Even More Englishes Manfred Görlach.1998-05-15 Even More Englishes comprises Manfred Görlach's more recent papers devoted to general problems of the world language and to individual varieties. The collection starts with principal questions as to what can rightly be regarded as 'English', looks at specific features of emigrant Englishes and the value of individual features as evidence for linguistic geography — and for linguistic jokes. The functional range of Scots is traced through its history, and the question is raised whether we are justified to speak of 'Celtic Englishes' in Britain and Ireland. Two papers investigate the forms and functions of the world language in two African states, South Africa and Nigeria. A survey of new dictionaries of varieties of English and a discussion of whether pidgin and creole languages need different types of dictionaries are followed by a documentation of the history of the author's projects in the field of English as a world language. Even More Englishes complements Englishes and More Englishes previously published in the Varieties of English Around the World book series.

The Iceman Cometh Eugene O'Neill.2020-05-01 A critical edition of O'Neill's most complex and difficult play, designed for student readers and performers This critical edition of Eugene O'Neill's most complex and difficult play helps students and performers meet the work's demanding cultural literacy. William Davies King provides an invaluable guide to the text, including an essay on historical and critical perspectives; extensive notes on the language used in the play, and its many musical and literary allusions; as well as numerous insightful illustrations. He also gives biographical details about the actual people the characters are based on, along with the performance history of the play, to help students and theatrical artists engage with this labyrinthine work.

The Dialectical Tradition in South Africa Andrew

Nash.2009-06-16 This book brings into view the most enduring and distinctive philosophical current in South African history—one often obscured or patronized as Afrikaner liberalism. It traces this current of thought from nineteenth-century disputes over Dutch liberal theology through Stellenbosch existentialism to the prison writings of Breyten Breytenbach, and examines related themes in the work of Olive Schreiner, M. K. Gandhi, and Richard

Turner. At the core of this tradition is a defence of free speech in its classical sense, as a virtue necessary for a good society, rather than in its modern liberal sense as an individual right. Out of this defence of free speech, conducted in the face of charges of heresy, treason, and immorality, a range of philosophical conceptions developed—of the self constituted in dialogue with others, of freedom as transcendence of the given, and of a dialectical movement of consciousness as it is educated through debate and action. This study shows the Socratic commitment to following the argument where it leads, sustained and developed in the storm and stress of a peculiar modernity.

The Word in Arabic Giuliano Lancioni, Lidia Bettini. 2011-10-14 This book is the first volume devoted to the issues raised by the definition of 'word' in Arabic. Papers include studies on the history of Arabic grammatical and rhetorical traditions, current theoretical and applied linguistics, and language contact.

The Gift of the Magi O. Henry. 2021-12-22 The Gift of the Magi is a short story by O. Henry first published in 1905. The story tells of a young husband and wife and how they deal with the challenge of buying secret Christmas gifts for each other with very little money. As a sentimental story with a moral lesson about gift-giving, it has been popular for adaptation, especially for presentation at Christmas time.

An Introduction to Language and Linguistics Ralph Fasold, Jeffrey Connor-Linton. 2006-03-06 This accessible textbook is the only introduction to linguistics in which each chapter is written by an expert who teaches courses on that topic, ensuring balanced and uniformly excellent coverage of the full range of modern linguistics. Assuming no prior knowledge the text offers a clear introduction to the traditional topics of structural linguistics

(theories of sound, form, meaning, and language change), and in addition provides full coverage of contextual linguistics, including separate chapters on discourse, dialect variation, language and culture, and the politics of language. There are also up-to-date separate chapters on language and the brain, computational linguistics, writing, child language acquisition, and second-language learning. The breadth of the textbook makes it ideal for introductory courses on language and linguistics offered by departments of English, sociology, anthropology, and communications, as well as by linguistics departments.

Multilingualism, Literacy and Dyslexia Lindsay Peer, Gavin Reid. 2016-02-05 This fully revised new edition provides advice on the identification, assessment and support of bilingual learners and assists practitioners in identifying the difference between literacy difficulties due to bilingualism or multilingualism and dyslexia. An essential text for staff development, it includes innovative approaches in technology and teaching programmes beneficial to multilingual learners and advice on learning additional languages. With contributions from experts from across the globe, this book will provide guidance on key themes, including: the assessment of multilingual learners the impact of dyslexia on bilingualism the literacy challenges facing learners from Indigenous cultures the role of the SENCO in identifying children with English as an additional language and Dyslexia the emotional needs of learners with bi/multilingualism and Dyslexia This book will provide guidance to anyone involved in literacy development and language learning. With the increase in international schools around the globe and the ever growing desire for parents to ensure that their children become proficient in English, this book will appeal to teachers, teaching assistants, specialists, and all other practitioners who work with bi/multilingual children.

foreground one over the other, but are crucially interdependent and need to work together to create possibilities for redesign and social action that serve a social justice agenda. She examines the theory underpinning each orientation, and develops new theory in the argument for interdependence and integration. Sitting at the interface between theory and practice, constantly moving from one to the other, the text is rich with examples of how to use these orientations in real teaching contexts, and how to use them to counterbalance one another. In the groundbreaking final chapter Janks considers how the rationalist underpinning of critical literacy tends to exclude the non-rational shows ways of working 'beyond reason' – pleasure and play, desire and the unconscious – and makes the case that these need to be taken seriously given their power to cut across the work of critical literacy educators working from any orientation.

The Pumpkin Plan Mike Michalowicz.2012-07-05 Each year

Americans start one million new businesses, nearly 80 percent of which fail within the first five years. Under such pressure to stay alive—let alone grow—it's easy for entrepreneurs to get caught up in a never-ending cycle of "sell it—do it, sell it—do it" that leaves them exhausted, frustrated, and unable to get ahead no matter how hard they try. This is the exact situation Mike Michalowicz found himself in when he was trying to grow his first company. Although it was making steady money, there was never very much left over and he was chasing customers left and right,

putting in twenty-eight-hour days, eight days a week. The punishing grind never let up. His company was alive but stunted, and he was barely breathing. That's when he discovered an unlikely source of inspiration—pumpkin farmers. After reading an article about a local farmer who had dedicated his life to growing giant pumpkins, Michalowicz realized the same process could apply to growing a business. He tested the Pumpkin Plan on his own company and transformed it into a remarkable, multimillion-dollar industry leader. First he did it for himself. Then for others. And now you. So what is the Pumpkin Plan? Plant the right seeds: Don't waste time doing a bunch of different things just to please your customers. Instead, identify the thing you do better than anyone else and focus all of your attention, money, and time on figuring out how to grow your company doing it. Weed out the losers: In a pumpkin patch small, rotten pumpkins stunt the growth of the robust, healthy ones. The same is true of customers. Figure out which customers add the most value and provide the best opportunities for sustained growth. Then ditch the worst of the worst. Nurture the winners: Once you figure out who your best customers are, blow their minds with care. Discover their unfulfilled needs, innovate to make their wishes come true, and overdeliver on every single promise. Full of stories of other successful entrepreneurs, The Pumpkin Plan guides you through unconventional strategies to help you build a truly profitable blue-ribbon company that is the best in its field.

Aspects of Language Contact Thomas Stolz,Dik Bakker,Rosa Salas Palomo.2008-08-27 This edited volume brings together fourteen original contributions to the on-going debate about what is possible in contact-induced language change. The authors present

a number of new vistas on language contact which represent new developments in the field. In the first part of the volume, the focus is on methodology and theory. Thomas Stolz defines the study of Romancisation processes as a very promising laboratory for language-contact oriented research and theoretical work based thereon. The reader is informed about the large scale projects on loanword typology in the contribution by Martin Haspelmath and on contact-induced grammatical change conducted by Jeanette Sakel and Yaron Matras. Christel Stolz reviews processes of gender-assignment to loan nouns in German and German-based varieties. The typology of loan verbs is the topic of the contribution by Søren Wichmann and Jan Wohlgemuth. In the articles by Wolfgang Wildgen and Klaus Zimmermann, two radically new approaches to the theory of language contact are put forward: a dynamic model and a constructivism-based theory, respectively. The second part of the volume is dedicated to more empirically oriented studies which look into language-contact constellations with a Romance donor language and a non-European recipient language. Spanish-Amerindian (Guaraní, Otomí, Quichua) contacts are investigated in the comparative study by Dik Bakker, Jorge Gómez-Rendón and Ewald Hekking. Peter Bakker and Robert A. Papen discuss the influence exerted by French on the indigenous languages of Canada. The extent of the Portuguese impact on the Amazonian language Kulina is studied by Stefan Dienst. John Holm looks at the validity of the hypothesis that bound morphology normally falls victim to Creolization processes and draws his evidence mainly from Portuguese-based Creoles. For Austronesia, borrowings and calques from French still are an understudied phenomenon. Claire Moyse-Faurie's contribution to this topic is thus a pioneer's work. Similarly, Françoise Rose and Odile Renault-Lescure provide us with fresh data on language contact in French Guiana. The final article of this collection by Mauro Tosco demonstrates that the Italianization of languages of the

former Italian colonies in East Africa is only weak. This volume provides the reader with new insights on all levels of language-contact related studies. The volume addresses especially a readership that has a strong interest in language contact in general and its repercussions on the phonology, grammar and lexicon of the recipient languages. Experts of Romance language contact, and specialists of Amerindian languages, Afro-Asiatic languages, Austronesian languages and Pidgins and Creoles will find the volume highly valuable.
