The Kybalion .2006-10-01 He was the father of the occult, the founder of astrology, the discoverer of alchemy. In this extraordinary 1912 book, three secret initiates to his teachings-who remain anonymous to this day-share their insight with all who seek to understand the mysterious underpinnings of the universe and our relationship with it. The Kybalion William Walker Atkinson.2019-01-09 The Kybalion: Hermetic Philosophy is a book claiming to be the essence of the teachings of Hermes Trismegistus. We take great pleasure in presenting to the attention of students and investigators of the Secret Doctrines this little work based upon the world-old Hermetic Teachings. There has been so little written upon this subject, not withstanding the countless references to the

Teachings in the many works upon occultism, that the many earnest searchers after the Arcane Truths will doubtless welcome the appearance of this present volume. The purpose of this work is not the enunciation of any special philosophy or doctrine, but rather is to give to the students a statement of the Truth that will serve to reconcile the many bits of occult knowledge that they may have acquired, but which are apparently opposed to each other and which often serve to discourage and disgust the beginner in the study. Our intent is not to erect a new Temple of Knowledge, but rather to place in the hands of the student a Master-Key with which he may open the many inner doors in the Temple of Mystery through the main portals he has already entered. There is no portion of the occult teachings possessed by the world which have been so closely guarded as the fragments of the Hermetic Teachings which have come down to us over the tens of centuries which have elapsed since the lifetime of its great founder, Hermes Trismegistus, the scribe of the gods, who dwelt in old Egypt in the days when the present race of men was in its infancy. Contemporary with Abraham, and, if the legends be true, an instructor of that venerable sage, Hermes was, and is, the Great Central Sun of Occultism, whose rays have served to illumine the countless teachings which have been promulgated since his time. All the fundamental and basic teachings embedded in the esoteric teachings of every race may be traced back to Hermes. Even the most ancient teachings of India undoubtedly have their roots in the original Hermetic Teachings.

The seven Laws of Reality and Being Max Corradi.2013-12-01 This book is mainly based on the seven Hermetic Principles of Reality and Being as described in the Hermetic text "The Kybalion: A Study of the Hermetic Philosophy of Ancient Egypt and Greece" and it could be considered its commentary. The seven Laws of Reality can be considered as the essential principles of all the western and eastern spiritual wisdom traditions and can be employed in order to realize one's real nature of Pure Being and change one's life conditions and circumstances. In final analysis, Truth is always found to be the same whether stated in modern scientific terms or in the language of ancient religion or philosophy, the only difference being in the form of presentation, always bearing in mind that no human formula will ever be able to describe every side of it. Part one of the book describes the seven Hermetic Laws or Principles which govern Reality: the Principle of Mind, the Principle of Cause and Effect, the Principle of Vibration, the Principle of Correspondence, the Principle of Polarity (or Opposites), the Principle of Rhythm (or Cyclicity) and the Principle of Gender. Part two offers many useful methods that can be employed in order to realize one's nature of Pure Being and change one's conditions and circumstances by working with the seven Hermetic Laws of Reality.

The Kybalion 101 Matthew Barnes.2018-10-25 The Kybalion is probably the most controversial spiritual work of the twentieth century. Its teachings are based on the works of Hermes, an ancient Egyptian philosopher. Like Jesus, Buddha, Muhammad, Socrates and a few other philosophical and religious founders, Hermes is said to have received his knowledge in a vision during a period of deep concentration. During his awakening, Hermes claimed to have been exposed to the truth of the world, how it works, and what lies beyond. He believed that he had experienced the Soul of the Universe. The Kybalion is a categorization and explanation of the seven main laws of life, as expressed to Hermes during his vision. Legend has it that these laws have been passed down in secret for centuries from teacher to students considered ready for the information, much like Jesus's passing on of inner knowledge only to his closest disciples. The initial publishing of The Kybalion by The Three Initiates is reported to be the first time the general public has had access to these inner teachings. The seven laws of The Kybalion will sound familiar to many, for they are the underlying themes of this existence. But learning the exact significance and meaning of these laws has been a closely guarded secret for millennia. A secret that, once understood, has the potential to transform your life, and your understanding of life. The immediate effect of the teachings is believed to be an enhanced ability to live a better life, in all areas of concern. The long term effect is an evolution of consciousness and awareness

toward higher and higher levels. In the Bible, it is said that Adam fell into a deep sleep. Nowhere does it ever say that he woke up. An awakening that carries us beyond our current level of cognition and perception is the ultimate goal of the teachings of The Kybalion. We know what we are, but know not what we may be. -Shakespeare

Hermetic Philosophy and Creative Alchemy Marlene Seven Bremner. 2022-06-14 • Examines the foundational texts and principles of Hermeticism and alchemy, showing how they offer a foundation for a psycho-spiritual creative practice • Takes the reader on a Hermetic journey through each of the seven traditional planets, offering meditative discourses that speak directly to the intuitive soul • Provides examples from traditional alchemical art and the author's own intricate esoteric paintings Drawing on ancient Egyptian and Greek cosmogonies and essential Hermetic texts, such as the Corpus Hermeticum, the Emerald Tablet (Tabula Smaragdina), and the Nag Hammadi codices, Marlene Seven Bremner offers a detailed understanding of Hermetic philosophy and the art of alchemy as a foundation for a psycho-spiritual creative practice. Offering examples from traditional alchemical art and her own intricate esoteric paintings, Bremner examines the foundational principles of Hermeticism and alchemy and shows how these traditions are a direct means for accessing higher consciousness and true self-knowledge, or gnosis, as well as a way to extract the essence of one's own creative gifts. The author takes the reader on a Hermetic journey through each of the seven traditional planets--Saturn, Jupiter, Mars, the Sun, Venus, Mercury, and the Moon--exploring their mythological, philosophical, alchemical, Qabalistic, magical, astrological, and energetic natures and offering meditative discourses that reach past the rational mind to speak directly to the intuitive soul. She relates the seven planets to the esoteric anatomy of the human body, specifically the seven chakras, and shows how the planets can offer understanding and experience of archetypal energies and patterns in the body, in one's life, and in the creative process. A profound synthesis of magical and occult teachings as well as an initiation into the alchemical opus, this book reveals how to integrate and apply Hermetic and alchemical principles to awaken inner knowing, liberate the imagination, and live a mystical, creative, and truly inspired life.

The Kybalion Three Initiates. 2021-08-17 Originally published in 1908 by unnamed authors calling themselves the Three Initiates and published by the Yogi Publication Society in Chicago, Illinois, The Kybalion: A Study of the Hermetic Philosophy of Ancient Egypt and Greece is a widely read and influential study of the principles of Hermeticism. The philosophy of Hermeticism is based upon the teachings of the ancient Greek author and philosopher Hermes Trismegistus and posits that all life and truth flow from a single, universal creator. This universal creator then gave knowledge of universal truths to man and through a study of these truths of the physical world, great feats of science can be achieved and humans can reach their full potential. These truths have meaning to both the material world in its grandest sense and to the inner consciousness of each individual person. It is only by understanding the truth of the cosmos that a person can understand their own true self. The book is arranged around seven principles, which are the Principles of Mentalism, Correspondence, Vibration, Polarity, Rhythm, Cause and Effect, and Gender. The seven principles

are then examined in depth in their own individual chapters. This enduring occult classic has introduced countless readers to the magical and mystical teachings of Hermeticism. This edition is printed on premium acid-free paper.

The Kybalion The Three Initiates.2021-10-01 The Kybalion: A Study of the Hermetic Philosophy of Ancient Egypt and Greece is a book originally published in 1908 by New Thought author William Walker Atkinson under the pseudonym "The Three Initiates". This book is not exactly The Kybalion itself, it is more of a critical interpretation by Atkinson on hermetic philosophy. As such, it should be read with this in mind that it is not an authoritative hermetic text, but one only dedicated to Hermes Trismegistus. The Kybalion presents seven universal principles it proposes to be the Seven Hermetic Principles: Mentalism, Correspondence, Vibration, Polarity, Rhythm, Cause and Effect, and Gender. These principles are essentially explications of cycles, and before these principles is the notion of the primacy of mind as the cause of All (philosophical mentalism). This idea of mentalism is inspired by what is written about the Mind in The Hermetica. Coinciding with Spiritualism, New Thought, and Theosophy, the book became very popular in New Age movements, particularly with its notion of spiritual and mental alchemy. The Kybalion is a text which must be read with this in mind, while it is an interpretation of hermetic philosophy, it is in part still a relic of its time. Its influence cannot be understated, and the need to read it critically cannot be overstated.

The Kybalion Lucas Fernando Sosa.2022-12-09 As a modern version of one of the greatest classics of esoteric literature, this book is rich in symbolism with a narrative and visual manifestation that will mesmerise the reader. Simultaneously simple and complex, this work will help open wide the door of knowledge. Each chapter is accompanied by an image whose graphic, enigmatic and archetypal form artistically represents the infinite wisdom that the work possesses. These optical illusions give the reader a better visualization of the universe and how immensely infinite it is, in addition to how imperceptible it may be in the eyes of the human being...

The Emerald Tablets of Thoth-The-Atlantean .2002 The Spiritual, Occult and Historical significance of the Emerald Tablets is almost beyond belief of modern man. Written around 36,000 B.C. by Thoth, an Atlantean priest-king, this manuscript dates far back beyond reach of any Egyptian writings ever found. The author, Thoth, a Master-Teacher of the early Egyptians, put this treatise to writing in his native Atlantean language and Dr. Doreal, by use of his expertise as an Occultist and Master of time and space, was given the directive to retrieve these Tablets and translate them into English for the edification of modern man. The powerful and rhythmic verse of Thoth is wonderfully retained in Doreal's translation. Contained within the pages of Thoth's masterpiece of Spiritual and Occult Wisdom is the synthesis of the Ancient Wisdom Teachings, the guideline for initiates of all ages, revealing the Knowledge and Wisdom hitherto held secret, but now in this New Age, revealed to all Seekers on the Path of Light. Dr. M. Doreal, Ms.D., Psy.D., is the Spiritual; Teacher of a multitude of Seekers of Light, having founded a Metaphysical Church and College - The Brotherhood of the White Temple, Inc. He is the author of all of the Organization's writings and teachings, having been given permission for the Esoteric Wisdom to be remitted in a public forum by the Great White Lodge, the Elder Brothers of mankind who shape and form the Spiritual evolution of earth's inhabitants. The Brotherhood of the White Temple, Inc. is a correspondence school, accredited through the State of Colorado, and mails out to its world-wide membership weekly Lessons of Truth. Read, Believe or not, but read, and the vibration found therein will awaken a response in your soul.' - Doreal

The Emerald Tablet of Hermes & The Kybalion Hermes Trismegistus,The Three Initiates.2020-05-05 *The Emerald Tablet of Hermes & Kybalion* compose two pillars of Hermetic thought. Combined here in one volume, these two works share true wisdom with those ready to receive it. When the

ears of the student are ready to hear, then cometh the lips to fill them with wisdom. The Kybalion was first published anonymously in 1908 by The Three Initiates. The true authorship of the work is unknown, although theories suggest it was written entirely or in part by William Walker Atkinson. Atkinson was a prolific writer and supported the New Thought movement of the 19th and early 20th centuries. New Thought included the belief that our realities can be manifested by mental effort, which is also suggested in Hermetic principles. Scholars point to similarities in style and content between The Kybalion and Atkinson's own The Arcane Teachings as evidence that he was one (or all) of The Three Initiates. The Kybalion provides an introduction to the teachings of Hermes Trismegistus--Hermes the Thrice-Greatest. This Master of Masters is said in The Kybalion to have lived 300 years on Earth, and believed by some to be the founder of both astrology and alchemy (precursors to astronomy and chemistry, respectively). Hermes Trismegistus was deified after his death as Toth by the ancient Egyptians, and Hermes by the Greeks. In both pantheons, this man-turned-god was considered a symbol of great wisdom. The Kybalion's explanation of Hermetic teachings are claimed to have been passed down orally for centuries, eventually reaching The Three Initiates. The fundamental Hermetic traditions presented in The Kybalion consist of seven working principles: Mentalism, Correspondence, Vibration, Polarity, Rhythm, Cause and Effect, and Gender. Within these seven principles is true wisdom, tied to no particular place and no particular religion. It is the sacred flame kept lit by a chosen few used to re-light the lesser lamps of the outside world when the light of truth grew dim... In short, these are the truths of the universe, regardless of era or creed. The Emerald Tablet of Hermes is a short, ancient text attributed to Hermes Trismegistus himself. Unlike The Kybalion, which aims to provide some explanation and instruction, the brief Emerald Tablet has been puzzling and fascinating scholars for over 1,000 years. Consisting of a mere 14 stanzas, the Emerald Tablet is said to contain the secrets of prima materia--the foundational material of the universe. The Emerald Tablet and its teaching influenced freemasonry and philosophy throughout history. The text of the tablet has been translated and commented on by a variety of scholars, including Sir Isaac Newton who was inspired by its teachings throughout his life and work. The earliest known version of the text comes from an Arabic work written between the 6th and 8th centuries by Balinas. He claimed to have found the tablet hidden in a vault beneath a statue of Hermes. Another story claims the tablet was written by Seth, the third son of Adam and Eve. And yet another says the tablet was uncovered and then reburied by Alexander the Great. The source and material of the physical tablet is unknown. It was reported to be a rectangular green stone, with text in raised bas-relief rather than engraved. Some even claim there never was a physical tablet at all, although several accounts claim it was on display in Egypt in 330 BCE. Whatever its origins and history, the work was first introduced to the West in the 12th century through Latin translations. Since then, this cryptic text has been translated and re-translated, pored-over and analyzed by philosophers, historians, and theologians alike.

The Kybalion The Three Initiates.2021-10-19 The Kybalion - The Three Initiates - The Kybalion: Hermetic Philosophy, originally published in 1908 under the pseudonym of the Three Initiates, is a book claiming to be the essence of the teachings of Hermes Trismegistus. The Kybalion: Hermetic Philosophy, originally published in 1908 under the pseudonym of the Three Initiates, is a book claiming to be the essence of the teachings of Hermes Trismegistus. Since 1908, it has served as a study of basic hermetic teachings that outline an ageless wisdom. In ancient times (and even today), these teachings were not understood by the lay person, but were readily understood by students after the axioms and principles had been explained and exemplified by the Hermetic Initiates and Masters to their Neophytes. The purpose of this work is not the enunciation of any special philosophy or doctrine, but rather is to give to the students a statement of the Truth that will serve to reconcile the many bits of occult knowledge that they may have acquired, but which are apparently opposed to each other and which often serve to discourage and disgust the beginner in the study. Our intent is not to erect a new Temple of Knowledge, but rather to place in the hands of the student a Master-Key with which he may open the many inner doors in the Temple of Mystery through the main portals he has already entered. -- The Kybalion

The Kybalion Three Initiates.2018-11-22 The Kybalion: A Study of the Hermetic Philosophy of Ancient Egypt and Greece - Three Initiates - The purpose of this work is not the enunciation of any special philosophy or doctrine, but rather is to give to the students a statement of the Truth that will serve to reconcile the many bits of occult knowledge that they may have acquired, but which are apparently opposed to each other and which often serve to discourage and disgust the beginner in the study. Our intent is not to erect a new Temple of Knowledge, but rather to place in the hands of the student a Master-Key with which he may open the many inner doors in the Temple of Mystery through the main portals he has already entered. - From the land of the Ganges many advanced occultists wandered to the land of Egypt, and sat at the feet of the Master. From him they obtained the Master-Key which explained and reconciled their divergent views, and thus the Secret Doctrine was firmly established. - In this little work we have endeavored to give you an idea of the fundamental teachings of The Kybalion, striving to give you the working Principles, leaving you to apply them yourselves, rather than attempting to work out the teaching in detail. If you are a true student, you will be able to work out and apply these Principles. - It is speculated that The Kybalion was authored by William Walker Atkinson, either alone or with others.

The Kybalion a Study of the Hermetic Philosophy of Ancient Egypt and Greece (Classic Reprint) Three Initiates.2015-07-03 Excerpt from The Kybalion a Study of the Hermetic Philosophy of Ancient Egypt and Greece We take great pleasure in presenting to the attention of students and investigators of the Secret Doctrines this little work based upon the world-old Hermetic Teachings. There has been so little written upon this subject, notwithstanding the countless references to the Teachings in the many works upon occultism, that the many earnest searchers after the Arcane Truths will doubtless welcome the appearance of the present volume. Sacred Geometry and Magical Symbols Iva Kenaz.2021-01-22 This book is a simple guide to understanding magical symbols by taking in account their original geometric patterns. It also focuses on how to work with these powerful shapes and symbols in our everyday lives. All symbols originate

in geometric figures which give form to the observed world as well as the microcosm and macrocosm. Sacred geometry is a teaching that focuses on these geometric figures, proportions, and patterns. It was revered and preserved by many ancient civilizations including those in Mesopotamia, Egypt, India, and Greece. Symbols and geometry work together as keys to understanding nature and the philosophical meaning of existence. Each chapter of this book addresses a different geometric figure and its derived magical symbols. It's a journey from the source shape of the circle, the well from which the other shapes arise, to the Tree of Life where they all connect.
