The book makes clear that we won't achieve equality of opportunity merely by exhorting those who are often excluded to change their behaviors and their goals. The need for systemic cultural change is vividly, at times painfully, evident in these stories. As Dr. Erica Graham says in her powerful and moving essay, we need "a different kind of academy", and we'll only get it by working for it. We can start by reading this book and recognizing the kind of academy we currently have.

Battle Cry Maisha Washington. 2016-10-15 Battle Cry: The Awakening is a novel that targets Young Adults interested in Science Fiction and fantasy based Urban Tales. It retells the experiences of six African American girls growing up in a public housing project during the political/historical period from the 1950's through the 1960's in New York City. The story tells the youth's experiences during 4 critical periods of social upheaval. My name is Maisha Lynn Washington. I am a second generation New Yorker born in Manhattan and raised in Brooklyn. I graduated from Howard University and I am First Generation College in my family. I am a widow and a proud parent of a daughter who has become our family's second generation college graduate. I love the solitude of an empty beach and find comfort by the ocean: my favorite spot on the planet. I read, swim and play all sorts of games for fun. I am an experienced education administrator, program designer/developer with 30+ years of professional academic service in both the non-profit and public sector. I am a first time novelist. I wrote this book because I had a desire to inspire, educate and spark critical thinking in young adults. I used all my experience as an urban dweller, educator, earth and space scientist and archaeology/historian to create this story. This book is the first of a trilogy. The second, *Battle Cry: Liberation*, will chronicle the struggle of Africans from fall 1967 through 1994. *Battle Cry: Unification* will cover 1994 through 2058. This book will explain all the forces at play in the global economy and the move made toward the unification of business and industry on every continent. It will clarify the African prophesy and the role earth must play in it. This is a trilogy that will take the reader to the year 2058. The Weight of Shadows José Orduña.2016-04-12 Tracing his story of becoming a US citizen, José Orduña’s memoir explores the complex issues of immigration and assimilation. José Orduña chronicles the process of becoming a North American citizen in a post-9/11 United States. Intractable realities—rooted in the continuity of US imperialism to globalism—form the landscape of Orduña’s daily experience, where the geopolitical meets the quotidian. In one anecdote, he recalls how the only apartment his parents could rent was one that didn’t require signing a lease or running a credit check, where the floors were so crooked he once dropped an orange and watched it roll in six directions before settling in a corner. Orduña describes the absurd feeling of being handed a piece of paper—his naturalization certificate—that guarantees something he has always known: he has every right to
