Clean Your House and Everything in It Eugenia Chapman,Jill C. Major.1982-01-01

DIY Household Green Cleaning - A Eco-Friendly Beginner's Guide To Cleaning Your Household FAST! Old Natural Ways.2018-11-19 WHY YOU SHOULD GREEN CLEAN? AMAZING ADDED VALUE TO YOUR CLEANING EXPERIENCE Nothing is more important to this planet than finding alternatives to chemicals and practices that are harming it. Sometimes it is helpful to think of the earth as a living cell, one that we are living on. Once the cell dies, what do you think will happen to the other things inhabiting it? Not a pretty picture. Being environmental isn't just good for humanity at large, but it's great for the animals, our health, and sometimes even more importantly, our budgets. Discovering new ways to clean the house may even eliminate allergens that you didn't know your body was reacting to. For example, if you switch from a chemical based spray to aromatic oils to keep your home smelling fresh, you may stop sneezing on a regular basis. It can really work! Even if you're not outwardly allergic to chemicals, using big brand cleaners is a seriously unhealthy choice. Even if it doesn't look like your health is suffering, the way your cells are changed because of chemical interference is something that hasn't been tested sufficiently. Big businesses don't care about our health - they care about the fact that we, as consumers, have a need. If they claim to have a product that will satisfy that need, then they will make money. Consumer health is nothing compared to a paycheck! So if you care about your health, the environment, and your budget, switching to green cleaning products is the choice for you! Using this book, learn all the best ways to clean your house the right way, instead of putting yourself at risk with a chemical cocktail you may never recover from. Let's get started!

House Cleaning Guide Angela Pierce.2014-12-16 Housecleaning might be a very daunting task if you look at it in the whole entirety of it, especially if your house is quite big with many rooms to clean. Wouldn't it be better to leave it up to your housekeeper or someone else more capable of doing so? Yes, that would be possible but what if the task fell upon you to complete and there's no getting around it? Then you better suit up, cleaning clothes I mean, and read up on these tips and tricks on proper housekeeping and how to effectively clean your house in a jiffy.

The Lost Art of JAN M. DOUGHERTY.2011-03 Yes! you really can clean your house and everything in it using just 3 products and it will cost you about \$20 per year. I have owned a residential cleaning company since 2004 and this book actually started life as my employees' handbook. Since this book was first published not much has changed. Dirt is still dirty and whether or not you want to clean your home, it still has to be cleaned. Most people hate to clean simply because they don't know how to do it, they were never taught. Were you actually taught how to clean? Probably not, but that's not your fault. Do you want to learn how to do it, like a professional, using minimal products and saving a bucket of money on cleaning supplies? If you do, then buy my book. First, I will send you to the store with a short shopping list; I will explain why I use each product and then how to use each product or tool, which by the way isn't much. I will then explain the logic behind my method of cleaning, called The PATH and then I will literally walk you through cleaning the different rooms in your house. The beauty of The PATH is that you can start and stop a cleaning job in any room and not lose your place. Just pick up where you left off and continue until the room is clean. So go answer the phone or change the baby. I only use 3 readily available products in both my business and in my house to clean everything. No more need for window, floor, counter, toilet, sink, tub, shower and mirror cleaners. No more polishes, waxes or air fresheners. Just think about how much you spend a year on cleaning products? Go ahead, I'll wait while you look under your sinks and calculate that. More than \$20.00 per year? If you are spending more than that you need my book. Everyone that embraces my methodology has a cleaner home, extra money to spend on the important things and the time to enjoy them. I have a website; *The Lost Art of House Cleaning.com* where I have uploaded a number of videos demonstrating my methodology and posted numerous articles on cleaning particular things. I have read all the reviews posted about my book on Amazon and I found the vast majority to be very complimentary. I have also found that some of the harshest critics still recognized that my methodology works. In addition to the Amazon reviews I have personally received comments and compliments directly from the people that have bought my book. And I know that what I say in my book has helped thousands realize that cleaning their home is not all it's cracked to be if you know what you are doing. So buy my book, read it the first time for entertainment then read it a second time for inspiration and then, Enjoy the Clean! Thanks,Jan M Dougherty

The Naturally Clean Home, 3rd Edition Karyn Siegel-Maier.2021-03-30 In this updated edition of her best-selling book, The Naturally Clean Home, Karyn Siegel-Maier brings together the formulas for home cleaning solutions that readers have trusted for years with new information and ingredients updated to today's green standards. A new introduction shines a light on the antiseptic properties of essential oils, addressing different grades of oil and their effectiveness against bacteria and viruses, as well as updated safety precautions and cost. Updated recipes eliminate Borax (banned as a food additive in the US and from cosmetic and cleaning products in the EU) from ingredient lists, replacing it with safe substitutes that include citric acid powder, hydrogen peroxide, diatomaceous earth, cornstarch, washing soda, and baking soda. New recipes show readers how to make easy, nontoxic, environmentally friendly substitutes for popular cleaning products, including molded laundry and dishwasher tablets. Packaging updates emphasize the use of glass containers for homemade cleaning products, to diminish environmental impact of plastic waste.

With a collection of more than 45,000 free e-books, Project Gutenberg is a volunteer effort to create and share e-books online. No registration or fee is required, and books are available in ePub, Kindle, HTML, and simple text formats. Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs. Project Gutenberg is a wonderful source of free ebooks - particularly for academic work. However, it uses US copyright law, which isn't universal; some books listed as public domain might still be in copyright in other countries. RightsDirect explains the situation in more detail. If you already know what you are looking for, search the database by author name, title, language, or subjects. You can also check out the top 100 list to see what other people have been downloading. eBooks Habit promises to feed your free eBooks addiction with multiple posts every day that summarizes the free kindle books available.
