Down by the River Charles Bowden.2023-05-16 Lionel Bruno Jordan was murdered on January 20, 1995, in an El Paso parking lot, but he keeps coming back as the key to a multibillion-dollar drug industry, two corrupt governments -- one called the United States and the other Mexico -- and a self-styled War on Drugs that is a fraud. Beneath all the policy statements and bluster of politicians is a real world of lies, pain, and big money. Down by the River is the true narrative of how a murder led one American family into this world and how it all but destroyed them. It is the story of how one Mexican drug leader outfought and outthought the U.S. government, of how major financial institutions were fattened on the drug industry, and how the governments of the U.S. and Mexico buried everything that happened. All this happens down by the river, where the public fictions finally end and the facts read like fiction. This is a remarkable American story about drugs, money, murder, and family.

A Doctor in Africa Dr Andrew Browning.2021-04-27 Including a preface by HRH The Princess Royal, Princess Anne. The Australian doctor saving the lives and dignity of thousands of women in Africa, one surgery at a time. From Ethiopia to Sierra Leone, Tanzania to Togo, Dr Andrew Browning has been helping women affected by obstetric fistulas - a debilitating condition resulting from obstructed childbirth - for nearly two decades. Andrew began his African career in the 1990s working with the late Dr Catherine Hamlin and since then has started the Barbara May Foundation, which has built hospitals, trained staff and established programs to heal fistulas and also prevent them from occurring around Africa in the world's most disadvantaged women. Two million African women are estimated to be suffering with obstetric fistulas. They are often made outcasts in their own community, unable to leave their homes and left with little prospect of a happy, fulfilling life. Andrew's operations, and the spread of fistula-skilled surgeons he is training across the continent, don't just relieve the emotional and physical pain of the women affected, but give them hope and a future. A Doctor in Africa is the uplifting story of Andrew's life, from the challenges faced along the way to the stories of the women whose lives he has forever changed. All royalties from the sale of this book will be donated to the Barbara May Foundation. Praise for A Doctor in Africa 'Andrew's compassion for the women of Africa will inspire and uplift you. Written with warmth and enormous empathy, this book will make you cry - often with tears of joy - and on turning the page have you laughing out loud. A Doctor in Africa is a masterpiece in compassion, sensitivity and caring.' Dame Ann Gloag DBE. Founder, Freedom From Fistula 'Andrew Browning's deep compassion and wonderful surgical skills have given new life to thousands of mothers suffering severe, often horrific childbirth injuries. This Australian doctor has dedicated his life to helping women in Ethiopia, Tanzania and right throughout Africa and beyond regain their dignity and place in society.' Dr Robert Tong AM, Chair, Hamlin Fistula Australia 'Through Dr Browning's astonishing work, countless women shunned even by their own communities are healed, and rivers of tears are turned to laughter and joy. You will cry, you will weep, you will be aghast, but ultimately you will thank God for people like Andrew Browning. Read this if you want your heart broken, then sewn back together richer and pumping with gratitude.' Canon Tim Swan, CEO Anglican Aid 'Dr Andrew Browning is known to us as the surgeon of difficult cases. In his book, he brings us real stories of the victims of fistula, but with restored good health. Andrew is a compassionate, skilled, devoted, young surgeon who has brought hope and dignity to many vulnerable African women. He awakens our inner being, moving us to become more compassionate.' Sister Dr Imelda Nabukalu, Deputy Medical Director Kitovu Mission Hospital, Masaka, Uganda 'Following in the footsteps of his legendary mentor, Dr Catherine Hamlin, Dr Andrew Browning's extraordinary life is as fascinating as it is inspiring. Dr Browning is living out his faith by giving the priceless gift of health to multitudes of African women suffering horrendous injuries simply for trying to bring a child into the world.' Kate Grant, CEO of the Fistula Foundation USA 'I urge you to take up this wonderful read and find your heart deeply thankful and your mind wonderfully informed. The work that Andrew has been doing is a bright signpost to the God he serves. If there is a more thrilling description of what one Aussie doctor has seen and done in African villages to get women restored and rejoicing I'd like to know about it. This book is one of the best antidotes to despondency and doubt I have ever read.' Simon Manchester, Former Rector, St Thomas Anglican Church North Sydney 'Andrew's deep connection with Africa, the land and her people is both confronting and inspiring. Restoring dignity to a marginalised woman is powerful for that individual and her society. His message is one of joy, and hope for a better world.' Dr Vijay Roach, President, Royal Australian and New Zealand College of Obstetricians and Gynaecologists 'Like an Odysseus of modern Africa, Andrew Browning's extensive, interesting and compassion-rich travels with his family to care for local women are also amazing for their rugged versatility and adventurous brio. An exciting story off the beaten track, both literally and medically.' Richard Hamlin 'It has been a privilege to know and work with Dr Andrew Browning. He has been a mentor, role model and great fistula surgeon. He has surrendered his life to help fistula patients. His dedication in fistula work has brought smiles to thousands of women. His life story is inspirational and I would wish to walk in his footsteps.' Dr James J. Chapa, MD, MMed (Obs/Gyn), MPH, Fistula Surgeon and FIGO Accredited Trainer, CCBRT Hospital, Dar es Salaam, Tanzania

The Hospital by the River Catherine Hamlin,John Little.2016-06-17 Gynaecologists Catherine and Reg Hamlin left Australia in 1959 on a short contract to establish a midwifery school in Ethiopia. Over 40 years later, Catherine is still there, running one of the most outstanding medical programmes in the world. The Hamlins dedicated their lives to women suffering the catastrophic effects of obstructed labour. The awful injuries that such labour produces are called fistulae, and until the Hamlins began their work in Ethiopia, fistula sufferers were neglected and forgotten - a vast group of women facing a lifetime of incapacity and degradation. Catherine and Reg, with their team of dedicated fistula surgeons, have successfully operated on over 25,000 women, and the Addis Ababa Fistula Hospital, the hospital they opened in 1974, has become a major teaching institution for gynaecologists from all over Ethiopia and the developing world. Since Reg's death, Catherine and her team have continued the work.

County David A. Ansell.2012-05-01 The amazing tale of “County” is the story of one of America’s oldest and most unusual urban hospitals. From its inception as a “poor house” dispensing free medical care to indigents, Chicago’s Cook County Hospital has been renowned as a teaching hospital and the healthcare provider of last resort for the city’s uninsured. Ansell covers more than thirty years of its history, beginning in the late 1970s when the author began his internship, to the “Final Rounds” when the enormous iconic Victorian hospital building was replaced. Ansell writes of the hundreds of doctors who underwent rigorous training with him. He writes of politics, from contentious union strikes to battles against “patient dumping,” and public health, depicting the AIDS crisis and the Out of Printening of County’s HIV/AIDS clinic, the first in the city. And

finally it is a coming-of-age story for a young doctor set against a backdrop of race, segregation, and poverty. This is a riveting account.

A River Runs through It and Other Stories Norman MacLean.2017-05-03 The New York Times—bestselling classic set amid the mountains and streams of early twentieth-century Montana, “as beautiful as anything in Thoreau or Hemingway” (Chicago Tribune). When Norman Maclean sent the manuscript of *A River Runs Through It and Other Stories* to New York publishers, he received a slew of rejections. One editor, so the story goes, replied, “it has trees in it.” Today, the title novella is recognized as one of the great American tales of the twentieth century, and Maclean as one of the most beloved writers of our time. The finely distilled product of a long life of often surprising rapture—for fly-fishing, for the woods, for the interlocked beauty of life and art—*A River Runs Through It* has established itself as a classic of the American West filled with beautiful prose and understated emotional insights. Based on Maclean’s own experiences as a young man, the book’s two novellas and short story are set in the small towns and mountains of western Montana. It is a world populated with drunks, loggers, card sharks, and whores, but also one rich in the pleasures of fly-fishing, logging, cribbage, and family. By turns raunchy and elegiac, these superb tales express, in Maclean’s own words, “a little of the love I have for the earth as it goes by.” “Maclean’s book—acerbic, laconic, deadpan—rings out of a rich American tradition that includes Mark Twain, Kin Hubbard, Richard Bissell, Jean Shepherd, and Nelson Algren.” —New York Times Book Review Includes a new foreword by Robert Redford, director of the Academy Award-winning film adaptation

Kindred Octavia E. Butler.2022-09-20 The New York Times best-selling author’s time-travel classic that makes us feel the horrors of American slavery and indicts our country’s lack of progress on racial reconciliation The series adaption from FX premieres December 13 on Hulu. Developed for television by writer/executive producer Branden Jacobs-Jenkins (*Watchmen*), executive producers also include Joe Weisberg and Joel Fields (*The Americans*, *The Patient*), and Darren Aronofsky (*The Whale*). Janicza Bravo (*Zola*) is director and an executive producer of the pilot. *Kindred* stars Mallori Johnson, Micah Stock, Ryan Kwanten, and Gayle Rankin. “I lost an arm on my last trip home. My left arm.” Dana’s torment begins when she suddenly vanishes on her 26th birthday from California, 1976, and is dragged through time to antebellum Maryland to rescue a boy named Rufus, heir to a slaveowner’s plantation. She soon realizes the purpose of her summons to the past: protect Rufus to ensure his assault of her Black ancestor so that she may one day be born. As she endures the traumas of slavery and the soul-crushing normalization of savagery, Dana fights to keep her autonomy and return to the present. Blazing the trail for neo-slavery narratives like Colson Whitehead’s *The Underground Railroad* and Ta-Nehisi Coates’s *The Water Dancer*, Butler takes one of speculative fiction’s oldest tropes and infuses it with lasting depth and power. Dana not only experiences the cruelties of slavery on her skin but also grimly learns to accept it as a condition of her own existence in the present. “Where stories about American slavery are often gratuitous, reducing its horror to explicit violence and brutality, *Kindred* is controlled and precise” (New York Times).

Moving from Addis Ababa to New York City and back again, *Cutting for Stone* is an unforgettable story of love and betrayal, medicine and ordinary miracles—and two brothers whose fates are forever intertwined.

An American Sickness Elisabeth Rosenthal.2017-04-11 A New York Times bestseller/Washington Post Notable Book of 2017/NPR Best Books of 2017/Wall Street Journal Best Books of 2017 This book will serve as the definitive guide to the past and future of health care in America.”—Siddhartha Mukherjee, Pulitzer Prize-winning author of *The Emperor of All Maladies* and *The Gene* At a moment of drastic political upheaval, *An American Sickness* is a shocking investigation into our dysfunctional healthcare system - and offers practical solutions to its myriad problems. In these troubled times, perhaps no institution has unraveled more quickly and more completely than American medicine. In only a few decades, the medical system has been overrun by organizations seeking to exploit for profit the trust that vulnerable and sick Americans place in their healthcare. Our politicians have proven themselves either unwilling or incapable of reining in the increasingly outrageous costs faced by patients, and market-based solutions only seem to funnel larger and larger sums of our money into the hands of corporations. Impossibly high insurance premiums and inexplicably large bills have become facts of life; fatalism has set in. Very quickly Americans have been made to accept paying more for less. How did things get so bad so fast? Breaking down this monolithic business into the individual industries—the hospitals, doctors, insurance companies, and drug manufacturers—that together constitute our healthcare system, Rosenthal exposes the recent evolution of American medicine as never before. How did healthcare, the caring endeavor, become healthcare, the highly profitable industry? Hospital systems, which are managed by business executives, behave like predatory lenders, hounding patients and seizing their homes. Research charities are in bed with big pharmaceutical companies, which surreptitiously profit from the donations made by working people. Patients receive bills in code, from entrepreneurial doctors they never even saw. The system is in tatters, but we can fight back. Dr. Elisabeth Rosenthal doesn't just explain the symptoms, she diagnoses and treats the disease itself. In clear and practical terms, she spells out exactly how to decode medical doublespeak, avoid the pitfalls of the pharmaceuticals racket, and get the care you and your family deserve. She takes you inside the doctor-patient relationship and to hospital C-suites, explaining step-by-step the workings of a system badly lacking transparency. This is about what we can do, as individual patients, both to navigate the maze that is American healthcare and also to demand far-reaching reform. *An American Sickness* is the frontline defense against a healthcare system that no longer has our well-being at heart.

1000 Days on the River Kwai Cary Owttram.2017-05-31 A British officer recounts his harrowing years as a POW in Thailand, including his time as the camp commandant, in this WWII memoir. Colonel Cary Owttram served with the 137th Field Regiment, Royal Artillery, and the 11th Indian Infantry Division in Malaysia. After being captured by the Japanese in Singapore, he was transported to the infamous Burma railway. He went on to spend the next three and a half years in grueling captivity in Thailand, first in Ban Pong Camp and then Chungkai Camp—one of the largest POW camps in the region. Owttram was appointed the British Camp Commandant at Chungkai, making him responsible for his fellow prisoners—a heavy responsibility added to the general deprivation and hardship suffered by all. During that time, Owttram kept a secret diary in which he recorded the brutal experience of surviving day to day and attempting to deal with their harsh and unpredictable Japanese captors. It is not only the prisoners who suffered, but also their families at home. The postscript by Owttram’s daughters vividly demonstrates the agonies of doubt and worry that loved ones went through and the effect of the experience on all.

Healing Lives Sue Williams.2020-10-13 'A story of friendship like no other... breathtaking in its tenderness and inspiration.' The Hon. Dame Quentin Bryce AD CVO Two incredible women, an unlikely friendship, and a united mission to save the lives of some of the world's poorest and most desperate women. *Healing Lives* reveals the untold tale of Mamitu Gashe, Dr Catherine Hamlin's protégée, and the inspiring almost 60-year friendship between the two women. The Hamlins' Addis Ababa Fistula Hospital saved her and, in return, Mamitu dedicated her life to Catherine's mission. The Other Side of the River Alex Kotlowitz.2012-01-04 Bestselling author Alex Kotlowitz is one of this country's foremost writers on the ever explosive issue of race. In this gripping and ultimately profound book, Kotlowitz takes us to two towns in southern Michigan, St. Joseph and Benton Harbor, separated by the St. Joseph River. Geographically close, but worlds apart, they are a living metaphor for America's racial divisions: St. Joseph is a prosperous lakeshore community and ninety-five percent white, while Benton Harbor is impoverished and ninety-two percent black. When the body of a black teenaged boy from Benton Harbor is found in the river, unhealed wounds and suspicions between the two towns' populations surface as well. The investigation into the young man's death becomes, inevitably, a screen on which each town projects their resentments and fears. The Other Side of the River sensitively portrays the lives and hopes of the towns' citizens as they wrestle with this mystery--and reveals the attitudes and misperceptions that undermine race relations throughout America.

I Know This Much Is True Wally Lamb.1998-06-03 With his stunning debut novel, *She's Come Undone*, Wally Lamb won the adulation of critics and readers with his mesmerizing tale of one woman's painful yet triumphant journey of self-discovery. Now, this brilliantly talented writer returns with *I Know This Much Is True*, a heartbreaking and poignant multigenerational saga of the reproductive bonds of destruction and the powerful force of forgiveness. A masterpiece that breathtakingly tells a story of alienation and connection, power and abuse, devastation and renewal--this novel is a contemporary retelling of an ancient Hindu myth. A proud king must confront his demons to achieve salvation. Change yourself, the myth instructs, and you will inhabit a renovated world. When you're the same brother of a schizophrenic identical twin, the tricky thing about saving yourself is the blood it leaves on your hands--the little inconvenience of the look-alike corpse at your feet. And if you're into both survival of the fittest and being your brother's keeper--if you've promised your dying mother--then say so long to sleep and hello to the middle of the night. Grab a book or a beer. Get used to Letterman's gap-toothed smile of the absurd, or the view of the bedroom ceiling, or the influence of random selection. Take it from a godless insomniac. Take it from the uncrazy twin--the guy who beat the biochemical rap. Dominick Birdsey's entire life has been compromised and constricted by anger and fear, by the paranoid schizophrenic twin brother he both deeply loves and resents, and by the past they shared with their adoptive father, Ray, a spit-and-polish ex-Navy man (the five-foot-six-inch sleeping giant who snoozed upstairs weekdays in the spare room and built submarines at night), and their long-suffering mother, Concettina, a timid woman with a harelip that made her shy and self-conscious: She holds a loose fist to her face to cover her defective mouth--her perpetual apology to the world for a birth defect over which she'd had no control. Born in the waning moments of 1949 and the opening minutes of 1950, the twins are physical mirror images who grow into separate yet connected entities: the seemingly strong and protective yet fearful Dominick, his mother's watchful monkey; and the seemingly weak and sweet yet noble Thomas, his mother's gentle bunny. From childhood, Dominick fights for both separation and wholeness--and ultimately self-protection--in a house of fear dominated by Ray, a bully who abuses his power over these stepsons whose biological father is a mystery. I was still afraid of his anger but saw how he punished weakness--pounced on it. Out of self-preservation I hid my fear, Dominick confesses. As for Thomas, he just never knew how to play defense. He just didn't get it. But Dominick's talent for survival comes at an enormous cost, including the breakup of his marriage to the warm, beautiful Dessa, whom he still loves. And it will be put to the ultimate test when Thomas, a Bible-spouting zealot, commits an unthinkable act that threatens the tenuous balance of both his and Dominick's lives. To save himself, Dominick must confront not only the pain of his past but the dark secrets he has locked deep within himself, and the sins of his ancestors--a quest that will lead him beyond the confines of his blue-collar New England town to the volcanic foothills of Sicily's Mount Etna, where his ambitious and vengefully proud grandfather and a namesake Domenico Tempesta, the *sostegno del famiglia*, was born. Each of the stories Ma told us about Papa reinforced the message that he was the boss, that he ruled the roost, that what he said went. Searching for answers, Dominick turns to the whispers of the dead, to the pages of his grandfather's handwritten memoir, *The History of Domenico Onofrio Tempesta, a Great Man from Humble Beginnings*. Rendered with touches of magic realism, Domenico's fablelike tale--in which monkeys enchant and religious statues weep--becomes the old man's confession--an unwitting legacy of contrition that reveals the truth's of Domenico's life, Dominick learns that power, wrongly used, defeats the oppressor as well as the oppressed, and now, picking through the humble shards of his deconstructed life, he will search for the courage and love to forgive, to expiate his and his ancestors' transgressions, and finally to rebuild himself beyond the haunted shadow of his twin. Set against the vivid panoply of twentieth-century America and filled with richly drawn, memorable characters, this deeply moving and thoroughly satisfying novel brings to light humanity's deepest needs and fears, our aloneness, our desire for love and acceptance, our struggle to survive at all costs. Joyous, mystical, and exquisitely written, *I Know This Much Is True* is an extraordinary reading experience that will leave no reader untouched.

Hiroshima John Hersey.2020-06-23 Hiroshima is the story of six people—a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest—who lived through the greatest single manmade disaster in history. In vivid and indelible prose, Pulitzer Prize-winner John Hersey traces the stories of these half-dozen individuals from 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city, through the hours and days that followed. Almost four decades after the original publication of this celebrated book, Hersey went back to Hiroshima in search of the people whose stories he had told, and his account of what he discovered is now the eloquent and moving final chapter of Hiroshima.

Twelve Patients Eric Manheimer.2012-07-10 The inspiration for the NBC drama *New Amsterdam* and in the spirit of *Oliver Sacks*, this intensely involving memoir from a former medical director of a major NYC hospital looks poignantly at patients' lives and reveals the author's own battle with cancer. Using the plights of twelve very different patients--from dignitaries at the nearby UN, to supermax prisoners at Riker's Island, to illegal immigrants, and Wall Street tycoons--Dr. Eric Manheimer offers far more than remarkable medical dramas: he blends each patient's personal experiences with their social implications (Publishers Weekly). Manheimer was not only the medical director of the country's oldest public hospital for over 13 years, but he was also a patient. As the book unfolds, the narrator is diagnosed with cancer, and he is forced to wrestle with the end of his own life even as he struggles to save the lives of others.

When Breath Becomes Air Paul Kalanithi.2016-01-12 #1 NEW YORK TIMES BESTSELLER • PULITZER PRIZE FINALIST • This inspiring, exquisitely observed memoir finds hope and beauty in the face of

insurmountable odds as an idealistic young neurosurgeon attempts to answer the question What makes a life worth living? NAMED ONE OF PASTE'S BEST MEMOIRS OF THE DECADE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • People • NPR • The Washington Post • Slate • Harper's Bazaar • Time Out New York • Publishers Weekly • BookPage Finalist for the PEN Center USA Literary Award in Creative Nonfiction and the Books for a Better Life Award in Inspirational Memoir At the age of thirty-six, on the verge of completing a decade's worth of training as a neurosurgeon, Paul Kalanithi was diagnosed with stage IV lung cancer. One day he was a doctor treating the dying, and the next he was a patient struggling to live. And just like that, the future he and his wife had imagined evaporated. When *Breath Becomes Air* chronicles Kalanithi's transformation from a naïve medical student "possessed," as he wrote, "by the question of what, given that all organisms die, makes a virtuous and meaningful life" into a neurosurgeon at Stanford working in the brain, the most critical place for human identity, and finally into a patient and new father confronting his own mortality. What makes life worth living in the face of death? What do you do when the future, no longer a ladder toward your goals in life, flattens out into a perpetual present? What does it mean to have a child, to nurture a new life as another fades away? These are some of the questions Kalanithi wrestles with in this profoundly moving, exquisitely observed memoir. Paul Kalanithi died in March 2015, while working on this book, yet his words live on as a guide and a gift to us all. "I began to realize that coming face to face with my own mortality, in a sense, had changed nothing and everything," he wrote. "Seven words from Samuel Beckett began to repeat in my head: 'I can't go on. I'll go on.'" When *Breath Becomes Air* is an unforgettable, life-affirming reflection on the challenge of facing death and on the relationship between doctor and patient, from a brilliant writer who became both.

If Disney Ran Your Hospital Fred Lee.2004 Using examples from his work with Disney and as a senior-level hospital executive, author Fred Lee challenges the assumptions that have defined customer service in healthcare. In this unique book, he focuses on the similarities between Disney and hospitals--both provide an experience, not just a service. It shows how hospitals can emulate the strategies that earn Disney the trust and loyalty of their guests and employees. The book explains why standard service excellence initiatives in healthcare have not led to high patient satisfaction and loyalty, and it provides 9 1/2 principles that will help hospitals gain the competitive advantage that comes from being seen as the best by their own employees, consumers, and community.

But in a hopeful turn, acclaimed surgeon and writer Atul Gawande finds a remedy in the humblest and simplest of techniques: the checklist. First introduced decades ago by the U.S. Air Force, checklists have enabled pilots to fly aircraft of mind-boggling sophistication. Now innovative checklists are being adopted in hospitals around the world, helping doctors and nurses respond to everything from flu epidemics to avalanches. Even in the immensely complex world of surgery, a simple ninety-second variant has cut the rate of fatalities by more than a third. In riveting stories, Gawande takes us from Austria, where an emergency checklist saved a drowning victim who had spent half an hour underwater, to Michigan, where a cleanliness checklist in intensive care units virtually eliminated a type of deadly hospital infection. He explains how checklists actually work to prompt striking and immediate improvements. And he follows the checklist revolution into fields well beyond medicine, from disaster response to investment banking, skyscraper construction, and businesses of all kinds. An intellectual adventure in which lives are lost and saved and one simple idea makes a tremendous difference, *The Checklist Manifesto* is essential reading for anyone working to get things right.

Bellevue David Oshinsky.2016-11-15 From a Pulitzer Prize-winning historian comes a riveting history of New York's iconic public hospital that charts the turbulent rise of American medicine. Bellevue Hospital, on New York City's East Side, occupies a colorful and horrifying place in the public imagination: a den of mangled crime victims, vicious psychopaths, assorted derelicts, lunatics, and exotic-disease sufferers. In its two and a half centuries of service, there was hardly an epidemic or social catastrophe—or groundbreaking scientific advance—that did not touch Bellevue. David Oshinsky, whose last book, *Polio: An American Story*, was awarded a Pulitzer Prize, chronicles the history of America's oldest hospital and in so doing also charts the rise of New York to the nation's preeminent city, the path of American medicine from butchery and quackery to a professional and scientific endeavor, and the growth of a civic institution. From its origins in 1738 as an almshouse and pesthouse, Bellevue today is a revered public hospital bringing first-class care to anyone in need. With its diverse, ailing, and unprotesting patient population, the hospital was a natural laboratory for the nation's first clinical research. It treated tens of thousands of Civil War soldiers, launched the first civilian

ambulance corps and the first nursing school for women, pioneered medical photography and psychiatric treatment, and spurred New York City to establish the country's first official Board of Health. As medical technology advanced, voluntary hospitals began to seek out patients willing to pay for their care. For charity cases, it was left to Bellevue to fill the void. The latter decades of the twentieth century brought rampant crime, drug addiction, and homelessness to the nation's struggling cities—problems that called a public hospital's very survival into question. It took the AIDS crisis to cement Bellevue's enduring place as New York's ultimate safety net, the iconic hospital of last resort. Lively, page-turning, fascinating, Bellevue is essential American history.

Along the River Adeline Yen Mah.2012-04-10 Bestselling Chinese American author Adeline Yen Mah weaves her authentic accounts of life in China into an absorbing novel about a Chinese girl and her vision of a previous life. After a fall, CC is whisked away to a hospital. As she drifts in and out of consciousness, she is haunted by vivid dreams that seem strange—yet somehow familiar. Thus begins CC's emotional journey back to a privileged life lived eight hundred years ago during the Song dynasty. CC is the daughter of a wealthy and influential man, but she finds herself drawn to a poor orphan boy with a startling ability to capture the beauty of the natural world. As the relationship between these two young people deepens, the transforming power of art and romantic love comes into conflict with the immovable rules of Chinese society. This stunning fantasy adventure novel, inspired by China's most famous painting, *Along the River at the Qing Ming Festival*, tells the story of a friendship both tender and bold. CC's remarkable journey reminds readers that though time moves on, art and love endure.

Crossing the River Carol Smith.2021-05-04 A powerful exploration of grief and resilience following the death of the author's son that combines memoir, reportage, and lessons in how to heal Everyone deals with grief in their own way. Helen Macdonald found solace in training a wild goshawk. Cheryl Strayed found strength in hiking the Pacific Crest Trail. For Carol Smith, a Pulitzer Prize nominated journalist struggling with the sudden death of her seven-year-old son, Christopher, the way to cross the river of sorrow was through work. In *Crossing the River*, Smith recounts how she faced down her crippling loss through reporting a series of profiles of people coping with their own intense challenges, whether a life-altering accident, injury, or diagnosis. These were stories of survival and transformation, of people facing devastating situations that changed them in unexpected ways. Smith deftly mixes the stories of these individuals and their families with her own account of how they helped her heal. General John Shalikashvili, once the most powerful member of the American military, taught Carol how to face fear with discipline and endurance. Seth, a young boy with a rare and incurable illness, shed light on the totality of her son's experiences, and in turn helps readers see that the value of a life is not measured in days. *Crossing the River* is a beautiful and profoundly moving book, an unforgettable journey through grief toward hope, and a valuable, illuminating read for anyone coping with loss.

Why Hospitals Should Fly John J. Nance.2008 Winner of the 2009 ACHE James A. Hamilton Book of the Year Award! This book is a tour de force, and no one but John Nance could have written it. Only he could have made sophisticated, scientifically disciplined instruction about the nature and roots of safety into a page-turner. Medical care has a ton yet to learn from the decades of progress that have brought aviation to unprecedented levels of safety, and, in instructing us all about those lessons, John Nance is not just a bridge-builder he is the bridge. --Donald M. Berwick, MD, MPP, President and CEO, Institute for Healthcare Improvement (IHI)
