Persian/Iranian Empires, such as the Achaemenids, the Sassanids and the Safavids, as well as the exploits of Alexander the Great. Further chapters cover the Turkic migrations, arrival of Islam and the invasion of the Mongols. The final chapters tell of the conflict between the imperial powers of Russia and Britain, which was an event known as the Great Game. The 20th Century period of Soviet rule in Central Asia marks the final chapter and the book concludes with an Epilogue that brings the reader up to current events.As with other books in the 'In Brief' series, this book is aimed at the general reader who wants to understand a particular historical topic but does not have the time or inclination to read a heavy academic tome. With this mind, footnotes have been omitted.While there will inevitably be gaps in a book of this size, the intention is to cover the most significant events that moulded Central Asia's history. Should the reader be inspired to further reading on the subject, a small selection of the main works that have been consulted is provided at the end. Where possible, maps and charts are provided which should help the reader navigate through the text. A 'Who's Who' is included at the end.

**History of civilizations of Central Asia** Adle, Chahryar,Baipakov, Karl M.,Habib, Irfan,UNESCO.2003-12-31 The period treated in this volume is highlighted by the slow retreat of nomadism and the progressive increase of sedentary polities owing to a fundamental change in military technology: Furthermore, this period certainly saw a growing contrast in the pace of economic and cultural progress between Central Asia and Europe. The internal growth of the European economies and the influx of silver from the New World gave Atlantic Europe an increasingly important position in world trade and caused a major shift in inland Asian trade. Thus, 1850 marks the end of the total sway of pre-modern culture as the extension of colonial dominance was accompanied by the influx of modern ideas.

**History of civilizations of Central Asia** Asimov, Muhammad Seyfeydinovich,Bosworth, Clifford Edmund,UNESCO.1998-12-31 Part One: The Historical, Social and Economic SettingDuring the eight centuries covered in this volume, the new faith of Islam arose in Arabia and gradually spread eastwards and northwards, eventually affecting much of Central Asia, the southern fringes of Siberia and the eastern regions of China. These were also the centuries in which nomadic and military empires arose in the heart of Asia, impinging on the history of adjacent, well-established civilizations and cultures (China, India, Islamic Western Asia and Christian eastern and central Europe) to an unparalleled extent. Lamaist Buddhism established itself in the Mongolian region and in Tibet and Islam among the Turkish people of Transoxania, southern Siberia and Xinjiang. It was in Eastern Europe, above all in Russia, that the Turco-Mongol Golden Horde was to have a major, enduring influence on the course of the region's history.

**An Islamic Biographical Dictionary of the Eastern Kazakh Steppe: 1770-1912** Allen Frank,Mirkasyim Usmanov.2004-11-01 Essential reference for all those interested in the Islamic history of Central Asia under Russian and Chinese rule (1770 - 1912). Based on a Turkic manuscript compiled in 1912.

**Lost Enlightenment** S. Frederick Starr.2015-06-02 The forgotten story of Central Asia's enlightenment—its rise, fall, and enduring legacy In this sweeping and richly illustrated history, S. Frederick Starr tells the fascinating but largely unknown story of Central Asia's medieval enlightenment through the eventful lives and astonishing accomplishments of its greatest minds—remarkable figures who built a bridge to the modern world. Because nearly all of these figures wrote in Arabic, they were long assumed to have been Arabs. In fact, they were from Central Asia—drawn from the Persianate and Turkic peoples of a region that today extends from Kazakhstan southward through Afghanistan, and from the easternmost province of Iran through Xinjiang, China. Lost Enlightenment recounts how, between the years 800 and 1200, Central Asia led the world in trade and economic development, the size and sophistication of its cities, the refinement of its arts, and, above all, in the advancement of knowledge in many fields. Central Asians achieved signal breakthroughs in astronomy, mathematics, geology, medicine, chemistry, music, social science, philosophy, and theology, among other subjects. They gave algebra its name, calculated the earth's diameter with unprecedented precision, wrote the books that later defined European medicine, and penned some of the world's greatest poetry. One scholar, working in Afghanistan, even predicted the existence

of North and South America—five centuries before Columbus. Rarely in history has a more impressive group of polymaths appeared at one place and time. No wonder that their writings influenced European culture from the time of St. Thomas Aquinas down to the scientific revolution, and had a similarly deep impact in India and much of Asia. Lost Enlightenment chronicles this forgotten age of achievement, seeks to explain its rise, and explores the competing theories about the cause of its eventual demise. Informed by the latest scholarship yet written in a lively and accessible style, this is a book that will surprise general readers and specialists alike.

**Central Asia** Adeeb Khalid.2022-11-29 A major history of Central Asia and how it has been shaped by modern world events Central Asia is often seen as a remote and inaccessible land on the peripheries of modern history. Encompassing Uzbekistan, Tajikistan, Turkmenistan, Kyrgyzstan, Kazakhstan, and the Xinjiang province of China, it in fact stands at the crossroads of world events. Adeeb Khalid provides the first comprehensive history of Central Asia from the mid-eighteenth century to today, shedding light on the historical forces that have shaped the region under imperial and Communist rule. Predominantly Muslim with both nomadic and settled populations, the peoples of Central Asia came under Russian and Chinese rule after the 1700s. Khalid shows how foreign conquest knit Central Asians into global exchanges of goods and ideas and forged greater connections to the wider world. He explores how the Qing and Tsarist empires dealt with ethnic heterogeneity, and compares Soviet and Chinese Communist attempts at managing national and cultural difference. He highlights the deep interconnections between the Russian and Chinese parts of Central Asia that endure to this day, and demonstrates how Xinjiang remains an integral part of Central Asia despite its fraught and traumatic relationship with contemporary China. The essential history of one of the most diverse and culturally vibrant regions on the planet, this panoramic book reveals how Central Asia has been profoundly shaped by the forces of modernity, from colonialism and social revolution to nationalism, state-led modernization, and social engineering.

The History and Culture of Iran and Central Asia D. G. Tor,Minoru Inaba.2022-04-15 This volume examines the major cultural, religious, political, and urban changes that took place in the Iranian world of Inner and Central Asia in the transition from the pre-Islamic to the Islamic periods. One of the major civilizations of the first millennium was that of the Iranian linguistic and cultural world, which stretched from today's Iraq to what is now the Xinjiang Autonomous Region of China. No other region of the world underwent such radical transformation, which fundamentally altered the course of world history, as this area did during the centuries of transition from the pre-Islamic to the Islamic period. This transformation included the religious victory of Islam over Buddhism, Nestorian Christianity, and the other religions of the area; the military and political wresting of Inner Asia from the Chinese to the Islamic sphere of primary cultural influence; and the shifting of Central Asia from a culturally and demographically Iranian civilization to a Turkic one. This book contains essays by many of the preeminent scholars working in the fields of archeology, history, linguistics, and literature of both the pre-Islamic and the Islamic-era Iranian world, shedding light on some of the most significant aspects of the major changes that this important portion of the Asian continent underwent during this tumultuous era in its history. This collection of cutting-edge research will be read by scholars of Middle Eastern, Central Asian, Iranian, and Islamic studies and archaeology. Contributors: D. G. Tor, Frantz Grenet, Nicholas Sims-Williams, Etsuko Kageyama, Yutaka Yoshida, Michael Shenkar, Minoru Inaba, Rocco Rante, Arezou Azad, Sören Stark, Louise Marlow, Gabrielle van den Berg, and Dilnoza Duturaeva.

**Islam in Politics in Russia and Central Asia** Stephane A. Dudolgnon,Komatsu Hisao.2013-11-05 First Published in 2001. This volume contains the proceedings of the international colloquium held by the IAS Project in October 1999. These papers deal with the modern and contemporary history of Central Eurasia, for a comprehensive reflection on various phenomena that led to a political valuation of Islam under non-Muslim domination, whether Russian or Chinese, since the beginning of the 18th century. A comparative approach to the current situations in the Russian Federation and the newly independent states of Central Asia has allowed us to study the various modes of the political instrumentalization of Islam, by both political power and opposition, in such various areas as the Ferghana Valley in Uzbekistan and the Volga-Urals region of Russia.

*Muslims of Central Asia* Galina M. Yemelianova.2019 The first history-based integrated overview of Islam and Muslims in present-day Central Asia Between the tenth and sixteenth centuries Central Asia was one of the most prestigious cultural areas of the entire Muslim world, playing a pivotal role in the Silk Road trade. Throughout that history, and up to the present, Tajiks, Uzbeks, Kazakhs, Kyrgyz, Turkmen and other Muslim peoples of Central Asia have developed their own unique understanding and practice of Islam which has shaped their national identity and particular social and political evolution. These special characteristics of Central Asian Islam ensured its survival during seventy years of Soviet atheist rule, while in the post-Soviet period Islam has been integrated into nation-building projects in constitutionally secular Uzbekistan, Kazakhstan, Tajikistan, Kyrgyzstan and Turkmenistan. This absorbing history is traced in this fascinating study which shows how, from the seventh century to the present day, the region's people have negotiated their distinctively Central Asian Islamic identity in the face of enduring external Islamic and non-Islamic dominations, ethnic nationalisms and, more recently, global transnational Islamic influences. Key Features - The first integrated account of the Muslims of the present-day states of Uzbekistan, Kazakhstan, Kyrgyzstan, Tajikistan and Turkmenistan - Synthesises up-to-date research with existing Western, Russian and Central Asian scholarship on Islam and Muslims in Central Asia - Employs a Central Asia-centric approach focusing on the region as a geographically and culturally self-sustained entity, with strong links to Russia, the Middle East, South Asia, Iran, Turkey and China - Includes numerous photographs taken during field-work in Uzbekistan, Tajikistan, Kazakhstan and Kyrgyzstan Galina M. Yemelianova has researched and taught for over thirty years on various aspects of Middle Eastern and Eurasian history and contemporary Muslim politics. Among her books are *Russia and Islam: A Historical Survey* (2002), *Islam in post-Soviet Russia* (2003) and *Radical Islam in the former Soviet Union* (2010).

*The Religious History of Central Asia from the Earliest Times to the Present Day* James Throver.2004 This book by the late Dr. James Throver is the first general survey of the religious history of Central Asia, both Muslim and non-Muslim. It covers the history of religion in Central or Inner Asia from pre-history to the aftermath of the fall of communism.

*Muslims in Central Asia* Jo-Ann Gross.1992 Central Asia is distinctive in its role as a frontier region in which a unique diversity of cultural, religious, and political traditions exist. This collection of essays by expert scholars in a range of disciplines focuses on the formation of ethnic, religious, and national identities in Muslim societies of Central Asia, thus furthering our general understanding of the history and culture of this significant region. This study includes several geopolitical regions--Chinese Central Asia, Soviet Central Asia, Afghanistan, Transoxiana and Khurasan--and covers historical periods from the fifteenth century to the present. Drawing on scholarship in anthropology, religion, history, literature, and language studies, *Muslims in Central Asia* argues for an interdisciplinary, inter-regional dialog in the development of new approaches to understanding the Muslim societies in Central Asia. The authors creatively examine the social construction of identities as expressed through literature, Islamic discourse, historical texts, ethnic labels, and genealogies, and explore how such identities are formed, changed, and adopted through time.

**Islam in Central Asia and the Caucasus Since the Fall of the Soviet Union** Bayram Balci.2018-10-15 With the end of the Soviet Union in 1991, a major turning point in all former Soviet republics, Central Asian and Caucasian countries began to reflect on their history and identities. As a consequence of their opening up to the global exchange of ideas, various strains of Islam and trends in Islamic thought have nourished the Islamic revival that had already started in the context of glasnost and perestroika--from Turkey, Iran, the Arabian Peninsula, and from the Indian subcontinent; the four regions with strong ties to Central Asian and Caucasian Islam in the years before Soviet occupation. Bayram Balci seeks to analyse how these new Islamic influences have reached local societies and how they have interacted with pre-existing religious belief and practice. Combining exceptional erudition with rare first-hand research, Balci's book provides a sophisticated account of both the internal dynamics and external influences in the evolution of Islam in the region.

**Islam and Asia** Chiara Formichi.2020-05-07 An accessible, transregional exploration of how Islam and Asia have shaped each other's histories, societies and cultures from the seventh century to today.

*For Prophet and Tsar* Robert D. Crews.2009-05-31 Russia occupies a unique position in the Muslim world. Unlike any other non-Islamic state, it has ruled Muslim populations for over five hundred years. Though Russia today is plagued by its unrelenting war in Chechnya, Russia's approach toward Islam once yielded stability. In stark contrast to the popular "clash of civilizations" theory that sees Islam inevitably in conflict with the West, Robert D. Crews reveals the remarkable ways in which Russia constructed an empire with broad Muslim support. In the eighteenth century, Catherine the Great inaugurated a policy of religious toleration that made Islam an essential pillar of Orthodox Russia. For ensuing generations, tsars and their police forces supported official Muslim authorities willing to submit to imperial directions in exchange for defense against brands of Islam they deemed heretical and destabilizing. As a result, Russian officials assumed the powerful but often awkward role of arbitrator in disputes between Muslims. And just as the state became a presence in the local mosque, Muslims became inextricably integrated into the empire and shaped tsarist will in Muslim communities stretching from the Volga River to Central Asia. *For Prophet and Tsar* draws on police and court records, and Muslim petitions, denunciations, and clerical writings—not accessible prior to 1991—to unearth the fascinating relationship between an empire and its subjects. As America and Western Europe debate how best to secure the allegiances of their Muslim populations, Crews offers a unique and critical historical vantage point.

**History of Central Asia, The: 4-volume set** Christoph Baumer.2018-04-18 This set includes all four volumes of the critically acclaimed History of Central Asia series. The epic plains and arid deserts of Central Asia have witnessed some of the greatest migrations, as well as many of the most transformative developments, in the history of civilization. Christoph Baumer's ambitious four-volume treatment of the region charts the 3000-year drama of Scythians and Sarmatians; Soviets and transcontinental Silk Roads; trade routes and the transmission of ideas across the steppes; and the breathless and brutal conquests of Alexander the Great and Chinghiz Khan. Masterfully interweaving the stories of individuals and peoples, the author's engaging prose is richly augmented throughout by colour photographs taken on his own travels. This set includes *The Age of the Steppe Warriors* (Volume 1), *The Age of the Silk Roads* (Volume 2), *The Age of Islam and the Mongols* (Volume 3) and *The Age of Decline and Revival* (Volume 4)

**Jihad** Ahmed Rashid.2002-12-31 An essential examination of the roots of fundamentalist rage in Central Asia, from the acclaimed author of *Taliban and Descent into Chaos*. Ahmed Rashid, whose masterful account of Afghanistan's Taliban regime became required reading after September 11, turns his legendary skills as an investigative journalist to five adjacent Central Asian Republics—Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan—where religious repression, political corruption, and extreme poverty have created a fertile climate for militant Islam. Based on groundbreaking research and numerous interviews, Rashid explains the roots of fundamentalist rage in Central Asia, describes the goals and activities of its militant organizations, including Osama bin Laden's al-Qaeda, and suggests ways of neutralizing the threat and bringing stability to the troubled region. A timely and pertinent work, *Jihad* is essential reading for anyone who seeks to gain a better understanding of a region we overlook at our peril.

*Inside Central Asia* Dilip Hiro.2011-11-01 "For those who still get their '-stans' mixed up, Hiro's book provides a detailed and nuanced overview of the region." —Financial Times (Best Books of the Year) The nations of Uzbekistan, Turkmenistan, Kazakhstan, Kyrgyzstan, Tajikistan, Turkey, and Iran—the majority of them former Soviet republics—remain little understood in the West even in the post-Cold War era. This book delves into these Central Asian countries: their histories, cultures, economics, politics, militaries, and relationships with regional neighbors, Russia in particular. Ultimately, *Inside Central Asia* is an outstanding, in-depth introduction to this part of the world, "full of dependable history-telling and analysis" (The Economist). Praise for the work of Dilip Hiro "The writing is clear and informative." —The New York Times "Hiro's mix of lively writing and serious detail should draw in readers." —Choice "Intriguing analysis." —Publishers Weekly "[An] eminent historian." —Kirkus Reviews

**Islamic Central Asia** Scott Cameron Levi, Ron Sela.2010 An anthology of primary documents for the study of Central Asian history. It illustrates important aspects of the social, political, and economic history of Islamic Central Asia. It covers the period from the 7th-century Arab conquests to the 19th-century Russian colonial era and provides insights into the history and significance of the region.

*History of civilizations of Central Asia* Guand-da, Zhang, Litvinsky, B., Shabani Samghabadi, R., UNESCO.1996-12-31 In this third volume covering the flourishing period from the third to the eighth century A.D., scholars describe the powerful role played by the Sasanian state in Iran, the Gupta empire in India and the T'ang dynasty in China. Waves of nomadic migrations and the formation of steppe empires left their mark on political and social life. This multiethnic society had its roots in the great religious traditions of Buddhism, Zoroastrianism, Manichaeism, Christianity and Shamanism. The Islamization of a great part of the region brought fundamental changes to all aspects of life. Intensive trade along the Silk Route encouraged cultural and scientific exchanges, making this period one of impressive artistic and intellectual creativity.

**History of Civilizations of Central Asia** M. S. Asimov, Clifford Edmund Bosworth.1998 Part One: The Historical, Social and Economic Setting During the eight centuries covered in this volume, the new faith of Islam arose in Arabia and gradually spread eastwards and northwards, eventually affecting much of Central Asia, the southern fringes of Siberia and the eastern regions of China. **The Heart of Asia** Francis Henry Skrine, Sir E. Denison Ross.2019-12-09 This book details the history of Russian Turkestan and the Central Asian Khanates, from their earliest times to the Russian occupation. It covers a wide range of topics, from the Bactrians and Parthians to the Mongol invasion of Central Asia and the struggle between Russia and the Khānates.

**The History of Central Asia** Christoph Baumer.2014-11-26 The Age of the Silk Roads (c 200 BC- c 900 AD) shaped the course of the future. The foundation by the Han dynasty of an extensive network of interlinking trade routes, collectively known as the Silk Road, led to an explosion of cultural and commercial transactions across Central Asia that had a profound impact on civilization. In this second volume of his authoritative history of the region, Christoph Baumer explores the unique flow of goods, peoples and ideas along the dusty tracks and wandering caravan routes that brought European and Mediterranean orbits into contact with Asia. The Silk Roads, the author shows, enabled the spread across the known world of Christianity, Manichaeism, Buddhism and Islam, just as earlier they had caused Roman citizens to crave the exotic silk goods of the mysterious Far East. Tracing the rise and fall of empires, this richly illustrated book charts the ebb and flow of epic history: the bitter rivalry of Rome and Parthia; the lucrative mercantile empire of the Sogdians; the founding of Samarkand; and Chinese defeat at the Battle of Talas (751 AD) by the forces of Islam.

**From the Khan's Oven** Eren Tasar,Allen J. Frank,Jeff Eden.2021-10-11 Spanning the history of Islamic Central Asia from medieval to modern times, this volume features groundbreaking studies of the region's religious life and culture by leading scholars in the field.

*The Empire of the Steppes* René Grousset.1970 .While the early history of the steppe nomad is shrouded in obscurity, *The Empire of the Steppes* brings both the general reader and the specialist the majestic sweep, grandeur and the overriding intellectual grasp of Grousset's original. Hailed as a masterpiece when first published in French in 1939, and in English in 1970, this great work of synthesis brings before us the people of the steppes, dominated by three mighty figures--Atilla, Genghiz Khan, and Tamberlain--as they marched through ten centuries of history, from the borders of China to the frontiers of the West. The book includes nineteen maps, a comprehensive index, notes, and bibliography. The late Rene Grousset was director of the Cernuschi Museum and curator of the Muse Guimet in Paris, a member of the French Academy and author of many works on Asia Minor and the Near East.

*History of Central Asia* Christoph Baumer.2018-08-30 For more than a hundred years, Central Asia was the heartland of the mightiest military power on the planet. But after the fragmentation of the all-conquering Mongol polity, the region began a steep decline which rendered this former domain of horse lords peripheral to world affairs. The process of deterioration reached its nadir in the second half of the nineteenth century, when the former territories and sweeping steppes of the great khans were overrun by Tsarist Russia. In the concluding volume of his acclaimed Central Asia quartet, Christoph Baumer shows how China in the east, and Russia in the northwest, succeeded in throwing off the Mongol yoke to become the masters of their own previous rulers. He suggests that, as traditional transcontinental trade routes declined in importance, it was the `Great Game' - or cold war between Imperial Russia and Great Britain - which finally brought Central Asia back into play as a region of strategic importance. This epic history concludes with an assessment of the transition to modern independence of the Central Asian states and their struggle to contain radical Islamism.

*The Rise and Fall of Khoqand, 1709-1876* Scott C. Levi.2017-12-22 This book analyzes how Central Asians actively engaged with the rapidly globalizing world of the eighteenth and nineteenth centuries. In presenting the first English-language history of the Khanate of Khoqand (1709-1876), Scott C. Levi examines the rise of that extraordinarily dynamic state in the Ferghana Valley. Levi reveals the many ways in which the Khanate's integration with globalizing forces shaped political, economic, demographic, and environmental developments in the region, and he illustrates how these same forces contributed to the downfall of Khoqand. To demonstrate the major historical significance of this vibrant state and region, too often relegated to the periphery of early modern Eurasian history, Levi applies a "connected history" methodology showing in great detail how Central Asians actively influenced policies among their larger imperial neighbors—notably tsarist Russia and Qing China. This original study will appeal to a wide interdisciplinary audience, including scholars and students of Central Asian, Russian, Middle Eastern, Chinese, and world history, as well as the study of comparative empire and the history of globalization.

*The Empire of the Qara Khitai in Eurasian History* Michal Biran.2008-06-19 The empire of the Qara Khitai, which was one of the least known and most fascinating dynasties in the history of Central Asia, existed for nearly a century before it was conquered by the Mongols in 1218. Arriving in Central Asia from China, the Qara Khitai ruled over a mostly Muslim population. Their history affords a unique window onto the extensive cross-cultural contacts between China, Inner Asian nomads and the Muslim world in the period preceding the rise of Chinggis Khan. Using an extensive corpus of Muslim and Chinese sources, Michal Biran comprehensively examines the political, institutional and cultural histories of the Qara Khitai. Her book explores a range of topics including the organization of the army, the position of women, the image of China in Muslim Central Asia,the religions of the Qara Khitai and the legacy they left for the Mongols. Crucially she asks why they did not, unlike their predecessors and successors in Central Asia, embrace Islam. The book represents a groundbreaking contribution to the field of Eurasian history for students of the Islamic world, China and Central Asia.

The Silk Roads, the author shows, enabled the spread across the known world of Christianity, Manichaeism, Buddhism and Islam, just as earlier they had caused Roman citizens to crave the exotic silk goods of the mysterious Far East. Tracing the rise and fall of empires, this richly illustrated book charts the ebb and flow of epic history: the bitter rivalry of Rome and Parthia; the lucrative mercantile empire of the Sogdians; the founding of Samarkand; and Chinese defeat at the Battle of Talas (751 AD) by the forces of Islam

**The History of Central Asia** Christoph Baumer.2016-05-30 Between the ninth and the fifteenth centuries, Central Asia was a major political, economic and cultural hub on the Eurasian continent. In the first half of the thirteenth century it was also the pre-eminent centre of power in the largest land-based empire the world has ever seen. This third volume of Christoph Baumer's extensively praised and lavishly illustrated new history of the region is above all a story of invasion, when tumultuous and often brutal conquest profoundly shaped the later history of the globe. The author explores the rise of Islam and the remarkable victories of the Arab armies which - inspired by their vital, austere and egalitarian desert faith - established important new dynasties like the Seljuks, Karakhanids and Ghaznavids. A golden age of artistic, literary and scientific innovation came to a sudden end when, between 1219 and 1260, Genghiz Khan and his successors overran the Chorasmian-Abbasid lands. Dr Baumer shows that the Mongol conquests, while shattering to their enemies, nevertheless resulted in much greater mercantile and cultural contact between Central Asia and Western Europe.
