Kinder. 1993-11 This comprehensive business law text which features briefed cases combines traditional business law coverage with solid treatment of regulatory topics. An easy-to-read style spares the students the impenetrable prose of other business law texts. Liberal use of flowcharts, diagrams, charts, briefed cases, and samples of legal instruments helps students learn. Cases are followed by insightful commentaries of sometimes controversial topics and present and analyze the actual political, economic, social, and ethical forces that caused the conflict. A new co-author, Robert J. Aalberts, has been added for the fourth edition. The revision has more chapter problems and 67 new cases. The chapter on bailments, which had been removed in the previous edition, has been returned to Part V on property. A unique new A Note to CPA Candidates at the end of every chapter provides invaluable insights and perspective on what the exam's emphasis and trends have been.
