Cultural Entrenchment of Hindutva Daniela Berti,Nicolas Jaoul,Pralay Kanungo.2020-11-29 The book reflects on the discreet influence of Hindutva in situations/places outside or at the margins of its organisational and mobilisational arena, where people denying any commitment to the Sangh Parivar, incidentally, show affinities and parallelisms with its discourse and practice. This study looks at Hindutva's entrenchment not so much as an orchestration from above but more as an outcome of a process that evolves in relation to specific social and cultural milieus. The contributors analyse Hindutva's entrenchment, emphasising on the ethnography of the forms of mediation and/or convergence produced in certain contexts. The 11 case studies highlight three different dynamics of Hindutva's cultural entrenchment. The first section gathers cases where RSS-affiliated organisations have set up specific cultural or artistic programmes at the regional level, involving the meditation of local people whose interest in these programmes does not necessarily mean that they endorse the Hindutva agenda completely. The next deals with convergence and refers to cases where the followers gather around a charismatic personality, whose precepts and practice may bring them towards a closer affinity with the Hindutva programme. The last section deals with the contexts of resistance, where social milieus engaged in opposing Hindutva may, in fact, paradoxically, and even inadvertently, imbibe some of its ideas and practices in order to contest its claims.

Communism, Subaltern Studies and Postcolonial Theory Nissim Mannathukkaren.2021-08-05 This book is a thematic history of the communist

movement in Kerala, the first major region (in terms of population) in the world to democratically elect a communist government. It analyzes the nature of the transformation brought about by the communist movement in Kerala, and what its implications could be for other postcolonial societies. The volume engages with the key theoretical concepts in postcolonial theory and Subaltern Studies, and contributes to the debate between Marxism and postcolonial theory, especially its recent articulations. The volume presents a fresh empirical engagement with theoretical critiques of Subaltern Studies and postcolonial theory, in the context of their decades-long scholarship in India. It discusses important thematic moments in Kerala's communist history which include — the processes by which it established its hegemony, its cultural interventions, the institution of land reforms and workers' rights, and the democratic decentralization project, and, ultimately, communism's incomplete national-popular and its massive failures with regard to the caste question. A significant contribution to scholarship on democracy and modernity in the Global South, this volume will be of great interest to scholars and researchers of politics, specifically political theory, democracy and political participation, political sociology, development studies, postcolonial theory, Subaltern Studies, Global South Studies, and South Asia Studies.

Il diritto dei popoli John Rawls.2024-02-23T00:00:00+01:00 Libertà e indipendenza dei popoli, diritto all'autodifesa, rispetto dei diritti umani, dovere di assistenza nei confronti di popoli in difficoltà: i temi affrontati da Rawls ne Il diritto dei popoli sono di drammatica attualità nella crisi internazionale che stiamo vivendo. In questo volume l'autore sostiene una particolare concezione della giustizia che dovrebbe essere a fondamento delle norme del diritto internazionale. Stabilisce dunque i principi generali che possono e devono essere accettati dalle società liberali e non liberali come standard per regolare il loro comportamento reciproco. Rawls parla di popoli, e non di stati, considerando il popolo come unità politica di base e rimarcando, con questo, il primato degli aspetti etico-politici rispetto al modello di potere e sovranità legato allo Stato.

Kerala A Journey in Time Part II George Abraham Pottamkulam.2021-06-11 The book is a compilation of history more from the social perspective over the years written without any ideological baggage or political agenda for anyone who is interested in the history of Cochin and Central Kerala and its evolution. The book also briefly covers the geography of Kerala, literature, customs, culture, and religion. Kerala's culture is a composite and cosmopolitan culture to which several people and races have made their significant contributions. In fact, the secret of the vitality and strength of the culture lies upon its composite culture. It was not just spices, but also a whole lot of natural commodities such as medicinal herbs, grains, wood and leather which made this land so precious to the west. The history of ancient Roman trade with Kerala; before Christ [b.c] and after [a.d] was referenced when Pliny famously remarked upon the drain of gold from Rome in 79 C.E., and large quantities of Roman coins were found during excavations in southern India.

NGOs in India R. Sooryamoorthy,K. D. Gangrade.2001-07-30 Focusing on NGOs that work in the areas of rural development, women, and children, the authors' goal is to shed light on the contributions of the sector in the spheres of social welfare, empowerment, service, and rural development. In

addition, the problems and difficulties experienced by NGOs are analyzed and explained. They then focus on partnerships and cooperation between NGOs and the government, advocacy and policy implications of NGO activity, accountability within organizations, approaches to problems and delivery of services, NGO life cycles, and the need for a code of ethics within NGOs. Case studies on NGOs designed to assist women, children, and rural development are presented and discussed in the context of development in general and improving the quality of life for all Indian citizens. This careful and comprehensive examination is a unique addition to a growing field of literature on India.

Treading the Beaten Path Dr Fazal Ghafoor.2021-04-21 Treading the Beaten Path is a rereading of history through the review and critical analysis of fifty books. It is an in-depth analysis of major events that shaped the history of contemporary India. Amongst authors are B R Ambedkar, Rajdeep Sardesai Jai Ram Ramesh, Ramachandra Guha, Kuldip Nayyar, Zoya Hassan and a host of others. Major epochs in history like the Mughal period, Partition of India, the Emergency, Operation Blue Star etc. are included. The biographies of Sheik Abdulla, Feroze Gandhi and critical studies on S C Bose, Nehru and Gandhi form a part. Epochs of history include the partition of Bengal and Andhra Pradesh. A look at the two-part defense of Hinduism by Shashi Tharoor is a highlight. An evaluation of the Communist, Hindutva and Mandal movements is undertaken. On a lighter vein the biographies of Mohamed Rafi, Kishore Kumar and Sahir Ludhianvi are explored. The reviews have a personal touch as the author has thought out of the box to add his opinion to many a contentious issue at hand. In that sense it is not a review but a critical narrative with the book acting only as a template with the discussion many a time spilling beyond the confines of it.

Water Governance and Civil Society Responses in South Asia N. C. Narayanan,S. Parasuraman,Rajindra Ariyabandu.2018-10-24 This book addresses paradigm shifts in water policy and governance, and examines the role of civil society organizations in influencing public policy, while focusing on social equity and democratic participation. It illustrates a range of interesting developments in policy formulation, donor-state nexus, and interventions by civil society and voluntary organizations. The collection of articles provides a comprehensive and current narrative of the state-society relations in South Asia under neoliberal governance reforms, their implications and key responses with regard to water policies. Using case studies, it closely investigates the impact, effectiveness, drawbacks and challenges faced by voluntary organizations and social movements working at various levels in the water sector. The work will interest researchers and students of development studies, environmental studies, natural resource management, water governance, and public administration, as also water sector professionals, policymakers, civil society activists and governmental and non-governmental organizations.

Violence against Women and Girls Sangeeta Rege,Padma Bhate-Deosthali,T K Sundari Ravindran.2020-05-27 This book discusses the pervasiveness of violence against women (VAW) in India and traces its evolution as a public health concern. It highlights the fundamental relationship between health and violence and identifies institutional gaps, which hinder comprehensive healthcare and support to VAW survivors. The volume brings together in-depth case studies from various states and civil society organisations on their initiatives to help bring adequate support and health services to women affected by VAW. These include engagement with hospitals to increase awareness and sensitivity among health service providers and community-run health clinics for marginalised women. The book documents the mobilising efforts of feminists, community-based organisations, state institutions, and CSOs in developing comprehensive healthcare responses and bringing violence against women into the public health discourse. It provides insights into the lack of guidelines for responding to sexual violence in medical and nursing education, and the way that the

police and the justice system function in India. This book will be of interest to public health professionals, and students and researchers in public health, gender studies, social work, and sociology. It will also be useful for policymakers and for professionals working for thinktanks or CSOs working on developing health system responses to VAW.

The Political Lives of Information Janaki Srinivasan. 2022-10-04 How the definition, production, and leveraging of information are shaped by caste, class, and gender, and the implications for development. Information, says Janaki Srinivasan, has fundamentally reshaped development discourse and practice. In this study, she examines the history of the idea of “information” and its political implications for poverty alleviation. She presents three cases in India—the circulation of price information in a fish market in Kerala, government information in information kiosks operated by a nonprofit in Puducherry, and a political campaign demanding a right to information in Rajasthan—to explore three uses of information to support goals of social change. Countering claims that information is naturally and universally empowering, Srinivasan shows how the definition, production, and leveraging of information are shaped by caste, class, and gender. Srinivasan draws on archival and ethnographic research to challenge the idea of information as objective and factual. Using the concept of an “information order,” she examines how the meaning and value of information reflect the social relations in which it is embedded. She asks why casting information as a tool of development and solution to poverty appeals to actors across the political spectrum. She also shows how the power to label some things information and others not is at least as significant as the capacity to subsequently produce, access, and leverage information. The more faith we place in what information can do, she cautions, the less attention we pay to its political lives and to the role of specific social structures, individual agency, and material form in the defining, production, and use of that information.

Political Campaigning in Digital India Anil M. Varughese, Holli A. Semetko. 2024-06-28 This book provides a conceptual toolkit to understand the changing technologies and dynamics of political campaigning in India. Examining political campaigning and party strategies across many Indian states, with special attention to regional politics, histories, cultures, social and technological contexts, the book discusses the potential impacts of campaign strategies on electoral outcomes. Political campaigning reached a tipping point with millions of social media users engaging online with family and friends, political issues, parties and candidates in India’s 2019 parliamentary election. Although India’s political parties had been working with consultants and professional advertising agencies for decades, by 2019, millions of first-time voters as well as older voters were microtargeted with campaign messaging by parties and their affiliates, including frequent misinformation from unknown sources supporting one party or another. Filling a key gap in political communication research on election campaigns in digital India, the chapters in this book capture how political campaigning is important for the electoral fortunes of political parties in India’s diverse regions and states. This book will appeal to students, scholars, and practitioners in political communication, public administration, and political consulting, as well as anyone interested in data-driven political campaigning. It will also be an invaluable reading for those interested in South Asian studies. This book was originally published as a special issue of *South Asian History and Culture*.

Water Resource Management in South Asia Anjal Prakash.2022-05-29 This cluster of books presents innovative and nuanced knowledge on water resources, based on detailed case studies from South Asia—India, Bangladesh, Bhutan, Nepal, Pakistan, and Sri Lanka. In providing comprehensive analyses of the existing economic, demographic and ideological contexts in which water policies are framed and implemented, the volumes argue for alternative, informed and integrated approaches towards efficient management and equitable distribution of water. These also explore the globalization of water governance in the region, particularly in relation to new paradigms of neoliberalism, civil society participation, integrated water resource management (IWRM), public-private partnerships, privatization, and gender mainstreaming. These volumes will be indispensable for scholars and students of development studies, environmental studies, natural resource management, governance and public administration, particularly those working on water resources in South Asia. They will also be useful for policymakers and governmental and non-governmental organizations.

Cordial Cold War Bajpai, Anandita.2021-10-01 Cordial Cold War examines cultural entanglements, in various forms, between two distant yet interconnected sites of the Cold War—India and the German Democratic Republic (GDR). Focusing on theatre performances, film festivals, newsreels, travel literature, radio broadcasting, cartography and art as sites of engagement, the chapters spotlight spaces of interaction that emerged in spite of, and within, the ambits of Cold War constraints. The inter-disciplinary collection sheds light on the variegated nature of translocal cultural entanglements, at work even before the GDR was officially recognized as a sovereign state by India in 1972. By foregrounding the role of actors, their practices and the sites of their entanglement, the contributions show how creative energies were mobilized to forge zones of friendship, mutual interest and envisioned solidarities. This volume situates actors from the Global South as mutual co-shapers of the cultural Cold War, therein shifting its Euro-American and Soviet epicenters to Non-Aligned India. Going beyond official state channels of international political dialogue, it locates cordiality in the micro-histories and everyday experiences of interpersonal engagements, bringing to focus a hitherto underexplored chapter of India-Germany entanglements.

Pteridology in the New Millennium S. Chandra,M. Srivastava.2013-04-17 The National Botanical Research Institute came into being as the 13th among a chain of National Laboratories established during April, 1953 under the Council of Scientific and Industrial Research by the Govt. of India for advanced research in fields of specialisation which have a direct bearing on socio-economic, industrial and scientific advancement of the nation. Christened initially as National Botanic Gardens, the nucleus around which the institution took shape under its founder- Director Late Prof. K. N. Kaul, was a large herbarium of Indian flora and a centu- old botanical garden spread over 35 ha of land on the banks of River Gomti in the heart of Lucknow city. It's a matter of great pleasure and profound satisfaction to me that a Golden Jubilee volume entitled, "Pteridology in the New Millennium" is being published and released during the Golden Jubilee year of NBRI in the honour of Professor B. K. Nayar who laid the foundation of the Pteridology Laboratory of the NBRI, which is now a well equipped laboratory for the study of Indian pteridophytes. Professor Nayar is a holistic Botanist as evident through his contributions and publications in almost all the areas of study of Pteridophyta. The contribution of Professor Nayar towards the development of modern Pteridology and the role of NBRI in it is indeed great and very important. His publications will be valuable for the younger generation of scientists in the field as well as for the more mature research workers and teachers.

Social Spaces and the Public Sphere S. Harikrishnan.2022-11-25 What can social spaces tell us about social relations in society? How do everyday social spaces like teashops, reading rooms, and libraries reify—or subvert—dominant social structures like caste and gender? These are the questions that this book explores through a study of modern Kerala. Using archival material, discourse analysis, participant observation, and personal interviews, this book traces the transformation of public spaces through the nineteenth and twentieth centuries. The volume focuses on how modernity has also been a struggle for access to public spaces, and non-institutional spaces like teashops, markets, public roads, temple grounds, reading rooms, and libraries have all been crucial to how political culture was shaped, and how dominant hegemonies—caste, class, or capital—have been challenged. It suggests that the secular public sphere that emerged in the last century in Kerala was a result of the constant negotiations between conflicting ideas which were put to test in these social spaces. At a time when digital spaces are fast replacing physical ones, this book is a timely reminder of the struggles that led to the emergence of secular public spaces in Kerala. It contributes to similar studies on public space that have emerged from other parts of the world over the last decades. A major contribution to understanding modern India, this book will be of interest to scholars and researchers of social history, political science, political sociology, gender studies, linguistics, and South Asian studies.

You can also borrow books through their mobile app called Libby. eReaderIQ may look like your typical free eBook site but they actually have a lot of extra features that make it a go-to place when you're looking for free Kindle books. Besides, things have become really convenient nowadays with the digitization of books like, eBook apps on smartphones, laptops or the specially designed eBook devices (Kindle) that can be carried along while you are travelling. So, the only thing that remains is downloading your favorite eBook that keeps you hooked on to it for hours alone and what better than a free eBook? While there thousands of eBooks available to download online including the ones that you to purchase, there are many websites that offer free eBooks to

download. From romance to mystery to drama, this website is a good source for all sorts of free e-books. When you're making a selection, you can go through reviews and ratings for each book. If you're looking for a wide variety of books in various categories, check out this site. Because this site is dedicated to free books, there's none of the hassle you get with filtering out paid-for content on Amazon or Google Play Books. We also love the fact that all the site's genres are presented on the homepage, so you don't have to waste time trawling through menus. Unlike the bigger stores, Free-Ebooks.net also lets you sort results by publication date, popularity, or rating, helping you avoid the weaker titles that will inevitably find their way onto open publishing platforms (though a book has to be really quite poor to receive less than four stars). Sacred Texts contains the web's largest collection of free books about religion, mythology, folklore and the esoteric in general.
