Stunning Kumihimo Friendship Bracelets Louis Cooper. 2021-05-07 Kumihimo is a form of Japanese braiding using various types of stringing material, often combined with beads to make exceptional jewelry. The term Kumihimo in Japanese means the gathering of threads. This technique involves using different types of looms to achieve different types of braids. The possibilities are endless and can be customized to suit everybody, so find your Kumihimo supplies and get started. When doing Kumihimo you will learn that using a different number of strands, as well as different colors, will change the overall look. Different types of stringing material can also change the look, as well as adding beads to all or some of the strands. Keep in mind that you may not want to use a stringing material that stretches. In Kumihimo, each thread in one single slit is referred to as a warp. Here we will be using the round Kumihimo disk with 32 slits to create an 8 warp basic round braid. A good rule of thumb when measuring stringing material is to multiply the length you want by three. This will accommodate most designs unless you are using larger beads, in which case you may need to adjust the length. Once you have mastered the basic round braid, learn how to add beads to Kumihimo. Discover kumihimo book for beginner 'Complete Guide Kumihimo Beginner to Make Friendship Bracelets'.
