Critical Content Analysis of Children's and Young Adult Literature Holly Johnson, Janelle Mathis, Kathy G. Short. 2016-06-17 In this book the authors describe their strategies for critically reading global and multicultural literature and the range of procedures they use for critical analyses. They also reflect on how these research strategies can inform classrooms and children as readers. Critical content analysis offers researchers a methodology for examining representations of power and position in global and multicultural children's and adolescent literature. This methodology highlights the critical as locating power in social practices by understanding, uncovering, and transforming conditions of inequity. Importantly, it also provides insights into specific global and multicultural books significant within classrooms as well as strategies that teachers can use to engage students in critical literacy.

Making Futures Pelle Ehn, Elisabet M. Nilsson, Richard Topgaard. 2014-10-31 This book describes experiments in innovation, design, and democracy, undertaken largely by grassroots organizations, non-governmental organizations, and multi-ethnic working-class neighborhoods. These stories challenge the dominant perception of what constitutes successful innovations. They recount efforts at social innovation, opening the production process, challenging the creative class, and expanding the public sphere. The cases considered include a collective of immigrant women who perform collaborative services, the development of an open-hardware movement, grassroots journalism, and hip-hop performances on city buses. They point to the possibility of democratized innovation that goes beyond solo entrepreneurship and crowdsourcing in the service of corporations to include multiple futures imagined and made locally by often-marginalized publics.

*The Sacred & the Digital* F.G. (Frank) Bosman.2019-04-18 Video game studies are a relative young but flourishing academic discipline. But within game studies, however, the perspective of religion and spirituality is rather neglected, both by game scholars and religion scholars. While religion can take different shapes in digital games, ranging from material and referential to reflexive and ritual, it is not necessarily true that game developers depict their in-game religions in a positive, confirming way, but ever so often games approach the topic critically and disavowingly. The religion criticisms found in video games can be categorized as follows: religion as (1) fraud, aimed to manipulate the uneducated, as (2) blind obedience towards an invisible but ultimately non-existing deity/ies, as (3) violence against those who do not share the same set of religious rules, as (4) madness, a deranged alternative for logical reasoning, and as (5) suppression in the hands of the powerful elite to dominate and subdue the masses into submission and obedience. The critical depictions of religion in video games by their developers is the focus of this special issue.

The Literariness of Media Art Claudia Benthien,Jordis Lau,Maraïke M. Marxsen.2018-09-14 The beginning of the 20th century saw literary scholars from Russia positing a new definition for the nature of literature. Within the framework of Russian Formalism, the term 'literariness' was coined. The driving force behind this theoretical inquiry was the desire to identify literature--and art in general--as a way of revitalizing human perception, which had been numbed by the automatization of everyday life. The transformative power of 'literariness' is made manifest in many media artworks by renowned artists such as Chantal Akerman, Mona Hatoum, Gary Hill, Jenny Holzer, William Kentridge, Nalini Malani, Bruce Nauman, Martha Rosler, and Lawrence Weiner. The authors use literariness as a tool to analyze the aesthetics of spoken or written language within experimental film, video performance, moving image installations, and other media-based art forms. This volume uses as its foundation the Russian Formalist school of literary theory, with the goal of extending these theories to include contemporary concepts in film and media studies, such as Neoformalism, intermediality, remediation, and postdrama.

*Pinball* Jon Chad. 2022-04-05 In 1976, champion player Roger Sharpe stepped up to a pinball machine in a Manhattan courtroom. He was there to challenge the citywide ban on pinball by proving this was a game of skill, not chance. Sharpe pulled back the plunger and released, and the fate of this industry and artform hung in the balance. Thus opens Jon Chad's comprehensive graphic guide to the history of the captivating, capricious—and at times infuriating!—game of pinball. It provides a comprehensive overview of research in the field and will serve as an invaluable starting point for scholars who seek to understand and improve meetings.

**Race and Popular Fantasy Literature** Helen Young. 2015-08-11 This book illuminates the racialized nature of twenty-first century Western popular culture by exploring how discourses of race circulate in the Fantasy genre. It examines not only major texts in the genre, but also the impact of franchises, industry, editorial and authorial practices, and fan engagements on race and

representation. Approaching Fantasy as a significant element of popular culture, it visits the struggles over race, racism, and white privilege that are enacted within creative works across media and the communities which revolve around them. While scholars of Science Fiction have explored the genre's racialized constructs of possible futures, this book is the first examination of Fantasy to take up the topic of race in depth. The book's interdisciplinary approach, drawing on Literary, Cultural, Fan, and Whiteness Studies, offers a cultural history of the anxieties which haunt Western popular culture in a century eager to declare itself post-race. The beginnings of the Fantasy genre's habits of whiteness in the twentieth century are examined, with an exploration of the continuing impact of older problematic works through franchising, adaptation, and imitation. Young also discusses the major twenty-first century sub-genres which both re-use and subvert Fantasy conventions. The final chapter explores debates and anti-racist praxis in authorial and fan communities. With its multi-pronged approach and innovative methodology, this book is an important and original contribution to studies of race, Fantasy, and twenty-first century popular culture.

Addressing Tipping Points for a Precarious Future Timothy O'Riordan, Timothy Lenton. 2013-08-22 Tipping points are zones or thresholds of profound changes in natural or social conditions with very considerable and largely unforecastable consequences. Tipping points may be dangerous for societies and economies, especially if the prevailing governing arrangements are not designed either to anticipate them or adapt to their arrival. Tipping points can also be transformational of cultures and behaviours so that societies can learn to adapt and to alter their outlooks and mores in favour of accommodating to more sustainable ways of living. This volume examines scientific, economic and social analyses of tipping points, and the spiritual and creative approaches to identifying and anticipating them. The authors focus on climate change, ice melt, tropical forest drying and alterations in oceanic and atmospheric circulations. They also look closely at various aspects of human use of the planet, especially food production, and at the loss of biodiversity, where alterations to natural cycles may be creating convulsive couplings of tipping points. They survey the various institutional aspects of politics, economics, culture and religion to see why such dangers persist.

Taking Sides Elke Bippus, Anne Ganzert, Isabell Otto. 2021-10-31 Is there an option to oppose without automatically participating in the opposed? This collection thus touches upon contemporary issues, recent protests and movements, artistic subversion and dissent, online activism as well as historic developments and elemental theories of dissent.

**Life in the Garden** Penelope Lively. 2019-06-11 From the Booker Prize winner and national bestselling author, reflections on gardening, art, literature, and life Penelope Lively takes up her key themes of time and memory, and her lifelong passions for art, literature, and gardening in this philosophical and poetic memoir. From the courtyards of her childhood home in Cairo to a family cottage in Somerset, to her own gardens in Oxford and London, Lively conducts an expert tour,

taking us from Eden to Sissinghurst and into her own backyard, traversing the lives of writers like Virginia Woolf and Philip Larkin while imparting her own sly and spare wisdom. Her body of work proves that certain themes never go out of fashion, writes the New York Times Book Review, as true of this beautiful volume as of the rest of the Lively canon. Now in her eighty-fourth year, Lively muses, To garden is to elide past, present, and future; it is a defiance of time.

**Fictional Discourse** Stefano Predelli. 2020-01-30 Fictional Discourse: A Radical Fictionalist

Semantics combines the insight of linguistic and philosophical semantics with the study of fictional language. Its central idea is familiar to anyone exposed to the ways of narrative fiction, namely the notion of a fictional teller. Starting with premises having to do with fictional names such as 'Holmes' or 'Emma', Stefano Predelli develops Radical Fictionalism, a theory that is subsequently applied to central themes in the analysis of fiction. Among other things, he discusses the distinction between storyworlds and narrative peripheries, the relationships between homodiegetic and heterodiegetic narrative, narrative time, unreliability, and closure. The final chapters extend Radical Fictionalism to critical discourse, as Predelli introduces the ideas of critical and biased retelling, and pauses on the relationships between Radical Fictionalism and talk about literary characters.
