Three Hens and a Peacock Lester L. Laminack. 2017-04-18 A hilarious read-aloud favorite about some foolish farm animals who decide to trade roles—and discover just how hard it is to do someone else's job, from award-winning author Lester L. Laminack and celebrated illustrator Henry Cole. The Tuckers' farm is a peaceful place where everyone has a job and no one complains. That is, until a hapless peacock falls off the back of a passing truck and stirs things up. Soon, customers are flocking to the farm to see what all the fuss is about. But the hens don't like the newcomer getting attention while they do all the hard work. When a wise old hound sees the problem, he helps orchestrate a job swap. What follows is the riotous tale of three hens who get in

way over their feathered heads, and one very distressed peacock who just can't figure out how to lay an egg. Lester L. Laminack has created a comical look at envy, finding your strength, and what happens when we underestimate the value of others' work. Henry Cole's delightful illustrations heighten the story's humor and will have readers of all ages laughing out loud.

One Hundred Years of Solitude Gabriel García

Márquez. 2022-10-11 One of the twentieth century's enduring works, *One Hundred Years of Solitude* is a widely beloved and acclaimed novel known throughout the world and the ultimate achievement in a Nobel Prize-winning career. The novel tells the story of the rise and fall of the mythical town of Macondo through the history of the Buendía family. Rich and brilliant, it is a chronicle of life, death, and the tragicomedy of humankind. In the

beautiful, ridiculous, and tawdry story of the Buendía family, one sees all of humanity, just as in the history, myths, growth, and decay of Macondo, one sees all of Latin America. Love and lust, war and revolution, riches and poverty, youth and senility, the variety of life, the endlessness of death, the search for peace and truth—these universal themes dominate the novel. Transforming the Workforce for Children Birth Through Age 8

National Research Council, Institute of Medicine, Board on Children, Youth, and Families, Committee on the Science of Children Birth to Age 8: Deepening and Broadening the Foundation for Success. 2015-07-23 Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. Transforming the Workforce for Children Birth Through Age 8 explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education

professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. Transforming the Workforce for Children Birth Through Age 8 offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

Sorry, bub, says the Horse. Think again, barks the dog. Oy gevalt! Friends, shmends, she says. I'll just do it myself. But when the wheat is grown and harvested, when the flour is milled and the matzah baked and the Seder table set-- all by Red on her own--who should come to her door but her not-so-helpful friends? Though she's tempted to turn them away, Little Red is a mensch-- and a mensch forgives. Like her Haggadah says: Let all who are hungry come and eat. But who will do all these dishes? Filled with Yiddish phrases and a healthy dose of humor, this Passover tale of hard work, friendship, and forgiveness is not to be missed. Bright cartoon illustrations add humor and detail to the story.
