**Nonrequired Reading** Wislawa Szymborska.2015-03-10 Unquestionably one of the great living European poets. She's accessible and deeply human and a joy--though it is a dark kind of joy--to read. . . . She is a poet to live with. —Robert Hass, The Washington Post Book World Wislawa Szymborska's poems are admired around the world, and her unsparing vision, tireless wit, and deep sense of humanity are cherished by countless readers. Unknown to most of them, however, Szymborska, winner of the Nobel Prize for Literature, also worked for several decades as a columnist, reviewing a wide variety of books under the unassuming title Nonrequired Reading. As readers of her poems would expect, the short prose pieces collected here are anything but ordinary. Reflecting the author's own eclectic tastes and interests, the pretexts for these ruminations range from books on wallpapering, cooking, gardening, and yoga, to more lofty volumes on opera and world literature. Unpretentious yet incisive, these charming pieces are on a par with Szymborska's finest lyrics, tackling the same large and small questions with a wonderful curiosity.

*Current of Music* Theodor W. Adorno. 2014-10-16 Fleeing the Nazis, Theodor W. Adorno lived in New York City as a refugee from 1938 until 1941. During these years, he was intensively involved in a study of how the recently developed techniques for the nation-wide transmission of music over radio were transforming the perception of music itself. This broad ranging radio research was conceived as nothing less than an investigation, partly empirical, of Walter Benjamin's speculative claims for the emancipatory potential of art in the age of its mechanical reproduction. The results of Adorno's project set him decisively at odds with Benjamin's theses and at the same time became the body of thinking that formed the basis for Adorno's own aesthetics in his *Philosophy of New Music*. *Current of Music* is the title that Adorno himself gave to this research project. For complex reasons, however, Adorno was not able to bring the several thousands of pages of this massive study, most of it written in English, to a final form prior to leaving New York for California, where he would immediately begin work with Max Horkheimer on the *Dialectic of Enlightenment*. Robert Hullot-Kentor, the distinguished Adorno scholar, reconstructed Adorno's project for the Adorno Archive in Germany and provides a lengthy and informative introduction to the fragmentary texts collected in this volume. *Current of Music* will be widely discussed for the light it throws on the development of Adorno's thought, on his complex relationship with Walter Benjamin, but most of all for the important perspectives it provides on questions of popular culture, the music of industrial entertainment, the history of radio and the social dimensions of the reproduction of art.

*Cetacean Paleobiology* Felix G. Marx, Olivier Lambert, Mark D. Uhen. 2016-03-29 Cetaceans (whales, dolphins, and porpoises) have fascinated and bewildered humans throughout history. Their mammalian affinities have been long recognized, but exactly which group of terrestrial mammals they descend from has, until recently, remained in the dark. Recent decades have produced a flurry of new fossil cetaceans, extending their fossil history to over 50 million years ago. Along with new insights from genetics and developmental studies, these discoveries have helped to clarify the place of cetaceans among mammals, and enriched our understanding of their unique adaptations for feeding, locomotion and sensory systems. Their continuously improving fossil record and successive transformation into highly specialized marine mammals have made cetaceans a textbook case of evolution - as iconic in its own way as the origin of birds from dinosaurs. This book aims to summarize our current understanding of cetacean evolution for the serious student and interested amateur using photographs, drawings, charts and illustrations.

**Stone in a Landslide** Maria Barbal. 2011-11-01 The Catalan modern classic, first published in 1985, now in its 50th edition, for the first time in English. The beginning of the 20th century: 13-year-old Conxa leaves her home village in the Pyrenees to work for her childless aunt. After years of hardship she finds love with Jaume - a love that will be thwarted by the Spanish Civil War. Approaching her own death, Conxa looks back on a life in which she has lost everything except her own indomitable spirit. Why Peirene chose to publish this book: 'I fell in love with Conxa's narrative voice,

its stoic calmness and the complete lack of anger and bitterness. It's a timeless voice, down to earth and full of human contradictory nuances. It's the expression of someone who searches for understanding in a changing world but senses that ultimately there may be no such thing.' Meike Ziervogel 'Sparse and haunting.' Katy Guest, Independent 'The compression is so deft, the young narrator's voice so strong, so particular, her straightforward evocation of the hard labour and rare pleasures of mountain life . . . so vibrant, that it makes me want to take scissors to everything else I read.' Richard Lea, Guardian 'A Pyrenean life told in a quietly effective voice.' Daniel Hahn, Independent 'There is an understated power in Barbal's depiction of how the forces of history can shape the life of the powerless.' Adrian Turpin, Financial Times 'A masterpiece of world literature and a shining example of the virtuosity of elegant and concise prose.' Pam Norfolk, Lancashire Evening Post 'Air-tight believability.' Matthew Tree, Times Literary Supplement INDEPENDENT BOOKS OF THE YEAR 2010 FOYLES BOOKS OF THE YEAR 2010

Amid the family stories and portraits by friends, she dares to give voice to their never-mentioned experiences in the Holocaust and their escape from Hungary during the uprising of 1956.

**!Scat** Wil Perkins.1997 In this debut collection, Wil Perkins has created a new poetics, star-spangled by the improvisational essence of jazz, the heartfelt essence of the blues and gospels, as well as mystical riffs for the moonish sundance of life. These poems, crafted in the experimental tradition of John Coltrane and e.e. cummings, are a sculptural feast for the eyes, irreverent music for the soul, and serious songs to hail the coming millennium.

**White Fever** Jacek Hugo-Bader.2012-10-02 No one in their right mind travels across Siberia in the middle of winter in a modified Russian jeep, with only a CD player (which breaks on the first day) for company. But Jacek Hugo-Bader is no ordinary traveler. As a fiftieth birthday present to himself, Jacek Hugo-Bader sets out to drive from Moscow to Vladivostok, traversing a continent that is two and a half times bigger than America, awash with bandits, and not always fully equipped with roads. But if his mission sounds deranged it is in keeping with the land he is visiting. For Siberia is slowly dying — or, more accurately, killing itself. This is a traumatized post-Communist landscape peopled by the homeless and the hopeless: alcoholism is endemic, as are suicides, murders, and deaths from AIDS. As he gets to know these communities and speaks to the people, Hugo-Bader discovers a great deal of tragedy, but also dark humor to be shared amongst the reindeer shepherds, the former hippies, the modern-day rappers, the homeless and the sick, the shamans, and the followers of 'one of the six Russian Christs,' just one of the many arcane religions that flourish in this isolated, impossible region.

**Classroom Communication and Instructional Processes** Barbara Mae Gayle,Raymond W. Preiss,Nancy Burrell,Mike Allen.2009-03-04 This

volume offers a systematic review of the literature on communication education and instruction. Making meta-analysis findings accessible and relevant, the editors of this volume approach the topic from the perspective that meta-analysis serves as a useful tool for summarizing experiments and for determining how and why specific teaching and learning experiences have positive student outcomes. The topics covered here are meaningful and relevant to classroom practice, and each chapter offers a summary of existing quantitative social science research using meta-analysis. With contributions from experienced researchers throughout the communication discipline, this work provides a unique analysis of research in instructional communication. Taken together, the chapters in this volume enhance understanding of behaviors, practices, and processes that promote positive student outcomes. This book is a must-read for scholars, graduate students, and researchers in communication education, and will also be of interest to scholars and researchers in education.

**Radio** John Mowitt.2011-12-07 In a wide-ranging, cross-cultural, and transhistorical assessment, John Mowitt examines radio's central place in the history of twentieth-century critical theory. A communication apparatus that was a founding technology of twentieth-century mass culture, radio drew the attention of theoretical and philosophical writers such as Jean-Paul Sartre, Walter Benjamin, Jacques Lacan, and Frantz Fanon, who used it as a means to disseminate their ideas. For others, such as Martin Heidegger, Theodor Adorno, and Raymond Williams, radio served as an object of urgent reflection. Mowitt considers how the radio came to matter, especially politically, to phenomenology, existentialism, Hegelian Marxism, anticolonialism, psychoanalysis, and cultural studies. The first systematic examination of the relationship between philosophy and radio, this provocative work also offers a fresh perspective on the role this technology plays today.

*Lovetown* Michal Witkowski.2011-04-07 Growing up queer in a Communist state, queens Patricia and Lucretia spent the '70s and '80s underground, finding glamour in the squalor, strutting their stuff in parks and public toilets, seducing hard Soviet soldiers, preying on drunks and seeing their friends die of Aids. Today they're about to hit Lovetown, a homo-haven, populated by a younger generation of emancipated gays, who are out and proud in their post-Communist paradise: suntanned, sculpted and vigorously spending the pink euro.This is the story of the clash between old and new gays - the clapped out queens and the flashy fags - as they meet in a place where anything goes, but some things have also been lost.

*Do Greater Things* Robby Dawkins.2017-12-19 How to Heal the Sick, Cast Out Demons, Raise the Dead--and More! The Bible says that if you belong to Jesus, you have the power to: · heal the sick · cast out demons · bring deliverance to those trapped in spiritual darkness · prophesy in his name · call forth creative miracles · receive supernatural words of wisdom and knowledge · even raise the dead So why do so many Christians live powerless lives? Why do they operate with so little faith? Having gone through his own journey from doubt to belief, Chicagoland pastor Robby Dawkins now ministers and speaks internationally, and where he goes, miracles happen. In these pages he shares incredible stories of God using ordinary people to do the impossible. And he shows that, when you begin to have faith in the power of God, take him at his Word, and understand his love for you, you will see his power released in healings, financial blessings, and miracles of all kinds.

**White-Collar Government** Nicholas Carnes.2013-11-05 Eight of the last twelve presidents were millionaires when they took office. Millionaires have a majority on the Supreme Court, and they also make up majorities in Congress, where a background in business or law is the norm and the average member has spent less than two percent of his or her adult life in a working-class job. Why is it that most politicians in America are so much better off than the people who elect them— and does the social class divide between citizens and their representatives matter? With *White-Collar Government*, Nicholas Carnes answers this question with a resounding—and disturbing—yes. Legislators' socioeconomic backgrounds, he shows, have a profound impact on both how they view the issues and the choices they make in office. Scant representation from among the working class almost guarantees that the policymaking process will be skewed toward outcomes that favor the upper class. It matters that the wealthiest Americans set the tax rates for the wealthy, that white-collar professionals choose the minimum wage for blue-collar workers, and that people who have always had health insurance decide whether or not to help those without. And while there is no one cause for this crisis of representation, Carnes shows that the problem does not stem from a lack of qualified candidates from among the working class. The solution, he argues, must involve a variety of changes, from the equalization of campaign funding to a shift in the types of candidates the parties support. If we want a government for the people, we have to start working toward a government that is truly by the people. *White-Collar Government* challenges long-held notions about the causes of political inequality in the United States and speaks to enduring questions about representation and political accountability.
