**The Edge Of The World** Michael Pye.2015-10-15 An epic adventure: from the Vikings to the Enlightenment, from barbaric outpost to global hub, this book tells the dazzling history of northern Europe's transformation by sea. 'Pye writes like a dream. Magnificent' Jerry Brotton, author of *A History of the World in Twelve Maps* \_\_\_\_\_ This is a story of saints and spies, of anglers and pirates, traders and marauders - and of how their wild and daring journeys across the North Sea built the world we know. When the Roman Empire retreated, northern Europe was a barbarian outpost at the very edge of everything. A thousand years later, it was the heart of global empires and the home of science, art, enlightenment and money. We owe this transformation to the tides and storms of the North Sea. Boats carried food and raw materials, but also new ideas and information. The seafarers raided, ruined and killed, but they also settled and coupled. With them they brought new tastes and technologies - books, science, clothes, paintings and machines. Drawing on an astonishing breadth of learning and packed with human stories and revelations, this is the epic drama of how we came to be who we are. \_\_\_\_\_ 'A closely-researched and fascinating characterisation of the richness of life and the underestimated interconnections of the peoples all around the medieval and early modern North Sea' Chris Wickham, author of *The Inheritance of Rome: A History of Europe from 400 to 1000* 'Elegant writing and extraordinary scholarship . . . Miraculous' Hugh Aldersey-Williams, author of *Periodic Tales and Anatomies* 'Bristling, wide-ranged and big-themed . . . at its most meaningful, history involves a good deal of art and storytelling. Pye's book is full of both' Russell Shorto, *New York Times* 'For anyone, like this reviewer, who is tired of medieval history as a chronicle of kings and kingdoms, knights and ladies, monks and heretics, *The Edge of the World* provides a welcome respite' Prof Patrick J Geary, *Wall Street Journal*

**Carolingian Connections** Joanna Story.2017-05-15 The Anglo-Saxon influence on the Carolingian world has long been recognised by historians of the early medieval period. Wilhelm Levison, in particular, has drawn attention to the importance of the Anglo-Saxon contribution to the cultural and ecclesiastical development of Carolingian Francia in the central decades of the eighth century. What is much less familiar is the reverse process, by which Francia and Carolingian concepts came to influence contemporary Anglo-Saxon culture. In this book Dr Story offers a major contribution to the subject of medieval cultural exchanges, focusing on the degree to which Frankish ideas and concepts were adopted by Anglo-Saxon rulers. Furthermore, by concentrating on the secular context and concepts of secular government as opposed to the more familiar ecclesiastical and missionary focus of Levison's work, this book offers a counterweight to the prevailing scholarship, providing a much more balanced overview of the subject. Through this reassessment, based on a close analysis of contemporary manuscripts - particularly the Northumbrian sources - Dr Story offers a fresh insight into the world of early medieval Europe.

**The Missionary Life** Ian N. Wood. 2001 KEY BENEFIT The great missionary figures were crucial to their own time and to posterity. They brought Christian belief and culture to the pagan societies of Dark Age Europe. Tribal and nomadic societies were propelled out of the forest and the plain into a 'civilized' world that carried the genes of the Roman imperial past. The missionaries were crucial too, because of the record they and their correspondents left of the cultures they transformed. The work of St Augustine in England is just one example. The missionaries were not only agents of change, they were also some of Europe's first historians. Anyone who has read Ian Wood's equally ambitious and compelling survey *The Merovingian Kingdoms, 451-1050*, will rediscover his ability to bring a remote age to life. Here, the unreliable history of the missionary life is disentangled by Ian Wood to produce a uniquely wide-ranging account - giving a sense of the individual experience and collective ethos of the mission, the missionaries' influence on communities and their links to the rest of Christendom. In *The Missionary Life* the roles and aims of the missionaries, provide a starting point for the history of early medieval Europe. While spiritualism is examined Ian Wood also focuses on the darker side of missionary life - flagellation, starvation, torture - as well as sanctity. Contemporary willing and unwilling evangelism relates to some of these first Christian pioneers. For reader interested in medieval and/or church history. Also available in hardcover, 0-582-31212-4, \$ 69.95Y.

**Air War for Yugoslavia Greece and Crete 1940-41** Christopher Shores,Brian Cull.2008-08-21 The air battle for Yugoslavia, Greece and Crete began in June 1940 with the Italian declaration of war. In the past, there has been much controversy amongst air historians on many of the details of the operations. It was here, for example, that Pat Pattie believed by many to be the Royal Air Force's unknown top-scoring fighter pilot of the whole war, saw most of his action. Just how many kills did he achieve and how? Taken from extensive research into available British, Italian and German records, and interviews and correspondence with survivors or relatives of those present, this book seeks to provide an accurate portrait of the air war for Yugoslavia, Greece and Crete from 1940-41.

**The Discovery of the Baltic** Nils Blomkvist.2004-11-01 Nils Blomkvist discusses how the Baltic Rim was initially Europeanized between 1075 and 1225 AD. He compares the indigenous civilisations to the prevailing western European one. After the expansive Viking period, European penetration became a process of discovery. The importance of the Catholic Reform movement and its unintentional ties to the formation of an enduring commodity market are outlined. Clashes and compromises are investigated in case studies of the Kalmarsund region, Gotland and the Daugava valley. Dissimilar cases of state formation are compared: those of Sweden and Livonia. Many classical scholarly problems are revisited. A new approach to the period's narrative sources brings to life Scandinavian, German, Russian, Finno-Ugrian and Baltic attitudes and day-to-day concern in the midst of a change of epic dimensions.
