A Splash of Red: The Life and Art of Horace Pippin Jen Bryant.2013-01-08 A Robert F. Sibert Honor Book Winner of the Schneider Family Book Award An ALA-ALSC Notable Children's Book Winner of the NCTE Orbis Pictus Award for Outstanding Nonfiction for Children As a child in the

late 1800s, Horace Pippin loved to draw: He loved the feel of the charcoal as it slid across the floor. He loved looking at something in the room and making it come alive again in front of him. He drew pictures for his sisters, his classmates, his co-workers. Even during W.W.I, Horace filled his notebooks with drawings from the trenches . . . until he was shot. Upon his return home, Horace couldn't lift his right arm, and couldn't make any art. Slowly, with lots of practice, he regained use of his arm, until once again, he was able to paint--and paint, and paint! Soon, people—including the famous painter N. C. Wyeth—started noticing Horace's art, and before long, his paintings were displayed in galleries and museums across the country. Jen Bryant and Melissa Sweet team up once again to share this inspiring story of a self-taught painter from humble beginnings who despite many obstacles, was ultimately able to do what he loved, and be recognized for who he was: an artist.

The Writing Revolution Judith C. Hochman,Natalie Wexler.2017-08-07 Why you need a writing revolution in your classroom and how to lead it The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students

may seem, The Writing Revolution can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.
