Of Reels, Romance and Retakes Sanjoy Patnaik.2023-08-24 Of Reels, Romance and Retakes carries the reader on a fascinating journey into the genesis, evolution and reception of Odia cinema. Telling the story of its quiet emergence in 1936, the book goes on to chronicle its unexpected triumphs in the coming decades when cinema arose as an undisputed cultural form of both the middle class and the masses. The account the book gives of how Odia cinema, aesthetically intertwined with the indigenous folk and literary tradition, carried forward both the project of modernity and Odia cultural identity is particularly illuminating and instructive. At the same time it takes an introspective look at the crisis Odia cinema faces now, sandwiched as it is between two competing social trends - one following the route to Hindi as the chief language of entertainment and the other that is focused on regional cultural assertion as a key to commercial success. On the whole, it is a timely and much awaited book that seeks to construct the hitherto uncharted 'social narratives' of cinema in Odisha.

Governing Environment Sanjay Sharma.2016-04-26 This book comparatively analyses the federal policies and financing of India and Canada. It examines whether federalism as a system of governance is better suited to deal with environmental questions. It operates from the assumption that federalism can provide an effective solution to the emerging concerns of the environment because it essentially provides a model of disaggregated governance without any extensive and intrusive mark of hierarchy. It presents a uniquely exploration of environmental governance from this hitherto under-researched perspective, and simultaneously, in order to provide a better conceptual understanding, examines the different theories of federalism and modes of distribution of powers, authorities and functions. Given their symmetrical federal experiences, India and Canada naturally qualify as the domain of study, with both being known as twin federal nations. Issues of environment have been factorised and classified according to their critical significance in terms of policy choices. The combinatorial structure has been evaluated in terms of better federal management of environment. In the process, many new dimensions of federalism and environment have emerged, which may contribute to the critical mass of knowledge on the subject. This book makes a departure from the general mono-construction of the environment as a restricted unit of knowledge available only to a specialist. Broadly following an interdisciplinary logic of formation of idea, this study is highly relevant in generating a new perspective on environmental research. It defines environment as a system which requires careful redrafting and reworking of three structures of relationships, namely between man and environment, between resource community and the state, and between inter-governmental contestations.

Students of every stream of Management under the BBA and MBA (Consumer behaviour, Marketing, Human Resources, Finance, Product Development, Production, and Logistics) need to know what CSR is and what role it plays in the corporations. Recovering from Earthquakes Shirish Patel,Aromar Revi.2012-07-26 Earthquakes come without warning, and often cause massive devastation, resulting not only in the loss of property but also of lives. Many of the survivors suffer from intense and lasting psychological trauma. This book covers the experience of recent earthquakes in India, and what has been learnt (and what we have failed to learn) in the process of managing the aftermath in each case. This includes immediate medical attention, long-term mental health care, and the reconstruction of housing and infrastructure in both rural and urban areas. The experiences of the contributors, many of whom have actively contributed their expertise to disaster management and recovery, help us understand what problems require a swift response and which aspects should be based on detailed analyses keeping in mind local conditions. Reconstruction is seen as offering an opportunity to rebuild society such that all sections of the population are empowered and brought into the community's decision-making process. It is also an opportunity to develop construction techniques that are suited to local materials and skills but are also more earthquake-resistant than the old. And finally, there is the realisation that the best first responders are local community groups which need to be nurtured, and trained in crisis management and risk mitigation.

Communal Violence, Forced Migration and the State Sanjeevini Badigar Lokhande. 2016-10-13 When violence occurs in democracies it is often characterized as an aberration. The state that saw human rights violations and failure of law and order in Gujarat in 2002 emerged, even if by its own admission, as a model for good governance. Communal Violence, Forced Migration and the State, through an account of displaced Muslims, challenges this notion. Through the unlikely yet probing lens of displacement, it offers fresh insight into communal violence and is an important resource for the emerging domain of forced migration and the changing nature of the state in a globalized world.

MANAGEMENT OF RISKS UNDER THE COMPANIES ACT, 2013 Ram K Narayan. 2020-10-10 The Hon. Minister of Finance and Corporate Affairs introduced on 6th March 2020 in the Lok Sabha, the Companies (Amendment) Act, 2020 {Bill No.88 of 2020}. In the statement of Objects and Reasons for introducing the Bill, she stated, inter alia that as part of the constant endeavor of the Government to facilitate greater ease of living to law abiding corporates certain provisions of the Act are proposed to be decriminalized to provide further ease of living for corporates in the country. Several provisions of the Act related to defaults which lacked any element of fraud or do not involve larger public interest were decriminalized. Yet the continuing "less serious punishments" are serious enough for the Directors to be complacent. There are still 26 sections providing for punishment under section 447 as Cognizable Offence; 20 sections attracting Imprisonment and Fine; 8 sections imposing Imprisonment or Fine or Both; and 1 section providing for Imprisonment or Fine. This book can guide those Directors who have less knowledge on the compliance requirements under the Act, its rules and secretarial procedures. It is believed that this handbook shall enthruse them to adopt personal risk mitigation measures such as good reading of the agenda papers, seek additional information from companies to prepare and effectively participate at the meetings and where considered appropriate obtain expert independent advice. The book will also be of value to the whole-time directors and officers of the company, candidates preparing for on-line proficiency test for registration of Data Bank of Independent Directors, company secretaries whether in service or in practice, CFOs, practicing chartered accountants while conducting audit of companies, lawyers, offices of the Ministry of Corporate Affairs such as Registrar of Companies, Regional Directors, students and teachers of company law in Institutions etc. The book highlights punishments under the following categories: (1) For Fraud under Section 447: {Cognizable Offences}. Equally, new avenues and instruments of investment keep arising and old ones setting on the horizons of the wonderland of investment. The bestselling book is packed with a wealth of investment information and guidance about the various investment avenues, their risks and profitability, and their tax implications. Not just that. Based on their 40-plus years of investment advisory expertise, the authors offer those rare insights that will truly help you invest your money most profitably.
