The Meaning of the Glorious Koran Mohammed Marmaduke Pickthall.1997-05-01 The classic translation of the Koran by a convert to Islam In 1930, Mohammed Marmaduke Pickthall, a Western Islamic scholar and convert to Islam, published this English translation of the Koran, the central religious text of Islam, which the Times Literary Supplement lauded as “a great literary achievement.” The aim of this work is to present to American readers what Muslims the world over hold to be the meaning of the words of the Koran, and the nature of that Book, accurately and concisely, with a view to the requirements of English-speaking Muslims. The first English translation of the Koran by an Englishman who is a Muslim, the Book is here rendered almost literally, and every effort has been made to choose befitting language. Regarded by Muslims as God’s actual words revealed to the prophet Mohammed, the Koran remains the supreme authority of the Islamic tradition. Comprising laws, moral precepts, and narratives, its timeless texts are the inspiration and guide of millions of Muslims. With this remarkably readable and scholarly translation, Pickthall introduces the sacred scriptures of the Koran to Western readers—and provides invaluable and fascinating insight into one of the world’s great religions.

The Work of Day and Night Suyūṭī.2016 Imam Jalal al-Din Suyuti (d. 911/1505) was one of the most prolific writers produced by the Islamic world. He is the author of over 700 works in virtually every field known to Islamic science, including the famous Jalalayn commentary of the Qur'an (of which he was co-author). His works are still widely used, and his name is a by-word for breadth of learning, voluminous output and a saintly life. The Work of Day and Night is Imam Suyuti's collection of the daily and nightly practices of the Prophet of Islam and includes instructions on how to follow the Prophet in everyday actions and supplications. In it the reader will find: the prayers said upon awakening, before eating and when dressing; the acts carried out at various times of the day, and between prayers; the supplications recited in times of distress as well as of intimacy with God; and much else. This book is invaluable for learning the practices of the Prophet and integrating it into one's life.

Peter the Venerable and Islam James Aloysius Kritzeck.2015-12-08 For over four centuries the principal source of Christian European knowledge of Islam stemmed from a project sponsored by Peter the Venerable, ninth abbot of Cluny, in 1142. This consisted of Latin translations of five Arabic works, including the first translation of the Koran in a western language. Known as the Toledan Collection, it was eventually printed in 1543 with an introduction by Martin Luther. The abbot also completed a handbook of Islam beliefs and a major analytical and polemical work, Liber contra sectam Saracenorum; annotated editions of these texts are included in this book. Originally published in 1964. The Princeton Legacy Library uses the latest

print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The Expeditions Ma'mar Ibn Rashid.2015-10-15 The Expeditions is one of the oldest biographies of the Prophet Muhammad to survive into the modern era. Its primary author, Ma'mar ibn Rashid (714-770 AD/96-153 AH), was a prominent scholar from Basra in southern Iraq who was revered for his learning in prophetic traditions, Islamic law, and the interpretation of the Qur'an. This fascinating foundational seminal work contains stories handed down by Ma'mar to his most prominent pupil, 'Abd al-Razzaq of Sanaa, relating Muhammad's early life and prophetic career as well as the adventures and tribulations of his earliest followers during their conquest of the Near East. Edited from a sole surviving manuscript, the Arabic text offers numerous improved readings over those of previous editions, including detailed notes on the text's transmission and variants as found in later works. This new translation, which renders the original into readable, modern English for the first time, is accompanied by numerous annotations elucidating the cultural, religious and historical contexts of the events and individuals described within its pages. The Expeditions represents an important testimony to the earliest Muslims' memory of the lives of Muhammad and his companions, and is an indispensable text for gaining insight into the historical biography of both the Prophet and the rise of the Islamic empire.

The Myth of Islamic Tolerance Robert Spencer.2005 This collection of essays by some of the world's leading authorities on Islamic social history focuses on the juridical and cultural oppression of non-Muslims in Islamic societies. The authors of these in-depth but accessible articles explode the

widely diffused myth, promulgated by Muslim advocacy groups, of a largely tolerant, pluralistic Islam. In fact, the contributors lay bare the oppressive legal superstructure that has treated non-Muslims in Muslim societies as oppressed and humiliated tributaries, and they show the devastating effects of these discriminatory attitudes and practices in both past and contemporary global conflicts. Besides original articles, primary source documents here presented also elucidate how the legally mandated subjugation of non-Muslims under Islamic law stems from the Muslim concept of jihad - the spread of Islam through conquest. Historically, the Arab-Muslim conquerors overran vast territories containing diverse non-Muslim populations. Many of these conquered people surrendered to Muslim domination under a special treaty called dhimma in Arabic. As such these non-Muslim indigenous populations, mainly Christians and Jews, were then classified under Islamic law as dhimmis (meaning protected). Although protected status may sound benign, this classification in fact referred to protection from the resumption of the jihad against non-Muslims, pending their adherence to a system of legal and financial oppression, as well as social isolation. The authors maintain that underlying this religious caste system is a culturally ingrained contempt for outsiders that still characterizes much of the Islamic world today and is a primary impetus for jihad terrorism. Also discussed is the poll tax (Arabic jizya) levied on non-Muslims; the Islamic critique of the Universal Declaration of Human Rights; the use of jihad ideology by twentieth-century radical Muslim theorists; and other provocative topics usually ignored by Muslim apologists. This hard-hitting and absorbing critique of Islamic teachings and practices regarding non-Muslim minorities exposes a significant human rights scandal that rarely receives any mention either in academic circles or in the mainstream press.

Sahih Muslim (Volume 5) Abul-Husain Muslim. 2021-08 Imam Nawawi's commentary on Sahih Muslim is one of the most highly regarded works in Islamic thought and literature. After the Qur'an, the prophetic traditions are the most recognised source of wisdom in Islam. Amongst the collected Hadith, Sahih Muslim is second only to the the collection of Imam Bukhari. With a commentary by Imam Nawawi, whose other works are amongst the most widely-read books on Islam, and translated by Adil Salahi, a modern scholar of great acclaim, this immense work, finally available to English readers, is an essential addition to every Muslim library, and for anybody with an interest in Islamic thought.

Al-Fawz al-Kabir fi Usul al-Tafsir Shah Waliyullah.

'**At-tibyān**' F. 'Abd al-Raḥīm. 2006

Al-Itqan fi Ulumul Qur'an Imam Jaluddin al-Suyuthi. Kitab ini bermula dari kegelisahan Imam Jalaluddin al-Suyuthi dalam pengembaraan intelektualnya. Ia heran karena para ulama terdahulu belum ada yang menulis tentang studi ilmu-ilmu al-Qur'an secara komprehensif, sistematis, dan praktis sebagaimana mereka menyusun ilmu-ilmu tentang hadits. Memang, kitab ini sesungguhnya merupakan elaborasi dari kitab yang ditulis oleh Imam Jalaluddin al-Suyuthi sebelumnya, yakni at-Tahbir fi 'Ulum al-Tafsir. Namun, penjelasan-penjelasan di dalam kitab tersebut sangat ringkas dan hanya memuat 102 topik pembahasan. Sementara itu, di dalam al-Itqan ini, terdapat 80 bab dengan lebih dari 300 topik seputar studi ilmu al-Qur'an. Artinya, untuk mempelajari, memahami, dan kemudian menafsirkan kandungan setiap ayat yang ada di dalam al-Quran, seseorang memerlukan penguasaan banyak ragam ilmu. Jilid 2 ini terdiri dari bab 36 sampai bab 40. Bab-bab tersebut di antaranya memuat kata-kata asing dalam al-Qur'an, kosakata serapan (al-mu'arrab), al-wujud dan an-nazha'ir, makna al-adawat, bahasa selain bahasa Hijaz, dan lain sebagainya. Selamat membaca!

Qur'an Commentary and the Biblical Turn Samuel Ross.2024-02-19 The Qur'an and the Bible have been called intertwined scriptures due to the Qur'an's frequent invocation of biblical narratives and figures. But what is the history of Muslims' exegetical engagement with the biblical text? Through a comprehensive survey of more than 170 Qur'an commentaries, Samuel Ross traces the longitudinal history of the Bible in tafsir. Offering detailed case studies and rich in historical context, Ross's narrative culminates in the remarkable late-nineteenth and early-twentieth-century biblical turn. Global in scope, this development has not only generated new Muslim views of the Bible but even new interpretations of the Qur'an itself. This monograph has been awarded the annual BRAIS - De Gruyter Prize in the Study of Islam and the Muslim World.

The Foreign Vocabulary of the Qur'an .2007 Republication of Arthur Jeffery's important study, The Foreign Vocabulary of the Qur'an, offers a new generation of scholars and students access to this foundational text. Arranged in Arabic alphabetical order, Jeffery's compendium of philological scholarship remains an indispensable tool for any serious study of Qur'anic semantics. Drawing upon etymological examination of languages such as Greek, Persian, Syriac, Ethiopic, Coptic and Nabataean, Jeffery's work illuminates the rich linguistic texture of Islam's holy book. His lengthy introductory essay explores the exegetical analysis offered by medieval Muslim commentators as well as the insights provided by more recent research.

The Development of Exegesis in Early Islam Herbert Berg.2013-04-03 The most important debate in Islamic origins is that of the reliability of the lists of transmitters (isnads) that are said to guarantee the authenticity of the materials to which they are attached. Many scholars have come to the conclusion that most traditions (hadiths), which claim to preserve the words and deeds of Muhammad and early Muslim scholars, are spurious. Other scholars defend hadiths and their isnads, arguing for an early continuous written transmission of these materials. The first purpose of this study is to summarize and critique the major positions on the issue of the authenticity of hadiths in general and exegetical hadiths in particular. The second purpose is to devise a means of evaluating isnads that does not rely on circular arguments and to use it to determine if the hadiths in the Tafsir of al-Tabari, attributed to Ibn 'Abbas, are genuine.

Gateway to the Qur'anic Sciences AL AD-DN ARQAHUDAN..2021 Allah describes the Qur'an as the 'guidance to mankind, and the Criterion (of right and wrong)' (2:185). Islamic scholars have therefore sought to explain the sciences associated with correctly understanding the revelation. This discipline has come to be known as 'ulūm al-Qur'ān, or 'sciences of the Qur'ān', and includes many subjects, such as the nature and order of revelation, explanations of the types of expressions used in the revelation and how the sacred text is to be correctly recited. Imam Jalāl ad-Dīn as-Suyūṭī wrote one of the leading comprehensive manuals on 'ulūm al-Qur'ān, entitled al-Itqān fī 'Ulūm al-Qur'ān. The text here translated is a

summary by Ṣalāḥ ad-Dīn Arqahudān of many major topics covered in the Itqān.

Islam and the Destiny of Man Charles Le Gai Eaton. 1985-09-30 Islam and the Destiny of Man by Charles Le Gai Eaton is a wide-ranging study of the Muslim religion from a unique point of view. The author, a former member of the British Diplomatic Service, was brought up as an agnostic and embraced Islam at an early age after writing a book (commissioned by T.S. Eliot) on Eastern religions and their influence upon Western thinkers. As a Muslim he has retained his adherence to the perennial philosophy which, he maintains, underlies the teachings of all the great religions. The aim of this book is to explore what it means to be a Muslim, a member of a community which embraces a quarter of the world's population and to describe the forces which have shaped the hearts and the minds of Islamic people. After considering the historic confrontation between Islam and Christendom and analysing the difference between the three monotheistic faiths (Judaism, Christianity, and Islam), the author describes the two poles of Muslim belief in terms of 'Truth' and 'Mercy'—the unitarian truth which is the basis of the Muslim's faith and the mercy inherent in this truth. In the second part of the book he explains the significance of the Qur'an and tells the dramatic story of Muhammad's life and of the early Caliphate. Lastly, the author considers the Muslim view of man's destiny, the social structure of Islam, the role of art and mysticism and the inner meaning of Islamic teaching concerning the hereafter. Throughout this book the author is concerned not with the religion of Islam in isolation, but with the very nature of religious faith, its spiritual and intellectual foundations, and the light it casts upon the mysteries and paradoxes of the human condition.

Textual Criticism and Qur'an Manuscripts Keith E. Small. 2011-04-22 This unique work takes a method of textual analysis commonly used in studies of ancient Western and Eastern manuscripts and applies it to twenty-one early Qur'an manuscripts. Keith Small analyzes a defined portion of text from the Qur'an with two aims in view: to recover the earliest form of text for this portion, and to trace the historical development of this portion to the current form of the text of the Qur'an. Small concludes that though a significantly early edited form of the consonantal text of the Qur'an can be recovered, its original forms of text cannot be obtained. He also documents the further editing that was required to record the Arabic text of the Qur'an in a complete phonetic script, as well as providing an explanation for much of the development of various recitation systems of the Qur'an. This controversial, thought-provoking book provides a rigorous examination into the history of the Qur'an and will be of great interest to Quranic Studies scholars.

Ulum al Qur'an Ahmad Von Denffer. 2015-07-02 This classic and popular introduction to the sciences developed to interpret and understand Islam's holy book is ideal for all serious students of the Koran. Precise, yet comprehensive, it covers the traditional disciplines, including the meaning and contexts of revelation, the history and transmission of the text, and exegesis, as well as more contemporary topics like the recording of the Koran, the history of Orientalist approaches, and a survey of translations. It ends with a guide for the correct recitation of, and etiquette toward, the Koran. Chapter 1: The Qur'an and Revelation Chapter 2: Transmission of the Qur'anic Revelation Chapter 3: The Qur'an in Manuscript and Print Chapter 4: Form, Language and Style Chapter 5: Understanding the Text Chapter 6: Interpreting the Text Chapter 7: Some Related Issues Chapter 8: Reading and Studying the Qur'an Ahmad Von Denffer was born in Germany in 1949. He studied Islamics and Social Anthropology at the University of Mainz, where he also attended additional courses in the Department of Missiology. His special interests include Christian-Muslim relations. He has made a

number of contributions to scholarly journals and has several publications to his credit. He joined the Islamic Foundation as Research Fellow in 1978 and is presently working with the Islamic Centre, Munich.

The Inspiration of Scripture Paul J. Achtemeier.1980 Christians generally agree that the Scriptures are inspired and that this doctrine is of basic importance. But how is the doctrine of inspiration to be understood and what does it mean for our Christian faith? Paul Achtemeier shows how recent knowledge of the way the Scriptures were formed raises problems in regard to the traditional understanding of inspiration. In response, he presents possibilities for a new approach to inspiration that is compatible with recent critical discoveries and allows the Bible to continue to play a meaningful role. He deals with liberal and conservative views, specific contradictions in the Bible, and what the Bible says about itself. A perceptive study, *The Inspiration of Scripture* proposes a view of inspiration that makes sense for today and probes its implications for the believer and the believing community.

The Qur'an and its Interpretative Tradition Andrew Rippin.2022-04-19 The position of the Qur'an as the central symbol and reference point of Islam cannot be disputed. Despite this significance, the academic study of the Qur'an has lagged far behind that of the Bible. In these studies Andrew Rippin reflects upon both the principles and the problems of studying the Qur'an within the discipline of religious studies. He also pursues detailed investigations of the meaning of variants to the text and the history of Muslim interpretation of the text in its diversity. A newly written introduction lays out some of the general implications of these studies, while extensive indexes of Qur'anic verses, books, authors and topics make this research more readily accessible.

The Qur'an .2013-09-26 Considered in Islam to be the infallible word of God, The Qur'an was revealed to the prophet Muhammad by the archangel Gabriel in a series of divine revelations over many years after his first vision in the cave. In 114 chapters, or surahs, it provides the rules of conduct that remain fundamental to Muslims today - most importantly the key Islamic values of prayer, fasting, pilgrimage and absolute faith in God, with profound spiritual guidance on matters of kinship, marriage and family, crime and punishment, rituals, food, warfare and charity. Through its pages, a fascinating picture emerges of life in seventh-century Arabia, and from it we can learn much about how people felt about their relationship with God and their belief in the afterlife, as well as attitudes to loyalty, friendship, race, forgiveness and the natural world. It also tells of events and people familiar to Christian and Jewish readers, fellow 'People of the Book' whose stories are recorded in the Gospels and Torah. Here we find Adam, Moses, Abraham, Jesus and John the Baptist, among others, who are regarded, like Muhammad, to be prophets of the Muslim faith.

Al-Kindi's Metaphysics .1974-06-30 Al-Kindi emerges as a philosopher who attempted to present, interpret, and supplement past philosophies as parts of an essentially unified tradition that would make for a viable philosophy in Islamic society. He assumes a place at or near the beginning of a philosophical current—based on transmission of studies from late Greek thought—that remained vital in the Islamic world for several centuries. Alfred L. Ivry presents a reevaluation of al-Kindi's relationships with the powerful group of theologians, Mu'tazilah. The commentary defines and interprets terms used by al-Kindi, identifies original Arabic and Greek sources, and analyzes the most recent critical research related to each allusion. Complete bibliography and index of Aristotelian sources.

Did Muhammad Exist? Robert Spencer.2021-07-13 Is there any sound historical evidence that the prophet of Islam actually existed, or is the entire story of Muhammad fable or fiction? It is a question that few have thought—or dared—to ask. Virtually everyone, Muslim and non-Muslim alike, takes for granted that the prophet of Islam lived as a prophet, as well as a political and military leader, in seventh-century Arabia. But this widely accepted story begins to crumble on close examination. In his blockbuster New York Times bestseller *The Truth about Muhammad*, historian and Islam expert Robert Spencer revealed the often shocking contents of Islamic teachings about Muhammad. Now, in this newly revised and expanded version of *Did Muhammad Exist?*, he lays bare those teachings' surprisingly shaky historical foundations. This updated and enlarged version of this acclaimed book examines even more striking and compelling evidence that the story of Muhammad, who for so long was assumed to have lived in the "full light of history," could be more myth and legend than historical fact. Spencer meticulously examines historical records and archaeological findings, pioneering new scholarship to reconstruct what we can know about Muhammad, the Qur'an, and the early days of Islam. The evidence he presents challenges the most fundamental assumptions about Islam's origins.
