Freedom Climbers Bernadette McDonald.2013-02-20 [CLICK HERE](#) to download the first chapter from *Freedom Climbers* (Provide us with a little information and we'll send your download

directly to your inbox) One of the most important mountaineering books to be written for many years. —Boardman-Tasker Prize See this book trailer for *Freedom Climbers* made by RMB Books, its publisher in Canada, where the cover is slightly different from the Mountaineers Books U.S. edition * Behind the Iron Curtain, Cold War mountaineers found freedom on the world's highest peaks—and paid an awful price to achieve it * Winner of the Boardman-Tasker Prize, Banff Grand Prize, and American Alpine Club Literary Award *Freedom Climbers* tells the story of Poland's truly remarkable mountaineers who dominated Himalayan climbing during the period between the end of World War II and the start of the new millennium. The emphasis here is on their golden age in the 1980s and 1990s when, despite the economic and social baggage of their struggling country, Polish climbers were the first to tackle the world's highest mountains during winter, including the first winter ascents on seven of the world's fourteen 8000-meter peaks: Everest, Manaslu, Dhaulagiri, Cho Oyu, Kanchenjunga, Annapurna, and Lhotse. Such successes, however, came at a serious cost: 80 percent of Poland's finest high-altitude climbers died on the high mountains during the same period they were pursuing these first ascents. Award-winning writer Bernadette McDonald addresses the social, political, and cultural context of this golden age, and the hardships of life under Soviet rule. Polish climbers, she argues, were so tough because their lives at home were so tough—they lost family members to World War II and its aftermath and were so much more poverty-stricken than their Western counterparts that they made much of their own climbing gear. While *Freedom Climbers* tells the larger story of an era, McDonald shares charismatic personal narratives such as that of Wanda Rutkiewicz, expected to be the first woman to climb all 8000-meter peaks until she disappeared on Kanchenjunga in 1992; Jerzy Kukuczka, who died in a fall while attempting the south face of Lhotse; and numerous other renowned climbers including

Voytek Kurtyka, Artur Hajzer, Andrej Zawaka, and Krzysztof Wielicki. This is a fascinating window into a different world, far-removed from modernity yet connected by the strange allure of the mountain landscape, and a story of inspiring passion against all odds. Behavioral Finance: The Second Generation Meir

Statman.2019-12-02 Behavioral finance presented in this book is the second-generation of behavioral finance. The first generation, starting in the early 1980s, largely accepted standard finance's notion of people's wants as "rational" wants—restricted to the utilitarian benefits of high returns and low risk. That first generation commonly described people as "irrational"—succumbing to cognitive and emotional errors and misled on their way to their rational wants. The second generation describes people as normal. It begins by acknowledging the full range of people's normal wants and their benefits—utilitarian, expressive, and emotional—distinguishes normal wants from errors, and offers guidance on using shortcuts and avoiding errors on the way to satisfying normal wants. People's normal wants include financial security, nurturing children and families, gaining high social status, and staying true to values. People's normal wants, even more than their cognitive and emotional shortcuts and errors, underlie answers to important questions of finance, including saving and spending,

Scout Pioneering Larry Green.2017-12-27 Scout Pioneering, Good Ol' Fashioned Outdoor Fun, is filled with all the information, illustrations, and instructions a unit needs to get an effective pioneering program off the ground and flourishing. Along with the author's first-hand experience as a Scout leader who has run successful pioneering programs in his own troop and at the Philmont Training Center, it draws upon the expertise of Scouting's most revered pioneering legends. Icing on the cake are over 250 pioneering-related photos bringing the text to life and capturing real Scouts in action, along with links to over 40 BSA-recognized how-to skill videos and Scout meeting activity videos. The Scout meeting activities are one of the book's highlights. Knowing how to present these involving pioneering challenges during troop meetings produces positive outcomes that are unparalleled in their capacity to engage Scouts while making fun happen! Another highlight of the book is the colorful section on camp gadgets. An array of these impressive campsite improvements was presented in the pioneering village at the national jamboree. It was fun to observe the jamboree participants' mouths open and sense their wheels turning, as youth and adult alike inspected them closely, asked questions, and took pictures in order to share the ideas with their troops back home. When John Thurman, camp chief at Gilwell for over twenty-five years, was asked, Why pioneering? His simple reply was, To me the over-riding reason for presenting pioneering is that boys like it. Lord Baden-Powell, Scouting's founder wrote, But there are reasons for pioneering other than the fact that boys

like doing it. I am inclined to suggest to Scouters that in addition to the technical details of knotting, lashing, and anchorages, there is an educative value in pioneering since it gives elementary training in stresses, mensuration, etc., and it also develops initiative and resourcefulness. Additionally, it gives practice in team work and discipline. In other words, pioneering is practical and character building: the two essential ingredients of any program material for Scouts. A Scouting program consists of what Scouts DO! Providing a wide range of opportunities for fun, challenges, and personal growth, pioneering has all the qualities that keep Scouts involved and coming back for more. Amidst the wide spectrum of unique adventures available in Scouting, there's always an attraction to and fascination with what's termed, old school. Pioneering is all about using timeless skills to get things done and have a great time.

This updated edition of the 1994 account recalls that groundbreaking success. It also chronicles many achievements since, including the first Everest success by an Irishwoman, Clare O'Leary, and Pat Falvey's ascents by two different routes. In 2012, Irishman Noel Hanna completed his fifth Everest ascent. Other highlights include ascents of Lhotse, Cho Oyu, Kanchenjunga, Broad Peak and K2. Mike Barry became

the first Irish person to walk to the South Pole, and an Irish crew completed the first east-west circumnavigation of the Arctic in a small yacht. Members of the first Everest expedition still climb and Irish adventurers continue to attempt objectives such as the North Pole on foot. In conclusion, the book reflects on the perspectives of the original eight climbers and on how a trend towards success at the expense of challenge, coupled with commercialisation of sport, has left its mark on the Himalaya.

Hole-in-the-Rock David E. Miller.2017-04-07 First published in 1962, David E. Miller's award-winning work on the Hole-in-the-Rock episode was arguably his greatest achievement as a historian. One of the great set-pieces of Mormon history, the San Juan Mission had become clouded by myth and hagiography when Miller first became attracted to its study in the 1950s, and few reliable sources were at that time available. Not content with exhausting archival material, Miller contacted all locatable descendants of the members of the original party, and thereby brought to light a great number of previously unexploited sources. The Hole-in-the-Rock study achieved additional depth from his intimate knowledge of the actual trail acquired on repeated traverses by Jeep and on foot. A member of the LDS Church, Miller wrote of the Mormons with sympathy and understanding, but with a commitment as well to the critical standards of the historical profession. A must-read for anyone

Into the Silence Wade Davis.2011-10-18 The definitive story of the British adventurers who survived the trenches of World War I and went on to risk their lives climbing Mount Everest. On June 6, 1924, two men set out from a camp perched at 23,000 feet on an ice ledge just below the lip of Everest's North Col. George Mallory, thirty-seven, was Britain's finest climber. Sandy Irvine was a twenty-two-year-old Oxford scholar with little previous mountaineering experience. Neither of them returned. Drawing on more than a decade of prodigious research, bestselling author and explorer Wade Davis vividly re-creates the heroic efforts of Mallory and his fellow climbers, setting their significant achievements in sweeping historical context: from Britain's nineteenth-century imperial ambitions to the war that shaped Mallory's generation. Theirs was a country broken, and the Everest expeditions emerged as a powerful symbol of national redemption and hope. In Davis's rich exploration, he creates a timeless portrait of these remarkable men and their extraordinary times.
