50 Philosophy Ideas You Really Need to Know Ben Dupre.2013-10-01 Have you ever lain awake at night worried about how we can be sure of the reality of the external world? Perhaps we are in fact disembodied brains, floating in vats at the whim of some deranged puppetmaster. If so, you are not alone--and what's more, you are in exalted company--for this question and other ones like it have been the stuff of philosophical rumination from Plato to Popper. In a series of accessible and engagingly written essays, *50 Philosophy Ideas You Really Need to Know* introduces and explains the problems of knowledge, consciousness, identity, ethics, belief, justice, and aesthetics that have engaged the attention of thinkers from the era of the ancient Greeks to the present day.

Fellini: The Sixties (Turner Classic Movies) Manohar Bowman.2015-10-27 Style. Beauty. Passion. Vision. These are just a few of the words often used to describe the films of the single most celebrated director in Italy, and one of the most important directors the world has ever known—Federico Fellini. Fifty years since their initial releases, his films of the 1960's still inspire, shock and delight. More than just encapsulating the 1960's, these films also helped define the style of the decade. With a staggering twelve Academy Award nominations between his four feature films during this period, Fellini reached the heights of fame, film artistry, and worldwide prominence. Studied, analyzed and re-released over the years, these films continue to amaze each new generation that discovers them. Their impeccable style makes them timeless. Their images make them unforgettable. Their passion brings them to life. And their singular vision makes them unique in all of cinema. *Fellini: The Sixties* is a stunning photographic journey through the director's most iconic classics: *La Dolce Vita*, *8½*, *Juliet of the Spirits*, and *Fellini Satyricon*. Carefully selected imagery from the Independent Visions photographic archive, many published here for the first time, illuminate these films as they have never been seen before, and reveal fascinating details of the director's working style and ebullient personality. With more than 150 photographs struck from original negatives, these images spring to life from the page with the depth and quality of the films themselves. Complemented with insightful essays from contemporary writers, *Fellini: The Sixties* is a true testament to the man and his work, a remarkable compendium to the legendary filmmaker's greatest achievements.

[Napoli/New York/Hollywood](#) Giuliana Muscio.2018-10-30 This cinema history illuminates the role of

southern Italian performance traditions on American movies from the silent era to contemporary film. In *Napoli/New York/Hollywood*, Italian cinema historian Giuliana Muscio investigates the significant influence of Italian immigrant actors, musicians, and directors on Hollywood cinema. Using a provocative interdisciplinary approach, Muscio demonstrates how these artists and workers preserved their cultural and performance traditions, which led to innovations in the mode of production and in the use of media technologies. In doing so, she sheds light on the work of generations of artists, as well as the cultural evolution of “Italian-ness” in America over the past century. Muscio examines the careers of Italian performers steeped in an Italian theatrical culture that embraced high and low, tragedy and comedy, music, dance, acrobatics, naturalism, and improvisation. Their previously unexplored story—that of the Italian diaspora’s influence on American cinema—is here meticulously reconstructed through rich primary sources, deep archival research, extensive film analysis, and an enlightening series of interviews with heirs to these traditions, including Francis Coppola and his sister Talia Shire, John Turturro, Nancy Savoca, James Gandolfini, David Chase, Joe Dante, and Annabella Sciorra.

The Jung-White Letters Carl Gustav Jung, Ann Conrad Lammers, Adrian Cunningham. 2007 The Jung-White Letters charts fifteen years of correspondence between C. G. Jung and Victor White, an English Dominican priest and theologian. The dialogue between the two provides valuable insights into the development of Jung's thought, and the relationship between psychology and religion. Jung hoped that his correspondence with White would help him to reinterpret the classic Christian symbols and White sought Jung's support of his project to integrate analytical psychology into Catholic theology. Although both Jung and White were committed to a productive collaboration, the letters trace a trajectory toward a crisis of misunderstanding and betrayal, culminating in a sharpening of disagreements after publication of Jung's Answer to Job. The letters are presented with great attention to authenticity, and Jung's previously published letters have been restored to their original style. The text is helpfully annotated throughout with historical, literary and personal references. A wealth of editorial material is also included to set the letters in context, including an authoritative memoir of Victor White. Jung's engagement with White was an essential dialogue that contributed importantly to his late writings, forcing him to refine his critique of classical theology. This volume will be of great interest to all Jungian analysts, psychoanalysts and psychotherapists and anyone interested in investigating the complex relationship between analytical psychology and religion.

1848 Mike Rapport.2009-02-03 In 1848, a violent storm of revolutions ripped through Europe. The torrent all but swept away the conservative order that had kept peace on the continent since Napoleon's defeat at Waterloo in 1815—but which in many countries had also suppressed dreams of

national freedom. Political events so dramatic had not been seen in Europe since the French Revolution, and they would not be witnessed again until 1989, with the revolutions in Eastern and Central Europe. In 1848, historian Mike Rapport examines the roots of the ferment and then, with breathtaking pace, chronicles the explosive spread of violence across Europe. A vivid narrative of a complex chain of interconnected revolutions, 1848 tells the exhilarating story of Europe's violent "Spring of Nations" and traces its reverberations to the present day.

The Quotable Feynman Richard P. Feynman. 2015-09-29 A treasure-trove of illuminating and entertaining quotations from beloved physicist Richard P. Feynman Some people say, 'How can you live without knowing?' I do not know what they mean. I always live without knowing. That is easy. How you get to know is what I want to know.—Richard P. Feynman Nobel Prize-winning physicist Richard P. Feynman (1918–88) was that rarest of creatures—a towering scientific genius who could make himself understood by anyone and who became as famous for the wit and wisdom of his popular lectures and writings as for his fundamental contributions to science. The Quotable Feynman is a treasure-trove of this revered and beloved scientist's most profound, provocative,

humorous, and memorable quotations on a wide range of subjects. Carefully selected by Richard Feynman's daughter, Michelle Feynman, from his spoken and written legacy, including interviews, lectures, letters, articles, and books, the quotations are arranged under two dozen topics—from art, childhood, discovery, family, imagination, and humor to mathematics, politics, science, religion, and uncertainty. These brief passages—about 500 in all—vividly demonstrate Feynman's astonishing yet playful intelligence, and his almost constitutional inability to be anything other than unconventional, engaging, and inspiring. The result is a unique, illuminating, and enjoyable portrait of Feynman's life and thought that will be cherished by his fans at the same time that it provides an ideal introduction to Feynman for readers new to this intriguing and important thinker. The book features a foreword in which physicist Brian Cox pays tribute to Feynman and describes how his words reveal his particular genius, a piece in which cellist Yo-Yo Ma shares his memories of Feynman and reflects on his enduring appeal, and a personal preface by Michelle Feynman. It also includes some previously unpublished quotations, a chronology of Richard Feynman's life, some twenty photos of Feynman, and a section of memorable quotations about Feynman from other notable figures. Features: Approximately 500 quotations, some of them previously unpublished, arranged by topic A foreword by Brian Cox, reflections by Yo-Yo Ma, and a preface by Michelle Feynman A chronology of Feynman's life Some twenty photos of Feynman A section of quotations about Feynman from other notable figures Some notable quotations of Richard P. Feynman: The thing that doesn't fit is the most interesting. Thinking is nothing but talking to yourself inside. It is wonderful if you can find something you love to do in your youth which is big enough to sustain your interest through all your adult life. Because, whatever it is, if you do it well enough (and you will, if you truly love it), people will pay you to do what you want to do anyway. I'd hate to die twice. It's so boring.

Dream Larry Vigon.2005-10-01 In 1989, at the suggestion of his analyst, designer Larry Vigon began to record every dream he could remember. He wrote each into an 11 x 14-inch sketchbook, along with an acrylic painting inspired by the dream. The result, over time, is an astonishing body of work, represented by the selections in this beautiful full-size facsimile volume. After seeing advance materials for the book, a writer in *Graphis* magazine said it preserves the intimate presentation of the original warts-and-all artist's notebook with words scratched out in first-draft fashion, blobs of ink, traces of transferred paint throughout, all the glorious imperfections. Unmediated as it is, Vigon's work functions like a form of meditation. At the same time the quality of the painting is that of finished art, so we experience the journal as a kind of heightened sketchbook of the unconscious. 74 color illustrations.
