Antiquaries Rosemary Sweet.2004-05-28 Eighteenth-century Britain saw an explosion of interest in its own past, a past now expanded to include more than classical history and high politics. Antiquaries, men interested in all aspects of the past, added a distinctive new dimension to literature in Georgian Britain in their attempts to reconstruct and recover the past. Corresponding and publishing in an extended network, antiquaries worked at preserving and investigating records and physical remains in England, Scotland and Ireland. In doing so they laid solid foundations for all future study in British prehistory, archaeology and numismatics, and for local and national history as a whole. Naturally, they saw the past partly in their own image. While many antiquaries were better at fieldwork and recording than at synthesis, most were neither crabbed eccentrics nor dilettanti. At their best, as in the works of Richard Gough or William Stukeley, antiquaries set new standards of accuracy and perception in fields ranging from the study of the ancient Britons to that of medieval architecture. Antiquaries is the definitive account of a

great historical enterprise.

Medievalist Comics and the American Century Chris

Bishop.2016-08-25 The comic book has become an essential icon

of the American Century, an era defined by optimism in the face of change and by recognition of the intrinsic value of democracy and modernization. For many, the Middle Ages stand as an

antithesis to these ideals, and yet medievalist comics have emerged and endured, even thrived alongside their superhero

counterparts. Chris Bishop presents a reception history of

medievalist comics, setting them against a greater backdrop of modern American history. From its genesis in the 1930s to the

present, Bishop surveys the medievalist comic, its stories,

characters, settings, and themes drawn from the European

Middle Ages. Hal Foster's Prince Valiant emerged from an

America at odds with monarchy, but still in love with King Arthur.

Green Arrow remains the continuation of a long fascination with

Robin Hood that has become as central to the American identity

as it was to the British. The Mighty Thor reflects the legacy of

Germanic migration into the United States. The rugged

individualism of Conan the Barbarian owes more to the western

cowboy than it does to the continental knight-errant. In the

narrative of Red Sonja, we can trace a parallel history of

feminism. Bishop regards these comics as not merely

happencence, but each success (Prince Valiant and The Mighty

Thor) or failure (Beowulf: Dragon Slayer) as a result and an

indicator of certain American preoccupations amid a larger

cultural context. Intrinsically modernist paragons of pop-culture

ephemera, American comics have ironically continued to engage with the European Middle Ages. Bishop illuminates some of the ways in which we use an imagined past to navigate the present and plots some possible futures as we valiantly shape a new century.

Gothic Antiquity Dale Townshend.2019-09-19 *Gothic Antiquity: History, Romance, and the Architectural Imagination, 1760-1840* provides the first sustained scholarly account of the relationship between Gothic architecture and Gothic literature (fiction; poetry; drama) in the late eighteenth and early nineteenth centuries.

Although the relationship between literature and architecture is a topic that has long preoccupied scholars of the literary Gothic, there remains, to date, no monograph-length study of the intriguing and complex interactions between these two aesthetic forms. Equally, Gothic literature has received only the most cursory of treatments in art-historical accounts of the early Gothic Revival in architecture, interiors, and design. In addressing this gap in contemporary scholarship, *Gothic Antiquity* seeks to situate Gothic writing in relation to the Gothic-architectural theories, aesthetics, and practices with which it was contemporary, providing closely historicized readings of a wide selection of canonical and lesser-known texts and writers.

Correspondingly, it shows how these architectural debates responded to, and were to a certain extent shaped by, what we have since come to identify as the literary Gothic mode. In both its 'survivalist' and 'revivalist' forms, the architecture of the Middle Ages in the long eighteenth century was always much more than a matter of style. Incarnating, for better or for worse, the memory of a vanished 'Gothic' age in the modern, enlightened

present, Gothic architecture, be it ruined or complete, prompted imaginative reconstructions of the nation's past—a notable 'visionary' turn, as the antiquary John Pinkerton put it in 1788, in which Gothic writers, architects, and antiquaries enthusiastically participated. The volume establishes a series of dialogues between Gothic literature, architectural history, and the antiquarian interest in the material remains of the Gothic past, and argues that these discrete yet intimately related approaches to vernacular antiquity are most fruitfully read in relation to one another.

Time's Witness Rosemary Hill. 2021-06-24
From the Wolfson Prize-winning author of *God's Architect: Pugin and the Building of Romantic Britain* Between the fall of the Bastille in 1789 and the opening of the Great Exhibition in 1851, history changed. The grand narratives of the Enlightenment, concerned with kings and statesmen, gave way to a new interest in the lives of ordinary people. Oral history, costume history, the history of food and furniture, of Gothic architecture, theatre and much else were explored as never before. Antiquarianism, the study of the material remains of the past, was not new, but now hundreds of men - and some women - became antiquaries and set about rediscovering their national history, in Britain, France and Germany. The Romantic age valued facts, but it also valued imagination and it brought both to the study of history. Among its achievements were the preservation of the Bayeux Tapestry, the analysis and dating of Gothic architecture, and the first publication of *Beowulf*. It dispelled old myths, and gave us new

ones: Shakespeare's birthplace, clan tartans and the arrow in Harold's eye are among their legacies. From scholars to imposters the dozen or so antiquaries at the heart of this book show us history in the making.

Modern Architectural Theory Harry Francis

Mallgrave.2009-07-13 Modern Architectural Theory is the first book to provide a comprehensive survey of architectural theory, primarily in Europe and the United States, during three centuries of development. In this synthetic overview, Harry Mallgrave examines architectural discourse within its social and political context. He explores the philosophical and conceptual evolution of its ideas, discusses the relation of theory to the practice of building, and, most importantly, considers the words of the architects themselves, as they contentiously shaped Western architecture. He also examines the compelling currents of French rationalist and British empiricist thought, radical reformation of the theory during the Enlightenment, the intellectual ambitions and historicist debates of the nineteenth century, and the distinctive varieties of modern theory in the twentieth century up to the profound social upheaval of the 1960s. Modern Architectural Theory challenges many assumptions about architectural modernism and uncovers many new dimensions of the debates about modernism.

An Historical Survey of the Ecclesiastical Antiquities of France, 1809 G. D. Whittington.2018-02-06 Excerpt from An Historical Survey of the Ecclesiastical Antiquities of France, 1809: With a View to Illustrate the Rise and Progress of Gothic Architecture in Europe The following work is printed conformably to a desire expressed by the Author at his death: and his friends, in the execution of this duty, have proceeded under the conviction that it is far too valuable to be withheld from the press. Notwithstanding this favourable opinion, they are sensible that to the faults which may be inherent in the work itself, must be added those which are inseparable from publications of a posthumous nature; many such may possibly be discovered, which in the eye of candour will admit of extenuation. The unfinished state,

however, of the following pages, and the premature death of their writer, appear to render necessary some prefatory information concerning both; in order that the proposed plan and objects of the work may be more clearly understood, and the qualifications possessed by the author for such an undertaking duly appreciated. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. The Long Lives of Medieval Art and Architecture Jennifer M.

Feltman,Sarah Thompson.2019-03-08 Traditional histories of

medieval art and architecture often privilege the moment of a

work's creation, yet surviving works designated as medieval have

long and expansive lives. Many have extended prehistories

emerging from their sites and contexts of creation, and most have

undergone a variety of interventions, including adaptations and

restorations, since coming into being. The lives of these works

have been further extended through historiography, museum

exhibitions, and digital media. Inspired by the literary category of

biography and the methods of *longue durée* historians, the

introduction and seventeen chapters of this volume provide an

extended meditation on the longevity of medieval works of art and

the aspect of time as a factor in shaping our interpretations of

them. While the metaphor of lives invokes associations with the

origin of the discipline of art history, focus is shifted away from temporal constraints of a single human lifespan or generation to consider the continued lives of medieval works even into our present moment. Chapters on works from the modern countries of Italy, France, England, Spain, and Germany are drawn together here by the thematic threads of essence and continuity, transformation, memory and oblivion, and restoration. Together, they tell an object-oriented history of art and architecture that is necessarily entangled with numerous individuals and institutions. Librarian, Being an Account of Scarce, Valuable, and Useful English Books, Manuscript Libraries, Public Records .1809 **The London review, conducted by R. Cumberland** Richard Cumberland.1809

Bibliotheca Britannica: Subjects Robert Watt.1824

An Historical Survey of the Ecclesiastical Antiquities of France, 1809 G. D. Whittington.2015-06-25 Excerpt from An Historical Survey of the Ecclesiastical Antiquities of France, 1809: With a View to Illustrate the Rise and Progress of Gothic Architecture in Europe The following work is printed conformably to a desire expressed by the Author at his death: and his friends, in the execution of this duty, have proceeded under the conviction that it is far too valuable to be withheld from the press.

Notwithstanding this favourable opinion, they are sensible that to the faults which may be inherent in the work itself, must be added those which are inseparable from publications of a posthumous nature; many such may possibly be discovered, which in the eye of candour will admit of extenuation. The unfinished state, however, of the following pages, and the premature death of their writer, appear to render necessary some prefatory information concerning both; in order that the proposed plan and objects of the work may be more clearly understood, and the qualifications possessed by the author for such an undertaking duly appreciated. The History of the Ecclesiastical Architecture of France occupied, at intervals, the last four years

of the author's life. The first project of such a work, originated in the course of an extensive journey made with me through France and Italy in the years 1802 and 1803, during which he examined with minute attention the chief remains of early Christian buildings in those countries. An Historical Survey Of The Ecclesiastical Antiquities Of France 1809 With A View To Illustrate Th Introduction

In today's digital age, the availability of An Historical Survey Of The Ecclesiastical Antiquities Of France 1809 With A View To Illustrate Th

An Historical Survey Of The Ecclesiastical Antiquities Of

France 1809 With A View To Illustrate Th

books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of An Historical Survey Of The Ecclesiastical Antiquities Of France 1809 With A View To Illustrate Th books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing An Historical Survey Of The Ecclesiastical Antiquities Of France 1809 With A View To

illustrate Th versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, An Historical Survey Of The Ecclesiastical Antiquities Of France 1809 With A View To Illustrate Th books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether youre a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content

An Historical Survey Of The Ecclesiastical Antiquities Of

France 1809 With A View To Illustrate Th

appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing An Historical Survey Of The Ecclesiastical Antiquities Of France 1809 With A View To Illustrate Th books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for An Historical Survey Of The Ecclesiastical Antiquities Of France 1809 With A View To Illustrate Th books and manuals is Open Library. Open

Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, An Historical
