Topics cover both the methodological aspects of advanced computing (algorithms, parallel computing, data exploration, software engineering) and cutting-edge applications from the fields of chemistry, the geosciences, civil and mechanical engineering, etc., reflecting the highly interdisciplinary nature of the Munich Centre of Advanced Computing.

Managing Climate Change Rex S. Soto.2021-04-15 The United Nations Intergovernmental Panel on Climate Change (IPCC) estimates that human activities have caused approximately 1.0 °C of global warming above pre-industrial levels, and are likely to cause a 1.5 °C increase between 2030 and 2052 if warming continues at the current rate. Impacts from global warming are already apparent. Unless we act to quickly reverse course, these trends will persist for centuries and will continue to cause further long-term changes to the environment, such as sea level rise, changing precipitation patterns, more acidic oceans, and increasing frequency and intensity of extreme weather events as reported in Chapter 1. Chapter 2 provides information on USDA efforts to identify and address potential vulnerabilities of U.S. agriculture, forestry, and food systems to projected climate change.

Kip and Mona Lisa are parents to an engineer (who earned her BS in mathematics at seventeen), an architect (who became the youngest member of the American Institute of Architects), a Navy physician (who earned her biology degree at seventeen), an entrepreneur (who earned an MS in computer science at seventeen), a sixteen-year-old college senior studying music theory and performance, a thirteen-year-old Middle Ages scholar with the highest average in his college class, and four others who are following fast in their siblings' footsteps! No wonder the family is so used to being asked: How did you do it? In an "impressive" (Publishers Weekly), down-to-earth narrative, Kip and Mona Lisa reveal with warmth and humility the strategies behind their family's amazing educational accomplishments. Filled with daily regimens, advice for providing children with fulfilling experiences that go beyond the home, and tips for making the transition to college, theirs is an inspirational real-life success story that anyone can achieve—whether you homeschool your children or not.
