STRENGTH THROUGH CRISES Marc Wallert. 2021-01-23 In the year 2000, Marc Wallert, along with 20 other hostages, was kidnapped by terrorists and held captive in the Philippine jungle for 140 days. In this book, he recounts the survival strategies he employed and the lessons he learned from this harrowing experience. With brutal honesty, he also describes other life setbacks, including his burnout, underlining the fact that the strategies that helped him can also assist others in challenging times: the mental fortitude known as resilience. Resilience, though proven effective time and again, has seldom been discussed in such a riveting manner.

In Praise of Walking Shane O'Mara. 2020 Walking upright on two feet is a uniquely human skill. It defines us as a species. It enabled us to walk out of Africa and to spread as far as Alaska and Australia. It freed our hands and freed our minds. We put one foot in front of the other without thinking - yet how many of us know how we do that, or appreciate the advantages it gives us? In this hymn to walking, neuroscientist Shane O'Mara invites us to marvel at the benefits it confers on our bodies and minds. In Praise of Walking celebrates this miraculous ability. Incredibly, it is a skill that has its evolutionary origins millions of years ago, under the sea. And the latest research is only now revealing how the brain and nervous system performs the mechanical magic of balancing, navigating a crowded city, or running our inner GPS system. Walking is good for our muscles and posture; it helps to protect and repair organs, and can slow or turn back the ageing of our brains. With our minds in motion we think more creatively, our mood improves and stress levels fall. Walking together to achieve a shared purpose is also a social glue that has contributed to our survival as a species. As our lives become increasingly sedentary, we risk all this. We must start walking again, whether it's up a mountain, down to the park, or simply to school and work. We, and our societies, will be better for it.

Readers will find their perceptions of how God moves enlarged and inspired by this classic story. For parents and youth leaders looking for real-life role models for the new generation of young people, you will want to meet the Dales in Lords of the Earth.

Anarchism in the Dramas of Ernst Toller Michael Ossar.1980-06-30 This study shows how politics and art intermingled in the life and works of one of the most renowned playwrights of German Expressionism, a man who was in many senses paradigmatic of the non-communist Left in the Weimar Republic. Toller sought to preserve the sanctity of the individual against collectivist assaults from the Right and from the Left, but at the same time to meet the needs of a complex society. Ossar demonstrates that the playwright arrived at solutions that were anarchist in nature, deriving from a long European tradition. This is the first in-depth book-length study of Toller and his plays published in English.

Sand Wolfgang Herrndorf.2018-06-12 Set in the aftermath of the 1972 Munich Olympics massacre, this darkly sophisticated literary thriller by one of Germany's most celebrated writers is now available in the US for the first time. North Africa, 1972. While the world is reeling from the massacre of Israeli athletes at the Munich Olympics, a series of mysterious events is playing out in the Sahara. Four people are murdered in a hippie commune, a suitcase full of money disappears, and a pair of unenthusiastic detectives are assigned to investigate. In the midst of it all, a man with no memory tries to evade his armed pursuers. Who are they? What do they want from him? If he could just recall his own identity he might have a chance of working it out. . . . This darkly sophisticated literary thriller, the last novel Wolfgang Herrndorf completed before his untimely death in 2013, is, in the words of Michael Maar, "the greatest, grisliest, funniest, and wisest novel of the past decade." Certainly no reader will ever forget it.

The Heritage of Our Times Ernst Bloch.2018-03-15 *Heritage of Our Times* is a brilliant examination of modern culture and its legacy by one of the most important and deeply influential thinkers of the 20th century. Bloch argues that the key elements of a genuine cultural tradition are not just to be found in the conveniently closed and neatly labeled ages of the past, but also in the open and experimental cultural process of our time. One of the most compelling aspects of this work is a contemporary analysis of the rise of Nazism. It probes its bogus roots in German history and mythology at the very moment when the ideologies of Blood and Soil and the Blond Beast were actually taking hold of the German people. The breadth and depth of Bloch's vision, together with the rich diversity of his interest, ensure this work a place as one of the key books of the 20th century.

Max Schmeling and the Making of a National Hero in Twentieth-Century Germany Jon Hughes.2017-09-19 This book presents the first in-depth study of the German boxer Max Schmeling (1905-2005) as a national hero and representative figure in Germany between the 1920s and the present day. It explores the complex relationship between sport, culture, politics and national identity and draws on a century of journalism, film, visual art, life writing and fiction. Detailed chapters analyse Schmeling's emergence as an icon in the Weimar Republic, his association with America, his celebrity status in the Third Reich, and his rivalry with Joe Louis as a focus for an extraordinary propaganda and ideological contest. The book also examines how Schmeling's post-war success in business associated him with the culture of the 'zero hour' nation in the era of 'economic miracle', and how he was later claimed as 'good German' and moral example for a post-war generation of Germans determined to 'come to terms' with the past. This book will appeal to readers with an interest in the history and representation of sport and boxing, in sports discourse and political culture, and in questions of national identity in modern German history.

The Radio Family Ingeborg Bachmann.2021 Ingeborg Bachmann (1926-1973) is recognized as one of post-war German literature's most important novelists, poets, and playwrights. Influenced by Hans Weigel and the legendary literary circle Gruppe 47, Bachmann gained international renown for her poems, short stories, and novels, and won numerous awards for her work. Sadly, her life ended abruptly in October of 1973 when a lit cigarette burned down her apartment causing Bachmann to suffer severe burns that would eventually prove fatal. The author was only forty-seven, and her tragic death left what could have been a long and lustrous writing career regrettably stunted. Nearly twenty years after her death, during an estate sale in Vienna, fifteen episodes of the popular Viennese radio drama The Radio Family were discovered. Remarkably, they happened to be written by Ingeborg Bachmann herself, who had been a writer on the show just after she graduated university. The Radio Family was a popular radio soap opera broadcast in the American sector of occupied Vienna in the 1950s. The program focused on a middle-class Viennese family and their everyday life. Topics ranged from birthday parties and holiday plans to profiteering and currency fraud in the commercial sector, and Austrians' involvement in the Nazi past. All fifteen scripts have now been compiled and masterfully translated, revealing an early and significant piece of Bachmann's body of work, while simultaneously offering a rare glimpse into Vienna's quotidian history.

The Flying Mountain Christoph Ransmayr.2019-09-15 In a publishing world that is all too full of realist novels written in undistinguished prose, discernible only by their covers, *The Flying Mountain* stands out--if for no other reason than that it consists entirely of blank verse. And that form is most suitable for the epic voyage Christoph Ransmayr relates: *The Flying Mountain* tells the story of two brothers who leave the southwest coast of Ireland on an expedition to Transhimalaya, the land of Kham, and the mountains of eastern Tibet--looking for an untamed, unnamed mountain that represents perhaps the last blank spot on the map. As they advance toward their goal, the brothers find their past, and their rivalry, inescapable, inflecting every encounter and decision as they are drawn farther and farther from the world they once knew. Only one of the brothers will return. Transformed by his loss, he starts life anew, attempting to understand the mystery of love, yet another quest that may prove impossible. *The Flying Mountain* is thrilling, surprising, and lyrical by turns; readers looking for something truly new will be rewarded for joining Ransmayr on this journey.

Expanding the Lexicon Sabine Arndt-Lappe,Angelika Braun,Claudine Moulin,Esme Winter-Froemel.2018-01-22 The creation of new lexical units and patterns has been studied in different research frameworks, focusing on either system-internal or system-external aspects, from which no comprehensive view has emerged. The volume aims to fill this gap by studying dynamic processes in the lexicon - understood in a wide sense as not being necessarily limited to the word level - by bringing together approaches directed to morphological productivity as well as approaches analyzing general types of lexical innovation and the role of discourse-related factors. The papers deal with ongoing changes as well as with historical processes of change in different languages and reflect on patterns and specific subtypes of lexical innovation as well as on their external conditions and the speakers' motivations for innovating. Moreover, the diffusion and conventionalization of innovations will be addressed. In this way, the volume contributes to understanding the complex interplay of structural, cognitive and functional factors in the lexicon as a highly dynamic domain.

Bodily Citations Ellen T. Armour,Susan M. St. Ville.2006-07-11 In such works as *Gender Trouble* and *Bodies That Matter* Judith Butler broke new ground in understanding the construction and performance of identities. While Butler's writings have been crucial and often controversial in the development of feminist and queer theory, *Bodily Citations* is the first anthology centered on applying her theories to religion. In this collection scholars in anthropology, biblical studies, theology, ethics, and ritual studies use Butler's work to investigate a variety of topics in biblical, Islamic, Buddhist, and Christian traditions. The authors shed new light on Butler's ideas and highlight their ethical and political import. They also broaden the scope of religious studies as they bring it into conversation with feminist and queer theory. Subjects discussed include the woman's mosque movement in Cairo, the ordination of women in the Catholic Church, the possibility of queer ethics, religious ritual, and biblical constructions of sexuality. Contributors include: Karen Trimble Alliaume, Lewis University; Teresa Hornsby, Drury University; Amy Hollywood, Harvard Divinity School; Christina Hutchins, Pacific School of Religion; Saba Mahmood, University of California, Berkeley; Susanne Mrozik, Mount Holyoke College; Claudia Schippert, University of Central Florida; Rebecca Schneider, Brown University; Ken Stone, Chicago Theological Seminary
