Seams Like Murder Betty Hechtman. 2016-05-03 The national bestselling author of *Knot Guilty* is back, as Molly Pink and the Tarzana Hookers get a dangerous lesson on crafty criminals... Knitting and crocheting books are selling like crazy at the bookstore where Molly works, so to keep the customers coming, she sets up a series of classes where the Tarzana Hookers can pass on their skills to others: a Yarn University. The only problem is the teacher of the most popular seminar—Sheila—is getting a massive case of stage fright about being in front of a crowd. To ease Sheila's nerves, the Hookers plan a practice class at crocheter CeeCee's mansion. But before the lesson begins, Molly and the gang stumble upon a dead body in the apartment above CeeCee's garage. Now, Molly must unravel the clues to find a killer quickly—or school might be out forever... Delicious recipes & crochet patterns included!

Angels on Earth: Mothering, Religion and Spirituality Vanessa Reimer. 2016-08-01 This collection brings together scholarly and creative pieces that reveal how the intellectual, emotional, and physical work of mothering is informed by women's religiosities and spiritualities. Its contributors examine contemporary and historical perspectives on religious and spiritual mothering through interdisciplinary research, feminist life writing, textual analyses, and creative non-fiction work. In contrast to the bulk of feminist scholarship which marginalizes women's religious and spiritual knowledges, this volume explores how such epistemologies fundamentally shape the lived experiences of diverse mothers across the globe. In emphasizing the empowerment and enrichment that women derive from their religious beliefs and spiritual worldviews, *Angels on Earth* invites readers to cultivate a deeper understanding of how mothers are transforming their local communities, religious institutions, and broader spiritual traditions.

Kampa. 2021-12-23 The EU is a major trade partner with India, and economic linkages continue to deepen. India and the EU have increased their political interactions and are crucial partners in promoting sustainable development. Recent trends in India-EU relations show that New Delhi and Brussels are keen to expand their partnership in multiple areas, including sustainable development and natural resources management. This volume takes a unique approach to exploring the efficient management of resources in the era of resource depletion due to climate changes and business expansion, in conjunction with considering the multiple dimensions of India-European Union cooperation. It analyzes regional and global trends in the process of globalization and sustainable development, particularly in the context of natural resource management and resource efficiency. It offers a variety of perspectives through useful and current information in this field, providing a concise and holistic understanding of the issues and challenges faced when exploiting natural resources for sustainable and efficient resource utilization.

Evaluating Transition to School Programs Sue Dockett, Bob Perry. 2021-10-21 Transition to school represents a time of great change for all involved. Many transition to school programs have been developed to support positive transitions to school. While these programs have involved complex planning and implementation, often they have not been evaluated in rigorous or systematic ways. This book brings together Australian and international perspectives on research and practice to explore approaches to evaluating transition to school programs. For children, school is quite different from anything else they have experienced. For families and educators, there are considerable changes as they interact with new people and take on new roles. Developing effective transition to school programs is a key policy initiative around the world, based on recognition of the importance of a positive start to school and the impact of this for future school engagement and outcomes. Throughout the chapters of this book, authors from Australia, Germany, Sweden, Ireland and Jamaica share examples of evaluation practice, with the aim of encouraging educators to reflect on their own contexts and adopt evaluation practices that are relevant and appropriate for them. The book brings together the fields of evaluation research and transition to school. A wide range of examples and figures is used to relate research and practice and to illustrate possible applications of evaluation strategies. *Evaluating Transition to School Programs* highlights the importance of multiple perspectives of the transition to school and offers suggestions about how the perspectives of children, families, educators and community members might be included and analysed in evaluation strategies. Other themes throughout the book include the importance of collaboration, respectful and trusting relationships, practitioner-driven inquiry, strengths-based approaches and developing programs that are responsive to context. This book is written for educators and leaders in early years and primary school settings, and will also be of interest to researchers, students and policy makers in the field.

Your Nine Year Old Louise Bates Ames, Carol Chase Haber. 2012-05-30 What happened to that sunny outgoing child of eight? As parents of nine-year-olds often discover, nine is a tricky age. Children are more distant from Mother and Father; they're more independent and rely on friends for companionship, or they have a tendency to spend time alone. Some nines are boisterous and wild, others thoughtful and withdrawn. Helping parents

learn how to cope with the unpredictable nine-year-old is the aim of this practical guide from the Gesell Institute. Nine-year-olds are hovering on the brink of adolescence, and this in part contributes to their up-and-down nature. Dr. Louis Bates Ames and Carol Chase Haber paint a vivid picture of the child at this age and offer useful advice to make life easier for parents and children alike.

Healing Bodies and Souls W. Daniel Hale,Harold George Koenig.2003 As healthcare leaders widely recognize, churches are second homes to their members and ideally situated-indeed called-to serve their communities with the loving and personal care that a stressed healthcare system cannot deliver. Daniel Hale and Harold Koenig, national leaders in health ministries, offer a practical and engaging primer on developing a variety of initiatives for all who are concerned and interested-pastors, parish nurses, lay leaders, and concerned parishioners. Their short volume mixes real-life congregational case studies with vital information to equip congregants in helping people manage illness, navigate the healthcare labyrinth, avoid or manage disability, and even provide some life-saving and preventative medical services. While their case studies report on the many kinds of engagement congregations have taken on, each chapter also provides basic information on the most common healthcare challenges-diabetes, skin cancer, stroke, heart disease, Alzheimer's, Parkinson's, breast cancer, prostate cancer, glaucoma, and depression-and what can be done in local congregations.

BOOK of MEMORIES Winter Park Presbyterian Church.2013-11-01 As the Winter Park (Florida) Presbyterian Church approached its sixtieth anniversary, several events and activities were considered to appropriately mark the occasion. One of them was this "Book of Memories." It is a compilation of stories contributed by current or former members and friends of the church, as they felt inspired, of their memories of our church since its inception -- an anecdotal view of its history. The cooperation of church members was wonderful! Nearly 100 stories were submitted, ranging in length from three lines to three pages. The project was a work of love and inspiration. There are fourteen subject sections: Buildings and Grounds, Christian Education, Compassion, Mission, Music, Preschool, Youth, Church Life Activities, Groups, Special Projects, Travel and Outings, Hurricanes, Personalities, and Personal Memories. Hundreds of photographs, past and present, are included. One elderly contributor passed away just days after reminiscing with a writer. The church cat, Patches, is discussed. The only surviving church member whose signature appears on the original charter wrote a story. Many references appear to the popular "Living Nativity" that is produced every Christmas season. The many stained-glass windows are described and applauded. And the personality of each writer comes through loud and clear. The reader will experience an enjoyable tour of the past sixty years of this ever-changing but still-thriving Presbyterian church.

Theories of Programming Cliff B. Jones,Jayadev Misra.2021-09-26 Sir Tony Hoare has had an enormous influence on computer science, from the Quicksort algorithm to the science of software development, concurrency and program verification. His contributions have been widely recognised: He was awarded the ACM's Turing Award in 1980, the Kyoto Prize from the Inamori Foundation in 2000, and was knighted for "services to education and computer science" by Queen Elizabeth II of England in 2000. This book presents the essence of his various works—the quest for effective abstractions—both in his own words as well as chapters written by leading experts in the field, including many of his research collaborators. In addition, this volume contains biographical material, his Turing award lecture, the transcript of an interview and some of his seminal papers. Hoare's foundational paper "An Axiomatic Basis for Computer Programming", presented his approach, commonly known as Hoare Logic, for proving the correctness of programs by using logical assertions. Hoare Logic and subsequent developments have formed the basis of a wide variety of software verification efforts. Hoare was instrumental in proposing the Verified Software Initiative, a cooperative international project directed at the scientific challenges of large-scale software verification, encompassing theories, tools and experiments. Tony Hoare's contributions to the theory and practice of concurrent software systems are equally impressive. The process algebra called Communicating Sequential Processes (CSP) has been one of the fundamental paradigms, both as a mathematical theory to reason about concurrent computation as well as the basis for the programming language occam. CSP served as a framework for exploring several ideas in denotational semantics such as powerdomains, as well as notions of abstraction and refinement. It is the basis for a series of industrial-strength tools which have been employed in a wide range of applications. This book also presents Hoare's work in the last few decades. These works include a rigorous approach to specifications in software engineering practice, including procedural and data abstractions, data refinement, and a modular theory of designs. More recently, he has worked with collaborators to develop Unifying Theories of Programming (UTP). Their goal is to identify the common algebraic theories that lie at the core of sequential, concurrent, reactive and cyber-physical computations.

Founding Mothers Cokie Roberts.2014-01-28 Fans of number one New York Times bestselling author and celebrated journalist Cokie Roberts will love this stunning nonfiction picture book based on her acclaimed work for adults, *Founding Mothers*, which highlights the female patriots of the American Revolution. Beautifully illustrated by Caldecott Honor-winning artist Diane Goode, *Founding Mothers: Remembering the Ladies* reveals the incredible accomplishments of the women who orchestrated the American Revolution behind the scenes. Roberts traces the stories of heroic, patriotic women such as Abigail Adams, Martha Washington, Phillis Wheatley, Mercy Otis Warren, Sarah Livingston Jay, and others. Details are gleaned from their letters, private journals, lists, and ledgers. The bravery of these women's courageous acts contributed to the founding of America and spurred the founding fathers to make this a country that "remembered the ladies." This compelling book supports the Common Core State Standards with a rich time line, biographies, an author's note, and additional web resources in the back matter.

Social Work Practice with Families and Children Anthony Maluccio,Barbara Pine,Elizabeth M. Tracy.2002-09-11 This book emphasizes family-centered, social network, and school-based interventions in the preparation of social workers for direct and indirect practice with clients from vulnerable populations, especially the poor, people of color, and recent immigrant groups. With an eye to recent changes in social work practice and service delivery, including the impact of welfare reform and managed care on vulnerable families and children, *Social Work Practice with Families and Children* helps social work students and practitioners understand the increasingly complex needs of their clients. Three valuable appendixes include information about tools and instruments to support practice, child welfare resource centers, and electronic resources pertaining to the field.

Sex Roles Jeanne Burr.1979 This collection of opinion pieces, first published in major American newspapers, examines the dramatic change in personal life-styles and the traditional sex-roles that took place during the 1970s. These changes cut across generations, backgrounds and beliefs, creating a new social structure in the U.S. - for better or worse. Although still evolving, this change has shaken the family as an institution and has been the basis of controversial campaigns for equality. Unintended byproducts of these social changes are soaring divorce rates, declining birth rates, ambiguous relationships, singles and single-parent families, working mothers, homosexuals, equal-rights struggles as well as legal barriers and patterned attitudes-both of traditionalists and reformers. There is little doubt, however, that things will ever be the same again. The focus on an individual's self-realization and right to choose has resulted in the shifting of conventional sex roles which has shocked, angered and amused American society at large. Society now must face how much it can or will change. Editorials included in this volume were selected on a purely representative basis and no attempt was made to present an even point of view.
