Devolution and Decentralisation in Social Security Gijsbert Vonk,Paul Schoukens.2019-12-12 In many countries regional and local authorities are given more powers in the field of social security. Supposedly, this is a general trend taking place throughout the developed world and beyond. In this volume the processes of devolution and decentralisation in social security are researched from a comparative European perspective, taking into account the constitutional setting and the architecture of the social security systems. The book includes thirteen country studies based on a uniform format and three overarching contributions. The greater picture that emerges is that social insurance and family allowances are still very much a national competence and are predominantly functionally decentralised to a number of specialised agencies and institutions. There are only limited exceptions. A different conclusion must be drawn when we look at social assistance and social care. In many countries the role of local authorities has gradually increased over a longer period. However, in some countries this trend is reversing, and municipal powers are being limited or even taken back by central government. Devolution and Decentralisation in Social Security shows how complex, differentiated and nationally diverse the state of devolution and decentralisation in Europe actually is. This book is of particular interest to scholars in the field of social policy and social security, constitutionalists and policy makers who are interested in local administration.

The Years of Alienation in Italy Alessandra Diazzi,Alvise Sforza Tarabochia.2019-06-11 The Years of Alienation in Italy offers an interdisciplinary overview of the socio-political, psychological, philosophical, and cultural meanings that the notion of alienation took on in Italy between the 1960s and the 1970s. It addresses alienation as a social condition of estrangement caused by the capitalist system, a pathological state of the mind and an ontological condition of subjectivity. Contributors to the edited volume explore the pervasive influence this multifarious concept had on literature, cinema, architecture, and photography in Italy. The collection also theoretically reassesses the notion of alienation from a novel perspective, employing Italy as a paradigmatic case study in its pioneering role in the revolution of mental health care and factory work during these two decades.

Quincie Bolliver Mary King O'Donnell.2001 Quincie, the motherless thirteen-year-old daughter of an itinerant muleskinner, is the captivating protagonist of this Depression-era novel set in the Texas oil patch. Her story's value resides not only in the viewpoint of a young girl who comes of age in the shadow of the derricks but also in the currency of her creator's sensitivity to the natural world and environmental issues. Originally a 1941 Houghton-Mifflin Literary Fellowship Book, *Quincie Bolliver* is an extraordinary study in character, place, and the community of women weak and strong. From the moment the wise, lonesome Quincie and her stubborn, charming father, Curtin, arrive in Good Union, Texas, where the boom has passed and Judith Paradise's boarding house stands as a tattered monument to bygone prosperity, King engages the reader in the passions and struggles of the small town's inhabitants. As beautiful and natural as its commanding realism, *Quincie Bolliver* is not only a remarkable first novel, but one that should stand for all time. Her grief was wide, touching the still trees, the wet coats of the grazing cattle, the lonely posts of the power line, the soft feathers of the heron. Her pity was for all things: for the leaf set spinning by the rain, for the drops of rain that fell and were lost, for the darkening sky itself, and for the tender earth that must lie forever open to the sky, racked to preserve the running heel-and toe-print of all who chose

to pass.

The Case of the Baker Street Irregulars Anthony Boucher. 2019-03-26 A Sherlock Holmes script sparks controversy and murder in Hollywood in a “most engrossing mystery” from the author of *Nine Times Nine* (The New Yorker). Anthony Boucher was a literary renaissance man: an Edgar Award-winning mystery reviewer, an esteemed editor of the Hugo Award-winning *Magazine of Fantasy and Science Fiction*, a prolific scriptwriter of radio mystery programs, and an accomplished writer of mystery, science fiction, fantasy, and horror. With a particular fondness for the locked room mystery, Boucher created such iconic sleuths as Los Angeles PI Fergus O'Brien, amateur sleuth Sister Ursula, and alcoholic ex-cop Nick Noble. When Metropolis Pictures announces plans to make a movie out of an Arthur Conan Doyle classic, it triggers outrage from a group of Sherlock Holmes fans called the Baker Street Irregulars. In hopes of calming their protest, the studio invites the five members to advise on the film, and even throws them a celebration in a house numbered 221B. Also on the guest list is Los Angeles police detective A. Jackson. He was hoping to spend his night off hanging out at a Hollywood party with his brother, Paul, the famous actor. Instead he finds himself in one of the most bizarre murder cases he's ever encountered, complete with cryptograms and a disappearing corpse, all of which results in a “delightfully farcical narrative, which offers a surprise on nearly every page” (The New York Times Book Review).

The nEU-Med project: Vetricella, an Early Medieval royal property on Tuscany's Mediterranean Giovanna Bianchi, Richard Hodges. 2020-04-20 The nEU-Med project is part of the Horizon 2020 programme, in the ERC Advanced project category. It began in October 2015 and the University of Siena is the host institution of the project. The project is focussed upon two Tuscan riverine corridors leading from the Gulf of Follonica in the Tyrrhenian Sea to the Colline Metallifere. It aims to document and analyze the form and timeframe of economic growth in this part of the Mediterranean, which took place between the 7th and the 12thc. Central to this is an understanding of the processes of change in human settlements, in the natural and farming landscapes in relation to the exploitation of resources, and in the implementation of differing political strategies. This volume presents the multi-disciplinary research focussed upon the key site of the project, Vetricella, and its territory. Vetricella is thought to be the site of Valli, a royal property in the Tuscan march. It is the only Early Medieval property to be extensively studied in Italy. Located on Italy's Tyrrhenian coast, the archaeology and history of this site provide new insights on estate management, metal production and wider Mediterranean relations in the later first millennium. Apart from reports on the archaeology, the finds from excavations and environmental studies, three essays consider the wider European historical and archaeological context of Vetricella. Future monographs will feature studies by members of the project team on aspects of Vetricella, its finds and territory.

Can Life Prevail? Pentti Linkola.2009 With the train of civilisation hurtling at ever-increasing speed towards self-destruction, the most pressing question facing humanity in the 21st century is that of the preservation of life. *Can Life Prevail?*, the latest book by Finnish environmentalist Pentti Linkola, provides a radical yet firmly grounded perspective on the ecological problems threatening both the biosphere and human culture. With essays covering topics as diverse as animal rights, extinction, deforestation, terrorism and overpopulation, *Can Life Prevail?* for the first time makes the lucid, challenging writing of Linkola available to an English-speaking public. By decimating its woodlands, Finland has created the grounds for prosperity. We can now thank prosperity for bringing us - among other things - two million cars, millions of glaring, grey-black electronic entertainment boxes, and many unnecessary buildings to cover the green earth. Wealth and surplus money have led to financial gambling and rampant social injustice, whereby 'the common people' end up contributing to the construction of golf courses, classy hotels, and holiday resorts, while fattening Swiss bank accounts. Besides, the people of wealthy countries are the most frustrated, unemployed, unhappy, suicidal, sedentary, worthless and aimless people in history. What a miserable exchange. Kaarlo Pentti Linkola was born in Helsinki in 1932. Having spent most of his life working as a professional fisherman, he now continues to lead a materially simple existence in the countryside. A renowned figure in Finland, since the 1960s Linkola has published numerous books on environmentalism. Today, he is among the foremost exponents of the philosophy of deep ecology.

Dialogues of Love Leone Ebreo.2009-05-09 First published in Rome in 1535, Leone Ebreo's *Dialogues of Love* is one of the most important texts of the European Renaissance. Well known in the Italian academies of the sixteenth century, its popularity quickly spread throughout Europe, with numerous reprintings and translations into French, Latin Spanish, and Hebrew. It attracted a diverse audience that included noblemen, courtesans, artists, poets, intellectuals, and philosophers. More than just a bestseller, the work exerted a deep influence over the centuries on figures as diverse as Giordano Bruno, John Donne, Miguelde Cervantes, and Baruch Spinoza. Leone's *Dialogues* consists of three conversations - 'On Love and Desire,' 'On the Universality of Love,' and 'On the Origin of Love' - that take place over a period of three subsequent days. They are organized in a dialogic format, much like a theatrical representation, of a conversation between a man, Philo, who plays the role of the lover and teacher, and a woman, Sophia, the beloved and pupil. The discussion covers a wide range of topics that have as their common denominator the idea of Love. Through the dialogue, the author explores many different points of view and complex philosophical ideas. Grounded in a distinctly Jewish tradition, and drawing on Neoplatonic philosophical structures and Arabic sources, the work offers a useful compendium of classical and contemporary thought, yet was not incompatible with Christian doctrine. Despite the unfinished state and somewhat controversial, enigmatic nature of Ebreo's famous text, it remains one of the most significant and influential works in the history of Western thought. This new, expertly translated and annotated English edition takes into account the latest scholarship and provides an invaluable resource for today's readers.

His actions have sparked worldwide attention, earned him a Nobel Peace Prize nomination, and landed him in jail twice. Composed in three parts, *Unfree Speech* chronicles Joshua's path to activism, collects the letters he wrote as a political prisoner under the Chinese state, and closes with a powerful and urgent call for all of us globally to defend our democratic values. Roman Butrint Inge Lyse Hansen,Richard Hodges.2022-01-15 Butrint, ancient Buthrotum, has taken many forms in different ages, shaped by the near-constant interaction between the place, its lagoonal landscape and the Mediterranean. Though Butrint does not appear on any of the records of early Greek colonization to identify it as a Corcyrean settlement, strong links must have existed between it and the metropolitan Corinthian colony of Corfu. Blessed with springs that possessed healing qualities, a small polis was created - extended to incorporate a healing sanctuary dedicated to Asclepius. Julius Caesar, harboring at Butrint in urgent need of supplies to sustain his struggle against Pompey, must have viewed the sanctuary, ringed by largely dried-out marshland, as the perfect site to settle veterans as a colony. It was an obvious cornerstone in controlling the passage from the Adriatic to the Aegean. The early settlers seem to have been limited in number and possibly mainly of civilian status. However, the political changes to the city's magistrature were immediate, and within a relatively short time-span fundamental changes to the physical make-up of the city were set in motion. Its new Roman status also located Butrint as a directly before the highest authorities in Rome, and within fifteen years or so,

under Augustus's guidance following his victory at Actium, the city was refounded as a colony and awarded a pivotal role in Virgil's court-sponsored foundation epic, *The Aeneid*. Now linked to the Victory City of Nicopolis rather than in the shadow of Corfu, Butrint prospered. The urban fabric evolved, sometimes faltered, but was essentially sustained until the later 6th century A.D. This present volume is an assessment of the Roman archaeology, a compilation of studies and field reports that focuses upon the foundation and early history of the colony.

The Boundaries of Europe Pietro Rossi. 2015-04-24 Europe's boundaries have mainly been shaped by cultural, religious, and political conceptions rather than by geography. This volume of bilingual essays from renowned European scholars outlines the transformation of Europe's boundaries from the fall of the ancient world to the age of decolonization, or the end of the explicit endeavor to "Europeanize" the world. From the decline of the Roman Empire to the polycentrism of today's world, the essays span such aspects as the confrontation of Christian Europe with Islam and the changing role of the Mediterranean from "mare nostrum" to a frontier between nations. Scandinavia, eastern Europe and the Atlantic are also analyzed as boundaries in the context of exploration, migratory movements, cultural exchanges, and war. *The Boundaries of Europe*, edited by Pietro Rossi, is the first installment in the ALLEA book series *Discourses on Intellectual Europe*, which seeks to explore the question of an intrinsic or quintessential European identity in light of the rising skepticism towards Europe as an integrated cultural and intellectual region.

Parental Alienation, DSM-5, and ICD-11 William Bernet.2010 Parental alienation is an important phenomenon that mental health professionals should know about and thoroughly understand, especially those who work with children, adolescents, divorced adults, and adults whose parents divorced when they were children. In this book, the authors define parental alienation as a mental condition in which a child - usually one whose parents are engaged in a high- conflict divorce - allies himself or herself strongly with one parent (the preferred parent) and rejects a relationship with the other parent (the alienated parent) without legitimate justification. This process leads to a tragic outcome when the child and the alienated parent, who previously had a loving and mutually satisfying relationship, lose the nurture and joy of that relationship for many years and perhaps for their lifetimes. We estimate that 1 percent of children and adolescents in the U.S. experience parental alienation. When the phenomenon is properly recognized, this condition is preventable and treatable in many instances. The authors of this book believe that parental alienation is not simply a minor aberration in the life of a family, but a serious mental condition. Because of the false belief that the alienated parent is a dangerous or unworthy person, the child loses one of the most important relationships in his or her life. This book contains much information about the validity, reliability, and prevalence of parental alienation. It also includes a comprehensive international bibliography regarding parental alienation with more than 600 citations. In order to bring life to the definitions and the technical writing, several short clinical vignettes have been included. These vignettes are based on actual families and real events, but have been modified to protect the privacy of both the parents and children.

Mary King The Autobiography Mary King.2011-06-21 A no-holds-barred story of what it takes to reach the top, and stay there, in the world's most dangerous sport - three day eventing. At the age of forty-seven Mary King won a Team Bronze at the Beijing Olympics. In the two 'Cavaliers' - 'Call Again Cavalier' and 'Imperial Cavalier' - she has two of the very best event horses in the world. Mary King's success in the world of eventing (now officially classed as the most dangerous sport in the world) has been hard won. She does not come from a privileged background - her father a verger and a long-term invalid so money was very tight. Her first pony was the ancient 'cast off' from the local vicar's children - and success with this pony gave her an iron will to succeed. And succeeded she has. To support herself in the early days she had a variety of unglamorous jobs (this included butcher delivery rounds and cleaning out toilets in the local campsite). Her talent was apparent from very early on and she first competed at Badminton in 1985, had her first win there on King William in 1992 and her second on Star Appeal in 2000. Just when everything seemed to be going well she suffered a terrible fall in 2001 and broke her neck but she was back competing at the very top level the following year. Fully updated for the paperback with the 2010 season, including Team GB's gold medal-winning performance at the World Equestrian Games, this is a fascinating account from inside the world's most dangerous sport.

Montessori: Map Work Bobby George,June George.2014-07-15 As with all things Montessori, students begin with the concrete and move to the abstract. When learning geography, students first develop an understanding that the earth is a round globe, made up of land and water. They then manipulate the shape of each continent before addressing its name and location. Montessori: Map Work introduces readers to the seven continents via textured edges to trace with their fingers, modes of transportation between each one for spatial context, and illustrated native animals for relevant and meaningful associations. Young children will absorb the age-appropriate geography and gain a better sense of their place in the world. Praise for Montessori: Map Work This ingeniously designed book follows the Montessori way of teaching children concrete concepts in an accessible way. --School Library Journal

Deleuze, Bergson, Merleau-Ponty Dorothea E. Olkowski.2021-09-07 Deleuze, Bergson, Merleau-Ponty: The Logic and Pragmatics of Creation, Affective Life, and Perception offers the only full-length examination of the relationships between Deleuze, Bergson and Merleau-Ponty. Henri

Bergson (1859–1941), Maurice Merleau-Ponty (1908–1961), and Gilles Deleuze (1925–1995) succeeded one another as leading voices in French philosophy over a span of 136 years. Their relationship to one another's work involved far more than their overlapping lifetimes. Bergson became both the source of philosophical insight and a focus of criticism for Merleau-Ponty and Deleuze. Deleuze criticized Merleau-Ponty's phenomenology as well as his interest in cognitive and natural science. Author Dorothea Olkowski points out that each of these philosophers situated their thought in relation to their understandings of crucial developments and theories taken up in the history and philosophy of science, and this has been difficult for Continental philosophy to grasp. She articulates the differences between these philosophers with respect to their disparate approaches to the physical sciences and with how their views of science function in relation to their larger philosophical projects. In Deleuze, Bergson, Merleau-Ponty, Olkowski examines the critical areas of the structure of time and memory, the structure of consciousness, and the question of humans' relation to nature. She reveals that these philosophers are working from inside one another's ideas and are making strong claims about time, consciousness, reality, and their effects on humanity that converge and diverge. The result is a clearer picture of the intertwined workings of Continental philosophy and its fundamental engagement with the sciences.

Strangers I Know Claudia Durastanti.2023-01-24 Durastanti casts the universal drama of the family as the sieve through which the self—woman, artist, daughter—is filtered and known. —Ocean Vuong A work of fiction about being a stranger in your own family and life. Every family has its own mythology, but in this family none of the myths match up. Claudia's mother says she met her husband when she stopped him from jumping off a bridge. Her father says it happened when he saved her from an attempted robbery. Both parents are deaf but couldn't be more different; they can't even agree on how they met, much less who needed saving. Into this unlikely yet somehow inevitable union, our narrator is born. She comes of age with her brother in this strange, and increasingly estranged, household split between a small village in southern Italy and New York City. Without even sign language in common - their parents have not bothered to teach them - family communications are chaotic and rife with misinterpretations, by turns hilarious and devastating. An outsider in every way, she longs for a freedom she's not even sure exists. Only books and punk rock—and a tumultuous relationship—begin to show her the way to create her own mythology, to construct her own version of the story of her life. Kinetic, formally dazzling, and spectacularly original, this book is a funny and profound portrait of an unconventional family that makes us look anew at how language shapes our understanding of ourselves.

Historical journey in a linguistic archipelago Emilie Aussant, Jean-Michel Fortis. This volume offers a selection of papers presented during the 14th International Conference on the History of the Language Sciences (ICHoLS XIV, Paris, 2017). Part I brings together studies dealing with descriptive concepts. First examined is the notion of “accidens” in Latin grammar and its Greek counterparts. Other papers address questions with a strong echo in today's linguistics: localism and its revival in recent semantics and syntax, the origin of the term “polysemy” and its adoption through Bréal, and the difficulties attending the description of prefabs, idioms and other “fixed expressions”. This first part also includes studies dealing with representations of linguistic phenomena, whether these concern the treatment of local varieties (so-called patois) in French research, or the import and epistemological function of spatial representations in descriptions of linguistic time. Or again, now taking the word “representation” literally, the visual display of grammatical relations, in the form of the first syntactic diagrams. Part II presents case studies which involve wider concerns, of a social nature: the “from below” approach to the history of Chinese Pidgin English underlines the social roles of speakers and the diversity of speech situations, while the scrutiny of Lhomond's Latin and French textbooks demonstrates the interplay of pedagogical practice, cross-linguistic comparison and descriptive innovation. An overview of early descriptions of Central Australian languages reveals a whole spectrum of humanist to

positivist and antihumanist stances during the colonial age. An overarching framework is also at play in the anthropological perspective championed by Meillet, whose socially and culturally oriented semantics is shown to live on in Benveniste. The volume ends with a paper on Trần Đức Thảo, whose work is an original synthesis between phenomenology and Marxist semiology, wielded against the “idealistic” doctrine of Saussure.

Pendragon James Wilde.2018-03-08 Here is the beginning of a legend. Long before Camelot rose, a hundred years before the myth of King Arthur was half-formed, at the start of the Red Century, the world was slipping into a Dark Age...It is AD 367. In a frozen forest beyond Hadrian's Wall, six scouts of the Roman army are found murdered. For Lucanus, known as the Wolf and leader of elite unit called the Arcani, this chilling ritual killing is a sign of a greater threat. But to the Wolf the far north is a foreign land, a place where daemons and witches and the old gods live on. Only when the child of a friend is snatched will he venture alone into this treacherous world - a territory ruled over by a barbarian horde - in order to bring the boy back home. What he finds there beyond the wall will echo down the years. A secret game with hidden factions is unfolding in the shadows- cabals from the edge of Empire to the eternal city of Rome itself, from the great pagan monument of Stonehenge to the warrior kingdoms of Gaul will go to any length to find and possess what is believed to be a source of great power, signified by the mark of the Dragon. A soldier and a thief, a cut-throat, courtesan and a druid, even the Emperor Valentinian himself - each of these has a part to play in the beginnings of this legend...the rise of the House of Pendragon.
