The Praetorian STARShip : the untold story of the Combat Talon .2001 Jerry Thigpen's study on the history of the Combat Talon is the first effort to tell the story of this wonderfully capable machine. This weapons system has performed virtually every imaginable tactical event in the spectrum of conflict and by any measure is the most versatile C-130 derivative ever produced. First modified and sent to Southeast Asia (SEA) in 1966 to replace theater unconventional warfare (UW) assets that were limited in both lift capability and speed the Talon I quickly adapted to theater UW tasking including infiltration and resupply and psychological warfare operations into North Vietnam. After spending four years in SEA and maturing into a highly respected UW weapons system the Joint Chief of Staff (JCS) chose the Combat Talon to lead the night low-level raid on the North Vietnamese prison camp at Son Tay. Despite the outcome of the operation the Talon I cemented its reputation as the weapons system of choice for long-range clandestine operations. In the period following the Vietnam War United States Air Force (USAF) special operations gradually lost its political and financial support which was graphically demonstrated in the failed Desert One mission into Iran. Thanks to congressional supporters like Earl Hutto of Florida and Dan Daniel of Virginia funds for aircraft upgrades and military construction projects materialized to meet the ever-increasing threat to our nation. Under the leadership of such committed hard-driven officers as Brenci Uttaro Ferkes Meller and Thigpen the crew force became the most disciplined in our Air Force. It was capable of penetrating hostile airspace at night in a low-level mountainous environment covertly to execute any number of unconventional warfare missions.

Lost Enlightenment S. Frederick Starr.2015-06-02 The forgotten story of Central Asia's enlightenment—its rise, fall, and enduring legacy In this sweeping and richly illustrated history, S. Frederick Starr tells the fascinating but largely unknown story of Central Asia's medieval enlightenment through the eventful lives and astonishing accomplishments of its greatest minds—remarkable figures who built a bridge to the modern world. Because nearly all of these figures wrote in Arabic, they were long assumed to have been Arabs. In fact, they were from Central Asia—drawn from the Persianate and Turkic peoples of a region that today extends from Kazakhstan southward through Afghanistan, and from the easternmost province of Iran through Xinjiang, China. Lost Enlightenment recounts how, between the years 800 and 1200, Central Asia led the world in trade and economic development, the size and sophistication of its cities, the refinement of its arts, and, above all, in the advancement of knowledge in many fields. Central Asians achieved signal breakthroughs in astronomy, mathematics, geology, medicine, chemistry, music, social science, philosophy, and theology, among other subjects. They gave algebra its name, calculated the earth's diameter with unprecedented precision, wrote the books that later defined European medicine, and penned some of the world's greatest poetry. One scholar, working in Afghanistan, even predicted the existence of North and South America—five centuries before Columbus. Rarely in history has a more impressive group of polymaths appeared at one place and time. No wonder that their writings influenced European culture from the time of St. Thomas Aquinas down to the scientific revolution, and had a similarly deep impact in India and much of Asia. Lost Enlightenment chronicles this forgotten age of achievement, seeks to explain its rise, and explores the competing theories about the cause of its eventual demise. Informed by the latest scholarship yet written in a lively and accessible style, this is a book that will surprise general readers and specialists alike.

Hunting the Jackal Billy Waugh,Tim Keown.2011-12-06 Spanning more than five decades, here is a riveting true account of fighting America's enemies around the world—told by the soldier/operative who was there I am not a hero. Billy Waugh has lurked in the shadows and on the periphery of many of the most significant events of the past half-century on active duty with U.S. Army Special Forces and the CIA fighting enemies of the United States. In *Hunting the Jackal*, this legendary warrior reveals the extraordinary events of his life and career, offering a point-by-point eyewitness account of the historical events in which he participated. Serving in Korea and Vietnam, Waugh was among the first Green Berets in 1963. He has helped train Libyan commandos in the Sahara Desert, while spying on Russian missile sites in Benghazi, and has worked against Caribbean drug runners. He was the first CIA operative to watch Osama Bin Laden in Khartoum “from a spot close enough to kill him had I been allowed,” and tracked him over the course of two years. In 1994 he found the notorious Carlos the Jackal in Sudan, and tailed him until he was captured—a story that until now has never been told. And, just last year, at age 72, Waugh was on the ground in Afghanistan with a joint SpecForces/CIA unit. This is his remarkable true story.

Secret Green Beret Commandos in Cambodia LTC Fred S. Lindsey.2012-11-12 We could call this book Special Operations Recon Mission Impossible. A small group of highly trained, resourceful US Special Forces (SF) men is asked to go in teams behind the enemy lines to gather intelligence on the North Vietnamese Army units that had infiltrated through Laos and Cambodia down the Ho Chi Minh trails to their secret bases inside the Cambodian border west of South Vietnam. The covert reconnaissance teams, of only two or three SF men with four or five experienced indigenous mercenaries each, were tasked to go into enemy target areas by foot or helicopter insertion. They could be 15 kilometers beyond any other friendly forces, with no artillery support. In sterile uniforms - with no insignia or identification, if they were killed or captured, their government

would deny their military connection. The enemy had placed a price on their heads and had spies in their Top Secret headquarters known as SOG. SOG had three identical recon ground units along the border areas. This book tells the history of Command and Control Detachment South (CCS). The CCS volunteer warriors and its Air Partners the Army and Air Force helicopter transport and gunship crews who lived and fought together and sometimes died together. This is the first published history of CCS as compiled by its last living commander, some forty years after they were disbanded. It tells of the struggles and intrigue involved in SOGs development as the modern-day legacy of our modern Special Operations Commands. Forbidden to tell of their experiences for over twenty years; their After Action Reports destroyed even before they were declassified surviving veterans team together to tell how Recon men wounded averaged 100 percent; and SOG became the most highly decorated unit in Vietnam and all were awarded the Presidential Unit Citation.

SOG John L. Plaster.2019-01-01 John Plaster's riveting account of his covert activities as a member of a special operations team during the Vietnam War is "a true insider's account, this eye-opening report will leave readers feeling as if they've been given a hot scoop on a highly classified project" (Publishers Weekly). Code-named the Studies and Observations Group, SOG was the most secret elite US military unit to serve in the Vietnam War—so secret its very existence was denied by the government. Composed entirely of volunteers from such ace fighting units as the Army Green Berets, Air Force Air Commandos, and Navy SEALs, SOG took on the most dangerous covert assignments, in the deadliest and most forbidding theaters of operation. In SOG, Major John L. Plaster, a three-tour SOG veteran, shares the gripping exploits of these true American warriors in a minute-by-minute, heartbeat-by-heartbeat account of the group's stunning operations behind enemy lines—penetrating heavily defended North Vietnamese military facilities, holding off mass enemy attacks, launching daring missions to rescue downed US pilots. Some of the most extraordinary true stories of honor and heroism in the history of the US military, from sabotage to espionage to hand-to-hand combat, Plaster's account is "a detailed history of this little-known aspect of the Vietnam War...a worthy act of historical rescue from an unjustified, willed oblivion" (The New York Times).

The Phoenix Program Douglas Valentine.2014-06-10 "This shocking expose of the CIA operation aimed at destroying the Vietcong infrastructure thoroughly conveys the hideousness of the Vietnam War" (Publishers Weekly). In the darkest days of the Vietnam War, America's Central Intelligence Agency secretly initiated a sweeping program of kidnap, torture, and assassination devised to destabilize the infrastructure of the National Liberation Front (NLF) of South Vietnam, commonly known as the "Viet Cong." The victims of the Phoenix Program were Vietnamese civilians, male and female, suspected of harboring information about the enemy—though many on the blacklist were targeted by corrupt South Vietnamese security personnel looking to extort money or remove a rival. Between 1965 and 1972, more than eighty thousand noncombatants were "neutralized," as men and women alike were subjected to extended imprisonment without trial, horrific torture, brutal rape, and in many cases execution, all under the watchful eyes of US government agencies. Based on extensive research and in-depth interviews with former participants and observers, Douglas Valentine's startling exposé blows the lid off of what was possibly the bloodiest and most inhumane covert operation in the CIA's history. The ebook edition includes "The Phoenix Has Landed," a new introduction that addresses the "Phoenix-style network" that constitutes America's internal security apparatus today. Residents on American soil are routinely targeted under the guise of protecting us from terrorism—which is why, more than ever, people need to understand what Phoenix is all about.

Surprise, Kill, Vanish Annie Jacobsen.2020-07-07 *The USA Today bestseller* Surprise... your target. Kill... your enemy. Vanish... without a trace. From Pulitzer Prize finalist Annie Jacobsen, the untold story of the CIA's secret paramilitary units. When diplomacy fails, and war is unwise, the president calls on the CIA's Special Activities Division, a highly-classified branch of the CIA and the most effective, black operations force in the world. Originally known as the president's guerrilla warfare corps, SAD conducts risky and ruthless operations that have evolved over time to defend America from its enemies. Almost every American president since World War II has asked the CIA to conduct sabotage, subversion and, yes, assassination. With unprecedented access to forty-two men and women who proudly and secretly worked on CIA covert operations from the dawn of the Cold War to the present day, along with declassified documents and deep historical research, Pulitzer Prize finalist Annie Jacobsen unveils-like never before-a complex world of individuals working in treacherous environments populated with killers, connivers and saboteurs. Despite Hollywood notions of off-book operations and external secret hires, covert action is actually one piece in a colossal foreign policy machine. Written with the pacing of a thriller, SURPRISE, KILL, VANISH brings to vivid life the sheer pandemonium and chaos, as well as the unforgettable human will to survive and the intellectual challenge of not giving up hope that define paramilitary and intelligence work. Jacobsen's exclusive interviews-with members of the CIA's Senior Intelligence Service (equivalent to the Pentagon's generals), its counterterrorism chiefs, targeting officers, and Special Activities Division's Ground Branch operators who conduct today's close-quarters killing operations around the world-reveal,for the first time, the enormity of this shocking, controversial and morally complex terrain. Is the CIA's paramilitary army America's weaponized strength, or a liability to its principled standing in the world? Every operation reported in this book, however unsettling, is legal.

Kiss the Boys Goodbye Monika Jensen-Stevenson,William Stevenson.2014-11-18 The classic account of the abandonment of American POWs in Vietnam by the US government. For many Americans, the recent conflicts in Iraq and Afghanistan bring back painful memories of one issue in particular: American policy on the rescue of and negotiation for American prisoners. One current American POW of the Taliban, Sergeant Bowe Bergdahl, stands as their symbol. Thousands of Vietnam veteran POW activists worry that Bergdahl will suffer the fate of so many of their POW/MIA comrades—abandonment once the US leaves that theater of war. Kiss

the Boys Goodbye convincingly shows that a legacy of shame remains from America's ill-fated involvement in Vietnam. Until US government policy on POW/MIAs changes, it remains one of the most crucial issues for any American soldier who fights for home and country, particularly when we are engaged with an enemy that doesn't adhere to the international standards for the treatment of prisoners—or any American hostage—as the graphic video of Daniel Pearl's decapitation on various Jihad websites bears out. In this explosive book, Monika Jensen-Stevenson and William Stevenson provide startling evidence that American troops were left in captivity in Indochina, victims of their government's abuse of secrecy and power. The book not only delves into the world of official obstruction, missing files, censored testimony, and the pressures brought to bear on witnesses ready to tell the truth, but also reveals the trauma on patriotic families torn apart by a policy that, at first, seemed unbelievable to them. First published in 1990, Kiss the Boys Goodbye has become a classic on the subject. This new edition features an afterword, which fills in the news on the latest verifiable scandal produced by the Senate Select Committee on POWs. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

These publications reflect the author's interest in the historical role that knives have played and he has documented their use during the wars of the 20th Century. This volume introduces the rare, unique and experimental knives of W.D. Randall, many either made or designed by him. The initial section explores knives from the Randall Museum, where over 50 images reflect the commitment to design innovation, which was and is still today, a hallmark of Randall Made Knives. The second section contains knives from a private collection, which was uncovered by the author. Interestingly enough, the knives in this grouping have roots in some of the museum examples and various designs can be found in Randall early experiments displayed in the museum cases

Theater Made Military Knives of WWII Bill Wright,Debbie Wright.2001 The collecting of military theater made knives of World War II is one of the fastest growing fields of collecting in America today. These knives are very historical. They were individually handmade by people who wanted to contribute to the war effort, as well as the service men who used them. Most of these knives differ in style and have very colorful handles. This is the only book available that donates its entire contents to the collecting of theater made knives and their values.

Shadow Commander Mike Guardia.2015-11-24 The true story of the US Army legend who organized "Blackburn's Headhunters" against Japan in WWII and went on to initiate Special Forces operations in Vietnam. The fires on Bataan burned on the evening of April 9, 1942—illuminating the white flags of surrender against the dark sky. Outnumbered and outgunned, remnants of the American-Philippine army surrendered to the forces of the Rising Sun. Yet US Army Captain Donald D. Blackburn refused to lay down his arms. With future Special Forces legend Russell Volckmann, Blackburn escaped to the jungles of North Luzon, where they raised a private army of 22,000 men against the Japanese. His organization of native tribes into guerrilla fighters would lead to the destruction of the enemy's naval base at Aparri. But Blackburn's amazing accomplishments would not end with the victory in the Pacific. He would go on to play a key role in initiating Army Special Forces operations in Southeast Asia, spearheading Operation White Star in Laos as commander of the 77th Special Forces Group and eventually taking command of the highly classified Studies and Observations Group (SOG), charged with performing secret missions now that main-force Communist incursions were on the rise. In the wake of the CIA's disastrous Leaping Lena program, in 1964, Blackburn revitalized the Special Operations campaign in South Vietnam. Sending reconnaissance teams into Cambodia and North Vietnam, he discovered the clandestine networks and supply nodes of the Ho Chi Minh Trail. Taking the information directly to General Westmoreland, Blackburn was authorized to conduct full-scale operations against the NVA and Viet Cong in Laos and Cambodia. In combats large and small, the Communists realized they had met a master of insurgent tactics—and he was on the US side. Following his return to the US, Blackburn was the architect of the infamous Son Tay Prison Raid, officially termed Operation Ivory Coast, the largest prisoner-of-war rescue mission—and, indeed, the largest Army Special Forces operation—of the Vietnam War. During a period when US troops in Southeast Asia faced guerrilla armies on every side, America had a superb covert commander of its own. This book follows Blackburn through both his youthful days of desperate combat and his time as a commander, imparting his lessons to the new ranks of Army Special Forces.

Special Air Warfare and the Secret War in Laos Air University Press,Joseph D Celeski.2019-07-02 The story of special air warfare and the Air Commandos who served for the ambassadors in Laos from 1964 to 1975 is captured through extensive research and veteran interviews. The author has meticulously put together a comprehensive overview of the involvement of USAF Air Commandos who served in Laos as trainers, advisors, and clandestine combat forces to prevent the communist takeover of the Royal Lao Government. This book includes pictures of those operations, unveils what had been a US government secret war, and adds a substantial contribution to understanding the wider war in Southeast Asia.

Discusses a variety of commando and guerrilla operations that were conducted on the plains of Europe and in the jungles of the Pacific to harass the Axis armies, to gather intelligence, and to support the more conventional Allied military efforts, yet their significance was a matter of dispute. Empires of the Silk Road Christopher I. Beckwith.2009-03-16 The first complete history of Central Eurasia from ancient times to the present day, Empires of the Silk Road represents a fundamental rethinking of the origins, history, and significance of this major world region. Christopher Beckwith describes the rise and fall of the great Central Eurasian empires, including those of the Scythians, Attila the Hun, the Turks and Tibetans, and Genghis Khan and the Mongols. In addition, he explains why the heartland of Central Eurasia led the world economically, scientifically, and artistically for many centuries despite invasions by Persians, Greeks, Arabs, Chinese, and others. In retelling the story of the Old World from the perspective of Central Eurasia, Beckwith provides a new understanding of the internal and external dynamics of the Central Eurasian states and shows how their people repeatedly revolutionized Eurasian civilization. Beckwith recounts the Indo-Europeans' migration out of Central Eurasia, their mixture with local peoples, and the resulting development of the Graeco-Roman, Persian, Indian, and Chinese civilizations; he details the basis for the thriving economy of premodern Central Eurasia, the economy's disintegration following the region's partition by the Chinese and Russians in the eighteenth and nineteenth centuries, and the damaging of Central Eurasian culture by Modernism; and he discusses the significance for world history of the partial reemergence of Central Eurasian nations after the collapse of the Soviet Union. Empires of the Silk Road places Central Eurasia within a world historical framework and demonstrates why the region is central to understanding the history of civilization.

NATO's Secret Armies Daniele Ganser.2005-06-21 This fascinating new study shows how the CIA and the British secret service, in collaboration with the military alliance NATO and European military secret services, set up a network of clandestine anti-communist armies in Western Europe after World War II. These secret soldiers were trained on remote islands in the Mediterranean and in unorthodox warfare centres in England and in the United States by the Green Berets and SAS Special Forces. The network was armed with explosives, machine guns and high-tech communication equipment hidden in underground bunkers and secret arms caches in forests and mountain meadows. In some countries the secret army linked up with right-wing terrorist who in a secret war engaged in political manipulation, harassment of left wing parties, massacres, coup d'états and torture. Codenamed 'Gladio' ('the sword'), the Italian secret army was exposed in 1990 by Italian Prime Minister Giulio Andreotti to the Italian Senate, whereupon the press spoke of The best kept, and most damaging, political-military secret since World War II (Observer, 18. November 1990) and observed that The story seems straight from the pages of a political thriller. (The Times, November 19, 1990). Ever since, so-called 'stay-behind' armies of NATO have also been discovered in France, Spain, Portugal, Germany, Belgium, the Netherlands, Luxemburg, Denmark, Norway, Sweden, Finland, Switzerland, Austria, Greece and Turkey. They were internationally coordinated by the Pentagon and NATO and had their last known meeting in the NATO-linked Allied Clandestine Committee (ACC) in Brussels in October 1990.

Hunter-Killer Teams Joint Special Operations University Pres,Joseph D Celeski.2019-07-07 The concept of hunter-killer operations deep within enemy territory evokes a sense of excitement and adventure, especially for those of us familiar with the exploits of Robert Rogers' Rangers of the 18th century or the operations of Special Forces and Rangers in Afghanistan today. In this monograph, Colonel Joseph D. Celeski (U.S. Army, Ret.), argues that hunter-killer teams be routinely established as part of our standing Special Operations Forces (SOF). He states that guidelines for their employment should be included in counterinsurgency (COIN) doctrine, and Celeski further advises that the use of such forces should be a routine part of the overall COIN effort. The idea is to aggressively pursue the enemy within his own sanctuaries, disrupt his operations and sustainment, and neutralize or destroy the adversary before he can threaten a friendly host government or project extremist operations onto the world stage.Celeski's operational concept for hunter-killer operations bolsters the command vision of U.S. Special Operations Command, which seeks to develop a force capable of distributed operations, within an environment characterized by irregular warfare and asymmetric challenges. The hunterkiller organization, with its strike units and teams, would be reinforced with indigenous forces, much as we saw during the Vietnam War and the early phases of the Afghanistan war. This kind of force could contribute toward achieving the U.S. SOF mission to act with ...speed, aggression, and lethality to achieve tactical through strategic effect.

MAC V SOG Jason M. Hardy.2012 US Military History Special Forces

Vietnam Studies Col Francis J. Kelly.2016-12-10 As long ago as 1957, U.S. Army Special Forces soldiers were in the Republic of Vietnam. going about their business of training, advising, and assisting members of the Vietnamese Army. Despite the old Army witticism about never volunteering for anything, the Special Forces soldier is. in fan, a double volunteer, having first volunteered for airborne training and then again for Special Forces training. From a very meager beginning but sustained by a strong motivation and confidence in his mission, the Special Forces soldier has marched through the Vietnam struggle in superb fashion. In 1957 some fifty-eight Vietnamese soldiers were given military training by Special Forces troops. Ten years later the Special Forces were advising and assisting over 40,000 paramilitary troops, along with another 40,000 Regional Forces and Popular Forces soldiers. This monograph traces the development and notes the progress, problems, successes, and failures of a unique program undertaken by the U.S. Army for the first time in its history. It is hoped that all the significant lessons learned have been recorded and the many pitfalls of such a program uncovered. I am responsible for the conclusions reached, yet my thought processes could not escape the influence of the many outstanding officers and men in the Special Forces who joined in the struggle. Particularly, I must take note of the contributions of the Special Forces noncommissioned officers, without question the most competent soldiers in the world. With the withdrawal of the Special Forces from Vietnam in 1971, the Army could honestly lay claim to a new dimension in ground warfare-the organized employment of a paramilitary force in sustained combat against a determined enemy. I know I speak for my predecessors and successors in claiming that the 5th Special Forces Group (Airborne) was the finest collection of professional soldiers ever assembled by the U.S. Army, anywhere, anytime. Memories of a Fighter Pilot Jay E. Riedel.2010-03-28 Jay E. Riedel was born 19 November 1939 in Freeport, Long Island, New York, and received his Bachelor of Arts Degree in Mathematics from the University of Buffalo, Buffalo, New York, and his commission as a Second Lieutenant through AFROTC in July 1961. Colonel Jay E. Riedel retired 1 April 1992 after thirty years of active service to his country. His last assignment was Senior Air Force Representative to the United States Army Infantry, Ft. Benning, Georgia. Memories of a Fighter Pilot is a collection of as many of his personal recollections as he can remember that would be of a significant interest to most readers. They are as accurate as he remembers them. Many will make you laugh, some will water your eyes, and some will have you gripping your chair with white knuckles. I have experienced many of life's ups and downs, and I hope all who read of these episodes will be entertained, yet glean some information that may be of use in their own lives. It was quite a ride. Foreword by General Chuck Horner.
