All About Love bell hooks.2018-01-30 A New York Times bestseller and enduring classic, All About Love is the acclaimed first volume in feminist icon bell hooks' Love Song to the Nation trilogy. All About Love reveals what causes a polarized society, and how to heal the divisions that cause suffering. Here is the truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. "The word 'love' is most often defined as a noun, yet we would all love better if we used it as a verb," writes bell hooks as she comes out fighting and on fire in All About Love. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive new ethic for a society bereft with lovelessness--not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society's failure to provide a model for learning to love. As bell hooks uses her incisive mind to explore the question "What is love?" her answers strike at both the mind and heart. Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and healing for individuals and for a nation. The Utne Reader declared bell hooks one of the "100 Visionaries Who Can Change Your Life." All About Love is a powerful, timely affirmation of just how profoundly her revelations can change hearts and minds for the better.

Hitler's Spies Evert Kleynhans. 2021-04-16 The story of the intelligence war in South Africa during the Second World War is one of suspense, drama and dogged persistence. In 1939, when the Union of South Africa entered the war on Britain's side, the German government secretly reached out to the political opposition, and to the leadership of the anti-war movement, the Ossewabrandwag. The Nazis' aim was to spread sedition in South Africa and to undermine the Allied war effort. The critical strategic importance of the sea route round the Cape of Good Hope meant that the Germans were also after naval intelligence. Soon U-boat packs were sent to operate in South African waters, to deadly effect. With the help of the Ossewabrandwag, a network of German spies was established to gather important political and military intelligence and relay it back to the Reich. Agents would use a variety of channels to send coded messages to Axis diplomats in neighbouring Mozambique. Meanwhile, police detectives and MI5 agents hunted in vain for illegal wireless transmitters. Hitler's

Spies presents an unrivalled account of the German intelligence networks that operated in wartime South Africa. It also details the hunt in post-war Europe for witnesses to help the government bring charges of high treason against key Ossewabrandwag members.

#RhodesMustFall Nyamnjoh, Francis B..2016-04-18 This book on rights, entitlements and citizenship in post-apartheid South Africa shows how the playing field has not been as levelled as presumed by some and how racism and its benefits persist. Through everyday interactions and experiences of university students and professors, it explores the question of race in a context still plagued by remnants of apartheid, inequality and perceptions of inferiority and inadequacy among the majority black population. In education, black voices and concerns go largely unheard, as circles of privilege are continually regenerated and added onto a layered and deep history of cultivation of black pain. These issues are examined against the backdrop of organised student protests sweeping through the country's universities with a renewed clamour for transformation around a rallying cry of 'Black Lives Matter'. The nuanced complexity of this insightful analysis of the Rhodes Must Fall movement elicits compelling questions about the attractions and dangers of exclusionary articulations of belonging. What could a grand imperialist like the stripling Uitlander or foreigner of yesteryear, Sir Cecil John Rhodes, possibly have in common with the present-day nimble-footed makwerekwere from Africa north of the Limpopo? The answer, Nyamnjoh suggests, is to be found in how human mobility relentlessly tests the boundaries of citizenship.

The Madrasa in Asia Farish A. Noor, Yoginder Sikand, Martin van Bruinessen. 2008 Summary: Since the rise of the Taliban and Al Qaeda, the traditional Islamic schools known as the madrasa have frequently been portrayed as hotbeds of terrorism. For much longer, the madrasa has been considered by some as a backward and petrified impediment to social progress. However, for an important segment of the poor Muslim populations of Asia, madrasas constitute the only accessible form of education. This volume presents an overview of the madrasas in countries such as China, Indonesia, Malaysia, India and Pakistan.--Publisher description.

The human dilemma of displacement Alfred R. Brunsdon. 2020-12-31 In this book social responsive theological research converges to provide practical theological and ecclesiological perspectives on the growing human dilemma of displacement. The book presents the research of practical theologians, a missiologist and a religious practitioner whose work pertains first and foremost to the (South) African context. The different fields of expertise of the contributors within the broader field of practical theology worked towards a unique compilation of themes, each relevant to the issue at stake. The majority of chapters are theoretically orientated, except where authors refer to empirical work conducted during previous research. The main contribution of this collaborative work is to be sought in the practical theological and ecclesiological perspectives it provides. It engages the critical questions of what kind of church we need, and what kind of care we should provide in the face of the growing predicament of human displacement. The theological and theoretical principles uncovered in the different chapters will be of use to theologians from all theological subdisciplines, as well as to religious practitioners and leaders of faith communities that are challenged with the growing realities of strangers on their doorsteps and in their pews.

Resilience and Recovery in Asian Disasters Daniel P. Aldrich, Sothea Oum, Yasuyuki Sawada. 2014-10-06 This book establishes a new, holistic framework for disaster recovery and mitigation, providing a multidisciplinary perspective on the field of risk management strategies and societal and communal resilience. Going beyond narrow approaches that are all too prevalent in the field, this work builds on an optimum combination of community-level networks, private market mechanisms and state-based assistance strategies. Its chapters describe best practices in the field and elucidate cutting-edge research on recovery, highlighting the interaction between government, industry and civil society. The book uses new data from a number of recent disasters across southeast and east Asia to understand the interactions among residents, the state, and catastrophe, drawing on events in Malaysia, Vietnam, Cambodia, Japan, China and Thailand. Grounded in theories of risk mitigation and empirical research, the book provides practical guidance for decision makers along with future research directions for scholars. The Asian region is highly prone to natural disasters which devastate large and mostly poor populations. This book deals with some of the root issues underlying the continued vulnerability of these societies to catastrophic shocks. The book is unusual in that it comprehensively covers resilience and fragilities from community levels to market mechanisms and governance and it analyses these issues in very different economic and structural settings. Recommended for development and disaster risk managers—without question. Professor Debarati Guha-Sapir Director, Centre for Research on the Epidemiology of Disasters (CRED); Professor, University of Louvain, Research Institute Health and Society.

The Bersih Movement and Democratisation in Malaysia Khoo Ying Hooi. 2020-12-10 Beginning in 2005 as a small electoral reform initiative, the Coalition for Clean and Fair Elections, known as Bersih, became the most prominent social movement in Malaysia. Based on participant observation approach and first-hand interviews with key actors, this book examines how Bersih became a movement that aggregated the collective grievance of Malaysians and brought Malaysian sociopolitical activism to a new level. This book makes a major contribution to the scholarly work on social movement theories in the Southeast Asian context and to the growing literature on social movements and democratization.

Septuagint Research Wolfgang Kraus,R. Glenn Wooden.2006 The past few decades have witnessed a renewed scholarly interest in the Septuagint, especially with regard to its importance for the fields of theology, Jewish studies, classics, philosophy, history of religions, linguistics, and history of literature. To provide students and scholars alike with ready access to the most recent developments, this collection of essays presents a comprehensive and representative picture of septuagintal research today. Specifically, this volume surveys methodological issues, provides thematic and book-centered studies focused on the Old Greek-Septuagint translations, explores the use of these translations in the New Testament, and issues a call for the exploration of the theologies of the Septuagint as a bridge between the theologies of the Hebrew Bible and those of the New Testament. It brings together a variety of perspectives, from emerging voices to seasoned scholars, both English-speaking scholars working on the New English Translation of the Septuagint project and German-speaking scholars working on the Septuaginta Deutsch project --

Democracy, Islam, & Secularism in Turkey Ahmet Kuru,Alfred Stepan.2012-02-14 While Turkey has grown as a world power, promoting the image of a progressive and stable nation, several policy choices have strained its relationship with the East and the West. Providing social, historical, and religious context for Turkey's singular behavior, the essays in *Democracy, Islam, and Secularism in Turkey* examine issues relevant to Turkish debates and global concerns, from the state's position on religion and diversity to its involvement in the European Union. Written by experts in a range of disciplines, the chapters explore the Ottoman toleration of diversity during its classical period; the erosion of ethno-religious diversity in modern, pre-democratic times; Kemalism and its role in modernization and nation building; the changing political strategies of the military; and the effect of

possible EU membership on domestic reforms. They also conduct a cross-Continental comparison of multiple secularisms as well as political parties, considering the Justice and Development Party in Turkey in relation to Christian Democratic parties in Europe. The contributors tackle central research questions, such as what is the legacy of the Ottoman Empire's ethno-religious plurality and how can Turkey's assertive secularism be softened to allow greater space for religious actors. They address the military's guardian role in Turkey's secularism, the implications of recent constitutional amendments for democratization, and the consequences and benefits of Islamic activism's presence within a democratic system. No other collection confronts Turkey's contemporary evolution so vividly and thoroughly or offers such expert analysis of its crucial social and political systems.

Parched Earth Elieshi Lema. 2001 This is an extraordinary first novel by a Tanzanian women writer. The central character, Doreen, tells her story in the first person narrative. Born into a women headed household in a rural area, her inner life and development mirror her life's passage: education, career, the town, marriage and motherhood. Whilst not didactic nor impinging on beautifully crafted writing, the novel deals with gender politics from a local level rather than a

western oriented feminist stance. Both fatalism and separatism are rejected and the book is imbued with insights and touchstones about the female condition.

Incompleteness: Donald Trump, Populism and Citizenship B. Nyamnjoh.2022-01-01 This is a study of how Donald J. Trump, his populist credentials notwithstanding, borrows without acknowledgment and stubbornly refuses to come to terms with his indebtedness. Taken together with mobility and conviviality, the principle of incompleteness enables us to distinguish between inclusionary and exclusionary forms of populism, and when it is fuelled by ambitions of superiority and zero-sum games of conquest.

Richard Dawkins' God Delusion: A Critique Paweł Bloch.2014-02-23 Richard Dawkins' God Delusion is not only a fascinating battle with the book written by the famous British atheist. It is a clash of two epochs - the old atheistic school of the XIX and XX centuries, full, as it turns out, of an irrational chaos of assertions, contradictions and intolerance - with the modern Christianity of XXI century, focused on the accuracy, consistency and objectivity of the presented position. It is a confrontation of two different worldviews, philosophical and biological, in a dispute about the value system based on modern scientific achievements of man. There are also other works by dr Paweł Bloch: Ateistoteles and The Great Dictator, yet still in preparation.

Tourism and Development Richard Sharpley, David J. Telfer.2002 This text explores the role of tourism as a potential contributor to socio-economic development in destination areas. Establishing a link between tourism studies and development studies, it considers what is meant by development, the processes through which development may be achieved and, in particular, a number of fundamental issues related to the use of tourism as a development agent. In so doing, it challenges conventional thinking about the relationship between tourism and development.

Daring Greatly Brené Brown.2013-01-17 Researcher and thought leader Dr. Brené Brown offers a powerful new vision in *Daring Greatly* that encourages us to embrace vulnerability and imperfection, to live wholeheartedly and courageously. 'It is not the critic who counts; not the man who points out how the strong man stumbles, or where the doer of deeds could have done them better. The credit belongs to the man who is actually in the arena, whose face is marred by dust and sweat and blood; who strives valiantly; . . . who at best knows in the end the triumph of high achievement, and who at worst, if he fails, at least fails while daring greatly' -Theodore Roosevelt Every time we are introduced to someone new, try to be creative, or start a difficult conversation, we take a risk. We feel uncertain and exposed. We feel vulnerable. Most of us try to fight those feelings - we strive to appear perfect. Challenging everything we think we know about vulnerability, Dr. Brené Brown dispels the widely accepted myth that it's a weakness. She argues that vulnerability is in fact a strength, and when we shut ourselves off from revealing our true selves we grow distanced from the things that bring purpose and meaning to our lives. *Daring Greatly* is the culmination of 12 years of groundbreaking social research, across the home, relationships, work, and parenting. It is an invitation to be courageous; to show up and let ourselves be seen, even when there are no guarantees. This is vulnerability. This is daring greatly. 'Brilliantly insightful. I can't stop thinking about this book' -Gretchen Rubin Brené Brown, Ph.D., LMSW is a #1 New York Times bestselling author and a research professor at the University of Houston Graduate College of Social Work. Her groundbreaking work was featured on Oprah Winfrey's Super Soul Sunday, NPR, and CNN. Her TED talk is one of the most watched TED talks of all time. Brené is also the author of *The Gifts of Imperfection* and *I Thought It Was Just Me (but it isn't)*.

Hebrews and Divine Speech Jonathan I. Griffiths.2015-01-29 The theme of divine speech appears

at the opening of the Hebrews (1.1-2) and recurs throughout the book, often in contexts suggesting connections to other areas of scholarly interest (christology, soteriology, cosmology, and the writer's understanding of the nature of his discourse). Griffiths begins with a consideration of the genre and structure of Hebrews (offering a new structural outline), concluding that Hebrews constitutes the earliest extant complete Christian sermon and consists of a series of Scriptural expositions. Griffiths then turns to consider Hebrews' theology of divine speech through an exegetical analysis of eight key passages (with particular attention to the writer's use of the terms *logos* and *rhema*), and finds that, for the writer, God's speech is the means by which the place of divine rest is accessed, and is supremely expressed in the person of his Son. Griffiths concludes that the writer presents his sermon as communicating the divine word and effecting an encounter between his hearers and the God who speaks. Analysis of the exegetical data shows that Hebrews presents God's word, which finds full expression in the incarnate Christ, as the central means by which salvation is made available and the place of divine rest is accessed. The study finds that the terms *logos* and *rhema* are used with a high degree of consistency to signify forms of divine speech, *logos* usually signifying verbal revelation (and three times specifically identifying the author's own discourse) and *rhema* typically signifying non-verbal revelation in the cosmos. The investigation leads to the ultimate conclusion that the author believes that, through his discourse, he himself communicates that divine word and effects an encounter between his hearers and the God who speaks.

The Camp Whore Francois Smith.2017

The Trustworthiness of God Paul Helm,Carl R. Trueman.2002 For two millennia the church has affirmed and celebrated Scripture as the written word of God. However, in the twentieth century, the doctrine of Scripture became the focus and flashpoint for division. One legacy of those debates has been a reluctance to address the nature of Scripture. This collection of essays seeks to re-open dialogue on this fundamental tenet of the Christian faith, by offering something of a prelude to a fresh approach to Scripture. In particular, these explorations seek to map out some implications of the fundamental link between the character of God as trustworthy and the trustworthiness of His word. Following an introductory orientation, the first two sections take soundings in selected texts from the Old and New Testaments. The third section offers perspectives from church history, and also grapples with aspects of the contemporary context and philosophical and epistemological issues. Two responses to the main essays complete the collection. None of the contributors wishes to articulate the discussion in terms of the categories of past controversies, or pretends to offer an exhaustive analysis. All, however, share the desire to engage their readers in constructive dialogue on this vital issue.

Self-Determined Learning Stewart Hase,Chris Kenyon.2013-09-26 Heutagogy, or self-determined

learning, redefines how we understand learning and provides some exciting opportunities for educators. It is a novel approach to educational practice, drawing on familiar concepts such as constructivism, capability, andragogy and complexity theory. Heutagogy is also supported by a substantial and growing body of neuroscience research. Self-Determined Learning explores how heutagogy was derived, and what this approach to learning involves, drawing on recent research and practical applications. The editors draw together contributions from educators and practitioners in different fields, illustrating how the approach can be used and the benefits its use has produced. The subjects discussed include: the nature of learning, heutagogy in the classroom, flexible curriculum, assessment, e-learning, reflective learning, action learning and research, and heutagogy in professional practice settings.

How to Succeed in Your Master's and Doctoral Studies Johann Mouton.2022 The past two decades have seen a huge growth in interest in doctoral studies, not only in South Africa but elsewhere as well. Changes in the funding framework for universities in South Africa, in particular, has meant that from 2005 onwards, more funding has been available. However, postgraduate studies are challenging. The digital revolution, as one example, has had a radical impact on the way research is done in the 21st century. Because of the more widespread availability of information (including personal information), students have had to become more accountable when they conduct research. How to succeed in your master's and doctoral studies is organised around eight steps that should be followed for the successful and ethical completion of postgraduate studies, whether they be traditional master's theses, mini-theses or doctoral dissertations. How to succeed in your master's

and doctoral studies is based on first-hand knowledge of students' experiences with postgraduate studies: what the challenges and problems were, how they navigated the supervisory process and the different styles and approaches of supervisors, the support (or lack thereof) they received from the universities where they had enrolled, and much more. -- Page 4 of cover.

Overview of Commentary Organization

Introduction—covers issues pertaining to the whole book, including context, date, authorship, composition, interpretive issues, purpose, and theology. Each section of the commentary includes: Pericope Bibliography—a helpful resource containing the most important works that pertain to each particular pericope. Translation—the author’s own translation of the biblical text, reflecting the end result of exegesis and attending to Hebrew and Greek idiomatic usage of words, phrases, and tenses, yet in reasonably good English. Notes—the author’s notes to the translation that address any textual variants, grammatical forms, syntactical constructions, basic meanings of words, and

problems of translation. Form/Structure/Setting—a discussion of redaction, genre, sources, and tradition as they concern the origin of the pericope, its canonical form, and its relation to the biblical and extra-biblical contexts in order to illuminate the structure and character of the pericope. Rhetorical or compositional features important to understanding the passage are also introduced here. Comment—verse-by-verse interpretation of the text and dialogue with other interpreters, engaging with current opinion and scholarly research. Explanation—brings together all the results of the discussion in previous sections to expose the meaning and intention of the text at several levels: (1) within the context of the book itself; (2) its meaning in the OT or NT; (3) its place in the entire canon; (4) theological relevance to broader OT or NT issues. General Bibliography—occurring at the end of each volume, this extensive bibliography contains all sources used anywhere in the commentary.

New Media and Politics Barrie Axford, Richard Huggins. 2001-01-26 Exploring the theme of the putative transformation of political modernity under the impact of new media, this book adopts a questioning approach to the ways in which cultural and technological factors are affecting the temper of political life, and reflects the variety of normative thinking about and empirical research on the changing character of politics in mediatized cultures. *New Media and Politics* examines: the extent to which commercial populism now dominates electoral and other political discourses; the ways in which the functions of leadership, government and political parties are modified by different forms of both old and new media; the democratic or undemocratic import of such changes; and the ways in which the dominant territorial paradigm of politics is challenged by the space and time devouring capacities of electronic media.
