Sustainable Consumption Alberto do Amaral Junior,Lucila de Almeida,Luciane Klein Vieira.2019-10-21 This book provides a broad understanding of whether law plays a role in influencing patterns of sustainable consumption and, if so, how. Bringing together legal scholars from the Global South and the Global North, it examines these questions in the context of national, transnational and international law, within single and plural legal systems, and across a range of sector-specific issue areas. The chapters identify how traditional legal disciplines (e.g. constitutional law, consumer law, public procurement, international public law), sector-related regulation (e.g. energy, water, waste), and legal rules in specific areas (e.g. eco-labelling and packing) engage with the concept of sustainable consumption. A number of the contributions describe this relationship by isolating a national legal system, while others approach it from the vantage point of legal pluralism, exploring the conflicts and convergences of rules between multiple international treaties (or guidelines) and those between the rules of international and transnational law (or both) vis-à-vis national legal systems. While sustainable consumption is recognised as an important field of interdisciplinary research linking virtually all social science disciplines, legal scholarship, in contrast, has neglected the importance of the field of sustainable consumption to the law. This book fills the gap.

Sacred Journeys in the Counter-Reformation Elizabeth C. Tingle.2020-06-08 Sacred Journeys in the Counter-Reformation examines long-distance pilgrimages to ancient, international shrines in northwestern Europe in the two centuries after Luther. In this region in the sixteenth and seventeenth centuries, saints' cults and pilgrimage were frequently contested, more so than in the Mediterranean world. France, the Low Countries and the British Isles were places of disputation and hostility between Protestant and Catholic; sacred landscapes and journeys came under attack and in some regions, were outlawed by the state. Taking as case studies hugely popular medieval shrines such as Compostela, the Mont Saint-Michel and Lough Derg, the impact of Protestant criticism and Catholic revival on shrines, pilgrims' motives and experiences is examined through life writings, devotional works and institutional records. The central focus is that of agency in religious change: what drove spiritual reform and what were its consequences for the 'ordinary' Catholic? This is explored through concepts of the religious self, holy materiality, and sacred space.

Nationalism and Jewish Identity in Morocco Kristin Hissong.2020-10-01 Moroccan Jews can trace their heritage in Morocco back 2000 years. In French Protectorate Morocco (1912-56) there was a community of over 200,000 Jews, but today only a small minority remains. This book writes Morocco's rich Jewish heritage back into the protectorate period. The book explains why, in the years leading to independence, the country came to construct a national identity that centered on the Arab-Islamic notions of its past and present at the expense of its Jewish history and community. The book provides analysis of the competing nationalist narratives that played such a large part in the making of Morocco's identity at this time: French cultural-linguistic assimilation, Political Zionism, and Moroccan nationalism. It then explains why the small Jewish community now living in Morocco has become a source of national pride. At the heart of the book are the interviews with Moroccan Jews who lived during the French Protectorate, remain in Morocco, and who can reflect personally on everyday Jewish life during this era. Combing the analysis of the interviews, archived periodicals, colonial documents and the existing literature on Jews in Morocco, Kristin Hissong's book illuminates the reality of this multi-ethnic nation-state and the vital role memory plays in its identity.

The Nahuas After the Conquest James Lockhart.1992 A monumental achievement of scholarship, this volume on the Nahua Indians of Central Mexico (often called Aztecs) constitutes our best understanding of any New World indigenous society in the period following European contact. Simply put, the purpose of this book is to throw light on the history of Nahua society and culture through the use of records in Nahuatl, concentrating on the time when the bulk of the extant documents were written, between about 1540-50 and the late eighteenth century. At the same time, the earliest records are full of implications for the very first years after contact, and ultimately for the preconquest epoch as well, both of which are touched on here in ways that are more than introductory or ancillary.

La vie caméléon Waldtraut Helene Treilles.2011-04-15 « De retour au camp après une journée de bois, de glace et de faim, notre seule pensée tournait autour de la bouffe du soir, cette fameuse soupe à l'eau, quelquefois suivie de pommes de terre en robe des champs servies avec une sauce douteuse, une petite cuillerée par Maid, toujours sous l'œil vigilant de la Führerin. Un jour, celle qui apportait la sauce en ayant renversé un peu sur la table, toutes les filles assises autour se précipitèrent sur cette sauce gluante qu'elles léchèrent et lapèrent à même la table grasseuse et spongieuse, comme des chiots. Je crois que c'est ce jour-là que je pris conscience pour la première fois de la fragilité du vernis que nous donnent l'éducation et la culture, face à la nécessité toute nue de la survie. À peine un an auparavant, une bonne vêtue de satin noir m'avait servi une tranche de brochet à la sauce de raifort, sur une assiette de porcelaine, et me voilà, moi aussi, affalée sur une table branlante et dégoûtante, en train de lécher une sauce infecte. » Waldtraut Helene Treilles
Brother-Making in Late Antiquity and Byzantium Claudia Rapp.2016-02-01 Among medieval Christian societies, Byzantium is unique in preserving an ecclesiastical ritual of adelphopoiesis, which pronounces two men, not related by birth, as brothers for life. It has its origin as a spiritual blessing in the monastic world of late antiquity, and it becomes a popular social networking strategy among lay people from the ninth century onwards, even finding application in recent times. Located at the intersection of religion and society, brother-making exemplifies how social practice can become ritualized and subsequently subjected to attempts of ecclesiastical and legal control. Controversially, adelphopoiesis was at the center of a modern debate about the existence of same-sex unions in medieval Europe. This book, the first ever comprehensive history of this unique feature of Byzantine life, argues persuasively that the ecclesiastical ritual to bless a relationship between two men bears no resemblance to marriage. Wide-ranging in its use of sources, from a complete census of the manuscripts containing the ritual of adelphopoiesis to the literature and archaeology of early monasticism, and from the works of hagiographers, historiographers, and legal experts in Byzantium to comparative material in the Latin West and the Slavic world, *Brother-Making in Late Antiquity and Byzantium* examines the fascinating religious and social features of the ritual, shedding light on little known aspects of Byzantine society.

The Invention of Saintliness Anneke B. Mulder-Bakker.2003-08-29 This volume discusses, from an historical and literary angle, the ways in which sanctification and the inscription of saintliness take place. Going beyond the traditional categories of canonization, cult, liturgical veneration and hagiographical lives, the work raises fundamental issues concerning definitions of saints and saintliness in a period before the concept was crystallized in canon law. As well as discussing sources and methodology, contributions cover contextual issues, including relics and veneration, life and the afterlife, and examinations of specific sources and texts. Subjects raised include the idea of hagiography as intimate biography, perceptions of holiness in writings by and about female mystics, and bodily aspects of the Franciscan search for evangelical perfection.

Eschatology, Messianism, and the Dead Sea Scrolls Craig A. Evans, Peter W. Profumi d'Arabia Alessandra Avanzini.1997 English summary: The names, origins, and by ways in the west, and the uses and 'imaginary' symbolism that has for centuries distinguished the commerce in incense, cinnamon, and myrrh from the far away regions of the orient to the merchant's stalls of the Greeks and Romans. This is an ideal journey through the centuries of classical antiquity following the caravan routes, legends and the Levantine enchantment that instill an atmosphere of dreams around the commercial and cultural exchanges between the Orient and Occident, prior to the advent of the great Islamic civilization. Un viaggio ideale nei secoli dell'antichità classica al seguito di vie carovaniere, di leggende e magie levantine che infondono un'atmosfera di sogno agli scambi commerciali e culturali tra Oriente ed Occidente, prima dell'avvento della grande civiltà islamica.
