Music in Seventeenth-Century Naples Dinko Fabris.2017-07-05 The most important figure of seventeenth-century Neapolitan music, Francesco Provenzale (1624-1704) spent his long life in the service of a number of Neapolitan conservatories and churches, culminating in his appointment as maestro of the Tesoro di S. Gennaro and the Real Cappella. Provenzale was successful in generating significant profit from a range of musical activities promoted by him with the participation of his pupils and trusted collaborators. Dinko Fabris draws on newly discovered archival documents to reconstruct the career of a musician who became the leader of his musical world, despite his relatively small musical output. The book examines Provenzale's surviving works alongside those of his most important Neapolitan contemporaries (Raimo Di Bartolo, Sabino, Salvatore and Caresana) and pupils (Fago, Greco, Veneziano and many others), revealing both stylistic similarities and differences, particularly in terms of new harmonic practices and the use of Neapolitan language in opera. Fabris provides both a life and works study of Provenzale and a conspectus of Neapolitan musical life of the seventeenth century which so clearly laid the groundwork for Naples' later status as one of the great musical capitals of Europe.

Giovanni Stefani's Song Anthologies Cory M. Gavito.2020-01-01 The three song anthologies of Giovanni Stefani survive as the most abundantly printed seventeenth-century songbooks with the chordal notation of the guitar known in Italy as alfabeto. Printed in multiple editions from 1618 to 1626, Stefani's books anthologize nearly one hundred songs, many of which appear copied in numerous other manuscripts, attesting to their widespread appeal in early modern Italy. While

beginners will be drawn to their simplicity, experienced performers will delight in the improvisational opportunities made available by songs built on the spagnoletta, folia, ciaccona, and romanesca. This edition brings together for the first time all three of Stefani's anthologies in modern transcription, allowing performers to play either from the original alfabeto notation or from a modern realization, given both in modern guitar chord symbols and harmonies in staff notation, making it possible for all instruments to participate in the continuo band.

A New Chronology of Venetian Opera and Related Genres, 1660-1760 Eleanor Selfridge-Field.2007

From 1637 to the middle of the eighteenth century, Venice was the world center for operatic activity. No exact chronology of the Venetian stage during this period has previously existed in any language. This reference work, the culmination of two decades of research throughout Europe, provides a secure ordering of 800 operas and 650 related works from the period 1660 to 1760. Derived from thousands of manuscript news-sheets and other unpublished materials, the Chronology provides a wealth of new information on about 1500 works. Each entry in this production-based survey provides not only perfunctory reference information but also a synopsis of the text, eyewitness accounts, and pointers to surviving musical scores. What emerges, in addition to secure dates, is a profusion of new information about events, personalities, patronage, and the response of opera to changing political and social dynamics. Appendixes and supplements provide basic information in Venetian history for music, drama, and theater scholars who are not specialists in Italian studies.
