**Science Teaching Reconsidered** National Research Council, Division of Behavioral and Social Sciences and Education, Board on Science Education, Committee on Undergraduate Science Education. 1997-03-12  
Effective science teaching requires creativity, imagination, and innovation. In light of concerns about American science literacy, scientists and educators have struggled to teach this discipline more effectively. *Science Teaching Reconsidered* provides undergraduate science educators with a path to understanding students, accommodating their individual differences, and helping them grasp the methods and the wonder of science. What impact does teaching style have? How do I plan a course curriculum? How do I make lectures, classes, and laboratories more effective? How can I tell what students are thinking? Why don't they understand? This handbook provides productive approaches to these and other questions. Written by scientists who are also educators, the handbook offers suggestions for having a greater impact in the classroom and provides resources for further research.

**Schools of Thought** Rexford Brown. 1993-08-10 As a result of his visits to classrooms across the nation, Brown has compiled an engaging, thought-provoking collection of classroom vignettes which show the ways in which national, state, and local school politics translate into changed classroom practices. Captures the breadth, depth, and urgency of education reform.--Bill Clinton.

**Language Education Programs** Zia Tajeddin, Carol Griffiths. 2023-09-19 This book delves into the realm of effective language education programs, examining them from both macro and micro-policy-making perspectives. It unravels the distinguishing features of exemplary language programs and explores how these programs are implemented in diverse international contexts. The book comprehensively explores various facets of language education programs, encompassing well-crafted language education policies, robust curriculum and syllabus design, impactful teaching materials, effective approaches to English for specific purposes (ESP), English as a medium of instruction (EMI), content and language integrated learning (CLIL), and English as a Lingua Franca (ELF)-informed instruction. The book also delves into fruitful school/institute-university partnerships, the judicious use of technology, strategies for teacher recruitment and professional development, as well as efficient policies for learner assessment, among other topics of significance. The contributions within this book are firmly grounded in data, incorporating findings from empirical studies. The insights provided draw upon valuable data obtained from a range of diverse contexts in which effective language education programs have been implemented.

Specialized Study Options U.S.A., 1986-1988: Professional development Edrice Howard. 1986 Information is provided on nearly 500 short-term professional development programs offered in the United States that are open to or intended for non-U.S. students. The programs, which range from 2 weeks to 1 year in length, require at least an associate's degree or a corresponding level of academic or nonacademic study for admission. The programs are arranged alphabetically by 23 major fields of study, with general programs listed first, followed by subfields. The fields are: agriculture; architecture; area and ethnic studies; business communications; computer sciences; education; engineering; home economics; industrial arts and trades; languages and literatures; law; liberal arts and general studies; library and information sciences; life sciences; mathematics; medicine and health services; philosophy and religion; physical sciences; psychology; psychiatry and psychotherapy; public administration; social sciences; and visual and performing arts. Within each section, the programs are listed alphabetically by the names of sponsoring institutions. For each program, information is provided on: sponsor's name, program title, subjects and unique program features, beginning and ending dates or duration of sessions, location of instruction, methods of instruction, eligibility, cost, availability of scholarships, type of housing offered, application deadlines, contact persons, program numbers, and program highlights. Indexes are offered for sponsoring institutions, states, and fields of study. *Developing Teachers* Chris Day. 2002-01-04 Effective schools or improving schools are fashionable terms in the rhetoric of recent education movements, yet the heart of these movements is often more to do with teaching quality than with school practice. This book takes a holistic view of teacher development, examining the contexts and conditions of teaching: school leadership and culture; teachers' lives and histories; change; teacher learning, competence and expertise; and the moral purposes of teaching. Day looks at the conditions under which teacher development may be enhanced, and brings together research and other information, from the UK and overseas.

*Accountancy and Empire* Chris Poullaos, Suki Sian. 2010-09-30 This book brings together, for the first time, studies of the professionalisation of accountancy in key constituent territories of the British Empire. The late nineteenth century was a period of intensive activity in terms of both imperialism and professionalisation. A team of expert contributors has examined profession-state engagements between Britain, on the one hand and Canada, South Africa, Australia, Nigeria, Malaysia, Sri Lanka, Jamaica, Trinidad and Tobago, India and Kenya, and the other with a view to assessing how the organizations of accountancy in the colonies was affecting the metropolitan profession and state agents- and vice versa. Their contributions highlight the peculiarities of the professionalization processes in variant social, economic and political environments linked together by the relays of empire, prompting reflection on both the common and disparate dynamics involved. This book has numerous objectives, including giving historical insight and focus on countries that provide contrasting and variant examples of the uptake of the British model, and broadening the appeal of accounting history and professionalisation as a taught subject in university accounting departments.

*My Freshman Year* Rebekah Nathan. 2006-07-25 After fifteen years of teaching anthropology at a large university, Rebekah Nathan had become baffled by her own students. Their strange behavior—eating meals at their desks, not completing reading assignments, remaining silent through class discussions—made her feel as if she were dealing with a completely foreign culture. So Nathan decided to do what anthropologists do when confused by a different culture: Go live with them. She enrolled as a freshman, moved into the dorm, ate in the dining hall, and took a full load of courses. And she came to understand that being a student is a pretty difficult job, too. Her discoveries about contemporary undergraduate culture are surprising and her observations are invaluable, making *My Freshman Year* essential reading for students, parents, faculty, and anyone interested in educational policy.
