The Substance of Style Virginia Postrel.2009-03-17 Whether it's sleek leather pants, a shiny new Apple computer, or a designer toaster, we make important decisions as consumers every day based on our sensory experience. Sensory appeals are everywhere, and they are intensifying, radically changing how Americans live and work. The twenty-first century has become the age of aesthetics, and whether we realize it or not, this influence has taken over the marketplace, and much more. In this penetrating, keenly observed book, Virginia Postrel makes the argument that appearance counts, that aesthetic value is real. Drawing from fields as diverse as fashion, real estate, politics, design, and economics, Postrel deftly chronicles our culture's aesthetic imperative and argues persuasively that it is a vital component of a healthy, forward-looking society. Intelligent, incisive, and thought-provoking, *The Substance of Style* is a groundbreaking portrait of the democratization of taste and a brilliant examination of the way we live now.

Engaging the Moving Image Noel Carroll.2008-10-01 Noël Carroll, a brilliant and provocative philosopher of film, has gathered in this book eighteen of his most recent essays on cinema and television—what Carroll calls “moving images.” The essays discuss topics in philosophy, film theory, and film criticism. Drawing on concepts from cognitive psychology and analytic philosophy, Carroll examines a wide range of fascinating topics. These include film attention, the emotional address of the moving image, film and racism, the nature and epistemology of documentary film, the moral status of television, the concept of film style, the foundations of film evaluation, the film theory of Siegfried Kracauer, the ideology of the professional western, and films by Sergei Eisenstein and Yvonne Rainer. Carroll also assesses the state of contemporary film theory and speculates on its prospects. The book continues many of the themes of Carroll’s earlier work *Theorizing the Moving Image* and develops them in new directions. A general introduction by George Wilson situates Carroll’s essays in relation to his view of moving-image studies.

Men in Contemporary Russia Rebecca Kay.2016-12-05 Rebecca Kay assesses how men in post-Soviet Russia are represented through media and popular discourses. Using case studies she explores the challenges which have arisen for men since 1991 and the ways in which their responses are shaped by and viewed through the prism of widely accepted attitudes towards gender. The lives and concerns of men in provincial Russia are examined through ethnographic fieldwork, combining extensive participant observation with in-depth interviews. The book reveals how individual men strive to maintain a sense of equilibrium between the activities in which they are engaged and the ways in which they are perceived, both by others and by themselves. The findings of the research have produced significant areas of contrast and comparison with the author's earlier work on women. This is drawn out throughout the book, placing the study of Russian men in a broader gendered context. The issues raised by the men mirror concerns discussed in men's studies literature and popular discourse beyond Russia. The book is therefore of interest to a wider international audience as well as contributing to ongoing interdisciplinary debates, in Russian Studies, Anthropology, Sociology and Human Geography, addressing the need for new approaches to understanding post-Socialist change.

Bodyscapes® Allan I. Teger.2012 Can there be more than one reality at a time, and can we experience them both? These were the questions that led photographer and former psychology professor Allan I. Teger to create this collection of black and white *Bodyscapes*(R). At first glance, *Bodyscapes* appear to be landscapes; a second look shows that they are in fact nude bodies with small toys and miniatures set on them. Spanning a 35-year period, this collection shows more than 110 black and white images photographed in a single exposure without any post processing or manipulation. The body becomes the setting for golfing, skiing, mountain climbing, surfing, and other sports. Other images feature landscapes ranging from rolling farmlands to beaches and outer space. They are fun, beautiful, and sensual, but always in good taste. This elegant portfolio of Teger's images is an ideal, reality-bending addition to any art photography library.

Wireless Radio Lewis Coe.2015-07-25 In 1873 Scottish physicist James Clerk Maxwell first advanced the idea that there might be electromagnetic waves that were similar to light waves, a startling concept to the scientists of his day. About 13 years later, German physicist Heinrich Hertz demonstrated in his laboratory that electromagnetic radiation did indeed exist. But it was not until after Hertz's death that a young Italian named Guglielmo Marconi got the idea for a practical communications system based on Hertz's work. Marconi was surprised and disappointed that the Italian government was not interested in his newly discovered wireless communications system, and thus he took his equipment to England. From that point on, the wireless became identified with Britain. From these beginnings, wireless radio became the basis of a revolution that has resulted in the satellite communications of today. This history first looks at Marconi's invention and then explores its many applications, including marine radio, cellular telephones, police and military uses, television and radar. Radio collecting is also discussed, and brief biographies are provided for the major figures in the development and use of the wireless.

Cinema Genre Raphaëlle Moine. 2009-01-26 Genre - or 'type' - is a core concept in both film production and the history of film. Genres play a key role in how moviegoers perceive and rate films, and is likely to determine a film's production values and costs. Written in a clear, engaging, jargon-free style, this volume offers a cutting-edge theoretical overview of the topic of genre as practiced in British, American and French film criticism. Organized by a series of simple but fundamental questions, the book uses numerous examples from classic Hollywood cinema (the western, drama, musical comedy, and film noir) as well as some more contemporary examples from European or Asian cinema that are so often neglected by other studies in the field. How do we characterize genre and what are its various functions? In what ways does genre give a film its identity? How do genres emerge? What is the cultural significance of genre and how does it circulate within and across national boundaries? Informative and user-friendly, Moine's book is accessible to general readers and adapts easily to a wide range of teaching approaches.

The Return of the Mother Andrew Harvey. 2013-08-20 Adapted from a series of lectures on the historical basis and current resurgence of the sacred feminine, given by Andrew Harvey at the California Institute of Integral Studies in Spring 1994, *The Return of the Mother* is a profound journey into the heart of the Divine Mother. In this comprehensive and groundbreaking work, mystical scholar Andrew Harvey unearths traces of the sacred feminine in major world religions—Hinduism, Islam (Sufism), Buddhism, Taoism, and Christianity—and in aboriginal and indigenous wisdom traditions. Harvey presents a scathing critique of the patriarchal distortions in religious history and doctrine that have obscured full knowledge of the Divine Mother, and shows how to reintegrate this vital aspect into the spiritual consciousness of humankind. *The Return of the Mother* offers a radical new perspective, balancing the historical overemphasis on transcendence by honoring the immanence of the divine in passionate engagement in the world. Only by cultivating a direct, respectful relationship with the transformative power of the sacred feminine can we alter our disastrous attitude of dissociation from nature, the body, sexuality, and the details of human life, and generate the energy and compassion needed to reverse the course of destruction we have set the planet—and all of life—hurtling toward. In lively question-and-answer sections, Harvey further illuminates these vital issues and takes a strong stand against our dependence on “gurus” and “masters,” proposing instead an egalitarian model of spiritual community based on intimate groups of mutually supportive guides and friends. *The Return of the Mother* is an eloquent and passionate call for all of us to rediscover and reclaim an authentic and empowering relationship to the divine, and recreate a sacred life-in-the-world.

Body Evidence Shamita Das Dasgupta. 2007-04-01 When South Asians immigrated to the United States in great numbers in the 1970s, they were passionately driven to achieve economic stability and socialize the next generation to retain the traditions of their home culture. During these years, the immigrant community went to great lengths to project an impeccable public image by denying the existence of social problems such as domestic violence, sexual assault, child sexual abuse, mental illness, racism, and intergenerational conflict. It was not until recently that activist groups have worked to bring these issues out into the open. In *Body Evidence*, more than twenty scholars and public health professionals uncover the unique challenges faced by victims of violence in intimate spaces . . . within families, communities and trusted relationships in South Asian American communities. Topics include cultural obsession with women's chastity and virginity; the continued silence surrounding intimate violence among women who identify themselves as lesbian, bisexual, or transgender; the consequences of refusing marriage proposals or failing to meet dowry demands; and, ultimately, the ways in which the United States courts often confuse and exacerbate the plights of these women.

Militarizing Men Maya Eichler.2011-10-26 A state's ability to maintain mandatory conscription and wage war rests on the idea that a real man is one who has served in the military. Yet masculinity has no inherent ties to militarism. The link between men and the military, argues Maya Eichler, must be produced and reproduced in order to fill the ranks, engage in combat, and mobilize the population behind war. In the context of Russia's post-communist transition and the Chechen wars, men's militarization has been challenged and reinforced. Eichler uncovers the challenges by exploring widespread draft evasion and desertion, anti-draft and anti-war activism led by soldiers' mothers, and the general lack of popular support for the Chechen wars. However, the book also identifies channels through which militarized gender identities have been reproduced. Eichler's empirical and theoretical study of masculinities in international relations applies for the first time the concept of militarized masculinity, developed by feminist IR scholars, to the case of Russia.

Marriage, Migration and Gender Rajni Palriwala,Patricia Uberoi.2008-04-14 This is the final volume in the five volume series on Women and Migration in Asia. The articles in this volume bring a gender-sensitive perspective to bear on aspects of marriage and migration in intra- and transnational contexts. While most of the articles here concern marriage in the context of transnational migration, it is important—given the reality of uneven development within the different countries of the Asian region—to emphasize the overlap and commonality of issues in both intra- and international contexts.

Television and the Public Sphere Peter Dahlgren.1995-08-22 In this broad-ranging text, Peter Dahlgren clarifies the underlying theoretical concepts of civil society and the public sphere, and relates these to a critical analysis of the practice of television as journalism, as information and as entertainment. He demonstrates the limits and the possibilities of the television medium and the formats of popular journalism. These issues are linked to the potential of the audience to interpret or resist messages, and to construct its own meanings. What does a realistic understanding of the functioning and the capabilities of television imply for citizenship and democracy in a mediated age?

They explore the nature of British Sikh society as reflected in the performance of Sikhs in the labor markets, the changing characteristics of the Sikh family and issues of cultural transmission to the young. It transformed the very nature of what could be broadcast into our homes, and paved the way for other shows with working-class as well as racially diverse protagonists. During 'All in the Family's nine seasons on CBS, creators Norman Lear and Bud Yorkin used their series as a televised soapbox to masterfully portray the upheavals and concerns racking the United States. Half a century later, its humor and message remain prescient, as it plumbs problems that still vex our families and society, and seeks to understand and explain the very soul of America.

The Equality of the Human Races Joseph-Anténor Firmin.2002 This is the first paperback edition of the only English-language translation of the Haitian scholar Antnor Firmin's The Equality of the Human Races, a

foundational text in critical anthropology first published in 1885 when anthropology was just emerging as a specialized field of study. Marginalized for its radical position that the human races were equal, Firmin's lucid and persuasive treatise was decades ahead of its time. Arguing that the equality of the races could be demonstrated through a positivist scientific approach, Firmin challenged racist writings and the dominant views of the day. Translated by Asselin Charles and framed by Carolyn Fluehr-Lobban's substantial introduction, this rediscovered text is an important contribution to contemporary scholarship in anthropology, pan-African studies, and colonial and postcolonial studies.
