Female founders in Byzantium and beyond Lioba Theis,Margaret Mullett,Michael Grünbart.2014 This volume presents the results of a scholarly meeting which focused on the patronage of women in the Byzantine Empire. In their scope, the articles address broadly not only the founding or re-founding of churches and monasteries, but also their rich decoration, as well as numerous smaller donations. In spite of increased attention to gender research in recent years, a comparative treatment of the legal and economic potential that women in Byzantium could exercise in order to exert independent influence has been lacking; thus a gender-specific viewpoint for the volume was intentionally chosen.

Cassiodorus Senator Cassiodorus.2004 As a minister of the ostrogothic regime in the time of Theoderic, Cassiodorus had as brilliant a political career as any Roman of the late empire. Around 538 CE, on the eve of the Byzantine reconquest of Italy, he published a collection of his state letters under the title of *Variae* (TTH 12), and disappeared from the public record. Half a century later, dying at his country estate in Calabria, he left behind the exemplars for another world of texts: that of the Christian universe of Scripture, now encompassing the Seven Liberal Arts. The grand plan of this new dispensation is contained in the two books of his *Institutions of Divine and Secular Learning*, a work which would be excerpted and copied in monasteries throughout the Latin Middle Ages. The *Institutions* appears here in the first new English translation in more than fifty years, with explanatory notes and a historical and interpretative introduction that takes full account of recent scholarship. The treatise *On the Soul*, which was originally published as the thirteenth book of the *Variae*, is included as an appendix. For a long while mistakenly revered as a saviour of classical civilization, in recent times more often dismissed as an anachronism, Cassiodorus emerges from this edition of the *Institutions* as an exceptional but nonetheless representative exponent of the learned Christian culture of later Latin Antiquity. The work will be of interest to historians of the late Roman empire and the early Christian church, medievalists, and students of the classical tradition.-- Publisher description.

Byzantine Monemvasia Charis Kalliga.1990 The foundation of Monemvasia in the southern Peloponnese has always been related to the raid of the Slavs, for which the sources are few but the literature is vast. This study seeks to analyse existing sources and evaluate and correlate them in the hope that some facts can be established to illuminate the evolution of the city. In his introduction, Sir Steven Runciman writes, 'Dr Kalligas has brought to her task a close acquaintance both of the written sources and of the place itself, together with a broad outlook and a wise and careful judgement. All this gives her work great authority.'

The Origins of Roman Christian Diplomacy Walter Stevenson.2020-11-23 This book illuminates the origins of Roman Christian diplomacy through two case studies: Constantius II's imperial strategy in the Red Sea; and John Chrysostom's ecclesiastical strategy in Gothia and Sasanian Persia. Both men have enjoyed a strong narrative tradition: Constantius as a persecuting, theological fanatic, and Chrysostom as a stubborn, naïve reformer. Yet this tradition has often masked their remarkable innovations. As part of his strategy for conquest, Constantius was forced to focus on Alexandria, demonstrating a carefully orchestrated campaign along the principal eastern trade route. Meanwhile, whilst John Chrysostom's preaching and social reform have garnered extensive discussion, his late sermons and letters composed in exile reveal an ambitious program to establish church structures outside imperial state control. The book demonstrates that these two pioneers innovated a diplomacy that utilised Christianity as a tool for forging alliances with external peoples; a procedure that would later become central to Byzantine statecraft. It will appeal to all those interested in Early Christianity and late antique/medieval history.

Patrology Otto Bardenhewer.1908 Otto Bardenhewer's *Patrology* is certainly not the most recent work in the field. But sound judgment is never obsolete - Bardenhewer's concise, pellucid analysis of the church fathers is still valuable today, over a century after it was published. For generations, his work has been treasured by experts and novices alike for its penetrating insight and easy accessibility. Many fathers are given fuller treatment here than in any modern handbook. And today, every work cited in Bardenhewer's copious bibliographies has entered the public domain - what a boon to researchers of the information age!
