**Geometry of the Passions** Remo Bodei.2018-08-08 The passions have long been condemned as a creator of disturbance and purveyor of the temporary loss of reason, but as Remo Bodei argues in *Geometry of the Passions*, we must abandon the perception that order and disorder are in a constant state of collision. By means of a theoretical and historical analysis, Bodei interprets the relationship between passion and reason as a conflict between two complementary logics. *Geometry of the Passions* investigates the paradoxical conflict-collaboration between passions and reason, and between individual and political projects. Tracing the roles passion and reason have played throughout history, including in the political agendas of Descartes, Hobbes, and the French Jacobins, *Geometry of the Passions* reveals how passion and reason may be used as a vehicle for affirmation rather than self-enslavement.

*A Question of the Water and of the Land* Dante Alighieri.1897

*The Myth of Ritual Murder* R. Po-chia Hsia.1988-01-01 From the mid-fifteenth century to the early seventeenth, German Jews were persecuted and tried for the alleged ritual murders of Christian children, whose blood purportedly played a crucial part in Jewish magical rites. In this engrossing book R. Po-Chia Hsia traces the rise and decline of ritual murder trials during that period. Using sources ranging from Christian and Kabbalistic treatises to judicial records and popular pamphlets, Hsia examines the religious sources of the idea of child sacrifice and blood symbolism and reconstructs the political context of ritual murder trials against the Jews. This volume combines clarity of thinking, elegance of style, and exemplary scholarly attention to detail with intellectual sobriety and human compassion.--Jerome Friedman, *Sixteenth Century Journal* Hsia has... succeeded in turning established knowledge to illuminatingly new purposes.--G.R. Elton, *New York Review of Books* This meticulously researched and unusually perceptive book is social and intellectual history at its best.--Library Journal A fresh perspective on an old problem by a major new talent.--Steven Ozment, *Harvard University* R. Po-chia Hsia, professor of history at the University of Massachusetts, Amherst, is also the author of *Society and Religion in Münster, 1535-1618*

*The Adventures of Sherlock Holmes* Arthur Conan Doyle.2016-11-01 In general the stories in *The Adventures of Sherlock Holmes* identify, and try to correct, social injustices. Holmes is portrayed as offering a new, fairer sense of justice. The stories were well received, and boosted the subscriptions figures of *The Strand Magazine*, prompting Doyle to be able to demand more money for his next set of stories. The first story, *A Scandal in Bohemia*, includes the character of Irene Adler, who, despite being featured only within this one story by Doyle, is a prominent character in modern Sherlock Holmes adaptations, generally as a love interest for Holmes. Doyle included four of the twelve stories from this collection in his twelve favourite Sherlock Holmes stories, picking *The Adventure of the Speckled Band* as his overall favourite.

*Birth and Death of the Housewife* Paola Masino.2010-07-02 Stepping out of her beloved trunk full of bread crumbs, dust, spider webs, books, and

ragged funeral ornaments, the young protagonist of Paola Masino's most controversial novel realizes that her fate is already sealed. She will have to conform to society's expectations of a woman: her wild imagination will have to be controlled, her intelligence kept at bay. In short, she will have to become a Housewife. Subject to Fascist censorship before its first publication in 1945, *Birth and Death of the Housewife* offers a surrealist criticism of Fascism and the rigid notion of womanhood it promoted. In her depiction of a woman's struggle to play a role that simply does not correspond to her desires, Masino expresses a frustration and a rebellious instinct rarely found among her contemporaries. Defying interpretations and standing alone among the heroines of twentieth-century Italian literature, Masino's *Housewife* remains an uncomfortable, enigmatic figure whose impudent determination to challenge the bulwarks of traditional female roles reaches beyond historical boundaries and resonates powerfully with contemporary readers.

Agenda-setting Dynamics in Canada Stuart Neil Soroka.2002 Why do public issues like the environment rise and fall in importance over time? To what extent can the trends in salience be explained by real-world factors? To what degree are they the product of interactions between media content, public opinion, and policymaking? This book surveys the development of eight issues in Canada over a decade -- AIDS, crime, the debt/deficit, the environment, inflation, national unity, taxes, and unemployment -- to explore how the salience of issues changes over time, and to examine why these changes are important to our understanding of everyday politics. *Agenda-Setting Dynamics in Canada* offers one of the first empirical analyses of the interaction of the media, the public, and policymakers in Canada and, more generally, makes an important contribution to the study of political communications and policymaking well beyond the Canadian context.

Meanings of Violence Jon Abbink,Göran Aijmer.2020-08-20 There are good reasons to look at violence from new perspectives. In its endless manifestations violence is part and parcel of human existence, and is very probably a constituting element of human society. And yet violent action - warfare, penalties, insults, feuding, assault, murder, rape, suicide, sports - remains in all its complexity one of the least understood fields of human social life. The book's contributors identify the symbolic and ritualized aspects of violence, and suggest ways of 'reading' violence as it occurs in the world, whether as violent duelling and age-group violence in Southern Ethiopia, bullfighting in Iberia, cattle rustling in Kenya, guerrilla and militia wars in Colombia, or public executions in China. These case studies suggest that 'violence' is not a simple, universal urge, but is contingent and context-dependent, shaped by social relations of power, force and dominance. To be the victim of violence is a humiliating and frightening experience. But the many ambiguities that occur in the use of violence must be considered, to understand why peace seems only to exist as a contrast to the violation of peace.

Emotional Communities in the Early Middle Ages Barbara H. Rosenwein.2006 This highly original book is both a study of emotional discourse in the Early Middle Ages and a contribution to the debates among historians and social scientists about the nature of human emotions.

**I centri minori italiani nel tardo Medioevo** Centro di studi sulla civiltà del tardo medioevo (San Miniato, Italy). Convegno.2018-01-01 In the late Middle Ages, Italy was one of the most urbanized areas in Europe. Its coasts, the Apennines, the perialpine area and the plains were all home to a large number of smaller towns, lands, villages, castra, and 'quasi cites'. These settlements were all very diverse in terms of demographic consistency, social articulation and economic dynamism, but together they constituted a characteristic and constitutive element of the Italian historical identity: an 'original personality'. This volume, thanks to some framing essays and a mapping of individual cases involving most of the northern, central and southern regions, aims at investigating the active research on this topic over the last thirty to forty years.

**The Battle for Public Opinion** Gladys Engel Lang, Kurt Lang.2020-01-29

**A History of the Inquisition** Henry Charles Lea.2022-12-10 A History of the Inquisition of the Middle Ages in three volumes is a groundbreaking work on the subject of Inquisition, written by Henry Charles Lea, one of the main authorities on the subject. His goal was to present an impartial account of the institution as it existed during the earlier period. In order to accurately appreciate the process of its development and the results of its activity the author takes in consideration the factors controlling the minds and souls of men during these times. He recapitulates nearly all the spiritual and intellectual movements of the Middle Ages, glancing at the condition of society in certain of its phases. Beginning with the state of church in 12th and 13th century, the study includes various forms of heresy emerging throughout the European continent from Spain and France west, to Slavic countries in Eastern Europe. Lea particularly deals with various fields of inquisitorial activity, notably its utilization in political purposes. Though his study of the Inquisition was criticized for anti-Spanish bias, it is thoroughly researched and contains interesting details surrounding this notorious institution.

*The Port Jews of Habsburg Trieste: Absolutist Politics and Enlightenment Culture* Lois C. Dubin.2023-10-03 Winner of the 2000 Barbara Jelavich Prize in Habsburg, Russian or Ottoman history (American Association for the Advancement of Slavic Studies) and finalist in the 1999 National Jewish Book Awards, History category. "Dubin's brilliant study of the cosmopolitan entrepôt of goods and peoples that was Trieste breaks new ground in our understanding of Jewish life in the Old Regime Europe. It demonstrates with exacting detail the extensive privileges such 'port Jews' enjoyed and the effect enlightened absolutism and emancipation politics exercised upon them, while skillfully portraying the Jews' political and cultural responses. It is a classic study in modern Jewish history." — David Sorkin, University of Wisconsin, Madison "Lois C. Dubin has produced a solid and original

monograph that explores the economic, legal, political, and cultural changes experienced by Trieste's Jewish community within the context of the reform policy of the Austrian enlightened absolutists and Enlightenment ideology... Dubin has written an outstanding work on Trieste's Jews... a very valuable study that I recommend to any reader interested in Jewish and Habsburg history, as well as the Enlightenment." — The American Historical Review "A valuable and carefully researched book... Dubin's book is an important contribution not only to the study of Habsburg Jewry but also to our understanding of eighteenth-century absolutism." — The Journal of Modern History "The book is replete with keen insights into the experiences of European Jews during the initial phases of the transition from the world of corporate orders to modern class society... Dubin's discussion of the dynamics of Haskalah in Trieste is a sophisticated and nuanced analysis of one of the crucial chapters in the modernization of European Jewry." — Journal of Urban History "With this superb book, Lois C. Dubin has successfully and elegantly slain the two-headed dragon of modern Jewish historiography: nationalism and Germanocentrism. She has also provided Habsburg historians with a much-needed treatment of the complex interaction between state-building, reforming absolutism and the Jews, one of several significant 'national minorities' within the heterogeneous empire... The essential economic role played by Triestine Jewry once Charles VI declared Trieste a free port in 1719 made them indispensable to the Habsburg state. This indispensability itself is a critical marker in the shift between medieval and early modern Jewish history. What had been a liability, Jewish predominance in middle-class professions, particularly in trade, became an asset with the rise of mercantilism and a state-centralized economy. Coupled with the distinctive culture of Italian Jews, toleration shaped the ways in which Triestine Jews responded to Josephinian reforms, the Jewish Enlightenment in Berlin, challenges to Jewish marriage and divorce law, educational changes, and the dissolution of the ghetto, all of which Dubin explores with nuance and clarity... The Port Jews of Habsburg Trieste employs source material in all the essential languages, German, Hebrew and Italian, and Dubin is equally at home analyzing Viennese and Triestine archival material and rare Hebrew periodical literature published in Vienna and Berlin. Her assured use of such diverse materials is also welcome because it restores historical agency to the Jewish population which is at the center of her study... The Port Jews of Habsburg Trieste will undoubtedly remain the classic treatment of this fascinating city and of Habsburg state-building in one of its most important ports." — Nancy Sinkoff, H-Net "Dubin has made here an important contribution that belongs in every library that addresses Judaism and the modern world." — German Studies Review "Un travail magistral." — Annales: Histoire, Sciences Sociales

Steinbeck in Vietnam John Steinbeck. 2012-03-29 Although his career continued for almost three decades after the 1939 publication of *The Grapes of Wrath*, John Steinbeck is still most closely associated with his Depression-era works of social struggle. But from Pearl Harbor on, he often wrote passionate accounts of America's wars based on his own firsthand experience. Vietnam was no exception. Thomas E. Barden's *Steinbeck in Vietnam* offers for the first time a complete collection of the dispatches Steinbeck wrote as a war correspondent for *Newsday*. Rejected by the military because of his reputation as a subversive, and reticent to document the war officially for the Johnson administration, Steinbeck saw in *Newsday* a unique opportunity to put his skills to use. Between December 1966 and May 1967, the sixty-four-year-old Steinbeck toured the major combat areas of South Vietnam and traveled to the north of Thailand and into Laos, documenting his experiences in a series of columns titled *Letters to Alicia*, in reference to *Newsday* publisher Harry F. Guggenheim's deceased wife. His columns were controversial, coming at a time when opposition to the conflict was growing and even ardent supporters were beginning to question its course. As he dared to go into the field, rode in helicopter gunships, and even fired artillery pieces, many detractors called him a warmonger and worse. Readers today might be surprised that the celebrated author would risk his literary reputation to document such a divisive war, particularly at the end of his career. Drawing on four primary-source archives—the Steinbeck collection at Princeton, the Papers of Harry F. Guggenheim at the Library of Congress, the Pierpont Morgan Library's Steinbeck holdings,

and the archives of *Newsday*—Barden's collection brings together the last published writings of this American author of enduring national and international stature. In addition to offering a definitive edition of these essays, Barden includes extensive notes as well as an introduction that provides background on the essays themselves, the military situation, the social context of the 1960s, and Steinbeck's personal and political attitudes at the time.

**The Individual Without Passions** Elena Pulcini.2012 The innovative characteristic of the book lies in its tackling an extremely timely and important issue--mainly individualism--from the original point of view of a theory of passions. It underlines the importance of the problem of the passions both in forming individual identity and in building the social bond. Drawing inspiration from classic authors who represent fundamental milestones along the route of modern individualism (from Montaigne to Hobbes, from Locke to Smith, from Rousseau to Tocqueville etc.), it puts forward new hypotheses that contrast with the consolidated views of contemporary reflection, both modern and postmodern. The main argument is that passions are crucial not only when they are strong (*homo oeconomicus*), but also when absent or weak (*homo democraticus*), in both cases producing pathological effects on the Self and the social bond. Finally, the book underlines, in a normative perspective, that the image of the modern individual does not end with the egoistical passions and that it is possible to reactivate empathetic and solidaristic passions; furthermore, it proposes the hypothesis that the (solidaristic) passions go to fight the (egoistical) passions. This is most evident in the phenomenon of the gift (as interpreted by Marcel Mauss and his contemporary heirs), the hidden testimony of a desire for belonging that enables one to think of a new figure of the individual: *homo reciprocus*.

Fathers, Pastors and Kings Alison Forrestal.2013-07-19 This electronic version has been made available under a Creative Commons (BY-NC-ND) open access license. This book explores how conceptions of episcopacy (government of a church by bishops) shaped the identity of the bishops of France in the wake of the reforming Council of Trent (1545–63). It demonstrates how the episcopate, initially demoralised by the Wars of Religion, developed a powerful ideology of privilege, leadership and pastorate that enabled it to become a flourishing participant in the religious, political and social life of the *ancien regime*. The book analyses the attitudes of Tridentine bishops towards their office by considering the French episcopate as a recognisable caste, possessing a variety of theological and political principles that allowed it to dominate the French church.

Emotions Keith Oatley.2008-05-12 *Emotions: A Brief History* investigates the history of emotions across cultures as well as the evolutionary history of emotions and of emotional development across an individual's life span. In clear and accessible language, Keith Oatley examines key topics such as emotional intelligence, emotion and the brain, and emotional disorders. Throughout, he interweaves three themes: the changes that emotions have undergone from the past to the present, the extent to which we are able to control our emotions, and the ways in which emotions help us discern the deeper layers of ourselves and our relationships.

*From the Indian Ocean to the Mediterranean* Sebouh David Aslanian.2011-05-04 Sebouh David Aslanian draws upon an unrivaled body of original documentation, collected in seven languages from twenty-five archives, to reconstruct in great detail the logic and working of a global commercial network. He poses a series of fundamental questions concerning the Julfan network and critically assesses both the received literature and the very documentation on which he grounds his revisionist study, making this a valuable contribution to comparative economic history. Edward Alpers, author of *East Africa and the Indian Ocean* *From the Indian Ocean to the Mediterranean* is without question an exceptionally interesting, well-researched, and original study. The work is the product of lengthy and determined exploratory archival research whose global reach reflects the far-flung trading network of Aslanian's subject. Compared to previous work on the Julfa Armenians (or the trade of the Safavid Empire in general), it is

on an altogether higher level of theoretical sophistication. Edmund Herzig, editor of *Iran and the World in the Safavid Age*

**Transurethral Resection** John P. Blandy, John M. Reynard, Richard Notley. 2004-11-29 Transurethral resection (TUR) is today the 'gold standard' against which new methods must be compared in the treatment of BPH and other bladder malignancies. Covering the entire subject of transurethral resection, this fourth edition now includes chapters on the use of lasers as well as the medical-legal aspects associated with TUR. Blandy a [A Theory of Feelings](#) Agnes Heller. 2009-02-16 *A Theory of Feelings* examines the problem of human feelings, widely understood, from phenomenological, analytical, and historical perspectives. It begins with an analysis of drives and affects, and pursues the nature of 'feeling' itself, in all of its variability, through a close study of the distinctive categories of the emotions, emotional dispositions, orientive feelings, and the passions. The book will be of interest to anyone interested in philosophy, psychology, sociology, and cognitive science.

*Emotion* Dylan Evans. 2019-09-26 Was love invented by European poets in the Middle Ages or is it part of human nature? Will winning the lottery really make you happy? Is it possible to build robots that have feelings? In this Very Short Introduction Dylan Evans explores these and many other intriguing questions in this guide to the latest thinking about the emotions. Drawing on a wide range of scientific research, from anthropology and psychology to neuroscience and artificial intelligence, Evans takes the reader on a fascinating journey into the human heart, discussing the evolution of emotions and their biological basis, the science of happiness, and the role that emotions play in memory and decision making. Greeted by critics as a pop science classic when it was first published in 2001, the book has now been thoroughly revised and updated to incorporate new developments in our understanding of emotions, including new sections addressing the neural basis of empathy and the emotional impact of films. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

[The Political and Social Vocabulary of John the Deacon's 'Istoria Veneticorum'](#) Luigi Andrea Bertò. 2013 *The Istoria Veneticorum*, a chronicle attributed to John the Deacon, chaplain and ambassador of the Venetian Duke Peter Orseolo II (991-1008), is of fundamental importance for the reconstruction of early medieval Venetian history. In addition to being the only historical narrative of that period, it covers the entire early Middle Ages, from the invasion of the Lombards in 569, an action that forced a part of the Veneto's population to seek refuge on the islands of the Venetian lagoon, to the beginning of the eleventh century. Its importance is further emphasized by the limited number of the surviving early medieval Venetian sources. Bertò's study of the political and social vocabulary of this work analyses the chronicler's use and contextualization of key words and provides the reader with an enhanced understanding of the *Istoria Veneticorum*. The attentive and skilful use of terminology by the chronicler confirms that the author was, in all likelihood, a member of the Orseolo entourage, that he was acquainted with the art of diplomacy, and that he was, in fact, John the Deacon. Furthermore, he did not limit himself to a mere recording of dates and events; rather, by a careful use of terminology—probably in order to avoid reopening recent wounds—he was able to express his opinions about the dukes who had ruled his country.

**The Likeness of Venice** Dennis Romano. 2007 Immortalized in later centuries in works by Lord Byron, Giuseppe Verdi, Eugène Delacroix, and others, Francesco Foscari reigned as the powerful doge of Venice during tumultuous years from 1423 to 1457. The stuff of legends, his life was marked by political conflict, vengeful enemies, family heartbreak, and, at the end, the forced relinquishment of the ducal throne. Yet Foscari left behind no personal papers, and until now, no complete biography of him has been written. This book, a thorough and fascinating biography, fills that longstanding gap, illuminating not only the life of the man but also the history and culture of fifteenth-century Venice. Dennis Romano reconstructs Foscari's life through careful reading of extant governmental records and chronicle sources. He also uses architectural monuments built by Foscari

and his heirs as critical interpretive keys for unlocking the personality and policies of the doge. Romano analyzes how art and power intersected in Renaissance Italy and how the doge came to represent and even embody the state. With this biography, Romano clears away longstanding myths, fills in previously unknown details about Foscari's triumphs and ordeals, and allows to emerge the first intimate portrait of this singular doge.

Postcolonial Italy Cristina Lombardi-Diop.2012-12-06 This volume constitutes a multidisciplinary intervention into the emerging field of postcolonial studies in Italy, bringing together cultural and social history, critical and political theory, literary and cinematic analyses, ethnomusicology and cultural studies, anthropological fieldwork, and race, gender, diaspora, and urban studies.

**Women & Music** Karin Pendle.2001-04-22 The second edition of the "milestone" work of history that focuses on female musicians through the ages (College Music Symposium). This updated, expanded, and reorganized edition of Women and Music features even more women composers, performers, and patrons, even more musical contexts, and an expanded view of women in music outside Europe and North America. A popular university textbook, Women and Music is enlightening for scholars, a good source of programming ideas for performers, and a pleasure for other music lovers.

**Renaissance Miniature Painters & Classical Imagery** Lilian Armstrong.1981 This book is a contribution to our understanding of Renaissance art in Northern Italy. It is principally concerned with the work of two unnamed miniature painters active in Venice in the 1470s and 1480s, a time of transition from manuscript illumination to the decoration of printed books in the classicizing style of the Renaissance.

**Tokyo** Hidenobu Jinnai.2023-12-22 Tokyo: destroyed by the earthquake of 1923 and again by the firebombing of World War II. Does anything remain of the old city? The internationally known Japanese architectural historian Jinnai Hidenobu set out on foot to rediscover the city of Tokyo. Armed with old maps, he wandered through back alleys and lanes, trying to experience the city's space as it had been lived by earlier residents. He found that, despite an almost completely new cityscape, present-day inhabitants divide Tokyo's space in much the same way that their ancestors did two hundred years before. Jinnai's holistic perspective is enhanced by his detailing of how natural, topographical features were incorporated into the layout of the city. A variety of visual documents (maps from the Tokugawa and Meiji periods, building floorplans, woodblock prints, photographs) supplement his observations. While an important work for architects and historians, this unusual book will also attract armchair travelers and anyone interested in the symbolic uses of space. (A translation of Tokyo no kûkan jinruigaku.)
