Progress in Pediatric Surgery .1970

Empire Style Bernard Chevallier.2008 Design.

Eight Centuries of Troubadours and Trouvères John

Haines.2009-06-07 From the medieval chansonniers to contemporary rap renditions, this book traces the changing interpretation of troubadour and trouvère music, a repertoire of songs which have successfully maintained public interest for eight centuries. A study of their reception, therefore, serves to illustrate the development of the modern concept of medieval music. Important stages in their evolution include sixteenth-century antiquarianism; the Enlightenment synthesis of scholarly and popular traditions; and the infusion of archaeology and philology in the nineteenth century, leading to more recent theories on medieval rhythm.

Historical Aspects of Pediatric Surgery P. P.

Rickham.2012-12-06 At first sight it may appear strange that a volume of *Progress in Pediatric Surgery* should be devoted to the history of our specialty. One assumes that progress is concerned primarily with recent developments whilst history deals with matters of the past. However, in the past there has also been considerable progress in the development of our understanding of paediatric surgical problems, otherwise we would not have progressed to our present achievements. The editors, therefore, do not apologize for compiling this volume but, on the contrary, feel

that the publication of this volume is most timely. Modern paediatric surgery has now been practised for three generations. The handful of pioneers who were the founders of our specialty worked mainly before the last world war. A few dozen of the intermediary generation started work immediately after the war, while the new generation who are now dominating our specialty must be counted in thousands. Two factors have radically altered paediatric surgery as practised by the intermediary and the present generation of surgeons.

Persepolis Ali Mousavi.2012-04-19 Persepolis: Discovery and Afterlife of a World Wonder presents the first full study of the history of archaeological exploration at Persepolis after its destruction in 330 BC. The book addresses a broad audience of readers ranging from students of the archaeology, history, and art history of ancient, medieval, and modern Iran to scholars in Classical Studies and Ancient Near Eastern Studies.

Historical and Archaeological Perspectives on Gender

Transformations Suzanne M. Spencer-Wood.2012-12-09 In many facets of Western culture, including archaeology, there remains a legacy of perceiving gender divisions as natural, innate, and biological in origin. This belief follows that men are naturally pre-disposed to public, intellectual pursuits, while women are innately designed to care for the home and take care of children. In the interpretation of material culture, accepted notions of gender roles are often applied to new findings: the dichotomy between the domestic sphere of women and the public sphere of men can color interpretations of new materials. In this innovative volume, the contributors focus explicitly on analyzing the materiality of historic changes in the domestic sphere around the world. Combining a global scope with great temporal depth,

chapters in the volume explore how gender ideologies, identities, relationships, power dynamics, and practices were materially changed in the past, thus showing how they could be changed in the future.

Poetic Critique Michel Chaouli, Jan Lietz, Jutta Müller-Tamm, Simon Schleusener. 2021-03-22 Poetic critique – is that not an oxymoron? Do these two forms of behavior, the poetic and the critical, not pull in different, even opposite, directions? For many scholars working in the humanities today, they largely do, but that has not always been the case. Friedrich Schlegel, for one, believed that critique worthy of its name must itself be poetic. Only then would it stand a chance of responding adequately to the work of art. Taking Schlegel's idea of poetische Kritik as a starting point, this volume reflects on the possibility of drawing these alleged opposites closer together. In light of current debates about the legacy of critique, it investigates whether a concept such as poetic critique (or poetic criticism) lends itself to enriching our intellectual practice by engaging with the poetic potential of criticism and the critical value of art and literature.

Afro-Greeks Emily Greenwood.2010-01-28 An exploration of the reception of Classics in the English-speaking Caribbean. Emily Greenwood argues that writers such as Kamau Brathwaite, C. L. R. James, V. S. Naipaul, and Derek Walcott have successfully adapted Classics to the cultural context of the Caribbean, creating a distinctive tradition.

Staging Power Georgii Vilinbakhov,Magnus Olausson.2010-01-01 The appointment of Jean-Baptiste Bernadotte as Swedish crown prince in 1810, and the international political events of the five subsequent years, dramatically altered the power balance in Europe. Against the backdrop of these historical developments, this book focuses on the visual manifestation of power, including the new role of the sovereign, the symbol-laden rituals, and the dynastic family ties. The exhibition features many examples of the art of ruling, and ruling by art, as illustrated in objects ranging from coffee cups to magnificent full-length portraits. The catalogue delves deeper into this wide spectrum of topics, in some ten essays by international experts.

Newton's Apple and Other Myths about Science Ronald L. Numbers,Kostas Kampourakis.2015-11-04 A falling apple inspired the law of gravity—or so the story goes. Is it true? Perhaps not. But why do such stories endure as explanations of how science happens? Newton's Apple and Other Myths about Science brushes away popular misconceptions to provide a clearer picture of scientific breakthroughs from ancient times to the present.

Camera Obscura, Camera Lucida Richard Allen,Annette Michelson,Malcolm Turvey.2003 Annette Michelson's

contributions to art and film criticism over the last three decades have been unparalleled. This volume honors her unique legacy with original essays by some of the many scholars who have been influenced by her work. Some continue her efforts to develop theoretical frameworks for understanding modernist art, while others practice her form of interdisciplinary criticism in relation to avant-garde and modernist art works and artists. Still others investigate and evaluate Michelson's work itself. All in some way pay homage to her extraordinary contribution.

World Literature, Cosmopolitanism, Globality Gesine Müller, Mariano Siskind. 2019-10-21 From today's vantage point it can be denied that the confidence in the abilities of globalism, mobility, and cosmopolitanism to illuminate cultural signification processes of our time has been severely shaken. In the face of this crisis, a key concept of this globalizing optimism as World Literature has been for the past twenty years necessarily is in the need of a comprehensive revision. *World Literature, Cosmopolitanism, Globality: Beyond, Against, Post, Otherwise* offers a wide range of contributions approaching the blind spots of the globally oriented Humanities for phenomena that in one way or another have gone beyond the discourses, aesthetics, and political positions of liberal cosmopolitanism and neoliberal globalization. Departing basically (but not exclusively) from different examples of Latin American literatures and cultures in globalized contexts, this volume provides innovative insights into critical readings of World Literature and its related conceptualizations. A timely book that embraces highly innovative perspectives, it will be a mustread for all scholars involved in the field of the global dimensions of literature.

[How the Essay Film Thinks](#) Laura Rascaroli. 2017-05-05 This book offers a novel understanding of the epistemological strategies that are mobilized by the essay film, and of where and how such strategies operate. Against the backdrop of Adorno's discussion of the essay form's anachronistic, anti-systematic and disjunctive

mode of resistance, and capitalizing on the centrality of the interstice in Deleuze's understanding of the cinema as image of thought, the book discusses the essay film as future philosophy-as a contrarian, political cinema whose argumentation engages with us in a space beyond the verbal. A diverse range of case studies discloses how the essay film can be a medium of thought on the basis of its dialectic use of audiovisual interstitiality. The book shows how the essay film's disjunctive method comes to be realized at the level of medium, montage, genre, temporality, sound, narration, and framing-all of these emerging as interstitial spaces of intelligence that illustrate how essayistic meaning can be sustained, often in contexts of political, historical or cultural extremity. The essayistic urge is not to be identified with a fixed generic form, but is rather situated within processes of filmic thinking that thrive in gaps.

Making Meaning David BORDWELL, David Bordwell. 2009-06-30

David Bordwell's new book is at once a history of film criticism, an analysis of how critics interpret film, and a proposal for an alternative program for film studies. It is an anatomy of film criticism meant to reset the agenda for film scholarship. As such *Making Meaning* should be a landmark book, a focus for debate from which future film study will evolve. Bordwell systematically maps different strategies for interpreting films and making meaning, illustrating his points with a vast array of examples from Western film criticism. Following an introductory chapter that sets out the terms and scope of the argument, Bordwell goes on to show how critical institutions constrain and contain the very practices they promote, and how the interpretation of texts has become a central preoccupation of the humanities. He gives lucid accounts of the development of film criticism in France, Britain, and the United States since World War II; analyzes this development through two important types of criticism, thematic-explicatory and symptomatic; and shows that both types, usually seen as antithetical, in fact have much in common. These diverse

and even warring schools of criticism share conventional, rhetorical, and problem-solving techniques--a point that has broad-ranging implications for the way critics practice their art. The book concludes with a survey of the alternatives to criticism based on interpretation and, finally, with the proposal that a historical poetics of cinema offers the most fruitful framework for film analysis.

Helm Dictionary of Scientific Bird Names James A.

Jobling.2010-06-30 A comprehensive dictionary of the meaning and derivation of scientific bird names. This extraordinary work of reference lists the generic and specific name for almost every species of bird in the world and gives its meaning and derivation. In the case of eponyms brief biographical details are provided for each of the personalities commemorated in the scientific names.

This fascinating book is an outstanding source of information which will both educate and inform, and may even help to understand birds better.

Narrating the Past David K. Herzberger. 1995-05-24 The relationship between fiction and historiography in Francoist Spain (1939-1975) is a contentious one. The intricacies of this relationship, in which fiction works to subvert the regime's authority to write the past, are the focus of David K. Herzberger's book. The narrative and rhetorical strategies of historical discourse figure in both the fiction and historiography of postwar Spain. Herzberger analyzes these strategies, identifying the structures and vocabularies they use to frame the past and endow it with particular meanings. He shows how Francoist historians sought to affirm the historical necessity of Franco by linking the regime to a heroic and Christian past, while several types of postwar fiction—such as social realism, the novel of memory, and postmodern novels—created a voice of opposition to this practice. Focusing on the concept of writing history that these opposing strategies convey, Herzberger discloses the layering of truth and meaning that lies at the heart of postwar Spanish narrative from the early 1940s to the fall of Franco. His study clearly reveals how the novel in postwar Spain became a crucial form of dissent from the past as it was conceived and used by the State. Making a decisive intervention in the debate about the ways in which narration determines both the meaning and truth of history and fiction, *Narrating the Past* will be of special interest to students and scholars of the politics, history, and literature of twentieth-century Spain.

Simians, Cyborgs, and Women Donna Haraway.2013-05-13

Simians, Cyborgs and Women is a powerful collection of ten essays written between 1978 and 1989. Although on the surface, simians, cyborgs and women may seem an odd threesome, Haraway describes their profound link as creatures which have had a great destabilizing place in Western evolutionary technology and biology. Throughout this book, Haraway analyzes accounts, narratives, and stories of the creation of nature, living organisms, and cyborgs. At once a social reality and a science fiction, the cyborg--a hybrid of organism and machine--represents transgressed boundaries and intense fusions of the nature/culture split. By providing an escape from rigid dualisms, the cyborg exists in a post-gender world, and as such holds immense possibilities for modern feminists. Haraway's recent book, Primate Visions, has been called outstanding, original, and brilliant, by leading scholars in the field. (First published in 1991.)

Ugly Feelings Sianne NGAI.2009-06-30 Ngai mobilizes the aesthetics of unprestigious negative affects such as irritation, envy, and disgust to investigate not only ideological and representational dilemmas in literature--with a particular focus on those inflected by gender and race--but also blind spots in contemporary literary and cultural criticism. Her work maps a major intersection of literary studies, media and cultural studies, feminist studies, and aesthetic theory.

Wagner Beyond Good and Evil John Deathridge.2008-07-14 This collection provides us with that rarest of objects: a genuinely new book on Wagner. Virtually every page offers fresh perspectives, some of them mined from the most unlikely of sources; indeed, the sheer eclecticism of the book, its willingness to range widely and irreverently through both popular and elite culture, is one of its greatest strengths.—Roger Parker, author of *Remaking the Song: Operatic Visions and Revisions from Handel to Berio* John Deathridge is one of the most authoritative, widely-regarded Wagner scholars around in any language. Few can match his command of scholarship and primary sources, and no one else knows how to put them to such clever, provocative uses. In addition, Deathridge enjoys an impressive range of critical,

historical, and literary reference. The writing is consistently lively and engaging. The collection will provide a welcome change of diet for those tired of the usual Wagnerian fare. This is a welcome contribution, indeed.—Thomas Grey, author of *Wagner's Musical Prose: Texts and Contexts*

Scientific Babel Michael D. Gordin. 2015-04-13 English is the language of science today. No matter which languages you know, if you want your work seen, studied, and cited, you need to publish in English. But that hasn't always been the case. Though there was a time when Latin dominated the field, for centuries science has been a polyglot enterprise, conducted in a number of languages whose importance waxed and waned over time—until the rise of English in the twentieth century. So how did we get from there to here? How did French, German, Latin, Russian, and even Esperanto give way to English? And what can we reconstruct of the experience of doing science in the polyglot past? With *Scientific Babel*, Michael D. Gordin resurrects that lost world, in part through an ingenious mechanism: the pages of his highly readable narrative account teem with footnotes—not offering background information, but presenting quoted material in its original language. The result is stunning: as we read about the rise and fall of languages, driven by politics, war, economics, and institutions, we actually see it happen in the ever-changing web of multilingual examples. The history of science, and of English as its dominant language, comes to life, and brings with it a new understanding not only of the frictions generated by a scientific community that spoke in many often mutually unintelligible voices, but also of the possibilities of the polyglot, and the losses that the dominance of English entails. Few historians of science write as well as Gordin, and *Scientific Babel* reveals his incredible command of the literature, language, and intellectual essence of science past and present. No reader who takes this linguistic journey with him will be disappointed.

Archaeology of the Unconscious Alessandra Aloisi, Fabio Camilletti.2019-07-10 In reconstructing the birth and development of the notion of ‘unconscious’, historians of ideas have heavily relied on the Freudian concept of Unbewussten, retroactively projecting the psychoanalytic unconscious over a constellation of diverse cultural experiences taking place in the eighteenth and nineteenth centuries between France and Germany. Archaeology of the Unconscious aims to challenge this perspective by adopting an unusual and thought-provoking viewpoint as the one offered by the Italian case from the 1770s to the immediate aftermath of WWI, when Italo Svevo’s *La coscienza di Zeno* provides Italy with the first example of a ‘psychoanalytic novel’. Italy’s vibrant culture of the long nineteenth century, characterised by the sedimentation, circulation, intersection, and synergy of different cultural, philosophical, and literary traditions, proves itself to be a privileged object of inquiry for an archaeological study of the unconscious; a study whose object is not the alleged ‘origin’ of a pre-made theoretical construct, but rather the stratifications by which that specific construct was assembled. In line with Michel Foucault’s *Archéologie du savoir* (1969), this volume will analyze the formation and the circulation, across different authors and texts, of a network of ideas and discourses on interconnected themes, including dreams, memory, recollection, desire, imagination, fantasy, madness, creativity,

inspiration, magnetism, and somnambulism. Alongside questioning pre-given narratives of the 'history of the unconscious', this book will employ the Italian 'difference' as a powerful perspective from whence to address the undeveloped potentialities of the pre-Freudian unconscious, beyond uniquely psychoanalytical viewpoints.

Beauvoir in Time Meryl Altman.2020 Beauvoir in Time situates Simone de Beauvoir's *The Second Sex* in the historical context of its writing and in later contexts of its international reception, from then till now. The book takes up three aspects of Beauvoir's work more recent feminists find embarrassing: bad sex, dated views about lesbians, and intersections with race and class. Through close reading of her writing in many genres, alongside contemporaneous discourses (good and bad novels in French and English, outmoded psychoanalytic and sexological authorities, ethnographic surrealism, the writing of Richard Wright and Franz Fanon), and in light of her travels to the U.S. and China, the author uncovers insights more recent feminist methodologies obscure, showing Beauvoir is still good to think with today--
