A History of Childhood Colin Heywood.2017-12-08 Colin Heywood's classic account of childhood from the early Middle Ages to the First World War combines a long-run historical perspective with a broad geographical spread. This new, comprehensively updated edition incorporates the findings of the most recent research, and in particular revises and expands the sections on theoretical developments in the 'new social studies of childhood', on medieval conceptions of the child, on parenting and on children's literature. Rather than merely narrating their experiences from the perspectives of adults, Heywood incorporates children's testimonies, 'looking up' as well as 'down'. Paying careful attention to elements of continuity as well as change, he tells a story of astonishing material improvement for the lives of children in advanced societies, while showing how the business of preparing for adulthood became more and more complicated and fraught with emotional difficulties. Rich with evocative details of everyday life, and providing the most concise and readable synthesis of the literature available, Heywood's book will be indispensable to all those interested in the study of childhood.

Handbook for Legislation on Violence Against Women .2010 The adoption and enforcement of national laws to address and punish all forms of violence against women and girls, in line with international human rights standards, is one of the five key outcomes which the Secretary-General's campaign UNiTE to End Violence against Women aims to achieve in all countries by 2015. In May 2008, the United Nations Division for the Advancement of Women of the Department of Economic and Social Affairs (UNDAW/DESA) and the United Nations Office on Drugs and Crime (UNODC) organized an expert group meeting in Vienna, Austria, on good practices in legislation on violence against women. That meeting prepared a model framework for legislation on violence against women, including detailed recommendations, commentaries and examples of promising practices. The framework contained two types of recommendations: those that are applicable to all forms of violence against women; and those that are specific to domestic violence or sexual violence. In 2009, based on the work of the expert group meeting in Vienna, UNDAW/DESA developed a Handbook for Legislation on Violence against Women. This Handbook, with a foreword by Deputy Secretary-General, Dr. Asha-Rose Migiro, intends to provide all stakeholders with detailed guidance to support the adoption and effective implementation of legislation which prevents violence against women, punishes perpetrators, and ensures the rights of survivors everywhere. It is specifically hoped that the Handbook will be of use to government officials, parliamentarians, civil society, staff of United Nations entities and other actors in their efforts at ensuring that a solid legal basis is in place for tackling the scourge of violence against women.

Ebeveyn ne yaparsa çocuk edilgen olur, nasıl davranırsa sahip olduğu potansiyeli hayata geçirebilir? Anne baba çocuğun duygularına nasıl erişir? Çocuğun kendi olabilmesi ne demek? Çocuk demek coşku demek, öyleyse çocuklarımız neden bu kadar tükenmiş ve bezgin görünüyor? Sevk hisleri nedir, çocuk sevk hislerini niçin yitirmemelidir? Erken dönemlerinden itibaren cezayla doğru davranmaya sevk edilmiş çocuklar, cezanın duygularında yarattığı incinmeyle baş edebilmek için ya agresifleşerek direnir ya da duygularını bastırmayı öğrenerek edilgenleşir. Ceza sadece çocuğun ebeveyniyle güvenli bir ilişki geliştirmesine engel olmaz, aynı zamanda çocuğu içsel motivasyon kaynaklarını kullanarak hayata bağlanabilme yeteneğinden yoksun bırakır. Uzman Pedagog Dr. Adem Güneş, cezasız eğitimin niçin bu derece hayati olduğunu ve cezaya alternatif yöntemlerin neler olabileceğini meselenin kökenine inerek analiz ediyor. Introduction to Early Childhood Education Nancy Estep.2018-07-12

Climate Change and Air Pollution Rais Akhtar,Cosimo Palagiano.2017-10-05 This book discusses regional and international climate-change, air-pollution and human-health scenarios. The research, from both industrialized and developing countries, focuses on region-specific perspectives of climate change impacts on air pollution. After analyzing the variations of climate data over recent decades, the authors consider the different effects of climate change on air pollution and health. As stressed by the IPCC, “pollen, smoke and ozone levels are likely to increase in a warming world, affecting the health of residents of major cities. Rising temperatures will worsen air quality through a combination of more ozone in cities, bigger wild fires and worse pollen outbreaks,” according to a major UN climate report. The report follows the World Health Organization in finding that air pollution is the world’s greatest environmental health risk, killing 7 million people in 2014 (compared to 0.4 million deaths due to malaria). Deteriorating air quality will most affect the elderly, children, people with chronic ill-health and expectant mothers. Another report suggests that more than 5.5 million people die prematurely each year due to air pollution with over half of those deaths occurring in China and India. A study on the air pollution in the USA,suggests that more than half of US population lives in areas with potentially dangerous air pollution, and about six out of 10 of the top cities for air pollution in the USA are located in the state of California. In the face of future climate change, scientists have urged stronger emission controls to avoid worsening air pollution and the associated exacerbation of health problems, especially in more populated regions of the world. It is hoped that the implementation of the Paris Climate Agreement will help minimize air pollution. Additionally the authors consider the various measures that different countries and groups of countries, like the European Union, have adopted to mitigate the problems arising from climate change and to safeguard the health of population. The book examines the increasing incidence of diseases largely caused by climate change. The countries/regions covered in this study include the USA, Northern Europe (U.K.),Southern Europe (Italy), Canada, Australia, East Asia, Russia, Hong Kong, Taiwan, Thailand, Malaysia, Indonesia, India, South Africa, Mexico, Brazil, Caribbean countries, and Argentina.

Drug-Induced Headache Hans-Christoph Diener, Marcia Wilkinson. 2012-12-06 M. WILKINSON Patients with frequent or daily headaches pose a very difficult problem for the physician who has to treat them, particularly as many patients think that there should be a medicine or medicines which give them instant relief. In the search for the compound which would meet this very natural desire, many drugs have been manufactured and the temptation for the physician is either to increase the dose of a drug which seems to be, at any rate, partially effective, or to add one or more drugs to those which the patient is already taking. Although there have been some references to the dangers of overdosage of drugs for migraine in the past, it was not until relatively recently that it was recognized that drugs given for the relief of headache, if taken injudiciously, may themselves cause headache. The first drugs to be implicated in this way were ergotamine and phenazone. In the case of ergotamine tartrate, the dangers of ergotism were well known as this was a disorder which had been known and written about for many years. In the treatment of headache, fully blown ergotism is rare and in recent years has usually been due to self-medication in doses much greater than those prescribed although there are a few recorded cases where toxic amounts have been given.

'Integration through Law' Revisited Dr Daniel Augenstein. 2013-02-28 Over the last twenty years, processes of pluralization, differentiation and transnationalization in the European Union have arguably challenged the centrality of law to European integration. Yet these developments also present opportunities to investigate new understandings of law triggered by European integration. The contributors to this book revisit one of the first academic projects to conceptualise and study European legal integration - the early 'Integration through Law' School. On this basis, they consider continuities and discontinuities in the underlying social and political landscape which the law is to integrate (the 'object' of integration), the forms and capacities of the law itself (the 'agent' of integration), and the way these two dimensions reflect on each other. Displaying different normative concerns and varied theoretical starting points, all contributors maintain that 'integration through law' remains of enduring significance to the European integration process. The volume provides a valuable reference for scholars in the field of European integration studies and European legal and political theory.

Before downloading free books, decide how you'll be reading them. A popular way to read an ebook is on an e-reader, such as a Kindle or a Nook, but you can also read ebooks from your computer, tablet, or smartphone. World Public Library: Technically, the World Public Library is NOT free. But for \$8.95 annually, you can gain access to hundreds of thousands of books in over one hundred different languages. They also have over one hundred different special collections ranging from American Lit to Western Philosophy. Worth a look. You'll be able to download the books at Project Gutenberg as MOBI, EPUB, or PDF files for your Kindle.
