Illuminated by a vast compassion for the travails of women struggling to cope with changing lifestyles and traditions, My Sainted Aunts is as much an insight into the lif of a lost generation as it is a rollicking read.

Who Knows Tomorrow Lisa Lovatt-Smith.2014-11-04 Born in Spain and raised by a struggling single mother, Lisa Lovatt-Smith became an editor at British Vogue at nineteen, the youngest in Condé Nast history. She helped launch Spanish Vogue and partied across Europe with celebrities, fashion designers, photographers, and supermodels. By her thirties, Lisa has her dream career and a glamorous life in Paris, but when her adopted daughter Sabrina is expelled from school, Lisa takes her to volunteer in a Ghanaian orphanage in the hopes of getting her back on track. What she discovers there changes both their lives for good. The Curry Guy Dan Toombs.2017-05-04 Dan Toombs (aka The Curry Guy) has perfected the art of replicating British Indian Restaurant (BIR) cooking after travelling around the UK, sampling dishes, learning the curry house kitchen secrets and refining those recipes at home. Dan has learnt through the comments left on his blog and social media feeds that people are terribly let down when they make a chicken korma or a prawn bhuna from other cookbooks and it taste nothing like the dish they experience when they visit a curry house... but they thank him for getting it right. The Curry Guy shows all BIR food lovers around the world how to make their favourite dishes at home. Each of the classic curry sauces are given, including tikka masala, korma, dopiazza, pasanda, madras, dhansak, rogan josh, vindaloo, karai, jalfrezi, bhuna and keema. Popular vegetable and sides dishes are there as accompaniments, aloo gobi, saag aloo and tarka dhal, plus samosas, pakoras, bhaji, and pickles, chutneys and raitas. Of course, no curry is complete without rice or naan. Dan shows you how to cook perfect pilau rice or soft pillowy naan every time.

Political Ecologies of Meat Jody Emel,Harvey Neo.2015-05-15 Livestock production worldwide is increasing rapidly, in part due to economic growth and demand for meat in industrializing countries. Yet there are many concerns about the sustainability of increased meat production and consumption, from perspectives including human health, animal welfare, climate change and environmental pollution. This book tackles the key issues of contemporary meat production and consumption through a lens of political ecology, which emphasizes the power relations producing particular

social, economic and cultural interactions with non-human nature. Three main topics are addressed: the political ecology of global livestock production trends; changes in production systems around the world and their implications for environmental justice; and existing and emerging governance strategies for meat production and consumption systems and their implications. Case studies of different systems at varying scales are included, drawn from Asia, Africa, the Americas and Europe. The book includes an editorial introduction to set the context and synthesize key messages for the reader.

Achtung-Panzer! Heinz Guderian.1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the

German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

The Rejection of Consequentialism Samuel Scheffler.1994-08-11 In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

Confederate Receipt Book American Antiquarian Cookbook Collection.2013-04-16 With the blockade of Southern ports and the lack of trading between the North and South during the Civil

War, the Confederacy found itself in great deprivation, lacking its customary supplies. Showing great resourcefulness, southerners developed new ways to feed and clothe themselves and these adaptations and recipes were pulled together in 1863 by Richmond publishers West & Johnson, to share throughout the region in Confederate Receipt Book. The recipes were assembled from newspapers, staff, and other sources and were “designed to supply useful and economical directions and suggestions of cookery, housewifery, and for the camp.” Examples of resourceful recipes in Confederate Receipt Book include apple pie without apples, artificial oysters, and coffee substitutes as well as medicinal remedies for headaches, croup, and sore throats and making household items like candles and soap. The nature and extent of the items highlight the degree of difficulty that the Confederates faced and their ability to acclimate to the supplies at hand. Other examples include recipes for making ink, wicks for lamps, fire balls for fuel, and bread from numerous types of flours. The Confederate Receipt Book has as much quaint and amusing charm to present-day readers as it had practical significance to the beleaguered South fighting for its independence. This edition of Confederate Receipt Book was reproduced by permission from the volume in the collection of the American Antiquarian Society, Worcester, Massachusetts. Founded in 1812 by Isaiah Thomas, a Revolutionary War patriot and successful printer and publisher, the Society is a research library documenting the life of Americans from the colonial era through 1876. The Society collects, preserves, and makes available as complete a record as possible of the printed materials from the early American experience. The cookbook collection includes approximately 1,100 volumes.
