German Nationalism and Indian Political Thought Alexei Pimenov.2022-08 This book examines the influence of Indian socio-political thought, ideas, and culture on German Romantic nationalism. It suggests that, contrary to the traditional view that the concepts of nationalism have moved exclusively from the West to the rest of the world, in the crucial case of German nationalism, the essential intellectual underpinnings of the nationalist discourse came to the West, not from the West. The book demonstrates how the German Romantic fascination with India resulted in the adoption of Indian models of identity and otherness and ultimately shaped German Romantic nationalism. The author illustrates how Indian influence renovated the scholarly design of German nationalism and, at the same time, became central to pre-modern and pre-nationalist models of identity, which later shaped the Aryan myth. Focusing on the scholarship of Friedrich Schlegel, Otmar Frank, Joseph Goerres, and Arthur Schopenhauer, the book shows how, in explaining the fact of the diversity of languages, peoples, and cultures, the German Romantics reproduced the Indian narrative of the degradation of some Indo-Aryan clans, which led to their separation from the Aryan civilization. An important resource for the nexus between Indology and Orientalism, German Indian Studies and studies of nationalism, this book will be of interest to researchers working in the fields of history, European and South Asian area studies, philosophy, political science, and IR theory.

On This Earth Nick Brandt.2005-09-29 Nick Brandt depicts the animals of East Africa with an intimacy and artistry unmatched by other photographers who choose wildlife as their subject. He creates these majestic sepia and blue-tone photoscontrasting moments of quintessential stillness with bursts of dramatic actionby engaging with these creatures on an exceptionally intimate level, without the customary use of a telephoto lens. Evocative of classical art, from dignified portraits to sweeping natural tableaux, Brandt's images artfully and simply capture animals in their natural states of being. With a foreword by Alice Sebold and an introduction by Jane Goodall, On This Earth is a gorgeous portfolio of some of the last wild animalsand a heartfelt elegy to a vanishing world.

Biography of an Idea Edward L. Bernays.2015-04-07 The father of public relations looks back on a landmark life spent shaping trends, preferences, and general opinion A twentieth-century marketing visionary, Edward L. Bernays brilliantly combined mastery of the social sciences with a keen understanding of human psychology to become one of his generation's most influential social architects. In Biography of an Idea, Bernays traces the formative moments of his career, from his time in the Woodrow Wilson administration as one of the nation's key wartime propagandists to his consultancy for such corporate giants as Procter & Gamble, General Electric, and Dodge Motors. While working with the American Tobacco Company, Bernays launched his now-infamous Lucky Strike campaign, which effectively ended the long-standing taboo against women smoking in public. With his vast knowledge of the psychology of the masses, Bernays was in great demand, advising high-profile officials and counseling the tastemakers of his generation. His masterful and at times manipulative techniques had longstanding influences on social and political beliefs as well as on cultural trends. Biography of an Idea is a fascinating look at the birth of public relations—an industry that continues to hold sway over American society.

Natural Law and Human Dignity Ernst Bloch.1986 Ernst Bloch was one of the most original and

influential of contemporary European thinkers, leaving his mark in fields ranging from philosophy and social theory to aesthetics and theology. This book represents a unique attempt to reconcile the traditional oppositions of the natural law and social utopian traditions, providing basic insights into the meaning of human rights in a socialist society.

Copse 125 Ernst Jünger.2021-02-19 Originally published in 1924, Cope 125 (Das Wäldchen 125) is Ernst Jünger's third book, where he further recounts his experiences in one particularly treacherous stretch of the Western Front. In Copes 125, Jünger chronicles the deadlocked positions of battle located in an isolated little patch of wood during the last year of the war. Along with his later recollections of the event, Jünger also shares his ruminations concerning the material and spiritual implications of the front line warrior. This is a new English translation of Das Wäldchen 125, published by E.S. Mittler & Son, Berlin, Germany, 1925.

A Catholic Modernity? Charles Taylor.1999 Dimensions of his intellectual commitment - dimensions left implicit in his philosophical writing.

Karl Kraus, Apocalyptic Satirist Edward Timms.1989-01-01 This is a fascinating study of the life and work of Karl Kraus, brilliant Austrian writer, satirist and personality of fin de siecle Vienna. This encyclopaedic study of his life, his work and his generation will be of great interest to both the enthusiast and the general student of European culture. Drawing on unfamiliar sources, Edward Timms analyses Kraus's involvement in the fundamental ideological issues of his time, and shows that Kraus's political position - caught between traditional Habsburg loyalties and new democratic commitments - was far more complex than has previously been suspected. 'A major landmark in Kraus studies, and an important contribution to our understanding of the culture of the early twentieth century. It abounds in discoveries and insights.' Times Higher Education Supplement 'Timm's lucid prose, his masterly organization of the voluminous material he treats, his excellent translations of the documents he cites and his broad, readable portrayal of Viennese fin-de-siecle culture makes this study accessible to the average reader and a pleasure for the literary professional ... An example of German studies at its best.' European Studies Journal 'This study, which takes us to the end of the Great War, is unquestionably the most detailed and thoughtful book about him in any language. Edward Timms' account skilfully interweaves his life, times and work.' The Listener 'Timms successfully weaves a colourful, and thoroughly researched and documented account of essential cultural currents in Habsburg Vienna around his central figure. Copious illustrations and photographs enhance a most enjoyable text, making this an ideal introduction to Kraus and his work.' Choice Edward Timms is lecturer in German at the University of Cambridge and a fellow of Gonville and Caius College.

Beyond Cosmopolitanism Ananta Kumar Giri.2017-10-17 Considering the different traditions of cosmopolitan thinking and experimentation, this cutting edge volume examines the contemporary revival of cosmopolitanism as a response to the challenges of living in an interdependent world. Through a unique multidisciplinary approach, it takes the debate beyond the one-sided universalism of the Euro-American world and explores the multiverse of transformations which confront cosmopolitanism. The collection highlights central questions of cosmopolitan responsibility, global citizenship and justice as well as the importance of dialogue among civilizations, cultures, religions and traditions. Exploring the ethical and political dimensions of globalization, it outlines the pathways of going beyond cosmopolitanism by striving for a post-colonial cosmopolis characterized by global justice, trans-civilizational dialogues and dignity for all.

German Romantic Literary Theory Ernst Behler, Behler Ernst.1993-04-22 Professor Behler provides a view of the literary work and the artistic process developed in the German Romantic period.

Hölderlin's Hymn "The Ister" Martin Heidegger.1996 Martin Heidegger's 1942 lecture course interprets Friedrich Hölderlin's hymn The Ister within the context of Hölderlin's poetic and philosophical work, with particular emphasis on Hölderlin's dialogue with Greek tragedy. Delivered in summer 1942 at the University of Freiburg, this course was first published in German in 1984 as volume 53 of Heidegger's Collected Works. Revealing for Heidegger's thought of the period are his discussions of the meaning of the political and the national, in which he emphasizes the difficulty

and the necessity of finding one's own in and through a dialogue with the foreign. In this context Heidegger reflects on the nature of translation and interpretation. A detailed reading of the famous chorus from Sophocles' *Antigone*, known as the ode to man, is a key feature of the course.

Contesting Democracy Jan-Werner Müller. 2011-09-20 DIV This book is the first major account of political thought in twentieth-century Europe, both West and East, to appear since the end of the Cold War. Skillfully blending intellectual, political, and cultural history, Jan-Werner Müller elucidates the ideas that shaped the period of ideological extremes before 1945 and the liberalization of West European politics after the Second World War. He also offers vivid portraits of famous as well as unjustly forgotten political thinkers and the movements and institutions they inspired. Müller pays particular attention to ideas advanced to justify fascism and how they relate to the special kind of liberal democracy that was created in postwar Western Europe. He also explains the impact of the 1960s and neoliberalism, ending with a critical assessment of today's self-consciously post-ideological age./div

Aladdin's Problem Ernst Jünger. 1992 Elegant allegorical tale of Frederick Baroh, descended from a once aristocratic family, who joins his uncle's funeral business and develops a vast, lucrative necropolis.

Ethics of Hope Jürgen Moltmann. 2013-01-26 For a time of peril, world-renowned theologian Jürgen Moltmann offers an ethical framework for the future. Moltmann has shown how hope in the future decisively reconfigures the present and shapes our understanding of central Christian convictions, from creation to New Creation.

Studies in Bilingual Education Daniel Madrid, Stephen Hughes. 2011 This book deals with bilingual education in general, but it pays special attention to bilingual education in monolingual areas. One central aim is to study the effects of bilingual programmes during the final stages of Primary and Secondary Education in contexts where the L2 (English) is not normally used as an instrument of social communication in the students' environment, but instead is used only at school, where some subject areas are undertaken totally or partially in this language. The reader interested in bilingual education will find a valuable source of information on different bilingual programmes in the USA and Spain: what schools do and the contents they teach, their timetable and extracurricular activities; the specific objectives that they aim to achieve and the methodology they use, with special reference to the CLIL approach, the schools and the students' level of success with bilingual education, the most common problems that they have to face in monolingual areas and how to solve them.

ADV OF DON SYLVIO DE ROSALVA Christoph Martin Wieland. 1733-1813 2016-08-24 This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Reflections of Equality Christoph Menke. 2006 The book argues that the center of political modernity is determined by a conflictive relation between the liberal core concept of political equality and the idea of individuality.

The Innerworld of the Outerworld of the Innerworld Peter Handke. 1974

Relativity Philipp Frank. 2012-06-01

The Vienna Circle and Logical Empiricism F. Stadler.2006-06-09 This work is for scholars, researchers and students in history and philosophy of science focusing on Logical Empiricism and analytic philosophy (of science). It provides historical and systematic research and deals with the influence and impact of the Vienna Circle/Logical Empiricism on today's philosophy of science. It also explores the intellectual context of this scientific philosophy and focuses on main figures and peripheral adherents.

The Imagination in German Idealism and Romanticism Gerad Gentry,Konstantin

Pollok.2019-06-13 Explores imagination and human rationality in a crucial period of philosophy, from hermeneutics and transcendental logic to ethics and aesthetics.

Critique and Power Michael Kelly.1994-06-06 The book juxtaposes key texts from Foucault and Habermas; it then adds a set of reactions and commentaries by theorists who have taken up the two alternative approaches to power and critique. The result is a guide for those seeking to understand and build on an unfinished debate between two of the 20th century's most important philosophers. Which paradigm of critique—Foucault's or Habermas's—is philosophically and practically superior, especially with regard to the nature and role of power in contemporary society? In shaping this collection, Michael Kelly has sought to address this question in relation to the ethical, political, and social theory of the past two decades. Michel Foucault and Jurgen Habermas had only just begun to come to terms with one another's work when Foucault died in 1984; they had even discussed the possibility of a formal debate on Enlightenment in the neutral arena of the United States. In the decade since, Habermas and his supporters have continued to respond to Foucault in various ways, but Foucault's followers have not shown as strong an inclination to keep up his side of the dialogue. For this reason an invaluable exchange on the nature and limits of philosophy in the present age has never achieved its full potential. In this anthology Michael Kelly recasts the debate in a way that will open it up for further development. The book starts by juxtaposing key texts from the two philosophers; it then adds a set of reactions and commentaries by theorists who have taken up the two alternative approaches to power and critique. (Two of these essays were written especially for this volume.) The result is a guide for those seeking to understand and build on this important but unfinished debate. Essays by: Michel Foucault. Jürgen Habermas. Axel Honneth. Nancy Fraser. Richard Bernstein. Thomas McCarthy. James Schmidt and Thomas E. Wartenberg. Gilles Deleuze. Jana Sawicki. Michael Kelly.

Die Zeit des Menschen Raimar Zons.2001

The Philosophical Foundations of Early German Romanticism Manfred Frank.2012-02-01

Explores the philosophical contributions and contemporary relevance of early German Romanticism.

The Challenge of Carl Schmitt Chantal Mouffe.1999-09-17 Schmitt's thought serves as a warning against the dangers of complacency entailed by triumphant liberalism. In this collection of essays Schmitt reminds us that the essence of politics is struggle.

Herzog & de Meuron Herzog & de Meuron.2005 More than any of their contemporaries, Swiss architects Jacques Herzog and Pierre de Meuron are challenging the boundaries between architecture and art. *Natural History* explores that challenge, examining how the work of this formidable pair has drawn upon the art of both past and present, and brought architecture into dialogue with the art of our time. Echoing an encyclopedia, this publication reflects the natural history museum structure of the exhibition which it accompanies, organized by the Canadian Centre for Architecture. Models and projects by Herzog & de Meuron, as well as by other artists, are structured around six thematic portfolios that suggest an evolutionary history of the architects' work: Appropriation & Reconstruction, Transformation & Alienation, Stacking & Compression, Imprints & Moulds, Interlocking Spaces, and Beauty & Atmosphere. Each section is introduced with a statement from Herzog, and more than 20 artists, scholars, and architects have contributed essays, including Carrie Asman, Georges Didi-Huberman, Kurt W. Forster, Boris Groys, Ulrike Meyer Stump, Peggy Phelan, Thomas Ruff, Rebecca Schneider, Adolf Max Vogt, and Jeff Wall.

European Criminal Law Kai Ambos.2018-06-07 European criminal law faces many challenges in harmonising states' criminal justice systems. This book presents a systematic analysis of this legal

area and examines the difficulties involved.

Meeting Democracy Donatella della Porta, Dieter Rucht. 2013-01-17 An innovative study of the internal practices of deliberation and democratic decision-making in twelve Global Justice social movement groups.

The Beginnings of Greek Mathematics A. Szabó. 2013-03-09 When this book was first published, more than five years ago, I added an appendix on How the Pythagoreans discovered Proposition 11.5 of the 'Elements'. I hoped that this appendix, although different in some ways from the rest of the book, would serve to illustrate the kind of research which needs to be undertaken, if we are to acquire a new understanding of the historical development of Greek mathematics. It should perhaps be mentioned that this book is not intended to be an introduction to Greek mathematics for the general reader; its aim is to bring the problems associated with the early history of deductive science to the attention of classical scholars, and historians and philosophers of science. I should like to conclude by thanking my translator, Mr. A. M. Ungar, who worked hard to produce something more than a mechanical translation. Much of his work was carried out during the year which I spent at Stanford as a fellow of the Center for Advanced Study in the Behavioral Sciences. This enabled me to supervise the work of translation as it progressed. I am happy to express my gratitude to the Center for providing me with this opportunity. Arpad Szabo

NOTE ON REFERENCES The following books are frequently referred to in the notes. Unless otherwise stated, the editions are those given below. Burkert, W. Weisheit und Wissenschaft, Studien zu Pythagoras, Philolaos und Platon, Nuremberg 1962.

The Crisis of Parliamentary Democracy Carl Schmitt. 1988-06-22 The Crisis of Parliamentary Democracy offers a powerful criticism of the inconsistencies of representative democracy. Described both as the Hobbes of our age and as the philosophical godfather of Nazism, Carl Schmitt was a brilliant and controversial political theorist whose doctrine of political leadership and critique of liberal democratic ideals distinguish him as one of the most original contributors to modern political theory. The Crisis of Parliamentary Democracy offers a powerful criticism of the inconsistencies of representative democracy. First published in 1923, it has often been viewed as an attempt to destroy parliamentarism; in fact, it was Schmitt's attempt to defend the Weimar constitution. The introduction to this new translation places the book in proper historical context and provides a useful guide to several aspects of Weimar political culture. The Crisis of Parliamentary Democracy is included in the series Studies in Contemporary German Social Thought, edited by Thomas McCarthy.

Divided, But Not Disconnected Tobias Hochscherf, Christoph Laucht, Andrew Plowman. 2010-12-01 The Allied agreement after the Second World War did not only partition Germany, it divided the nation along the fault-lines of a new bipolar world order. This inner border made Germany a unique place to experience the Cold War, and the "German question" in this post-1945 variant remained inextricably entwined with the vicissitudes of the Cold War until its end. This volume explores how social and cultural practices in both German states between 1949 and 1989 were shaped by the existence of this inner border, putting them on opposing sides of the ideological divide between the Western and Eastern blocs, as well as stabilizing relations between them. This volume's interdisciplinary approach addresses important intersections between history, politics, and culture, offering an important new appraisal of the German experiences of the Cold War.

Enduring Innocence Keller Easterling. 2005 In Enduring Innocence, Keller Easterling tells the stories of outlaw spatial products -- resorts, information technology campuses, retail chains, golf courses, ports, and other hybrid spaces that exist outside normal constituencies and jurisdictions -- in difficult political situations around the world. These spaces -- familiar commercial formulas of retail, business, and trade -- aspire to be worlds unto themselves, self-reflexive and innocent of politics. But as Easterling shows, in reality these enclaves can become political pawns and objects of contention. Jurisdictionally ambiguous, they are imbued with myths, desires, and symbolic capital. Their hilarious and dangerous masquerades often mix quite easily with the cunning of political platforms. Easterling argues that the study of such real estate cocktails provides vivid evidence of

the market's weakness, resilience, or violence. Enduring Innocence collects six stories of spatial products and their political predicaments: cruise ship tourism in North Korea; high-tech agricultural formations in Spain (which have reignited labor wars and piracy in the Mediterranean); hyperbolic forms of sovereignty in commercial and spiritual organizations shared by gurus and golf celebrities; automated global ports; microwave urbanism in South Asian IT enclaves; and a global industry of building demolition that suggests urban warfare. These regimes of nonnational sovereignty, writes Easterling, move around the world like weather fronts; she focuses not on their blending -- their global connectivity -- but on their segregation and the cultural collisions that ensue. Enduring Innocence resists the dream of one globally legible world found in many architectural discourses on globalization. Instead, Easterling's consideration of these segregated worlds provides new tools for practitioners sensitive to the political composition of urban landscapes.

Realism and Reality Anaïs Nin.1946

The Mind of Germany the Education of a Nation Hans Kohn.2018-11-11 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work.
