A Short History of Florence and the Florentine Republic Brian Jeffrey Maxson.2023-02-23 The innovative city culture of Florence was the crucible within which Renaissance ideas first caught fire. With its soaring cathedral dome and its classically-inspired palaces and piazzas, it is perhaps the finest single expression of a society that is still at its heart an urban one. For, as Brian Jeffrey

Maxson reveals, it is above all the city-state - the walled commune which became the chief driver of European commerce, culture, banking and art - that is medieval Italy's enduring legacy to the present. Charting the transition of Florence from an obscure Guelph republic to a regional superpower in which the glittering court of Lorenzo the Magnificent became the pride and envy of the continent, the author authoritatively discusses a city that looked to the past for ideas even as it articulated a novel creativity. Uncovering passionate dispute and intrigue, Maxson sheds fresh light too on seminal events like the fiery end of oratorical firebrand Savonarola and Giuliano de' Medici's brutal murder by the rival Pazzi family. This book shows why Florence, harbinger and heartland of the Renaissance, is and has always been unique.

Thucydides, Pericles, and the Idea of Athens in the Peloponnesian War Martha Taylor.2009-10-26
Thucydides, Pericles, and the Idea of Athens in the Peloponnesian War is the first comprehensive study of Thucydides' presentation of Pericles' radical redefinition of the city of Athens during the Peloponnesian War. Martha Taylor argues that Thucydides subtly critiques Pericles' vision of Athens as a city divorced from the territory of Attica and focused, instead, on the sea and the empire. Thucydides shows that Pericles' reconceptualization of the city led the Athenians both to Melos and to Sicily. Toward the end of his work, Thucydides demonstrates that flexible thinking about the city

exacerbated the Athenians' civil war. Providing a thorough critique and analysis of Thucydides' neglected book 8, Taylor shows that Thucydides praises political compromise centered around the traditional city in Attica. In doing so, he implicitly censures both Pericles and the Athenian imperial project itself.

Measuring Wellbeing Giovanni Vecchi.2017-01-13 In 150 years Italy transformed itself from a poor and backward country into one where living standards are among the highest in the world. In Measuring Wellbeing, Giovanni Vecchi provides an innovative analysis of this change by drawing on family accounts that provide engaging insights into life and are the micro data that create the foundations for the macro picture of variations and fluctuations in the development of Italy. Vecchi provides a nuanced account of the changes. He emphasizes that the concept of wellbeing is multidimensional and must include non-monetary aspects of life: nutrition, health and education, as well as less tangible elements such as freedom or the possibility to exercise one's political rights. The book deals with this polyhedral nature of wellbeing. Among the insights are that Italians succeeded in combining growth with equity, but that the gap between the North and South did not narrow; the while longevity has increased, education has not improved as much as it could have; and that for close to three decades, Italy's virtuous path has come to a halt: the wellbeing of the Italian people is at the crossroads between progress and decline. Measuring Wellbeing engagingly combines a unique dataset and an innovative statistical method that can be adapted to other countries.

Money and Banking in Medieval and Renaissance Venice Frederic Chapin Lane,Reinhold C. Mueller.2020-03-24 Originally published in 1985. Frederic C. Lane and Reinhold C. Mueller, in the first volume of Money and Banking in Medieval and Renaissance Venice, discuss Venice's economic

achievement in terms of the complex system the city's inhabitants developed to manage moneys of account and coins. Money merchants of Venice developed a system whereby a premium attached to moneys of account acted as a stabilizing force and allowed merchants to engage in long-term trade. This system, according to the authors, helped establish Venice as a dominant city-state in international trade and exchange. This book outlines the development and success of this system through 1508. At the time it was first published, this book made a significant contribution to the history of money and economics by underscoring the large role that Venice played in the economic history of the West and the ascendance of capitalism as a structuring force of society.

Sensing the Nation's Law Stefan Huygebaert,Angela Condello,Sarah Marusek,Mark Antaki.2018-03-22 This book examines how the nation - and its (fundamental) law - are 'sensed' by way of various aesthetic forms from the age of revolution up until our age of contested democratic legitimacy. Contemporary democratic legitimacy is tied, among other things, to consent, to representation, to the identity of ruler and ruled, and, of course, to legality and the legal forms through which democracy is structured. This book expands the ways in which we can understand and appreciate democratic legitimacy. If (democratic) communities are "imagined" this book suggests that their "rightfulness" must be "sensed" - analogously to the need for justice not only to be done, but to be seen to be done. This book brings together legal, historical and philosophical perspectives on the representation and iconography of the nation in the European, North American and Australian contexts from contributors in law, political science, history, art history and philosophy.

Food Hygiene and Applied Food Microbiology in an Anthropological Cross Cultural Perspective

Aleardo Zaccaro, Eleonora Palmaccio, Morgan Venable, Isabella Locarnini-Sciaroni, Salvatore Parisi. 2016-11-02 The book demonstrates that food safety is a multidisciplinary scientific discipline that is specifically designed to prevent foodborne illness to consumers. It is generally assumed to be an axiom by both nonprofessionals and professionals alike, that the most developed countries, through their intricate and complex standards, formal trainings and inspections, are always capable of providing much safer food items and beverages to consumers as opposed to the lesser developed countries and regions of the world. Clearly, the available data regarding the morbidity and the mortality in different areas of the world confirms that in developing countries, the prevalence and the incidence of presumptive foodborne illness is much greater. However, other factors need to be taken into consideration in this overall picture: First of all, one of the key issues in developing countries appears to be the availability of safe drinking water, a key element in any food safety strategy. Second, the availability of healthcare facilities, care providers, and medicines in different parts of the world makes the consequences of foodborne illness much more important and life threatening in lesser developed countries than in most developed countries. It would be therefore ethnocentric and rather simplistic to state that the margin of improvement in food safety is only directly proportional to the level of development of the society or to the level of complexity of any given national or international standard. Besides standards and regulations, humans as a whole have evolved and adapted different strategies to provide and to ensure food and water safety according to their cultural and historical backgrounds. Our goal is to discuss and to compare these strategies in a cross-cultural and technical approach, according to the realities of different socio-economic, ethnical and social heritages.

Antiquities in Motion Barbara Furlotti. 2019-06-18 An exciting new approach to understand the

trade of antiquities in early modern Rome traces the journey of objects from discovery to display. Barbara Furlotti presents a dynamic interpretation of the early modern market for antiquities, relying on the innovative notion of archaeological finds as mobile items. She reconstructs the journey of ancient objects from digging sites to venues where they were sold, such as Roman marketplaces and antiquarians' storage spaces; to sculptors' workshops, where they were restored; and to Italian and other European collections, where they arrived after complicated and costly travel over land and sea. She shifts the attention away from collectors to peasants with shovels, dealers and middlemen, and restorers who unearthed, cleaned up, and repaired or remade objects, recuperating the role these actors played in Rome's socioeconomic structure. Furlotti also examines the changes in economic value, meaning, and appearance that antiquities underwent as they moved throughout their journeys and as they reached the locations in which they were displayed. Drawing on vast unpublished archival material, she offers answers to novel questions: How were antiquities excavated? How and where were they traded? How were laws about the ownership of ancient finds made, followed, and evaded?

Sketches of the History of Christian Art Sir Coutts Lindsay (bart.).1885

Polybius, Rome and the Hellenistic World Frank W. Walbank.2002-09-05 This volume contains nineteen of the more important of Frank Walbank's essays on Polybius and is prefaced by a critical discussion of the main aspects of work done on that author. Several of these essays deal with specific historical problems for which Polybius is a major source. Five deal with Polybius as an historian and three with his attitude towards Rome; one of these raises the question of 'treason' in relation to Polybius and Josephus. Finally, two papers discuss Polybius' later fortunes - in England up to the time of John Dryden and in twentieth-century Italy in the work of Gaetano de Sanctis. Several

of these essays originally appeared in journals and collections not always easily accessible, and all students of the ancient Mediterranean world will welcome their assembly within a single volume.

The Papacy: Quietism-Zouaves, Pontifical Philippe Levillain, John W. O'Malley. 2002

The Italian principia. Pt.i. A first Italian course, on the plan of W. Smith's 'Principia Latina'. Pt.ii. A first Italian reading book Luigi Ricci. 1883

Byzantium, Venice and the Medieval Adriatic Magdalena Skoblar. 2021-04-15 The Adriatic has long occupied a liminal position between different cultures, languages and faiths. This book offers the first synthesis of its history between the seventh and the mid-fifteenth century, a period coinciding with the existence of the Byzantine Empire which, as heir to the Roman Empire, lay claim to the region. The period also saw the rise of Venice and it is important to understand the conditions which would lead to her dominance in the late Middle Ages. An international team of historians and archaeologists examines trade, administration and cultural exchange between the Adriatic and Byzantium but also within the region itself, and makes more widely known much previously scattered and localised research and the results of archaeological excavations in both Italy and Croatia. Their bold interpretations offer many stimulating ideas for rethinking the entire history of the Mediterranean during the period.

The Pontificate of Clement VII Sheryl E. Reiss. 2017-03-02 The pontificate of Clement VII (Giulio de' Medici) is usually regarded as amongst the most disastrous in history, and the pontiff characterized as timid, vacillating, and avaricious. It was during his years as pope (1523-34) that England broke away from the Catholic Church, and relations with the Holy Roman Emperor deteriorated to such a degree that in 1527 an Imperial army sacked Rome and imprisoned the pontiff. Given these spectacular political and military failures, it is perhaps unsurprising that

Clement has often elicited the scorn of historians, rather than balanced and dispassionate analysis. This interdisciplinary volume, the first on the subject, constitutes a major step forward in our understanding of Clement VII's pontificate. Looking beyond Clement's well-known failures, and anachronistic comparisons with more 'successful' popes, it provides a fascinating insight into one of the most pivotal periods of papal and European history. Drawing on long-neglected sources, as rich as they are abundant, the contributors address a wide variety of important aspects of Clement's pontificate, re-assessing his character, familial and personal relations, political strategies, and cultural patronage, as well as exploring broader issues including the impact of the Sack of Rome, and religious renewal and reform in the pre-Tridentine period. Taken together, the essays collected here provide the most expansive and nuanced portrayal yet offered of Clement as pope, patron, and politician. In reconsidering the politics and emphasizing the cultural vitality of the period, the collection provides fresh and much-needed revision to our understanding of Clement VII's pontificate and its critical impact on the history of the papacy and Renaissance Europe.

The Bishop's Burden Celeste McNamara.2020-08-14 In 1563, the Council of Trent published its Decrees, calling for significant reforms of the Catholic Church in response to criticism from both Protestants and Catholics alike. Bishops, according to the Decrees, would take the lead in implementing these reforms. They were tasked with creating a Church in which priests and laity were well educated, morally upright, and focused on worshipping God. Unfortunately for these bishops, the Decrees provided few practical suggestions for achieving the wide-ranging changes demanded. Reform was therefore an arduous and complex process, which many bishops struggled to accomplish or even refused to undertake fully. The Bishop's Burden argues that reforming bishops were forced to be creative and resourceful to accomplish meaningful change, including creating strong diocesan governments, reforming clerical and lay behavior, educating priests and parishioners, and converting non-believers. The book explores this issue through a detailed case study of the episcopacy of Cardinal-Bishop Gregorio Barbarigo of Padua (bp. 1664-1697), asking how a dedicated bishop formulated a reform program that sought to achieve the Church's goals. Barbarigo, like other reforming bishops, borrowed strategies from a variety of sources in the

absence of clear guidance from Rome. He looked to both pre- and post-Tridentine bishops, the Society of Jesus, the Venetian government, and the Propaganda Fide, which he selectively emulated to address the problems he discovered in Padua. The book is based primarily on the detailed records of Barbarigo's visitations of rural parishes and captures the rarely-heard voices of seventeenth-century Italian peasants. The Bishop's Burden helps us understand not only the changes experienced by early modern Catholics, but also how even the most sophisticated plans of central authorities could be frustrated by practical realities, which in turn complicates our understanding of state-building and social control.

Union List of Serials in Libraries of the United States and Canada Winifred Gregory

Gerould, Harry Miller Lydenberg, Daniel Carl Haskell. 1927

Napoleon III and Europe Yong Zhou. 2013-10-22 Napoleon III and Europe investigates, outside the field of France's own political development, those positive changes in the organization of Europe and the world which Napoleon III effected. It examines Napoleon III's attitude towards the so-called nationality principle with regards to the Balkans, and the attention he gave to the fate of the Christian nations in European Turkey. Napoleon's role in the unification of Italy is also discussed. Comprised of 10 chapters, this book begins with an analysis of Napoleon's Balkan policy in relation to the Ottoman Empire, as well as his attitude towards the principalities of Moldavia and Wallachia. The two areas of Europe in which the problem of nationality was most acute and complex are considered, namely, the empires of the Hapsburgs and the Turks. Attention then turns to Napoleon's policy towards Italy and its unification. The process of Italian unification is discussed in relation to European politics during Napoleon III's reign. Napoleon's foreign policy on Europe and the diplomatic actions of German Chancellor Otto von Bismarck are also examined, along with his

contributions to the development of European politics and culture. The final chapter is a selective bibliography of Europe between 1852 and 1890. This monograph will appeal to historians and political scientists.

Italian Mobilities Ruth Ben-Ghiat, Stephanie Malia Hom. 2015-07-24 The Italian nation-state has been defined by practices of mobility. Tourists have flowed in from the era of the Grand Tour to the present, and Italians flowed out in massive numbers in the late 19th and early 20th centuries: Italians made up the largest voluntary emigration in recorded world history. As a bridge from Africa to Europe, Italy has more recently been a destination of choice for immigrants whose tragic stories of shipwreck and confinement are often in the news. This first-of-its-kind edited volume offers a critical accounting of those histories and practices, shedding new light on modern Italy as a flashpoint for mobilities as they relate to nationalism, imperialism, globalization, and consumer, leisure, and labor practices. The book's eight essays reveal how a country often appreciated for what seems immutable - its classical and Renaissance patrimony - has in fact been shaped by movement and transit.

Storia 1 Introduction

In the digital age, access to information has become easier than ever before. The ability to download Storia 1 has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Storia 1 has opened up a world of possibilities. Downloading Storia 1 provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Storia 1 has democratized knowledge. Traditional books and academic

journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Storia 1. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Storia 1. Some websites may offer pirated or illegally obtained copies of

copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Storia 1, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Storia 1 has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical

downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Storia 1 Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility.

Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Storia 1 is one of the best book in our library for free trial. We provide copy of Storia 1 in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Storia 1. Where to download Storia 1 online for free? Are you looking for Storia 1 PDF? This is definitely going to save you time and cash in something you should think about. If you trying to find then

search around for online. Without a doubt there are numerous these available and many of them have the freedom. However without doubt you receive whatever you purchase. An alternate way to get ideas is always to check another Storia 1. This method for see exactly what may be included and adopt these ideas to your book.
