The Romance of Individualism in Emerson and Nietzsche David Mikics. 2003 Rather than choose between Emerson and Nietzsche, Mikics attends to Nietzsche's struggle with Emerson's example and influence. Elegant in his delivery, Mikics offers a significant commentary on the visions of several contemporary theorists whose interests intersect with those of Emerson and Nietzsche, especially Stanley Cavell, Jacques Lacan, Slavoj Žižek, and Harold Bloom.--BOOK JACKET.

Foreign Direct Investment in the United States Edward Montgomery Graham, Paul R. Krugman. 1995 The share of the US economy controlled by foreign firms has tripled since the mid-1970s. The authors find that foreign firms appear to invest in the United States mainly to exploit their individual advantages in management and technology - the same reasons why American firms invest abroad - rather than because the United States is now running large deficits and has become a large debtor nation. Foreign-owned firms do not pay lower wages or shift good jobs and research and development away from the United States. Foreign-owned firms and especially Japanese firms do, however, have a marked tendency to import more of their production inputs. The authors warn that the President's new legislative authority to screen FDI on national security grounds could easily be abused, but endorse using this authority to ensure access to critical technologies or production processes including a requirement on some foreign firms to invest in the United States. They propose new international rules to minimize governmental interference and harmonize policies toward multinational firms.

Space and Time in Language Mario Brdar.2011 All human activity takes place in space and time in one way or another, which is consequently reflected in our language. We not only talk about space and time but also cannot but ground our linguistic activity in space and time. Furthermore, space and time are closely, although asymmetrically, related in our experience and we often think and talk about one in terms of the other. Specifically, time is conceived in terms of space far more frequently than vice versa. The volume contains a selection of essays that are revised versions of papers presented at the 23rd annual conference of the Croatian Applied Linguistics Society (CALs), entitled «Space and Time in Language: Language in Space and Time», which took place from 21 to 23 May 2009 in Osijek (Croatia).

The Literature of Georgia Donald Rayfield.2013-12-16 The first comprehensive and objective history of the literature of Georgia, revealed to be unique among those of the former Byzantine and Russian empires, both in its quality and its 1500 years' history. It is examined in the context of the extraordinarily diverse influences which affected it - from Greek and Persian to Russian and modern European literature, and the folklore of the Caucasus.

The Wisdom of Balahvar David Marshall Lang,Taylor & Francis Group.2021-12-20 Originally published in 1957 and forming a companion volume to The Balavariani, this volume provides

valuable research into the biography of Gautama Buddha and its influence on medieval Christian thought. This work, the romance of Barlaam and Josaphat, was included by Caxton in The Golden Legend and inspired the episode of the Caskets in Shakespeare's The Merchant of Venice; its heroes were venerated as Saints. Over a century ago, however, the legend was finally identified as an adaptation of episodes from the life and ministry of the Buddha. The first part of the book is devoted to tracing the development and migration of the Barlaam and Josaphat legend from its original Buddhist environment to the West. The second part is a translation of the Georgian text - the first published in any Western European language. The volume therefore gives one of the oldest Near Eastern versions of the story.

Growing Public: Volume 1, The Story Peter H. Lindert.2004-01-12 Growing Public examines the question of whether social policies that redistribute income impose constraints on economic growth. Taxes and transfers have been debated for centuries, but only now can we get a clear view of the whole evolution of social spending. Lindert argues that, contrary to the intuition of many economists and the ideology of many politicians, social spending has contributed to, rather than inhibited, economic growth.

The Twentieth Century Clive Ponting.2014-07-29 For much of the world, the twentieth century can be seen as a big-budget disaster film--the stifling darkness of oppression, the green of the ruling classes. For the world's elite, the near-universal adoption of capitalism today reveals modern history as a narrative of unbroken progress. Eschewing conventional chronological accounts, The Twentieth Century is organized around the major themes of the last hundred years. To help us understand our recent past and probable future, Clive Ponting offers a world systems theory. His analysis holds that

a few core states have dominated much of the rest of the world, which provides raw materials and cheap labor and remains tied to the core as virtual colonial territory. Between these extremes are Latin America, the Middle East, and eastern Asia, which have a limited shot at self-determination. Economic, social, and political differences between the core and periphery continue to grow. Atlantic predominance, which molded world history for four hundred years, has been challenged by the countries of the Pacific. The book's central theme revolves around the struggle between progress and barbarism; the hope for our future is that our conscience will catch up with our reason. Everywhere in the world people now live longer than their predecessors. A majority has become literate, and most have benefited from recent technological progress. Nevertheless, democracy is unavailable to the preponderance of people, and in the century's final years the chasm between rich and poor continues to expand. On the eve of the millennium this vivid history is a must-read.

Etymologisches Wörterbuch der Kartwel-Sprachen Heinz Fähnrich, Zurab Sarjvelaže.1995 The dictionary offers a complete compilation and a historical-comparative reflection of the hereditary lexis of the Kartvelian (South Caucasian) language family. It represents the latest stage of etymological research, contains a wealth of new lexical entries, corrections of earlier attempts and new reconstructions. The introduction provides a survey of general data of the four Kartvelian languages (Georgian, Mingrelian, Laz, Svan), characterizes the historical-comparative research in short and provides a detailed description of the system of regular phoneme correspondences. The main chapter presents the Kartvelian lexis in separate entries. The reconstructed forms of the root- and affix morphemes are listed in alphabetical order followed by instances of the Kartvelian languages. Each entry covers the phonological development of the lexical item from its original form

to its present state and is supplemented by references.

Less Translated Languages Albert Branchadell,Lovell Margaret West.2005-01-27 This is the first collection of articles devoted entirely to less translated languages, a term that brings together well-known, widely used languages such as Arabic or Chinese, and long-neglected minority languages — with power as the key word at play. It starts with some views on English, the dominant language in Translation as elsewhere, considers the role of translation for minority languages — both a source of inequality and a means to overcome it —, takes a look at translation from less translated major languages and cultures, and ends up with a closer look at translation into Catalan, a paradigmatic case of less translated language, in a final section that includes a vindication of six prominent Catalan translators. Combining sound theoretical insight and accurate analysis of relevant case studies, the contributors to this collection make a convincing case for a more thorough examination of less translated languages within the field of Translation Studies.

Netherlands Yearbook of International Law T. M. C. Asser Institute Staff.1997-06-26 The 1996 Netherlands Yearbook of International Law contains expert articles on issues such as: protection of cultural property in time of armed conflict; the contribution of the International Law Commission to international water law; effectiveness v. the rule of law following the East Timor case; Estoppel and the preclusive effects of inconsistent statements and conduct: the practice of the Iran-United States Claims Tribunal; state responsibility in a liberalised world economy The documentation section surveys Dutch state practice for the parliamentary year 1994-1995; international agreements to which the Netherlands is a party; Netherlands judicial decisions and municipal legislation involving questions of public international law, and Dutch literature in the field of public international law and related matters. On Criminalization J. Schonsheck.2013-06-29 I begin by introducing the main issues of the work, and inviting their consideration; as enticement, I offer a sketch of their practical importance, and of the philosophical challenge they present. And I provide a preview of the work's organization and central argument. There is something so obvious that it is easily-and often-overlooked: the enforcing of criminal statutes is the most intrusive and coercive exercise of domestic power by a state. Forcibly

preventing people from doing that which they wish to do, forcibly compelling people to do that which they do not wish to do-and wielding force merely attempting to compel or prevent-these state activities have extraordinarily serious ramifications. Indeed, no state institutions are likely to have more profound an impact on the lives of individual citizens than those of the criminal justice system. I endorse Herbert Packer's assessment: The criminal sanction is the law's ultimate threat. Being punished for a crime is different from being regulated in the public interest, or being forced to compensate another who has been injured by one's conduct, or being treated for a disease. The sanction is at once uniquely coercive and, in the broadest sense, uniquely expensive. As a consequence, these state activities are in special need of moral warrant. Given the great potential for doing grave injustice, the power of the state embodied in the criminal justice system ought not be exercised in the absence of a complete and compelling moral justification.

Ladies Almanack Djuna Barnes.1992 Barnes's affectionate lampoon of the expatriate lesbian community in Paris was privately printed in 1928. Arranged by month, it records the life and loves of Dame Evangeline Musset (modeled after salon hostess Natalie Barney) in a robust style taken from Shakespeare and Robert Burton's *Anatomy of Melancholy*, and is illustrated throughout with Barnes's own drawings. This new edition is a facsimile of the 1928 edition with the addition of an afterword providing details on the book's origins and a key to its real-life models.

The First Crusade August Charles Krey.1921 This complete history of the First Crusade places particular emphasis on using eye witness accounts of the happenings as its source. Author August Krey notes that the eye witness accounts written during the time of the Crusades were really the first time since the fall of the Roman Empire that we derived information about life, societal culture

and norms in the Middle Ages in Europe. Krey uses this influx of writings to construct an accurate and detailed history of the origins and happenings of the First Crusade.

The Making of the Georgian Nation, Second Edition Ronald Grigor Suny.1994-10-22 . . . the best study in English to date for an understanding of Georgian nationalism. —*Religious Studies Review* . . . the standard account of Georgian history in English. —*American Historical Review* . . . tour de force research . . . fascinating reading. —*American Political Science Review* Like the other republics floating free after the demise of the Soviet empire, the independent republic of Georgia is reinventing its past, recovering what had been forgotten or distorted during the long years of Russian and Soviet rule. Whether Georgia can successfully be transformed from a society rent by conflict into a pluralistic democratic nation will depend on Georgians rethinking their history. This is the first comprehensive treatment of Georgian history, from the ethnogenesis of the Georgians in the first millennium B.C., through the period of Russian and Soviet rule in the nineteenth and twentieth centuries, to the emergence of an independent republic in 1991, the ethnic and civil warfare that has ensued, and perspectives for Georgia's future.

Sumerian Grammar Dietz Otto Edzard.2003-08-01 It seems safe to say that this Sumerian Grammar by Professor D.O. Edzard will become the new classic reference in the field. It is an up-to-date, reliable guide to the language of the Sumerians, the inventors of cuneiform writing in the late 4th millennium B.C., and thus essential contributors to the high cultural standard of the whole of Mesopotamia and beyond. Following traditional lines, the Grammar describes general characteristics, origins, linguistic environment, phonetics and phonology, morphology, syntax, and phraseology. Due attention is given to the symbiosis with Semitic Akkadian, with which Sumerian was to form a veritable linguistic area. With lucid explanations of all technical linguistic theory. Each transliteration carries its English translation.
